RUSSIAN FORCES FIGHT VIGOROUSLY ALONG FRONT

GERMANS NOT TO SINK SHIPS WITHOUT WARNING

Consuls Arrested In Saloniki Have Been Released Again

The Austrians Used Gas In Attacks Near Czernowitz

Shipping In Mediterranean Will Not Be Torpedoed Without Warning

Washington, Jan. 7.—The Germans have agreed not to sink non-combatant vessels of any description in the Mediterranean without warning.

Germany agrees to pay indemnity for the loss of American lives on the Lusitania.

She agrees with the United States that small boats cannot under all circumstances be considered a place of safety for passengers and crew.

GERMANY IS BEING CHOCKED INTO PEACE

HOW THE SITUATION IS VIEWED BY THE FRENCH EXPERTS

Is Regarded As Certain That Kaiser's Forces Must Give In.

Another great German offensive, conducted on both of the main fronts, is expected by Frenchmen having the best sources of information. This, they are convinced, will be Germany's last life-or-death blow, and it will be aimed, not with the hope of crushing French, Russian and British resistance, but of compelling an immediate and favorable peace.

Joseph Reinach, military historian, says that Germany and Austria now possess 4,000,000 soldiers, exclusive of the Bulgars and Turks, distributed on the various fronts as follows:

BRITISH SUBMARINE SANK OFF DUTCH COAST ON THURSDAY

London, Jan. 7.—A British submarine sank off the Island of Texel, on the Dutch coast, on Thursday. The Dutch cruiser Noord Brabant rescued the crew and landed them at Helder, in the north of Holland.

VICTORIA'S PROPOSAL AS TO AID TO SHIPS

The Board Of Trade Of Capital Has Definite Scheme To Present.

The Victoria Board of Trade has sent representatives to Hon. C. E. Tisdall to lay before him suggestions adopted by the board relative to aid to shipbuilding.

Briefly, the plan is as follows: To start by building, say ten, auxiliary schooners, to cost in the neighborhood of $115,000 each, fully equipped and rigged; these ships to be built in any port of British Columbia that will supply 23 per cent. of the value of each ship, the remainder to be obtained by a bond issue guaranteed by the Government.

Dividends would be limited to 8 or 10 per cent. on the paid up capital. Any surplus net earnings would be apportioned as follows: Fifty per cent. for retirement of bonds in advance and 50 per cent. for creation of a sinking fund.

The Government interests would be safeguarded by inspection and supervision of all accounts.

The management would be by a board of directors with Government auditing, etc.

In addition to the Government aid above mentioned, it was proposed by the deputation that a bonus per ton, for, say three years, be granted by the Government to ensure the loading of ships with British Columbia produce from B. C. ports. This suggestion was proposed in lieu of the remission of timber licences or other fees.

HOW VANCOUVER VIEWS SHIP PROJECT

SUGGESTIONS OFFERED WITH RESPECT TO SHIP-BUILDING

Question Have Been Propounded Relative To This Subject.

This week the Minister of Public Works and two of his Cabinet colleagues will hear representations from the people of Vancouver and surrounding district concerning the shipbuilding industry, says the News Advertiser. Any person who has special knowledge or useful ideas and opinions on this matter is invited to give the committee the benefit of them. It is not necessary that a man should have a carefully formulated scheme, though all considered projects will doubtless receive careful attention. But there are many men who have had experience here or elsewhere which should be of value. There are many who ar able to testify to the need of tonnage. The committee would naturally wish to learn how long it would take and what it would cost to organize a shipbuilding plant of a certain capacity; whether tonnage built here would cost much more than in the east; where the material would be procured; what amount of employment would be given; where the operatives would be found; what employment the ships would find in normal times; what effect the end of the war would have upon such an industry; what should be the class of ships built; what public assistance, if any, would be required; from what

AUSTRIANS HAVE BEEN DRIVEN BACK

AT THE MONTENEGRIN FRONT THE ENEMY WAS REPULSED

Austrian Aeroplane Fell And Aviators Were Made Prisoners.

Paris, Jan. 7.—A Montenegrin official report says the Austrians have attacked energetically in the direction of Berana-Roseja. Everywhere they were repulsed.

