PORT ESSINGTON SUFFERED FROM DISASTROUS FIRE

NEW ENGLAND FISH COMPANY WAS BURNED OUT

The Public Accounts Report Shows Satisfactory State

Port Essington Was Visited By Conflagration Which Wiped Out Homes

Port Essington, May 29.—A serious fire occurred here this afternoon in the southwest end of the town. The Salvation Army barracks; the Government boat shed; T. M .Orwig's residence and boatshed; and the residences of J. McPherson, Jack Larsen, Geo Church, Tom Hanson, Geo Huestion and Andrew Spalding were wiped out.

The steamer Inlander, which has been lying on the ways, was in great danger for a time, but the wind fortunately changed carrying the fire into the timber which is still burning.

The residents responded promptly and put up a hard fight to check the flames, but owing to the continued dry weather it was impossible to make any headway. Fortunately the wind was blowing down river, otherwise the whole town might have been destroyed.

The fire originated in Geo Church's residence about 3:45 p. m. in the afternoon. The cause of the fire is unknown.

TWO GOOD SIZED CATCHES OF HALIBUT BROUGHT IN

The Skugaid Had 50,000 And The Seymour 48,000.

There was quite a quantity of halibut brought into port on Sunday. H. O. Roberts, of the San Juan Company, bought about a carload, the remainder going to the Cold Storage.

Last evening the Skugaid, of the Cold Storage, brought in 50,000 pounds, while the Seymour came in with 48,000. The price has been from 7 1-2 to 7 5-8 for the last few days.

A WEEK OF FIRST CLASS PICTURE ATTRACTIONS

Last Evening Charlie Chaplin Girls Held The Stage.

The Westholme Theatre was packed to the doors last night to see the local Charlie Chaplins. This time they were not the boys of the city, but the girls were given the opportunity to interpret the great comedian. They were introduced by the winners of the boys' competition, Masters Martin and Smith. The winners last night were May Thompson, with Mabel Adams as second. The third place was not assigned, the money for third prize being divided among the remaining seven contestants. The exhibition put on by the girls was excellent.

The remainder of the programme, with "Graft" as the top liner, was of a high order.

The management this week is putting on a splendid programme. Tonight George Ade's comedy classic, "Father and the Boys" will be the head liner. The war will be represented by the Eclair Gazette. A Lubin

OMINECA WILL PASS UNDER AMERICAN REGISTER

Lieut. Locke, Of Alaskan Railway Commission, Is Here To Take Vessel.

The stern-wheeler Omineca will, in the course of a few days, change her register from that of a Canadian bottom to an American. She has been all overhauled under the eye of Capt. S. B. Johnson and Hal Peck, of this city, and is now at the Government wharf awaiting the orders to sail for Alaska, where she will be used by the United States Government in connection with the construction of the Alaskan Railway.

Lieut. Locke, of the commission, is here. He is looking after the change of register and will, when that is accomplished, have the vessel leave for the north. He will accompany her to Ketchikan.

A baseball game will be played this evening between the Colts and the C. Cs. Benny McDanield will pitch and Geo Wally catch for the Colts. The Catholic Club have a new pitcher which they intend trying out. The game commences at 6:45.

ANOTHER MILL TO START ON ISLANDS

DEMAND FOR SPRUCE LUMBER IS WORKING TO ADVANTAGE OF QUEEN CHARLOTTES

Massett Inlet Will Have New Plant Capable Of 40,000 Feet A Day.

The increasing demand for spruce lumber abroad is having a decided effect in stirring up the sawmill operations in this part of the Province. Nowhere is this being brought more in evidence than on the Queen Charlotte Islands, where now a fifth mill is to be started up. The new mill will be on Massett Inlet and will have a capacity of 40,000 feet a day. It will employ about thirty or thirty-five men.

The mill will be installed at once by Mr. Sparks and will be operated

(Continued on Page Two.)

CITY CEMETRY TO RECEIVE ATTENTION

THE QUESTION MUST BE GONE INTO AND POLICY DECIDED UPON

Character Of Soil Here Offers Serious Troubles To All Concerned.

The question of how best to deal with the city cemetery came up before the council last evening, somewhat in an informal way. Ald. McRae made a verbal report for that committee stating that a little later there would be a full report. He explained that on the report of the Medical Health Officer the committee had been working along lines looking to devising the best means of dealing with the questions involved.

He said that the Medical Officer insisted upon some action being

(Continued on Page Two.)

The Public Accounts Committee Reports Findings To House

(Special Correspondence.)

Legislative Press Gallery, Victoria, May 26.—Approval of the report which it will make to the Legislature upon the result of its findings in a number of matters which have been before it during the present session was given by the Public Accounts Committee of the Legislature, at its twenty-eighth meeting held last evening prior to the session of the House. The enquiries into the various matters were made largely upon the request of the members of the Opposition. In but one case, that of the enquiry into the purchase of the site for the new court house, in connection with which it was shown Mr. H. C. Hannington, Inspector of Legal Offices, received a commission of $2,000, does the committee find that there was any irregularity, and in that instance the fault did not lie with any member of the Government, but was committed by a civil servant without the knowledge of the Government, the committee's report states.

