W. X. Macdonald Was Given Hearty Reception In Atlin

The City May Send Fishery Representative To Ottawa

W. X. Macdonald Had Hearty Reception Accorded In Atlin Mining Camps

W. X. Macdonald, the Conservative candidate for Atlin constituency in the forthcoming election, has returned from the northern section of the district. He is delighted with the outlook. He took occasion to visit the various camps in this district, and at very point found the electorate in favor of him.

Mr. Macdonald will leave for Anyox in the course of a few days. He has no hesitation in stating that the Atlin section of the riding is decidedly in his favor. He expects a decided majority in that part.

Mr. Macdonald speaks in the highest terms of the roads in the Atlin district. They have been constructed in excellent order by F. Molyneaux, who has carried out his work well. By means of these roads it is possible to get about with ease throughout the country.

The miners of the north were well pleased to meet Mr. Macdonald and to assure him of their support in the coming election.

ITALIAN ARMIES ARE PURSUING FLEEING AUSTRIANS

Rome, Aug. 11.—Duke D'Aosta's army on the Isonzo front is pursuing the Austrians and inflicting terrible losses upon the fleeing enemy.

The Italians have pierced the Austrians' entrenchments to the northeast of Mont San Michele and have occupied Boschini, capturing two thousand prisoners.

In every Italian city the people are celebrating the successful culmination of General Cadora's invasion of Gorizia, which has gone on steadily for fifteen months. The rejoicing was intensified when it became known that thousands of prisoners had been taken in excess of the number originally reported.

SIR GEORGE PAISH IS STILL INDISPOSED

Not Likely To Be Able To Come To Canada.

London, Aug. 11.—Sir George Paish, who is suffering from a nervous breakdown, is making such slow progress that there is little likelihood of his being able to come to Canada as a member of the Commission to investigate the railway situation.

LOSSES HEAVY DURING PROSECUTION OF THIS WAR

Amsterdam, Aug. 11.—The latest official Prussian casualty list gives the Prussian losses since the beginning of the war as 2,911,387 men. This is exclusive of losses in the colonies. It is not stated as to what date this list is made up.

SITUATION LITTLE CHANGED ON WESTERN FIGHTING FRONT

London, Aug. 11.—On the British and French fronts the situation is unchanged, inclement weather interfering with the troops movements.

Our aerial forces drove enemy machines into hostile ground and three of the British machines failed to return to their base.

THE WORKMEN'S COMPENSATION ACT

HOW MEASURE WORKS TO BENEFIT OF THE LABORMAN AND FAMILY

Injured Worker Is Protected In The Carrying On Of Occupation.

"The Federationists," organ of the Trades and Labor Council, has given special attention to the Workmen's Compensation Act, which is the subject of a great deal of interest to its readers. Fortunately the labor people have, in Mr. McVety, a thoroughly competent expositor, as he was one of the commissioners who investigated such legislation in other provinces and other countries. This commission, which was representative of all interests, recommended many changes in the original draft, and is largely

FAVOR SENDING EAST A REPRESENTATIVE

MAYOR AND VICE-PRESIDENT OF BOARD OF TRADE TO BE ASKED TO MAKE SELECTION

Proposed To Send A Man To Ottawa To Confer On Fisheries.

At a meeting of the Board of Trade, held yesterday afternoon, the question of sending a delegate to represent the city before the Advisory Board at Ottawa this fall was discussed. It was represented that the G. T. P. would co-operate in such a move.

It was decided to have the matter brought before the council, with the idea of co-operation between the two bodies in selecting a man to be sent as a representative. It is proposed, if the project finds favor, to have the Mayor and Vice-President of the Board of Trade make the selection.

Dockrill Will Receive Large Majority In Election In Omineca Riding

Hazelton, Aug. 11.—Hon. William Manson and Harry Stevens, M. P., compelled Alex. Manson to acknowledge that he made false representations on the platform tonight, although in fairness to Alex. Manson's youth and the fact that he was reinterating the statements of H. C. Brewster and M. A. Macdonald, the statements were excused; but at the same time it was pointed out that when a man seeks the suffrage of the electors he should be sincere and know what he is stating.

