CITY WILL COMBAT THE CANNERY COMBINE

NOMINATIONS FOR MAYOR AND ALDERMEN

School Trustees Were Elected Yesterday By Acclamation

DELEGATION WILL GO TO OTTAWA TO PRESS CLAIMS RELATIVE TO FISHING UPON GOVERNMENT THERE

A delegation representative of the City of Prince Rupert will proceed, it is expected, towards the end of the week to Otaawa, to back up the demands of the city with respect to fishery concessions. This was agreed to at a meeting of the joint committee of the City Council, the Board of Trade and fishing interests yesterday afternoon. It was endorsed again at the public meeting held last evening in the City Hall, when the two members of the Advisory Board, Col. F. R. Cunningham and N. McIntyre, were met and the subjects discussed. The names suggested are Ald. Nelson from the City Council, W. E. Williams from the Board of Trade, and Geo. W. Morrow from outside. In case any of these cannot go, the Mayor is empowered to name another, with Ald. Montgomery as a suggested alternate.

At the meeting last evening Mayor McCaffery occupied the chair, while Ald. McRae was elected Secretary.

The first request made was that the license to take herring by gill net or seine be made to cover anywhere in District No. 2, and that the fee be reduced to not more than $10 for seine license and $1 for gill.

Col. Cunningham said that the area now covered by the license was approved of last year and granted. He further explained that they were only two on the Advisory Committee.

W. E. Williams said that the fees were considered far too high.

Mr. McIntyre said that the question of a revision of the fees for the Pacific had been urged, but it was pointed out that the fees had been fixed by a commission that sat from 1905 to 1907.

Mr. McIntyre, in reply to a question of Mr. Williams, said that he would be glad to introduce a changed scale. He would be agreeable to a fee the same as the Atlantic coast.

As to the question of extending the area, he had understood that there was only a limit to that that could be used as far as disance was concerned.

W. Selig advised the Government putting in a prospecting boat for herring.

A. R. McLean was in favor of giving fishermen the opportunity of going out anywhere and getting the herring.

Capt. Rorvik agreed that, in the spawning season, herring could not be carried far.

In reply to Mr. Morrow, Col. Cunningham said he did not see why this should be disallowed.

The second recommendation was in favor of opening up streams for the taking of dog and humpback salmon for halibut bait.

Col. Cunningham said that this was a very big question and one that was not in accord with the Board last year. There was the question of the economic situation. The fall fish were very valuable as food, and under present conditions this had to be considered.

It was agreed by members of the Committee that this fish was most valuable for bait at certain seasons. With $200 worth of this bait it had been shown that $1,500 worth of halibut had been caught, so that from the economic standpoint this could well be used as bait.

Ald. Montgomery brought to the attention of the Commission Clause 3, which aimed at issuing salmon licenses to all British subjects, settlers who declared their intention of becoming citizens and to Indians.

Col. Cunningham gave figures showing as follows: In 1913 there were 175 licenses reserved, of these 58 were taken; in 1914, 175 were reserved and all were taken; in 1915 there were all the independent licenses called for granted. There were 287 so taken; in 1916 there were only 159 taken. Then on the ponit of the nationalities it was shown that there were 35 Canadians, as compared with 58 in 1915; 21 Swedes as compared with 42 in 1915; 32 Norwegians as compared with 40 the year before; Scot 9, as compared with 37; English 10, as compared with 26; Irish 3, as compared with 15; Finnish 9, as compared with 15; Greeks 13, as compared with 13; Americans 3, as compared with 9.

Mr. McIntyre said there was an international question involved that it would not be in the best inerests to raise.

Mr. Williams cited the prices paid on the Skeena as compared with the Fraser. The attached licenses had throttled the business. If the river were thrown out the number of white fishermen would be increased. Attached licenses had taken out of fishermen the difference between the prices paid on the Skeena and on the Fraser.

Ald. Montgomery did not think that the international question was so great as represented. The Japanese to get attached licenses had to be British subjects.