The Public Accounts Committee's report to the House reads as follows:

"Report of the investigation of the purchase of the Court House site in Victoria:

"Early in 1913 Attorney-General Bowser instructed Mr. H. C. Hanington, who was Inspector of Legal Offices for the Crown, to look for a favorable site for the new court house at Victoria. Mr. Hanington went to Mr. Pemberton, a real estate dealer and got options on several properties. Finally they were offered the present site for $100,000, but succeeded in obtaining it for a cash payment of $75,000, which was a price below similar properties offered in the same neighborhood. It was revealed that Mr. Hanington accepted, without the knowledge of the Government, a commission of $2,000, and we understand that Mr. Hanington has since tendered his resignation as Inspector of Legal Offices.

"Report dealing with order-in-council, dated May 15, 1915, directing the registrar of titles in Victoria and New Westminster to make certain registrations on payment of reduced fees: This matter concerned the registration fees paid in connection with the Canada Western Lumber Company, Limited. On April 13, 1910, this company gave a mortgage to the British Empire Trust Company to cover a three million pounds; five per cent. issue of debenture stock, which mortgage was duly registered in Victoria and in New Westminster, and fees amounting to $7,507.50 were duly paid. After war was declared the Canada Western Lumber Company found it impossible to make their payments or to pay their interest, so a new arrangement with the debenture holders was arrived at whereby a substituted trust mortgage covering the same assets, but giving the company relife from paying further interest until after peace was declared, was executed. The Canada Western Lumber Company applied to the Government for special consideration in regard to fees on account of the financial crisis caused by the war, making a second registration of the same security to the same people necessary. The Executive Council, under the statutes, granted a registration of the mortgage for $200; hence the order-in-council referred to was issued.

"New wing of the parliament building:

"The construction of the new wing of the parliament buildings was enquired into. In 1911, the Government called for tenders, and several were submitted. Messrs. McDonald & Wilson's tender was $970,250. A lower tender than that was received from an American firm for $939,000. Messrs. McDonald & Wilson agreed to take $20,000 off their tender, and the work was awarded to them. It was shown absolutely that not a dollar of the public money was paid out in connection with the construction of the buildings without the certificate of the supervising architect. The architect, Mr. F. Ratenbury, swore that it had never been suggested to him that he should give a preference to any particular person or firm. It was shown that the new wings were built as cheaply as other large structures built at that time; that the inspection of all contractors' work was rigid and exacting; that the new buildings cost, including boiler house and library, about $1,100,000, compared with $800,000 for the original building. The floor space in each was practically the same. The type of construction in the new building was very much superior to that in the old, being of modern fire-proof type, and considering the cost of labor and material, the new building did not cost more than the old. No irregularity whatever was shown in the Department of Public Works in connection with the matter.

"Renfrew lands: An investigation into the purchase of certain lands in the Renfrew district was made. It was disclosed that some 5,760 acres, being lots 72, 73, 92, 93, 101, 113, 114, 529, 530, 531, 532, 533, 564, 565, 568, 569, 570, 571, 571A, 572, 572A, 573, 573A, 574, 574A, 575 and 725, which had been reported to the department under oath by five different firms of surveyors as second-class agricultural land and Crown granted at various times between June 21, 1894, and December 31, 1912, were disposed of at $2.50 per acre, with the exception of one pre-emption, lot 74. This property came into the hands of the Puget Sound Lumber Company, whose prospectus claims the land to be timber land, containing approximately 60,000 feet to the acre. A case is in the court at the present time in which it is alleged that this was a misleading statement for the purpose of selling certain debentures. It was shown that the only way the department had at that time, according to the Act, of arriving at the classification of lands was by the surveyors' statement, and that until the year 1907 or 1908 there had been very little activity in lands or timber, but that such growth had taken place subsequent to that; that in 1912 the department instituted a forestry branch

(Continued on Page Two.)

New England Fish Company Burned Out In Vancouver

The New England Fish Company has suffered a severe loss in Vancouver, according to the information received here. On Sunday night the wharf and sheds of Brown & Harvey, which contained quantities of fodder caught fire. These adjoin the New England's wharf. The fire spread to that company's works and worked havoc with them.

The wharf was burned to the waters edge. The offices were largely destroyed, the papers and records going up in smoke.

The cold storage was also damaged very seriously, but the outfit was saved to a large extent. This will be capable of being used again.

Ben Self has had a satisfactory adjustment made of his insurance. He received within about $400 of the amount insured, which is considered a fair disposition of the matter. He will start up again, but is waiting to hear from the owner of the property before deciding whether to start up in the old stand or not.

