Mrs. Peter Annance Tells How Husband Was Deserted

Mrs. Peter Annance Tells How Her Husband Was Deserted By Others

(Special to The Journal.)

Victoria, May 19.—When the chances of trouble coming for Peter Annance were remote; when there was to be just a little talk among Liberal circles and things would soon be blown over, J. T. Scott told Mrs. Annance that he would go behind the bars himself rather than see harm come to her husband for his share in the election plugging work in Vancouver; but when Annance was arrested Scott was no where in sight. This is what Mrs. Annance told the Election Frauds Committee this morning.

Masquerading under the name of "STEWART," the provincial organization worker, about whose head so much of the election corruption appears to centre, went to the Annance apartments in the Royal Alexandra several times after the Liberal inquiry started. He took Annance out auto riding said Mrs. Annance today in corroboration of the story told by her husband on the stand before the committee.

Then when Annance had gone north to his mine on Monday night, after a seance or two with Scott, the Liberal meeting of candidates having taken place on the preceeding Saturday, two weeks after the election, Scott dropped in to see Mrs. Annance. She swore today on the stand that he told her that as he was without ties he would stand behind Annance to the limit and would see that in case of trouble Annance was not harmed. He, Scott, would go behind the bars instead.

In the name of "STEWART" he had wired her on one occasion from Seattle, she said. One day when he had visited her he left twenty-five dollars in bills on the table. The last call he paid he told her he was going to change his phone number and would communicate with her later, she never saw or heard from him again.

John L. Sullivan spent an hour on the stand before the committee again today, going over much the same evidence given yesterday morning. An interesting part of his testimony was his account of his endeavor to get Clancy, the Seattle road-house keeper, who garnered in the pluggers at Seattle, to tell a story of the affair.

Clancy was quite frank about the plugging, seeing that he was safe on the American side, but he said it was worth five thousand to him to stay away from this side of the boundary line, and Monty White would not come up to give evidence although Sullivan pressed him hard. Monty said Sullivan was too late in talking to him, some one else talked first.

GERMANS RESUMED VERDUN ATTACK

GERMANS HAVE NOT ACCOMPLISHED MUCH IN THE MOVE

Slight Advantage Won By The Huns, But Little Ground Gained.

Paris, May 19.—Violent fighting on a large scale has been resumed on the Verdun front. Two fresh divisions of German troops have attacked the French positions at Avocourt Wood and Hill 304. The war office reports that these attacks have in the main been unsuccessful, though the Germans succeeded in gaining a footing at a small post south of Hill 287.

The Germans attempted to recapture a small fort on the north-east slope of Hill 304, which the French had taken on the preceeding day but their efforts failed.

AUSTRO-HUNGARIAN ATTACK PLANNED

HUGE FLOTILLA ASSEMBLED AT FIUME TO CARRY TROOPS AND MUNITIONS

Attempt Expected To Be Made Upon Avlona Now Held By Italy.

Paris, May 19.—A hundred and fifty ships have assembled at the Hungarian port of Fiume. These are to transport troops and munitions under the protection of the Austro-Hungarian fleet to Durazzo, in Albania.

It is supposed the Austrians intend to make a strong attack upon the Albanian town of Avlona, which is occupied by Italians.

Work Has Started On Gosse-Millard Cannery On Skeena

As has been announced some time ago in these columns, there is to be a new cannery on the Skeena this season. Capt. R. E. Gosse, one of the most successful cannerymen on the Pacific, has been here for several days in connection with the work and has already got started at the site. It will be operated as one of the Gosse-Millard canneries on this coast.

Capt. Gosse is a self-made man. He knows the fishing business thoroughly, having followed it in Newfoundland before he came here. It is twenty-nine years since he came to the Pacific coast, and he soon drifted into the cannery business on the coast. His ventures have proved eminently successful, and this centre is to be congratulated upon his advent to its business life.

Capt. Gosse, having once decided upon a course is not slow to carry into effect his plans. With a site between the Inverness Cannery and the North Pacific, close to the latter, he has started upon the pile driving and the erection of the buildings. Although the season for fishing is close at hand Capt. Gosse expects to be running and put up nearly 20,000 cases of salmon this season. The cannery will have a capacity of 25,000 cases and will be modern in every respect, for Capt. Gosse believes in having things the best procurable.