An Austrian aeroplane fell near Ducendier. The aviators were taken prisoners.

TURKISH ARMY TO HELP AGAINST ALLIES IN GREECE

Paris, Jan. 7.—A Turkish army of 150,000 men is now on the Greek frontier, under Perrtef Pasha, a German leader. It is expected that the Turks will attack the Allies in Greece from the northeast, while the Bulgarians and Germans attack from the north and west.

Is Now In England.

Ed. Doyle received a card last evening from Jack Edwards, formerly of this city. He is a Sergt. in the 2nd Pioneer Regiment under Col. Davis, also a former citizen of this place. He left here for Vancouver last fall and went on from Vancouver east, where he enlisted under Col. Davis. He is now a sergeant in camp at Hazely Down, Winchester, Eng.

Russia Fighting All Along Her Extended Front With Success

Petrograd, Jan. 7.—An official report says: In the Riga region, near Ollzall, the Germans discharged gas against our entrenchments.

Near Duckern thirty Russian scouts engaged in a hand to hand fight with some German scouts. Bayonetting a large number and capturing 36, including one officer. Our detachments captured the town of Czartorysk, where three officers, 76 soldiers and a quantity of barbed wire was taken.

Hostile counter attacks failed northwest of Czernowitz. The Austrians, after employing asphyxiating gases, tried a counter attack but were driven back to their trenches by our fire.

On the Caucasian front on Tuesday evening the Turks, taking advantage of a fog, assumed an offensiven near the village of Alka and Bilgasso. The offensive broke down before our fire, which opened when the enemy reached our artificial defenses. They returned to their trenches with heavy losses.

In Persia hundreds of the enemy's infantrymen and artillery have tried to take an offensive, but were driven back beyond the Kendelian Pass.

CHARLES CHAPLIN IS IMMENSELY FUNNY

His "Shanghaied" Kept Crowd In Roar Of Laughter Last Night.

The presentation of "Shanghaied" by Charles Chaplin at the Westholme Theatre last night kept the crowd in roars of laughter. Always funny, this marvelious comedian is in this play more humorous than ever. The antics of him in the galley on board the ship, and his spell of sea sickness were excellent. Never has he appeared to better advantage than in this play. It will be presented again this evening.

Greece Satisfied With Release Of Consuls Arrested At Saloniki

Paris, Jan. 7.—The French minister to Greece has announced that the consuls of the Teutonic Allies arrested at Saloniki some days ago have been released. The Greek papers regard this action as satisfying the Greek Government.

The arrest of the consuls was made the basis for very serious objection by the Greeks, who threatened belligerent action.

INVASION OF GREECE.

London, Jan. 7.—The invasion of Greece by the Central Powers is about to begin, and General Von Mackenzen is moving against Saloniki.

The Bulgarians have resumed their concentration on the Greek border, and a squadron of Austrian aviators has arrived at Monastir.

Athens reports that Germany's prestige in Greece is declining. The Greeks are determined to resist the threatened entry of the Turks and Bulgarians into Greek territory.

The Greek commanders have notified the war office that it will be impossible to hold their men from attacking the Turks and Bulgarians. Greek soldiers at Kavala threaten to mutiny, and are demanding that they be allowed to fight or disband.

Joffre Is Popular.

A letter received by W. J. McCutcheon from Wilfred Macdonald, from the front, states that Gen. Joffre is immensely popular with all ranks at the front. He has the confidence of all the soldiers, British included.

The man that is always insinuating evil motives on the part of others, and who claims that he alone is the one to be trusted will generally bear watching. There is no reason for believing that Mayor Newton is the only honest man in the city.

WHAT MR. CROTHERS SAID CONCERNING CIVIL SERVICE

Disabled Soldiers Should Have Billets Of Stay-at-Homes.

Hon. T. W. Crothers, Minister of Labor, denies the statement in a press despatch from London to the effect that he had stated that all now in the government employ, capable of military training and without encumbrances were to be told to enlist or get out.

"My principle," said Mr. Crothers, "is that if there are any positions in the public service held by young unmarried men with no encumbrances, and their duties can be undertaken by disabled soldiers, who have risked their lives and suffered for their country, the soldiers should get the positions."

