REPORTED ENGINEER MINE SOLD TO TONOPAH CO.

Decision As To Sawmill Site Will Be Delayed A Little

Scott The Chief In Plugging Is Creating New Sensation

Engineer Mines May Be Sold To Tonopah Company At Good Price

The Engineer Group of mines near Atlin may pass from the present control to the Tonopah-Belmont Company, which owns the Surf Inlet mines. Capt. Alexander, who went through here on Saturday, has the control of the property, which is looked upon as one of the biggest propositions in the north.

Clyde Heller, President of the Tonopah-Belmont Company, and other officers visited the property last summer and made a thorough examination of it. It is said that $1,250,000 was offered for it.

This price, while a large one to the uninitiated, is not regarded by Capt. Alexander as sufficient, however, and he claims to have at least $2,500,000 of ore in sight ready to take out. It is not known definitely if the offer will be accepted, although there are reports that a sale is to be made.

WHITE PASS TO BUILD NEW BOATS

THE GLEANER AND THE SCOTIA WILL BE REPLACED NEXT SEASON

Development Of Business Has Made It Essential To Take Step.

Announcement has been made that the White Pass will build two new steamers for service on Taku Arm and Lake Atlin. They will succeed the Gleanor and the Scotia. The former has been run on Taku Arm ever since the beginning of the operation of the White Pass between Carcross and Golden Gate, and the Scotia has been run as a ferry boat on Lake Atlin between the terminus of the portage railroad and Atlin City. The portage railroad is a two-mile-long railroad between Golden Gate, Taku Lake, and Lake Atlin.

The growth of the tourist trade since the construction of the fine tourist hotel at Atlin has caused a demand for a better steamer service on the water route between Carcross and Atlin, and it is to meet this demand that the Gleanor and Scotia will be replaced by modern sternwheel steamers.

One of the steamers, the one that will replace the Gleanor, will be built at Carcross. The ways for it are now under construction. The other will be built at Atlin.

BRITISH ADVANCED ON SOMME FRONT THOUSAND YARDS

London, Nov. 6.—The British on the Somme front have attacked at several points.

They advanced a thousand yards and captured a number of prisoners.

MANY FROM CITY AND VICINITY AMONG CASUALTIES

Recent Fighting Seems To Have Fallen Heavily On Local Men.

The casualty lists from the front during the last few days has recorded the fact that many Prince Rupert men and those from nearby places have been wounded. Many of them went out with the 102nd Battalion.

Pte. Fred Hardy, a son of the janitor of the City Hall, has been wounded in the hand.

Nathaniel Bent, a son of Joseph Bent of this city, is also among the wounded.

Another announcement is that of Lieut.-Col. R. Cartwright, C. M. G., C. H. is to be the officer in charge of muskety training. Col. Cartwright, who has been on the retired list for some time, was formerly an officer of the Permanent Force in Canada. He has been residing in the Okanagan.

H. M. C. S. RAINBOW IS REPORTED TO HAVE BEEN BUSY

Sank Steamer Belonging To Germans Is Report.

The British warship Rainbow anchored in the harbor of Le Libertad, San Salvador a few days ago. It is reported that the warship sunk a German steamer off Bahie Salinas, Costa Rica, but officers of the Rainbow would not confirm the report.

NO WORK UNTIL MARCH ON HOCSTALL

EDWARD HINMAN, JR., HAS HAD TO POSTPONE ACTION FOR WINTER

Drilling Outfit Did Not Want To Risk Delay This Fall.

The active drilling to test out the mining claims on the Hocstall near Port Essington will be delayed until next spring. These were taken over on a bond by Edward Hinman, Jr., representing Lewissohns, of New York.

The drillers were afraid to risk getting in to the property with their equipment this fall and get the work carried out. It has been decided to definitely postpone the work until March.

GERMANY SEEKS TO WIN OVER POLAND

MANIFESTO ISSUED TO EFFECT THAT COUNTRY IS INDEPENDENT

Guarantees Given For The Development Of The Country.