Hal Peck has a gang at work putting in piles and is delivering lumber as fast as it can be obtained from the Georgetown Sawmill. A mess house is erected and a start made on the store. The necessary buildings for the employees will all be got ready without delay to be in position to handle the fish at the opening of the season.

The new cannery will adopt the sanitary can. These will be made at one of the other cannery sites operated by the company, and will be brought here ready for use. The rest

Prince Rupert's Bonds Taken Up By Spitzer Rorick & Co. In New York And Proceeds Used To Retire Obligations

The following message received yesterday at the City Hall will be a decided relief to the citizens of Prince Rupert as it was to the members of the council:

New York, N. Y., May 19, 1916.

"O. H. Nelson,

Prince Rupert,

"Satisfactory arrangements made. Deal completed today. Money goes forward to Prince Rupert.

M P. McCAFFERY."

This means that the financial negotiations which the Mayor and Council has had in hand from shortly after taking office have been brought to a satisfactory conclusion, and the serial bond issue which takes up the $1,620,237.73 of outstanding liabilities has been actually purchased by the turning over of the money for them. The buyers are Spitzer, Rorick & Company, of Toledo, Ohio, one of the strongest bond houses on the continent. The actual trading in the bonds was through the Bank of Montreal in New York. The sale leaves the city in the position of having all its indebtedness bonded and placed. Until some new work is undertaken in the city there will be no necessity for any succeeding council to find a market for bonds or to arrange for temporary financing, except that of the ordinary carrying along of the operating expenses of the city pending the receipt of taxes for the year.

With the proceeds of the funds that are derived from the sale, part at 87.50 and part at 95, the Treasury Certificates held in London amounting to $989,150 will be retired. In addition to that the $377,010 worth of certificates that the Bank of Montreal holds will be redeemed also, and with it $123,237.33 loaned on debenture hypothecation. There has also been a loan of $18,975.91 from General Fund.

This represents an expenditure that has been made by the city of $1,508,409.24 on various works in the city out of a total issue authorized under bylaw of $1,620,237.73.

The financial situation in the city is decidedly improved by the sale. This city is well able to take care of the annual instalment required to meet the demands connected with the bond issue. Mayor McCaffery, since his election, has centred his whole thought on the sale of these bonds, and has been backed up by the Council at every move.

It is anticipated that Mayor McCaffery and the City Treasurer, E. D. Johnson, will leave very shortly for home. The Mayor will return by way of Montreal, where he will discuss with the President of the G. T. P. matters affecting this city's interests.

Wooden Schooners To Be Built In Vancouver Under Provincial Aid

Vancouver, May 19.—The Wallace Shipyards have secured a contract for the construction of three wooden auxiliary schooners. A start will be made next week. The keels will soon be laid.

The amount involved in the three hulls is $400,000. The cost of the machinery is to be additional to this.

The schooners will be built under the provisions of the British Columbia Shipping Bill, which the Government has introduced into the Legislature.

BRITISH ATTACKED FORT NEAR BORDER OF PALESTINE

London, May 19.—British warships and aeroplanes bombarded the town of Elarish in Egypt, near the border of Palestine. It is believed that they have destroyed the fort there.

MINES LOOKING WELL IN THE HAZELTON DISTRICT

R. P. Trimble, Of Portland, Arrived Last Evening On His Way South.

R. P. Trimble, who is deeply interested in mining properties in the Hazelton district, arrived in the city last night. He leaves for Portland this morning but will return to this part in about two weeks time.

Mr. Trimble says the operations in a mining way in the interior are showing up good results. The compressor drill plant for his property, the Cassiar Crown, is coming from Spokane by way of the G. T. P. He will do considerable work on it this summer.

The development on the Great Ohio, Mr. Trimble says, is showing that property up in a very satis-

ARREST MADE OF SUPPOSED ACCOMPLICE OF SIR ROGER CASEMENT

London, May 19.—An important arrest was made last night in connection with the attempted landing of arms on the south west coast of Ireland on Good Friday at Tralee.

John G. Goodwin is under arrest here. It is believed the case is connected with the landing of Sir Roger Casement.

BOND WAR CLAUSE.