Mr. Stevens ripped him up for condemning Premier Bowser for appointing Alex. Stewart, of Victoria, Finance Minister, on the ground that he was unfit for the position, as he was only a stonemason. Mr. Stevens told the audience he was proud of Mr. Bowser's selection of Mr. Stewart, Mayor of Victoria. He was an able man, otherwise he would not have been endorsed by the intelligent electors of that city. That he was a stonemason was no disgrace.

Alex. Manson stated that only fifty per cent. of the money expend-

Provincial Government Gaining Ground Daily As Result of Administration

(Special to The Journal.)

Victoria, Aug. 11.—Advices from all parts of the Province continue to reach the Premier's office to the effect that there is a marked change in public sentiment towards the Government, differing from that which was reflected at the by-elections last March. This is attributable to some extent to the fact that Mr. Bowser has now had the opportunity of touring the major portion of the Province, meeting the electors face to face and explaining the policies of the Government, but to a greater degree it is perhaps due to the fact that the people themselves have come to realize the benefits attaching to the legislation passed at the last session of the Legislature. The activity in the lumbering industry, the tremendous strides being made in mining, and the fact that the farmers are commencing to take advantage of the provisions of the Agricultural Aid Act are all having the effect of bringing home to the electors a realization of the fact that the Government's policy is a thoroughly constructive one.

The outlook for the return of the four Cnservative candidates in Victoria is excellent. It is admitted on all sides that Mr. Bowser made a master stroke in succeeding in inducing Mayor Stewart to join his cabinet as Finance Minister. Mr. Stewart's excellent record in his civic capacity, and his immense popularity with the masses of the people of the capital city, has, it is believed, immeasurably strengthened the Conservative ticket in this city, making victory doubly sure.

On his return from his mainland tour the other day the Premier addressed the local Conservative organization and delivered a message of cheer. He said: "I have been of late in all sections of the Province, except in the East Kootenay and Slocan districts, I have a message of good cheer to the Conservatives of this riding. Everywhere the outlook for the party is of the brightest; everywhere the people are demonstrating their firm faith in the businesslike methods and policies of the administration; everywhere they have expressed their desire that the constructive programme which was initiated in the legislation of last session shall be carried through to fruition. You must not forget that for the past six months our leaders have not been campaigning at all, for they have been attending to their sessional duties. On the other hand but two of the liberal leaders have been so engaged and the great bulk of their leading men have been persistently carrying on their party's campaign of falsehood and insinuation. But now our party is ready to

RUSSIAN TROOPS ARE CLOSING IN UPON AUSTRIAN ARMIES

Petrograd, Aug. 11.—Von Bothmer's forces cannot any further enjoy the protection of the flooded river Dniester, on account of the fact that General Letchitzsky's rear forces have attacked the advance positions of the Austrians, who are fighting furiously in an attempt to extricate themselves from a very critical situation.

Stanislau is now within range of the Russian big guns, and General Letchitzsky's captures in the last ten days exceed fifteen thousand prisoners, bringing the grand total to Brusilloff's credit of four hundred and five thousand since the month of June.

HON. WILLIAM MANSON WILL ADDRESS MEETING

Will the Prohibition Act Tend to Lessen the Consumption of Liquor?

CLAUSE 57 OF THE ACT PROVIDES FOR THE UNLIMITED, UNRESTRICTED AND UNCONTROLLED IMPORTATION OF LIQUOR FROM POINTS OUTSIDE THE PROVINCE.

WITH THE ABOVE CLAUSE IN MIND, THE READER IS ASKED TO HONESTLY ANSWER THE FOLLOWING QUESTION.

Does not importation of liquor necessarily mean its purchase in quantity?

Does not the importation clause provide for a person placing unlimited orders for liquor without any restriction as to the frequency of the orders?

Is it not human nature for a man to use anything more freely when he has an ample supply on hand?