Berlin, Nov. 6.—Germany and Austro-Hungary have issued a manifesto at Warsaw and Lublin declaring Poland an independent state, with a hereditary monarchy and a constitutional government.

Guarantees for the needed development of Poland have also been promised.

The Nortorious Scott Has Gained His Freedom By Rapid Flight

John T. Scott, who is looked upon as the chief figure in the plugging operations in Vancouver last February is again free, after having been under arrest for a couple of weeks. He made a spectacular escape from his guards while in Seattle. According to the stories told he got into an hotel elevator and out into an auto and away to parts unknown, leaving two detectives upstairs in the hotel without knowledge of where he was.

But when Scott left he shed behind him a sworn statement, copies of which are held by his counsel, Joseph Martin, and by H. C. Brewster.

According to reports in Vancouver Scott will return to the Province and give evidence, but it must be as King's evidence, and he must be immune. It is said that an assurance to that effect has been given.

It is understood that Scott's sworn statement gives what purports to be a complete account of the plugging conspiracy. It begins at the beginning and relates how in certain Liberal circles there was considerable fear that the Conservatives would resort to plugging on a large scale. The Liberals were confident of winning if the election was a straight one, but it was an article of faith with many Liberals that the Conservatives were not too scrupulous about their methods of winning.

A prominent Liberal, Scott says, came to him and said that as the Conservatives were going to plug, it would be necessary for the Liberals to plug in order to offset them, and instructed him to make the necessary arrangements.

FRENCH FORCES ARE PUSHING THEIR WAY FORWARD ON SOMME

Paris, Nov. 6.—The French, on the northern section of the Somme front, have pushed their lines several hundred metres forward in the direction of Le Transloy, while they have also taken a trench a little to the south of this point. The greater part of Saillisel is now in French hands, this powerfully organized German position having been attacked simultaneously from there sides.

Our troops have also advanced at St. Piere and Vaast Wood, securing successively three trenches and endangering the entire enemy line in this sector. We have also taken a position on the south-western outskirts of the wood.

East of Fort Vaux, on the Verdun front, we have also advanced for several hundred metres, capturing a village and also the town of Damloup, to the southeast of Fort Vaux and directly on the road to Abaucourt.

Sawmill Site Rests In Abeyance Until Arrival Of W. P. Hinton

The question of the sawmill site at Seal Cove, sought by J. S. Emerson, rests now until the arrival of W. P. Hinton, General Traffic Manager, who is expected here next week. Mr. Duby, who is an expert in the matter of mill sites is still here, looking more fully into the location, with the idea of evolving the very best plan for laying out the work if it is secured. He will leave Wednesday for the south and will hold conferences with Mr. Hinton in the south.

The location sought by Mr. Duby for Mr. Emerson's purpose is the island at the entrance to Seal Cove and with it the land adjoining the holdings of the Canadian Fish & Cold Storage Company as far as the railway track. The area is about eight acres in extent.

The cove is regarded as an ideal one for holding logs. As to the site itself there would need to be a considerable amount of blasting done to make it available for the purpose.

That the lumber business in this country is capable of very great expansion is made evident by a talk with Mr. Duby. His firm, the Burnette Mills, which turns out about 100,000 feet a day, has shipped box material to England, and supplies a large part of the apple box business in the Province. It shipped boxes for munitions to England.

The mill planned for here would have a capacity of about 75,000 feet a day.

STEAMER DOLPHIN MAY BE TAKEN TO ST. LAWRENCE

Parties in Montreal are negotiating for the purchase of the Southeastern Alaska steamer Dolphin, operated by the Alaska Steamship Company. If the purchase is made the Dolvhin will be placed in the St. Lawrence River and Gulf of St. Lawrence trade.

President R. W. Baxter of the Alaska Steamship Company admits that negotiations are in progress. The Dolphin was formerly operated on the Hudson River in the excursion business before purchased by the Alaska Steamship Company, 15 years ago.

