MAY WORK COPPER RIVER IRON DEPOSITS

Request On High Cost Of Living Before City Council

Success Is Attending Allies Against The Enemy's Lines

Rumored That Iron Properties In District May Be Investigated

There is a rumor that the iron properties on the Copper River are to be investigated by representatives of British capital, with the idea of carrying out development work there. The report is that, if the deposits prove satisfactory they will be worked. It is even rumored that steel works are in contemplation here, with the ship yard in view as one field for supplying.

The iron deposits on the Copper River are some little distance from the Skeena, but easily brought out by means of a railway that can be built right to the place.

There has been considerable work done at the property proving up the character of the deposit. It has been proved to be a very extensive area. The iron is a limonite and occupies a large basin. It is easily worked and readily shipped to the railway. John V. Rittenhouse of this place has held a large interest in these for some time and has been seeking to interest capital in them.

The ore, according to analysis, has over 50 per cent. iron in it. The rail connection with the G. T. P. would be only about 60 miles up the Copper along an easy route. Developed to its fullest, the raw material for most entensive rolling works could, it is promised, be found there and the material for operating the ship yards here be found right at hand.

CANADIAN BOATMEN TO CARRY SUPPLIES UP EUPHRATES

Prince Albert, Jan, 2.—A commission has been forwarded by the British Government to Capt. J. M. MacLeod of this city, to recruit fifty boatmen who are to be employed at river transport service on the Tigris and Euphrates Rivers in carrying up supplies to the British troops fighting the Turks. The project in which these men from Canada will be engaged is believed to be similar to that in which those who went from Canada for the Nile expedition were occupied. Captain MacLeod was the pioneer in steam navigation on the Peace River and he has operated boats on practically every large river in Canada.

It is understood that five hundred river men from all over Canada are to be assembled at Montreal to go to England for training.

RUSSIANS ARE HOLDING BACK GERMAN ENEMY

Petrograd, Jan. 2.—South of the Pinsk the enemy has made several attempts to advance but the Russians have repelled every German effort. The Germans are using asphyxiating gas shells in an attempt to relieve the Russian pressure southwest of Brody on the Galician front.

RIOTS IN ONTARIO CITY OVER CHANGE IN ITS NAME

Kitchener, Ont., Jan. 2.—Following a sweeping election victory confirming the changing of the name of Berlin, Ont., to that of Kitchener, members of the 118th Battalion, on furlough, paraded the streets of the town. One person, opposing the changing of the name of the town from Berlin, endeavored to mutilate a Union Jack, which led to rioting. The soldiers raided a newspaper office twice, doing considerable damage.

Two of the newly appointed councilmen were injured during the riots, one of them being rendered unconscious through concussion of the brain. On the arrival of troops from Galt, Ont., the Mayor declared the town to be under martial law.

PATRONAGE SYSTEM RUNS UP AGAINST AN OBSTACLE

The Victoria correspondent of The Vancouver Province has the following reference to a local man:

"It is said that Mr. William Manson of Prince Rupert, has been asked for his resignation as Chairman of the Agricultural Board which loans money to farmers. A new incumbent is ready to take the position. It is said that Mr. Manson has not yet agreed to put in his resignation.

"The legislation providing for the loans provided for the appointment of a chairman for ten years' service and it is a question, according to the views of friends of Mr. Manson, whether he can be dismissed without a vote of two-thirds of the legislature and then only 'for cause.' "

WAS SENTENCED TO SIX MONTHS' TERM

WILLIAM MURRAY GOT OFF LIGHTLY FOR HIS CRIME

Judge Young Gave Him Advice As To His Actions.

William Murray, convicted of taking the belongings of Rev. A. E. Price from a grip on board the steamer Princess Beatrice, was yesterday given his sentence by Judge Young. He was sentenced to six months at the Okalla Farm.