Mr. Crothers explained that these were his personal views and he had not discussed the matter with his colleagues.

RETAIL MERCHANTS ELECT OFFICERS FOR THE YEAR

Candidates For Aldermen Are Considered By The Association.

The annual meeting of the Retail Merchants' Association has elected the following office bearers: Pres., T. McMeekin; Vice-Pres., D. C. McRae; Secy.-Treasurer, W. W. Wrathall. Executive: H. S. Wallace, J. Sweder, Martin O'Reilly, James Thompson, H. Miller and C. H. Thomas.

It was decided to endorse T. McMeekin, D. C. McRae and Robt. Smith as aldermanic candidates. Mr. McRae announced that he did not intend to be a candidate. Mr. McMeekin will accept the nomination, while a deputation will wait on Mr. Smith and urge him to run.

GERMANY IS BEING

(Continued from Page One.)

800,000; from Livonia to Galicia, 1,500,000; along the Isonzo and in Trentino, 350,000; from the Danube to the Vardar, 350,000.

"Germany wants victory and peace immediately," says Gabriel Hanotaux. "Otherwise she plunges into utter ruin. That is why I believe that she again is about to attempt to smash the iron circle which is strangling her.

"No sooner is an offensive announced than it is denied. That only means that Germany is sounding public opinion. Everybody knows that Germany has only enough men, gold and indispensable produce to last a few months. This perilous position forces her military chiefs to run the enormous risk of playing 'double or quits.'

"Her government is torn between the pan-Germans, who want to swallow the world, and the masses, who are clamoring for peace. The Kaiser is thus compelled to deliver an impressive and rapid blow on the battlefield, by which the war party will play its trump card.

"Germany is choking. Everything leads to the belief that she is about to try to overwhelm us in one tremendous and agonizing onrush."

Well-informed opinion is that the blow on the French front will be aimed at Paris rather than in Flanders, with the object of entering the capital and seizing the billion-dollar gold reserve in the Bank of France.

Although the Belgian Government's principal ammunition works were destroyed a week ago, the front in France is held to be overwhelmingly munitioned. It is almost three months since the Champagne offensive, and guns and shells have been steadily piling up ever since. French military authorities say that their gunners will be well able to keep down their fire.

Several batteries of Austrian 16-inch guns are known to be en route to France.

TENDERS FOR FREIGHTING OF SUPPLIES FOR THE YUKON TELEGRAPH LINE.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Packing Supplies," will be received until 4 p.m., on Tuesday, March 7, 1916, for the packing of material and supplies for points along the Yukon telegraph line between Hazelton and Atlin, in the course of the season 1916, 1917 and 1918.

Forms of tender and specification may be obtained from Mr. J. T. Phelan, Superintendent of Government Telegraphs, Vancouver, B. C., Mr. Wm. Henderson, District Superintendent Government Telegraphs, Victoria, B. C., and from the Government Telegraph Agents at Ashcroft, B. C., Quesnel, B. C., Hazelton, B. C., and Telegraph Creek, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

WHY GERMANY IS DOOMED.

In his recent visit to the Canadian Club, Mr. C. W. Barron, editor of The Wall Street Journal and other American financial publications, proved himself a warm and optimistic friend of the Allied cause. In his newspapers he constantly fights our battle for right and justice and human freedom against the mediaeval monstrosity which seeks by ruthless means to subjugate the world. Mr. Barron sees through von Bethmann-Hollweg, s lofty uttrances on the subject of peace. In The Wall Street Journal he says: "Having scored below the line in game points, by reason of superpreparedness and selection of cards, Germany is ready to disregard the honor score, add up the sum of her military advantages on land and negotiate for freedom of the seas, expansion of German trade and influence, and compensation for Germany's sacrifices on behalf of peace."

According to The Journal, Germany, without conception of human or national rights, principles or spirit, sits up aloft, and says, "We are now ready to receive overtures of peace which insure Germany's permanent gain." The writer emphasizes the immature character of German political and national thought. Prussianized Germany, the youngest nation in Europe, has been taught that war is a "Kulture game." The Imperial authorities have declared that Germany had only to push the war far enough to show its own invincibility and the surounding nations would pay Germany the cost of the war as the price of their peace. There is nothing moral or ethical in the Hun conception of international relations.