The sale of the two million dollars' worth of Alberta five per cent. bonds in Toronto last week, has given rise to an acrimonious discussion in financial circles. Twelve bids were received. The highest, that of Wood, Gundy & Co., was accepted, but it was found to contain this clause:

In the event of war being declared between the United States and Germany the right is reserved to withdraw this offer in so far as the unsold balance of the bonds is concerned.

Other tenderers have objected, saying that this clause gave the successful firm an advantage, and it must be admitted that their complaints are warranted. All should have been able to tender on the same basis. One broker declared that his bid would have been one point higher if he had been able to eliminate the war risk.

The impression gathered by the Monetary Times from interviews with the bond houses is that borrowers asking tenders for issues of any considerable size, will in future probably have to consider the question of war clause. One broker stated that for any future issues under similar conditions, he would submit alternative bids, one including the war clause and one without that clause.

BRITAIN'S TRADE.

It seems incredible that Great Britain is maintaining her productive power and is adding to her wealth in the midst of this war, as Sir George Paish claims, but the figures speak for themselves, says the N. Y. Commercial. The United States is paying toll to England for shipping facilities at the rate of fully $600,000,000 a year, and the total increase in earnings of British shipping last year was in excess of $500,000,000 a year, more than half of which came from American importers and exporters. German commerce and shipping on the high seas have been wiped out. British ships are now carrying more than half of the world's overseas trade at shipping rates that are making vessel owners rich beyond their wildest dreams.

Great Britain receives more for carrying merchandise on the high seas than would pay the interest and provide a sinking fund to retire her total war debt as it stands today.

TIMBER SALE X 597.

Sealed tenders will be received by the Minister of Lands not later than noon on the 7th day of June, 1916, for the purchase of Pulp Licence X 597, to cut 3,924,000 feet of Spruce, Balsam and Hemlock, on an area adjoining L 730, Lake Island, Mathieson Channel, Coast District, Range 3.

Two (2) years will be allowed for removal of timber.

The Morning Journal delivered to your home at 50 cents a month.

TIMBER SALE X 605.

Sealed tenders will be received by the Minister of Lands not later than noon on the 23rd day of May, 1916, for the purchase of Pulp Licence X 605, to cut 691,000 feet of Spruce, Hemlock, Balsam and Douglas Fir, on an area adjoining T. L. 3,417, Dean Channel, Coast District, Range 3.

One (1) year will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. 1t.

GARDEN COMPETITION.

The Provincial Department of Agriculture is offering cash prizes for City Gardens as follows:

Three prizes in each class.

CLASS I.

House Garden where occasional labour is employed for the work.

1st. 2nd. 3rd.

CLASS II.

House Garden where all work is done by occupant and family.

1st. 2nd. 3rd.

CLASS III.

Ordinary lot, without house. Area cultivated to be not less than (1,000) sq. ft. (i.e. 22 ft. by 50 ft.; 30 ft. by 33 1-2 ft.; or 40 ft. by 25 ft.)

Judging will be done chiefly from the standpoint of utility.

1st. 2nd. 3rd.

An entrance fee of one dollar will be charged.

Final judging to be done about end of August (dependent on season).

Plots must be staked or clearly defined in some way.

Competitions open to all citizens of Prince Rupert.

Apply by letter to

A. R. NEALE,
Department of Agriculture,
City.

Any literature or information in connection with the work may be had by applying to the same office.

All those desiring to enter will please send in their applications as soon as possible.

NOTICE.

Notice is hereby given to firms and individuals who sell provisions or other supplies to Stewards of Canadian Government Ships under this Department, that the Department is not responsible for debts contracted by such Stewards.

Clause No. 8 of Contract with Stewards, covering the Victualling of such Ships reads as follows:—

"It is distinctly understood by the "parties hereto that the said Department shall not be responsible for "any debts contracted by the said "Steward, and the said Steward "agrees to notify all persons with "whom he wishes to contract for the "purchase of any such provisions, "store or groceries, and before con-"tracting for same, that the said De-"partment, shall not be responsible "for any debt to be contracted by him "in that or any other respect."

TIMBER SALE X 611.