Mr. McIntyre contended that the Skeena was a difficult river to fish on, owing to the loss from snags. He did not think it was in the best interests o the Skeena to do away with the rating now.

Col. Cunningham advised the Committee writing direct to the minister.

The fourth clause favored opening up the seining privileges held by the canneries in streams, and that exclusive drag seines granted to canneries should be abolished.

Mr. McIntyre said this was a matter involving a question of policy only. There would be trouble in policing these streams. There was danger of these streams being fished out.

Mr. Morrow contended that the law would be better observed with competition than by giving it to one licensee.

Mr. McIntyre did not think it worked out that way.

Clause 5 asked that cannery licenses should be granted to any applicant, and that an appeal be taken to the Privy Council to settle the question of granting these by the Dominion and the Province.

Mr. Cunningham said this was a matter of policy with the Depart-

Members Of Advisory Board Taking Active Interest In War

At the meeting last evening, before the conclusion of the proceedings, Col. Cunningham, in replying to a personal reference to the part his family had had in the war, stated that by a strange co-incident he received last July, while in Prince Rupert, the message telling of the death of his son on July 3 at the front. When he arrived here that day he received a letter from headquarters detailing the circumstances connected with his son's death in action.

Reference was made to the fact that D. N. McIntyre, Deputy Minister of Fisheries, was then on his way to the front. He would proceed on from Ottawa.

SCHOOL TRUSTEES BY ACCLAMATION

TWO NEW MEMBERS OF THE BOARD ELECTED THIS YEAR

Mrs. Kirkpatrick, L. W. Patmore And George Munro Are Elected.

SATURDAY THE HOLIDAY

THE RETAIL CLERKS

Do You Want to Help Prince Rupert Grow?

DO YOU BELIEVE IN PROGRESS?

Then Vote for and Support WEDNESDAY as the Half-Holiday Or are you content to knock, look backward, and in general to retard progress and hinder the development of Prince Rupert? If so you will support Saturday as the Half-Holiday.

The selection of Saturday would result in a serious inconvenience to the halibut industry as many of the vessels outfit and prepare to leave for the Banks on that day.

During the Salmon season no fishing is allowed from Friday until Sunday night, thus giving all persons engaged in that industry an opportunity to come to Prince Rupert and purchase their requirments only at the week-end.

Arrivals from and departures to all outside points would be compelled to wait a day and a-half to transact their business, if Saturday were chosen.

The general public appears to be well satisfied with the present day, as proven from experience of the last six months, and no valid reason has been brought forward for a change to Saturday.

WEDNESDAY MEANS A REST INTERVAL IN THE MIDDLE OF THE WEEK. It takes the curse off of the daily toil for employees. A holiday in the middle of the week and the rest on Sunday means happy and contented clerks and a satisfied public.

WEDNESDAY is the reasonable day for employees, general public as well as employers, and means development and progress for the Port of Prince Rupert.

A WELL EARNED REWARD.

The appointment of Parker Williams to a place on the Workmen's Compensation Board is, in the light of partyism running rampant, a just reward for one who forgot his allegiance to Socialism and lent himself to the Liberal party. None doubted that Mr. Williams would get his reward. He has earned it, according to the rules of the lowest type of partyism. From being an avowed opponent of the Liberalism of British Columbia, Parker Williams very early in a long campaign went through the Province heralding the coming of the Liberal leader, H. C. Brewster, and playing the role of a John the Baptist. As time went on he cast off all allegiance to the Socialist party and became Liberal to all intents. His reward was delivered without delay.

THE PATRONAGE SYSTEM.

The Provinec of British Columbia was during the late election campaign treated to a most pronounced onslaught upon the patronage system on the part of the Liberals. The Province was prepared to see the most perfect manifestation of non-patronage that could be imagined. It would seem as if the promises so made were like those made by the Liberals with regard to Dominion affairs previous to 1896. They were made only to be forgotten in the day of victory. There has been almost unseemly haste on the part of the Government to make itself felt in an unmistakable way.