For many months Prussia has been exclaiming: "We have won; no enemy has taken from our territory. It now depends upon the enemies of Germany as to how far they desire to push the sacrifices of war, after their utter rout on every side and the failure of their diplomacy in the southeast." To this boastful attitude The Wall Street Journal makes reply: "The outside world, the American world, the Asiatic world, the African world, knows that Germany is beaten and will have to accept and not dictate terms of peace. The outside world knows that this struggle is over principles, and that Germany and her system cannot survive; that the world outside her trenches is growing stronger, daily, than the world within her, and that the end is only a question of time." Months of fighting will doubtless be required to drive home the truth to Berlin, and to this end all the resources of the Allies are still required in order that the most terrible conflict in history may be shortened. But the end is inevitable and in his heart the Kaiser must know it.

Sealed tenders will be received by the Minister of Lands not later than noon on the 19th day of January, 1916, for the purchase of Licence X 541, to cut 1,256,000 feet of Hemlock and Spruce, on an area adjoining L. 1,625, East Arm, Juskatla Arm, Graham Island, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C. t-d-28.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights re not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Skeena Land District—District of Queen Charlotte Islands.

Notice! The Latest!

By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.

Now in use and on exhibition at my shop, 139 Second Avenue.

BRITISH LABOR MEN'S STAND ON THE WAR

New Year Message Issued By Harry Gosling.

In connection with the attitude of labor towards the present war, a New Year message was issued by Harry Gosling, who presided at Thursday's big Labor Congress. He said:

"My message to the forces of organized labor for the New Year is to be steadfast to your trade unions. Continue to give the country the full measure of your wealth-producing capacity, as you ungrudgingly have done in the past fateful seventeen months. Remember millions of free men who volunteered to crush tyranny abroad are looking to you at home to maintain liberty in Great Britain." A similar message from Robert Williams to the transport workers urged them to "take stock of essentials and consider who are to reap the results of all your sacrifices."

BIG BOOM IN COPPER INDUSTRY EXPECTED

England Purchased Lately Considerably More Than Hundred Thousand Pounds.

At the time of a meeting recently in New York of several copper magnates working particularly in Utah and Arizona, James Phillips, Jr., formerly owner of the New York Press, now exclusively associated with the copper industry, gave his interviewers reason to infer that some phenomenal marketing of copper was in progress. The inference was correct. England's purchase a few days ago of considerably in excess of a hundred thousand pounds of copper makes a new record, but those familiar with the industry are persuaded that it will not be a new record very long. The Western miners, who, since 1900, have also become manufacturers of copper, have made it possible to sell to England, and speedily to deliver an amount of copper which, it is estimated, is worth a little under thirty million dollars.

These miners and manufacturers of copper are understood to be of the opinion that however large amounts of copper sold to countries across the sea may be it will be much less than the copper that will be demanded for constructive work in the United States, as soon as capital is ready to invest in large undertakings.

INVERNESS CANNERY TO USE THE SANITARY CAN

R. G. Johnson Is Going South To Instal Equipment For Firm.

Robt. G. Johnson and family arrived in the city last evening from Inverness on their way south. They will not return until the spring.

Mr. Johnson is going to instal for J. H. Todd a sanitary can making plant at the Empire Cannery on Vanouver Island. At that point the equipment of cans for the four canneries, owned by that firm, will be made and delivered for the spring. The four canneries are the Empire, on Vancouver Island; the Richmond, on the Fraser; the Inverness, on the Skeena and the Beaver, at Rivers Inlet.

The sanitary cans are the approved type now and very popular. Mr. Johnson will return about April and get started on arrangements for the regular opening for business in June.

HOW VANCOUVER

(Coninued from Page One.)

source and in what form it should be given. There is every reason why those in a position to give information or advice should offer them where they will do most good, and should speak their minds with perfect freedom and candor. It is not in the least worth while to tell a minister only what the speaker may think the minister wants to hear. Ministers wish to know and need to know the exact facts bearing on the case.

Open Wednesday and Saturday evenings, M. M. Stephens.

Quality vs. Imitation

The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble

Budweiser

The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.

Budweiser is bottled only (*with corks or crown caps*) at the