Sealed tenders will be received by the Minister of Lands not later than noon on the 31st day of May, 1916, for the purchase of Licence X 611, to cut 4,969,000 feet of Spruce and Hemlock on an area adjoining Lot 1,548, Shannon Bay, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. m8-4w.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

LUMBER MILLS TRANSPORTATION

PROVISION IS MADE WHEREBY PRODUCT OF QUEEN CHARLOTTE MAY BE MOVED

There Will Be Accommodation Given To Get Cut Taken Away.

The lumber mills on the Queen Charlottee Islands that have been having some trouble getting the vessels required to carry their product may now expect a change in conditions. W. Barton, who has a mill at Port Clements, is now in the city. He has consulted with those who control the boats and says there will be a plentiful number of sailings from now on. The Albert is to make two trips, the John will later make a trip, The British Columbia will call there and the Maquinna, he states, will also call for lumber.

This will allow ready shipments to the south, where the lumber can be put on board boats bound for the Old Country. This will be a decided advantage to all the mills on the Islands.

HOW THE BELGIANS ARE BEING ASSISTED

Food Sent To Rotterdam And Thence Into Stricken Country.

Many people may be interested to know through what processes the dispensation of relief to the three million starving people of Belgium goes in order to reach its destination with the assurance that none of it reaches the Germans. Donations of money or in kind turned into branches of the Belgian Relief work all over Canada are in turn delivered into the hands of the Belgian Relief Committee, 59 St. Peter Street, Montreal, which is the official outlet for Canada. This in turn goes to the neutral commission, which, through the mere fact that it is neutral, prevents Germany from profiting by the relief sent to the Belgians.

Cargoes of food are sent to Rotterdam and thence by train into Belgium. In Belgium there are 125 central warehouses under the control of Americans and from these warehouses the necessary food and other supplies are issued to 4,000 Belgian communal committees. These committees re-issue the food to the Belgians as it is needed and hand out the other supplies as permitted by the amount arriving.

Since the relief work was first started the national committee has handed to the neutral commission over $6,000,000 collected from British sources alone. This is but a drop in the bucket. Three hundred and fifty thousand dollars a week is needed to carry on the work and this only represents three slices of bread and a pint of soup daily for the starving Belgians.

These seven million loyal Belgians —loyal not only to thir own country but to their pledge to the British Empire—must be fed. Canada must help. Ten cents a day will feed one and keep starvation from helping Germany win the war. No amount is too small to give to this deserving cause.

CANADA SENDS MORE GOLD TO THE STATES

Total On Movement Brought Up To Over Four Million Dollars.

J. P. Morgan & Company deposited last week end with the assay office $1,700,000 in gold bars, imported from Ottawa. Two shipments, totalling $2,256,000, were received previous to this, so that the consignment made a total of $4,056,000 on this movement, which marks the first considerable flow of gold from that point since November, 1915.

A great deal of interest was aroused in the financial district by the resumption of these shipments, and it was reported that the Bank of England has prepared to relaese from $10,000,000 to $20,000,000 for shipment to New York. The immediate cause is said to be due to the decline in sterling, caused by heavy purchases which England is making here, for herself and her allies.

The resumption of gold shipments was discussed in relation to the British selling of American securities. It is asked, does this gold movement mean that England is reaching the bottom of the box in distributing American shares and bonds? That assumption found support in recent assertions that foreign liquidation in this market had about run its course. In spite of the large sales of securities here, however, this opinion is not prevalent in the financial district, for England has never shown any disposition to sacrifice those securities in an erratic market.

Some say the answer is found in the opening of navigation on the Great Lakes and the movement of grain to seaboard; and that the gold has been sent to meet the flood of grain bills.

of the equipment will be of the latest design.

J. F. Strang is here assisting Capt. Gosse in the carrying into effect of the proposition, and will spend considerable of his time here, at least until the works are in full running order.

Capt. Gosse is very well pleased with Prince Rupert. He has noticed, he says, a general disposition on the part of all whom he has had dealings with to aid in every way possible to expedite the work, so that he can be ready for the opening of the season. In this matter, he says the G. T. P. has been exceedingly accommodating, allowing him every facility for getting the supplies laid down right at the site.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, Prince Rupert, B. C., April 9, 1914.
"The Reliable Plumber,"
Prince Rupert, B. C.,

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More — The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient — In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials — There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely — Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.

THE GOVERNMENT OF CANADA 5

THE DEPARTMENT OF AGRICULTURE THE DEPARTMENT OF FINANCE