CITY COUNCIL HELD VERY SHORT SESSION

One Member Arrived After Business Was All Completed.

Ald. Smith was a surprised man last night when he discovered upon arrival in the Mayor's office that the council had sat and finished its business before he got in. He had gone to see the heating plant with the acting engineer, which explained his delay, but the council sat only about seven or eight minutes.

A bylaw was introduced by Ald. Dybhavn and passed its first reading, to provide for the taking of the vote at the time of the municipal elections as to the weekly half-holiday.

St. John's Ambulance.

St. John Ambulance Association has avpointed the following officebearers for the coming season: President, Mr. David H. Hays; Secretary, Mr. C. R. Murray; Treasurer, Mr. E. H. Mortimer; Executive, Mrs. G. A. Woodland, Mrs. A. J. Galland, Mrs. T. C. Duncan and Mr. A. W. Edge. Dr. W. T. Kergin has very kindly consented to deliver the lectures for the new session and already twenty-two members have enrolled. The entrance fee is nominal and the work is of inestimable value, so that it is hoped that there will be many more enrollments at the first meeting of the Association in the Hays Building on Monday, November 13.

THE DRYDOCK.

The G. T. P. drydock has been subjected to a very severe test and has fulfilled its mission to the complete satisfaction of all connected with it. J. H. Pillsbury, who is in charge of the works, is receiving hearty congratulations for the successful way in which he handled the dock.

SHOULD BE CLEARED UP.

Whoever is to blame in connection with the John T. Scott plugging escapade in Vancouver it certainly is a matter of prime importance that if at all possible he should be brought back and the matter cleared up. His latest escape does not look good. It will take a lot of explannig to show that he was not expedited in his escape by someone or some group very much "higher up." Mr. Brewster will not be suspected of being a party to any such actions as were pursued perhaps on his behalf. It does not seem reasonable to believe that the Conservatives would employ men to defeat themselves. Someone, however, was responsible. The public has a right to know if it can be cleared up.

INDEPENDENT FISHERMEN MADE GOOD PROFITS

Ketchikan Fish Packer In Seattle Tells Of Season's Work In North.

Independent fishermen who owned their own outfits were the men who enjoyed an excellent financial season at Ketchikan, and adjacent fishing grounds, said H. A. Buhring, a fish packer of Ketchikan, to the Seattle Post-Intelligencer.

The fisherman who had his own outfits was independent of the different canneries and fish packing concerns, and could therefore dispose of his catch at the highest figure, as the runs of salmon and halibut, as well as cod, were not as extensive as in past seasons. Fishermen received 5 cents for humpback, 13 and 14 cents for bright dogs and as high as 17 and 18 cents for black dogs. One fisherman disposed of 17,000 sockeyes at 5 cents, making a neat sum on that haul alone. The halibut men also had an execellent season as all of their catches were bought up as fast as their boats reported. It was a splendid season for the independent fisherman, for he profited by the small runs, whereas the contract man received only the price quoted him before he took out his outfit.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Teritory, the Nothwest Teritories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Aplications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights re not being operated, such returns should be furnished at least once a year.

The lease wil' include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

LIQUOR ACT, 1910.

(Section 42.)

NOTICE is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for renewal of the hotel licence to sell liquor by retail in the hotel known as the Nichol Hotel, situated at Pacific, in the Province of British Columbia.

COPPER IS TAKEN FROM MINE WATER

Inventor-Chemist Made Fortune And Started New Industry In Butte, Montana.

The Butte-Duluth leaching plant has resumed operations under the direction of interests associated with the Ohio Copper Company of Utah. About 100 tons per day are being treated and the copper now is being recovered from the sulphuric acid solution by the addition of metallic iron. This change from electrolysis, formerly employed at the plant, is making a pronounced stride toward economy in the leaching process, as the electrolytic precipitation of copper was one of the most expensive features of the method employed at the Butte-Duluth.

