GERMANS MAY TRY NEW OFFENSIVE NEAR RHEIMS

FRENCH ARMIES IRRESISTIBLE IN THEIR CHARGES

Two Thousand Of Brandenburgers' Corps Now Cut Off

At Opening Of Legislature New Member Was Introduced

Germans May Try New Offensive Near Rheims ---Bravery At Verdun

London, March 2.—The Germans are carrying on heavy bombardment of the French lines between Rheims and Soissons, on the part of their front lying nearest to Paris. It is believed the Teutons are preparing for a new offensive there.

WAS DESPERATE FIGHT.

New York, March 2.—A despatch from Paris says that in the attack at Douaumont, the fort changed hands four times, until finally the Breton Corps of the French army was brought into action.

Their charges were irresistible. They came through the storm of German shells, routed the famous Brandenburger corps and drove the Germans back beyond the village of Douaumont.

GERMANS PRISONERS.

North of the fort two thousand of the Brandenburgers remain in a fort, which is now well within the French lines. The French are not wasting time in attacking them, but have placed a guard to watch until hunger brings the Germans out to surrender.

LEGISLATURE WAS OPENED YESTERDAY

M. A. MACDOALD INTRODUCED TO SPEAKER BY PREMIER AND PARKER WILLIAMS

Leader Of Government Deals With The Wild Charges Of Corruption.

Victoria, March 1.—Lieutenant-Governor Barnard today opened the last session of the Provincial Legislature.

M. A. MacDonald, the junior member for Vancouver, entered the House between Premier Bowser and Parker Williams.

The debate on the speech of His Honor will be taken up tomorrow afternoon; the House proceeding straightway to business.

Premier Bowser has given out a statement regarding the election of M. A. Macdonald in Vancouver. He said:

"So far as I am personally concerned I bow with all grace to the decision of electors of Vancouver. I hope and think that when the time for the general election comes and I have had a chance to place on the statute books of the Province various suggestions which I have made, and

Kelp Plant May Be Established Here On Commercial Basis

Kelp works are contemplated here. The headquarters may be either in Prince Rupert or near by, use being made of the great quantities of kelp that are found at many points along the coast near here.

There arrived in the city yesterday Joseph McFarlane, of Nokomis, Sask., and T. Mohler, of Victoria, who have in contemplation the carrying into effect of the scheme. They will make investigations on the ground.

This is not an entirely new scheme. Near Sidney, not far from Victoria, the work is being carried on, and recently encouragement was held out to any who would go into the enterprise. It was urged that there was a good field for operations, more particularly in view of the fact that the war had interfered with the supply of products got from the kelp when treated. Among these was potash, which has formerly been a by-product, but which now became a valuable feature of the work.

TO URGE REFINERY FOR THE NORTH

HON. WILLIAM MANSON POINTS TO THE HEAVY PRODUCTION OF COPPER

The Northern Part Is Credited With 60 Per Cent. Of The Output.

Hon. William Manson, in an interview given in Victoria, spoke of the development in this district, laying stress upon the copper production and its importance in connection with the general production of the Province.

"There is a strong inclination in favor of the establishment of copper refineries," said Mr. Manson, "and when the time comes for action I intend to urge upon the Government the advisability of establishing of a refinery in the north. Over 60 per cent. of the copper produced in British Columbia last year came from the northern portion of the Province."

LOCAL SOLDIERS MAY LEAVE FOR THE SOUTH

It Is Reported They Will Go South To Rush Training Through.

It is reported that the Prince Rupert Company of the 102nd Battalion may leave here shortly for Comox to undergo training. Col. Warden has the quarters available for them and wants to get the whole battalion down to training together.

Those who intend to join the local company may not have long to do it. If they want to get in they should do so at once.