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Orme, Pioneer Druggist. g-6.

WATER NOTICE.

Take notice that G. R. Naden Company Limited, whose address is Prince Rupert, British Columbia, will apply for a licence to take and use 300 cubic feet per second, and to store 40,000 acre feet of water out of Kum-ea-lon River which flows northwesterly and drains into Kum-ea-lon Inlet. The storage dam will be located at the natural outlet of Lake Katherine. The capacity of the reservoir to be created is about 1,280 acres, and it will flood about 200 acres of land. The water will be diverted from the stream at a point about at the storage dam and will be used for power purposes upon the land described as below. This notice was posted on the ground on the 4th day of October, 1916. A copy of this notice and an application pursuant thereto and to the "Water Act 1914" will be filed in the office of the Water Recorder at Prince Rupert, British Columbia. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, British Columbia, within thirty days after the first appearance of this notice in a local newspaper. The territory within which the powers in respect of the undertaking are to be exercised is Prince Rupert, British Columbia, and vicinity and along the transmission line between the Power Station and Prince Rupert, British Columbia. The date of the first publication of this notice is November 17th 1916.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Teritory, the Nothwest Teritories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Aplications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.

DELEGATION WILL GO TO OTTAWA

(Continued from Page One.)

ment. It was agreed to grant one new license each year.

A recommendation was made that a Chief Inspector of Fisheries should be located in Prince Rupert.

Mr. Morrow argued that Prince Rupert had become the greatest fish centre on the coast. One thing upon which they all agreed was the religion of fish. They wanted Mr. Cunningham to come here to live.

When the matter of having at least one protection cruiser ply out of here was raised, Col. Cunningham stated that he had pressed this very thing upon the minister.

It was urged that there should be a common license in vogue.

Mr. McIntyre felt that the deep sea fishing fees were too high.

The subject of gas boats was urged, when Col. Cunnngham stated that ths had been up the year before, but the Board wanted to make some further enquiries.

It was urged that hatcheries be placed in all suitable streams in District No. 2.

Col. Cunningham said he had known from experience that the country should have hatcheries. The war had interfered with this expenditure.

A resolution was also included against taking salmon in traps.

Mr. Williams said it was rumored that salmon traps were to be attempted to be introduced on the river. If the traps were introduced it would mean the passing of the fishermen.

Col. Cunningham said that for three years traps had been considered. It was decided last year to allow traps only for fall fish, and then under the strictest regulation, so that no sockeye should be taken. They need have no fear.

There was not an application for a trap license in District No. 2, they would not be granted.

The Mayor, upon the conclusion of the presentation of these resolutions, addressed himself to the two representatives on the situation. He said that the people of the north looked upon the fisheries of the Skeena, the Naas, the north generally as being resources that belonged to this country specially. The people of Northern British Columbia would not stand for the cannery combine, he said.

A resolution to provide against American fishing boats being blacklisted when they came in and got bait and then proceeded to an American port to discharge was introduced.

Col. Cunningham said this had, he understood, been settled at the Customs Department.

Mr. Morrow paid a compliment to the two representatives present. He referred to the fact that Lieut. McIntyre was proceeding to the front, while Col. Cunningham had lost one son and had two others at the front. Referring to the fishing questions, he said that Prince Rupert would fight for getting its rights in this matter unil these were obtained. He did not believe the Commission, when it established rating, had intended to create a combine. Action was taken to protect the fish. He believed Prince Rupert was unanimous in this. It could not be contended that the fish were being preserved by this system.

The Mayor outlined what had been done in the afternoon, when it was recommended to send a delegation east. It was explained that the names of O. H. Nelson, W. E. Williams and G. W. Morrow were suggested.

This motion being put, W. Sibbald moved in amendment, that if Ald. Montgomery were sent they would get just as good satisfaction.

Ald. Montgomery felt that the Mayor should go to Ottawa.

W. Shaw did not approve of this. There were men paid to do this work. There had been excursions each year and economy should be the watchword.

The motion carried.