Governor Black, of the Yukon, was a passenger north yesterday afternoon by the Princess Sophia. H[illegible] taken his training as an office[illegible] enthusiastic as a soldier. He will recruit a company in the Yukon for active service and expects to bring them out with him in the course of a very short time.

TUESDAY, MAY 30, 1916.

THE NEW ENGLAND'S LOSS.

The loss which the New England Fish Company has suffered in Vancouver may, by making it possible for that company to move to Prince Rupert to carry on its operations, prove in reality an advantage to the company. Since the New England Company established itself in Vancouver, Prince Rupert has come into prominence as a fish centre. The New England Company laid itself out for big things in Vancouver long before Prince Rupert was thought of. It was impossible, therefore, for the company to have foreseen what this port was to be. Now with the outlook such as it is the situation is radically changed and the New England Company would be ill advised not to consider this port in the matter of the Pacific fish trade.

A FALSE CRY.

The cry of the Liberal Opposition that the Conservative Government in British Columbia was reeking in corruption and that the presence of a member or two in the House representing the Liberal cause would be sufficient to reveal the most terrible conditions has proved to have been a false one. The presence of two of the most able critics that that party possesses throughout an extended session and assisted by John Oliver and other Liberal stalwarts who operated as reserves, has not brought forth any results that would give consolation to the Liberal party. The Liberal members fought all kinds of scandal shadows in the Public Accounts Committee until they were obliged to turn their attention to the task of meeting charges levelled against themselves and their party in connection with the by-elections, where the most forms of corruption were proved to have been practised. The session is closing at Victoria with the Liberals worse discredited than they have been for many years, which is certainly low enough.

DISPOSITION OF THE DEAD.

The peculiar condition of the soil here produces a situation in connection with the burial of the dead that is forcing the city to very carefully consider the subject of how to dispose of its dead. This is something that has to be faced. It is not a pleasant subject to deal with, but the citizens as a whole must meet it. It should be carefully thought out and a uniform system must be adopted.

ANOTHER MILL.

(Continued from Page One.)

under the firm of Sparks & Aitken. It will be operated for the spruce business principally.

There are two mills on the Inlet, the one operated by E. J. Tingley, who is in the city on his way to the Islands after a trip south. The other is operated at Port Clements by W. Barton, who is living here now.

The demand for spruce is very active it is said. The whole product is being taken to the Old Country. The clear spruce commands a high price in the manufacture of aeroplanes, while the other portions of the cut are used in making boxes. The demand is good for both.

Mr. Tingley, who is now here, says the chief difficulty now is getting to be the lack of necessary labor on the Islands for logging and for the work.

CITY CEMETERY.

(Continued from Page One.)

taken to change conditions. Owing to the wet character of the soil there were four modes of disposing of bodies suggested by the doctor. These were by using hermetically sealed coffins; by using cement rough boxes; by using cement vaults above ground; and by cremation.

Ald. McRae went on to explain that after getting all the information possible, and after considering the subject at some length the committee felt rather inclined to the cement vaults above ground. Something would have to be done before very long. The system now prevailing would not be permitted by the doctor.

Ald. McClymont said there was a system of steel pressed caskets that the committee was getting information upon also.

The matter was allowed to stand over.

A WEEK OF.

(Continued from Page One.)

Comedy will complete the programme.

On Wednesday, "The Avalanch" will be the attraction, with "The Goddess" on Thursday; followed on Friday and Saturday with "The Lost Paradise," a wonderful picture.

WATER ACT.

NOTICE BY THE SURF INLET POWER COMPANY, LIMITED.

NOTICE IS HEREBY GIVEN that on the 18th day of May, A. D., 1916, The Surf Inlet Power Company, Limited, filed at the office of the Comptroller of Water Rights plans and specifications of its works for the diversion of water from Cougar Lake at the head of Surf Inlet, Princess Royal Island, and that duplicates of such plans and specifications are open to inspection at the office of the Water Comptroller at the City of Victoria and at the office of the Water Recorder at the City of Prince Rupert.

The date of the filing of the application in the office of the Water Recorder for the approval of its undertakings was the 24th of February, 1916.

The source of the water supply is Cougar Lake—the point of diversion is at the outlet of the lake and the place where the water is to be used is at the head of Surf Inlet and the locality within which the business of the Company is to be transacted is within a radius of ten (10) miles of the head of Surf Inlet.

Dated at Vancouver, B. C., this 26th day of May, A. D., 1916.

TIMBER SALE X 611.

Sealed tenders will be received by the Minister of Lands not later than noon on the 31st day of May, 1916, for the purchase of Licence X 611, to cut 4,969,000 feet of Spruce and Hemlock on an area adjoining Lot 1,548, Shannon Bay, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. m8-4w.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

Parsonage 632 Sixth Ave. W. — Church, Sixth Ave. & Musgrav Place

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C., — Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Speceial price for coil for month of March only will be Fifteen dollars, Ten dollars cash, balance 30 days.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More — The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient — In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials — There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely — Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.