R. B. McGinnis Says His Company Will Put In Plant To Handle Four Hundred Tons Of Ore A Day At The Alice Arm Mines

R. B. McGinnis, who is the active head of the syndicate that owns the Dolly Varden mine at Alice Arm, went on to the new mining camp last evening by the G. T. P. steamer. There accompanied him Messrs. Singleton and Littlejohn, who are tendering on the building of the wharf and the road at Alice Arm. Mr. McGinnis wishes to get work started there very shortly. He does not want to lose any time in starting the construction and getting the mill working there.

It will take probably three months to put in the road, according to Mr. McGinnis. The distance is eighteen miles, and as soon as it is finished the plant for the milling process will be taken in over it and installed.

Mr. McGinnis expects to instal a plant capable of hnadling about 400 tons of ore a day. It will be located so that the ore from the second workings, which are about three miles from the original one can be taken care of by the same plant.

In the new workings the body is showing up larger than in the old one. The vein is 60 feet in width. The ore carries its main values in silver, with gold and lead supplemantary to that. The process that will be used at the mine for the separation of the ore will be the oil flotation process, which has now come into prominence.

It is expected that there will be employed in the construction work there, at the opneing of the season at least 350 men. This will not include those that are to be working in the mines, getting ready for the opening up of the works. The road should be ready to allow hauling over it by about mid-summer, Mr. McGinnis thinks.

The prospects for a very lively camp at Alice Arm this summer are exceedingly bright. This camp should be directly tributary to Prince Rupert. Already there is an agitation abroad to have direct connection by boat of some kind with the opening up of the work there in earnest. The distance is put at about 120 miles. A small craft could give the connection necessasry for some time, until the larger companies provide a regular steamer service. It is quite within the range of possibility that there will be at least 1,000 men at Alice Arm within a very few months.

TO SPEND WELL ON TO A MILLION

TONOPAH - BELMONT COMPANY WILL DO GREAT DEVELOPMENT WORK

Surf Inlet Will Be The Scene Of Activity From Now On.

It is reported that the Tonopah-Belmont Company that now holds the Surf Inlet mines will spend about three-quarters of a million dollars in developing the property there. This mine, which is a gold producer, is another of those that comes within the influence of Prince Rupert, being only about 120 miles from here.

A great dam will be built, which will raise the height of the water so that several portages that are now a drawback to the operating of a boat will be wiped out, and it will be possible to have a boat traverse the whole length.

TO SERVE CAMP.

Prince Rupert is to have, within a very short time now, some most promising mining camps within easy reach of the place, unless the signs are most deceptive. Surf Inlet and Alice Arm, to mention only two of them, will be the headquarters of well on to 1,000 men each within the next few months. The trade of these camps should come to Prince Rupert. To serve that trade is a difficult question to settle. If conditions were normal in this country the solution would be simple, for local residents would see that a service by not too large a vessel was provided. It seems to be necessary to have such a service out of the city to meet the convenience of those two camps at least and to bring the trade to Prince Rupert. This is a question that should be looked into by a body like the Board of Trade, with the object of seeing if nothing can be done.

when the people have had a chance of going over them and of appreciating their effect, after sober second thought that they will realize that all of the sins and omissions and commissions which were laid at my door will be found not to be justified.

"The people of Vancouver have always been independent, and feeling that some opposition was required in the House they have given effect to that wish. They will be able to judge during this session what benefit may be given the public by Mr. Macdonald as member of the Opposition. Mr. Macdonald stated publicly that this was the most corrupt government in Canada. I will give him every opportunity to prove that statement. If he so wishes, he will be placed on every committee of the House, including the public accounts committee. Every department will be open for this inspection and every office will be instructed to give him all assistance to get at this 'corruption.' If I am surrounded by a corrupt government, then I should be the first to be made aware of it, and I will be the first to institute reforms, no matter on whose head the punishment may fall.

"On the other hand, Mr. Macdonald owes it to his constituents and to my own to make good his charges of corruption. I will certainly not place a single obstacle in the way of his desire to investigate every single department of the service."