The circumstances connected with the crime are well remembered. Murray is held guilty of having got possession of the grip on the way north and to have cut it open and entracted a set of teeth with a gold plate and some other things. The grip, with the remainder of the articles in it, is believed to have been cast overboard. The convicting articles were found in his blankets when he reached Anyox.

The judge asked him yesterday if he had anything to say why sentence should not be pasesd upon him.

He said all he could plead for mercy was because of his aged parents, of whom he was the only support since his brother went to the war.

The judge interjected that it would have been to his credit had he gone to the war instead of stooping to such a mean offence as he did.

His father, he said, was 80 years of age. He gave his own age as 39 years. He had sent all his earnings a while before to his parents.

The judge said he could not overlook such an offence. Stealing on board a boat was regarded as a very serious thing. He was going to take into account the fact that he was drunk, although he did not need to make allowance for it. He thereupon sentenced him to six months.

LATE MINISTER BURIED IN HOME CITY YESTERDAY

Montreal, Jan. 2.—Hon. T. Chase-Casgrain, late Postmaster-General, was buried here this morning. Among those attending were the following members of the Cabinet: Sir Thomas White, Hon. J. D. Reid, Hon. Robt. Rogers, Hon. J. D. Hazen, Hon. P. E. Blondin and Hon. L. A. Patenaude.

FRENCH HELD BACK ALL ATTACKS OF THE GERMANS

Paris, Jan. 2.—In the Champagne district, after a violent artillery bombardment of the French trenches, the Germans made successive infantry attacks on the French advanced posts at Auberive. They were completely repulsed.

The enemy directed a heavy surprise attacks against the trenches captured by the French the other day at Chambrettes farm and at this point also they utterly failed in their object.

Upon his arrival here last evening, W. Goldbloom received word that a nephew of his who went to the front from Winnipeg with one of the Canadian battalions had been wounded.

Sale starts Thursday morning, this week, Wallace's. 3t.

High Cost Of Living Again To Front At Council Meeting

At the council meeting last evening the Mayor was absent owing to illness. On motion, Ald. Nelson was elected acting Mayor for the meeting. Among the subjects that came up was the question of the high cost of living, when the report from the committee of the whole was presented, recommending the laying over of the decision until the City of Vancouver was communicated with. At the same time a resolution from the Nanaimo Council was read. It contained the following as the active principle of the resolution:

"Whereas the Dominion Government has taken some steps regarding the High Cost of Living at present prevalent throughout Canada, yet it appears to the people in general that something further must be done.

"Be it therefore resolved that more drastic action be taken to regulate the export of foodstuffs, to protect first home demands; to remove tariff barriers on foodstuffs required in Canada; to fix prices on wheat and to regulate selling prices of the same as far as possible.

"Be it further resolved that the Government investigate or cause to be investigated the cost of producing canned goods, sugar, flour, etc., which are believed to be under monopolistic influences and fix a reasonable price on same."

The report of the committee of the whole was adopted and then Ald. Montgomery moved the adoption of the Nanaimo resolution.

Ald. Casey objected to that move at the time. He thought that resolution should stand over until the city's own investigation was to be acted upon. To do otherwise was jumping to a conclusion somewhat on what the council had investigated. He pointed out that the Government, through the placing in he field of a vast army, had become a buyer in the market in competition with the rest of the purchasing world. The Government might feel it its duty to pay even higher for food products and for clothing than the rest of the buyers paid, and thus had something to do with the increase in the rates.

Ald. McRae agreed with Ald. Montgomery, that this resolution was well timed. It did not interfere with the local investigation in the least. The feeling he had, was that the trouble in no small part lay with the "higher-ups."

Ald. Casey's amendment to let this lay on the table until the council dealt with the local investigation carried.

BRITISH TOOK GERMAN TRENCHES NEAR ARMENTIERES

London, Jan. 2.—British patrols entered the German trenches east of Armentieres yesterday.

The enemy artillery has been particularly active north of the Ancre, on the Somme front, and there is considerable fighting on both sides of the Loos salient and at Faquissant on the Ypres front.