Scrap iron, tin cans and metallic iron in whatever form it may be found are picked up throughout the city and thrown into troughs through which copper laden solutions are circulating and change is rapid, the copper collecting in the bottom of the troughs as a deep brown powdery substance locally called "cement copper," while the iron is dissolved. This method long has been employed in recovering the values from the mine waters and is the cheapest process known. For years the mine waters ran to waste, until a German chemist happened along and availing himself of the principle of affinity between acid and metals well known to all chemists, set about to save copper in the waters, and cleaned up a fortune almost before the mine owners knew what he was about.

Then ensued what virtually amounted to an epidemic of tank building and everybody began to recover copper from the mine waters and an industry of collecting tin cans for their iron sprang up which made Butte unique for its odd callings in connection with its mining industry. Today, instead of leasing the waters from the mines, the companies themselves have installed long series and stands of troughs and tanks and a recovery of the values from the waters is in itself an industry by no means small.

The Morning Journal delivered to your home at 50 cents a month.

Production and Thrift

"CANADA from her abundance can help supply the Empire's needs, and this must be a comforting thought for those upon whom the heavy burden of directing the Empire's affairs has been laid. Gain or no gain the course before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle. Stress and strain may yet be in store for us all before this tragic conflict is over, but not one of us doubts the issue, and Canadians will do their duty in the highest sense of that great word."—*HON. MARTIN BURRELL, Minister of Agriculture.*

"MODERN war is made by resources, by money, by foodstuffs, as well as by men and by munitions. While war is our first business, it is the imperative duty of every man in Canada to produce all that he can, to work doubly hard while our soldiers are in the trenches, in order that the resources of the country may not only be conserved, but increased, for the great struggle that lies before us. *'Work and Save'* is a good motto for War-time."—*SIR THOMAS WHITE, Minister of Finance.*

THE CALL OF EMPIRE COMES AGAIN IN 1916

TO CANADIAN FARMERS, DAIRYMEN, FRUIT GROWERS, GARDENERS

WHAT IS NEEDED? THESE IN PARTICULAR—

WHEAT, OATS, HAY,
BEEF, PORK, BACON,
CHEESE, EGGS, BUTTER, POULTRY,
CANNED FRUITS, FRUIT JAMS,
SUGAR, HONEY, WOOL, FLAX FIBRE,
BEANS, PEAS, DRIED VEGETABLES

We must feed ourselves, feed our soldiers, and help feed the Allies. The need is greater in 1916 than it was in 1915. The difficulties are greater, the task is heavier, the need is more urgent, the call to patriotism is louder—therefore be thrifty and produce to the limit.

"THE AGRICULTURAL WAR BOOK FOR 1916" is now in the press. To be had from The Publications Branch, Department of Agriculture, Ottawa.

WATER ACT, 1914.

Before The Board Of Investigation.

In the matter of Yule Lake and Yule River a tributary of Swanson Bay, Khutze River a tributary of Khutze Bay, and all other streams emptying into Graham Reach and its Inlets and Bays in Rang IV Coast District.

TAKE NOTICE that each and every person, partnership, company, of municipality who, on the 12th day of March, 1909, had water rights on any of the above-mentioned streams is directed to forward, on or before the 10th day of October, 1916, to the Comptroller of Water Rights at the Parliament Buildings at Victoria, a statement of claim in writing as required by Section 294 of the Water Act, 1914. Printed forms for such statement (Form No. 50 for irrigation or Form No. 51 for other purposes) can be obtained from any of the Water Recorders in the Province

And take notice that a meeting of the said Board will be held at the office of the Board, Parliament Buildings, Victoria, on Tuesday the 24th day of October, 1916, at 11 o'clock in the forenoon, when the evidence and argument on the said claims and on any objections field will be heard.

Dated at Victoria, B. C., the 7th day of September, 1916. For the Board of Investigation.

J. F. ARMSTRONG,
Chairman.