WILL NOT THE ACT HAVE THE TENDENCY TO ACTUALLY INCREASE THE INDIVIDUAL CONSUMPTION OF LIQUOR BECAUSE OF THE FACT THAT IT MUST BE PURCHASED IN QUANTITY AND KEPT IN THE HOME RATHER THAN PURCHASED BY THE SINGLE GLASS OR BOTTLE?

EVERY ELECTOR SHOULD THOROUGHLY READ THE ACT.

Copies of the Act can be secured on application to the Merchants' Protective Association, Room 24, Canada Life Building, Vancouver.

THE WORKMEN'S.

(Continued from Page One.)

responsible for the structure of the measure as it stands. There is no doubt that this act is the best legislation yet produced on this subject, and it is the fairest attempt yet made in the world to do justice to workmen and employer alike, without serious interference with the machinery of production. The general plan is a system of insurance by which all the employing industries co-operate, according to normal risk in the several trades, in bearing the obligation of accidents to workers. The adjustments are scientifically made according to experience. Encouragement is also given to protection from accidents.

The only interests which at the end could be considered hostile to the measure as it stands were the insurance interests, says The News Advertiser. They are not parties to the measure, but desired to be. The Government receives from the employers the annual payments supposed to cover the risk of loss. Out of this compensation for accident is paid. The insurance people desired the Government to pay insurance premiums to them and let them pay the compensation. That is to say, they wished the Government to insure with them all the working men in the trades affected by the act. Mr. Bowser and his colleagues did not think it necessary to manage this business through intermediary companies, as that would greatly increase the cost. The idea of the Government was that, less the relatively small administration expenses, the workmen should get all that the employers were compelled to pay, or conversely, that the employing public should not be compelled to pay more than the amount of compensation adjudicated. The Compensation Act is intended to compensate the injured worker or his family, to secure this protection for him with the least friction, without expense, without uncertainty and without delay, and to provide it at cost price to the whole body of employers. It is no surprise that this measure has the approval of the labor organ. "The Federationist" has few words of praise for any government. It is highly critical of political parties. But the workers know a good thing when they have it.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the right applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

THE METHODIST CHURCH

British Columbia Conference Rev. J. F. Dimmick, Pastor.
Parsonage 632 Sixth Ave. W. Church, Sixth Ave. & Musgrav Place

MR. HARRY HANSON, Prince Rupert, B. C., April 9, 1914.
"The Reliable Plumber,"
Prince Rupert, B. C.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Indications are that Mr. Dockrill will receive a large majority. Prospectors and others are disgusted at such insinuations as those made by Alex. Manson, who accused them of a breach of trust in performing this work on the roads of the settlers.

PROVINCIAL GOVERNMENT

(Continued from Page One.)

fight the fight and carry the battle through to the end."

Hon. William Manson, Minister of Agriculture, is distinctly making good in the administration of his department. The first loans under the provisions of the Agricultural Act have been authorized by the Agricultural Credits Commission, of which the Minister is temporarily acting as superintendent. To date their has been received a total of about 630 applications for loans from farmers resident in all sections of the Province. These applications are for amounts ranging form $250 to as high as $20,000. Nineteen loans, aggregating in amount $25,300 have been approved. It is the policy of the commission to deal as yet only with applications for moderate amounts. The aggregate amount covered by the applications already in is $1,-250,000. The Government last April negotiated a loan for $1,000,000, from which the agricultural loans will be made. The money will be advanced to the farmers at a rate of not more than 6 1-2 per cent., a most favorable rate under existing financial conditions.

Mr. Frank W. Hinsdale, the expert whom the Government has engaged to put into operation the Workmen's Compensation Act passed at the last session of the Legislature, has reached the city and already undertaken his duties. Mr. Hinsdale, who is recognized as the leading expert in America in this class of work, has had wide experience in the operation of similiar measures elsewhere, which will make his services of especial value to British Columbia. Discussing the merits of the acts of the various states and provinces, Mr. Hinsdale stated that undoubtedly the British Columbia measure is the best drafted and most advanced of any in operation. It included the best points of all, and in addition, some features which the others do not possess.