GOVERNMENT MAY BUY DRINK TRADE

Step Favored By Lloyd George—In Any Event Further Restrictions.

The purchase of the drink trade in Great Britain by the state is believed to be imminent, says The Daily Express.

"The matter has been closely considered by the Liquor Control Board during the last fortnight," continues the newspaper. "Several members of the board have long advocated the purchase and the change in the Government has brought a renewal of their argument."

The Express quotes Sir Thomas Whittaker, member of Parliament as saying that David Lloyd George, the Prime Minister, is known to favor the step, while several of the Unionist members are understood to agree with him. Sir Thomas believes a bill calling for the purchase would pass the House of Commons without difficulty.

Sir Thomas Whittaker was Chairman of the committee which advocated the purchase in 1915, when the cost of the plan was estimated at between £250,000,000 and £300,000,000. Since then, however, the Government has interfered drastically with the production of spirits.

The Daily Express asserts that further great restrictions in the manufacture and sale of alcoholics are certain in the immediate future, whether or not the purchase plan is put into effect.

DISTRESSING ACCIDENT AT SWANSON PULP MILL SATURDAY

On Sunday afternoon the steamer Princess Beatrice arrived here on a special trip from Swanson Bay with an employee of the Swanson Bay Pulp Mill on board. He was taken to the hospital, where he is being treated for a very dangerous accident which befell him.

The man is named W. Willett. As far as can be ascertained a band saw snapped and flew up through the roof of the mill near to where he was working. He was struck by the steel band as it descended and his head was badly lacerated.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Teritory, the Nothwest Teritories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Aplications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights re not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

PROSPECTING IS AN INSTINCT

SOME INTERESTING LESSONS FROM THE COLORADO MINING FIELD

Knowledge Of Geology And Mineralogy Essential To Good Prospecting.

The mining and Financial Record, Denver, Colo., says:

Is prospecting a business, a profession, an art or a recreation? Perhaps it partakes a little of all these characteristics, but it has an individuality of its own which gives it a not inartistic distinctiveness, says The Leadvill Herald Democrat. Mining is a matter-of-fact business that lends itself neither to romance nor sentimentality, in spite of the delightful stories told by the moving pictures, and the marvelous flights of fancy of those who draw pictures of mining camps form their eastern viewpoint. The gentleman of imaginative turn of mind who sometimes writes prospectues may seek to cover the mining business with the flamor of golden profits that are too often more fanciful than real. But we all know that mining itself is a hard pursuit in which imagination has little play and which is constantly down to the hard pan of dollars and cents.

But mining had to serve some ideals, some phases apart from the strictly business side, and yet with a dash of the practical, and that is why the prospector has always played such a picturesque part in the history of the great industry. It is his figures that the artist draws and his thoughts and emotions, aspirations and dreams that the poet sings.

Prospecting is an instinct, not a business. The man who combs the hills does so in response to a call—the call to adventure, to the life that is near nature, and to the rainbow dream of the future. The old breed that left the cities and the farms for the trackless west is now all gone, and prospecting since the days of the railroad is largely an incidental matter in the life of the practical mining man. Why should one go into the mountains with a burro when one can reach the most promising sections in a pullman car, or carrying a frying pan and side of bacon in the tonneau of a super-six?

After all, this search for indications of ore, for traces of veins, for mineral possibilities of any description, must be based on a knowledge of geology and mineralogy. The old prospector followed a few well known rules. He knew his "blossom rock," and his outcrop. He spent much of his time in panning the gulches for placer indications, and he was more frequently in the early day resorts where men do congregate to interest the tenderfoot in his claim or to secure the much coveted grubstake to develop his ground or to engage in further prospecting.

One would like to see more young men take to the business of prospecting and give it the necessary standing and responsibility as a distinct and definite line of endeavor. Why should there not be a profession known as "prospect engineering," devoted to the work of discovering and locating mineral ground? The Colorado School of Mines has already realized the importance of this work by offering a course of instruction in prospecting, designed to equip the student with the elementary but specialized knowledge necessary to know some of the secrets of the hills. We find men who devote themselves to the work of developing and operating mines, others who plan or manage all kinds of ore dressing plants. These men take the proposition after the ore has been discovered. Why not lift prospecting out of the clouds of myth and mere picturesqueness, and dignify it as a distinct profession?

Colorado and the west is platted and mapped and its geology an open book through the work of the federal and state surveys. Its mountains have been walked over and its canyons explored. Is there anything left for the would-be discoverer to discover? The men who are most familiar with the hills and gulches say yes. The experts say yes. There is room for the scientific prospector, for a new profession in the west.

POLARIS BROUGHT IN GOOD CATCH OF FISH

She Had 55,000 Pounds, Which Were Sold To The Cold Storage.

The fishing schooner Polaris, Capt. Egill Euksen, arrived in port New Year's with 55,000 pounds on board. She sailed again for the banks last evening. The Polaris had been out about twenty-two days.

Capt. Euksen says he encountered some of the worst weather he has ever seen in fourteen years experience on the coast during this fall. It was worse than that in which the Onward H_0 was lost last winter.

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Orme, Pioneer Druggist. g-c.

Production and Thrift

"CANADA from her abundance can help supply the Empire's needs, and this must be a comforting thought for those upon whom the heavy burden of directing the Empire's affairs has been laid. Gain or no gain the course before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle. Stress and strain may yet be in store for us all before this tragic conflict is over, but not one of us doubts the issue, and Canadians will do their duty in the highest sense of that great word."—*HON. MARTIN BURRELL, Minister of Agriculture.*

"MODERN war is made by resources, by money, by foodstuffs, as well as by men and by munitions. While war is our first business, it is the imperative duty of every man in Canada to produce all that he can, to work doubly hard while our soldiers are in the trenches, in order that the resources of the country may not only be conserved, but increased, for the great struggle that lies before us. *'Work and Save'* is a good motto for War-time."—*SIR THOMAS WHITE, Minister of Finance.*

THE CALL OF EMPIRE COMES AGAIN

TO CANADIAN FARMERS, DAIRYMEN, FRUIT GROWERS, GARDENERS

WHAT IS NEEDED? THESE IN PARTICULAR—

WHEAT, OATS, HAY,
BEEF, PORK, BACON,
CHEESE, EGGS, BUTTER, POULTRY,
CANNED FRUITS, FRUIT JAMS,
SUGAR, HONEY, WOOL, FLAX FIBRE,
BEANS, PEAS, DRIED VEGETABLES

We must feed ourselves, feed our soldiers, and help feed the Allies. The need is greater in 1916 than it was in 1915. The difficulties are greater, the task is heavier, the need is more urgent, the call to patriotism is louder—therefore be thrifty and produce to the limit.

WATER NOTICE.

Take notice that G. R. Naden Company Limited, whose address is Prince Rupert, British Columbia, will apply for a licence to take and use 300 cubic feet per second, and to store 40,000 acre feet of water out of Kum-ea-lon River which flows northwesterly and drains into Kum-ea-lon Inlet. The storage dam will be located at the natural outlet of Lake Katherine. The capacity of the reservoir to be created is about 1,280 acres, and it will flood about 200 acres of land. The water will be diverted from the stream at a point about at the storage dam and will be used for power purposes upon the land described as below. This notice was posted on the ground on the 4th day of October, 1916. A copy of this notice and an application pursuant thereto and to the "Water Act 1914" will be filed in the office of the Water Recorder at Prince Rupert, British Columbia. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, British Columbia, within thirty days after the first appearance of this notice in a local newspaper. The territory within which the powers in respect of the undertaking are to be exercised is Prince Rupert, British Columbia, and vicinity and along the transmission line between the Power Station and Prince Rupert, British Columbia. The date of the first publication of this notice is November 17th 1916.
