GERMANY THREATENS REPRISALS AGAINST BRITISH

Austrian Cruiser Reported Sunk In The Adriatic Sea

Artillery Duels In Progress Along The Western Front

Active Fighting By Artillery At Points On Western Front

Paris, Jan. 14.—An official report says there has been slight activity on the part of the artillery during the night in Champagne. Our fire reached and dispersed German troops which were in movement over sections of the trenches at Butte de Mesnil.

MORE ARTILLERY ACTIONS.

London, Jan. 14.—An official report states that the enemy's trenches about Givenchy have been heavily bombarded. Considerable damage was done to the parapets. The artillery has been active on both sides about Kemmel and Hill 801.

TO THE ELECTORS.

Kindly accept my sincere thanks for the splendid support given me at the polls yesterday. In return, I shall do my utmost for the welfare of the citizens as a whole.

Very truly,

GEO. B. CASEY.

EXCELLENT HOCKEY GAMES YESTERDAY

HAZELTON WON BOTH MATCHES AGAINST LOCAL PLAYERS

Rink At Government Place In Fine Shape For It.

Yesterday the first hockey matches every played in the city were put on at the Government Place skating rink that has been opened by the Prince Rupert Athletic Association. The ice was in fine shape and the games were very exciting. The attendance was large.

Both of the matches were won by the visitors, the Hazelton players, who showed themselves in good form. The local players deserve great credit for the game they played, in view of the fact that the opportunities for practice here are so few.

At the game in the afternoon the visitors won by a score of 1 to 0.

ast evening the local players succeeded in scoring against their apponents. The final score for the game was 2 to 1 in favor of Hazelton.

Last evening, in the McIntyre Hall, a dance was held in honor of the visitors.

Insure now with M. M. Stephens.

W. G. GILLETT WAS ELECTED MAYOR OF PRINCE GEORGE

Prince George, Jan. 14.—W. G. Gillett has been re-elected mayor with a majority of 78 over Thomas Porter.

Mayor Gillett is well known here, where he has spent considerable time during the past few years.

BELGIAN FUND.

An account has been opened at the Canadian Bank of Commerce in the name of the Belgian Relief Committe, and subscriptions for the relief of these worthy people are now in order. There will be no canvass made, and citizens are requested to deposit what they can afford. The fund is economically managed and citizens may rest assured that every dollar will do a hundred cents' worth of work in aiding those patriots. The account will be open until January 31. tf.

Rent now from M. M. Stephens.

PRINCE RUPERT IS GIVING CONCERN

THIS PORT IT IS CONCEDED MUST PLAY IMPORTANT PART

Alaskan Trade Through This Port Is Subject Of Discussion.

Seattle, Jan. 14.—The conference of the North Pacific Coast Passenger Association has been adjourned without reaching any agreement regarding the proposal of the American railroad and steamship lines, having their terminals in Seattle, to make mutual reductions in their rates on Alaskan trade to meet competitive railway and water fares announced by the Grand Trunk Pacific Company.

It was conceded by members present that the G. T. P., with its shorter haul, will ultimately divert a large traffic from Puget Sound. The C. P. R. has met a reduced rate of $10. The proposal by the railroads to make a reduction of $6 if the steamboats reduce the remaining $4 was not agreed to by the vessel companies. It is expected that they will resume negotiations a month hence.

RUSSIAN FORCES WON IN CAUCASUS

KURDS ATTEMPTED OFFENSIVE BUT WERE DRIVEN OFF

Capture Of Men, Cannon And Munitions Were Made.

Petrograd, Jan. 14.—An official report says, on the western front there is nothing to report. In the Caucasus we captured more than three hundred men, four cannon and a quantity of munitions.

A Kurd detachment which attempted an offensive in the region northwest of Ardjich has been beaten and fled eastward.

NORWEGIAN STEAMER BROKE IN TWO THIRTEEN LOST

Cromer, Jan. 14.—Thirteen members of the crew of the Norwegin steamer Hafra perished when that vessel broke in two after stranding.

Council Meeting.

The new council will meet on Monday night. The Mayor will announce the standing committees then.

Germany Threatens Reprisals Against Great Britain

Berlin, Jan. 14.—The German Government has transmitted to Great Britain, through the United States, a note which declares that as a result of Britain not fulfilling the German demand for an explanation of the circumstances surrounding the sinking of the German submarine by the British patrol boat Baralong, Germany will adopt suitable measures of reprisal.

LORD CHELMSFORD TO BE VICEROY OF INDIAN EMPIRE

London, Jan. 14.—It is officially announced that Lord Chelmsford has been appointed Viceroy and Governor-General of India, succeeding Lord Hardinge.

Train Delayed.

The G. T. P. train was delayed last evening owing to interruptions beyond Prince George. It arrived at 11:15 last night.

FRENCH SUBMARINE SANK CRUISER

AUSTRIAN WARSHIP OF NOVERA TYPE SENT TO THE BOTTOM

Attacking Vessel Was Attached To The Italian Fleet.

Rome, Jan. 14.—It is officially announced here that the French submarine, Faulcalt, attached to the Italian fleet, torpedoed and sank in the Adriatic an Austrian scout cruiser of the Novera type.

NEW COUNCIL WAS SWORN IN YESTERDAY

Mayor McCaffery And Aldermen Assumed Office.

Yesterday at 3 o'clock in the afternoon Mayor McCaffery and the new council were all up before the Police Magistrate in the police court room. Magistrate Carss, however, was lenient with them all and let them off upon their each giving an assurance that they would administer the city's affairs with due consideration to all the requirements of law.

The occasion was the taking of the oath of office by the members of the council. The seal of the city was handed over to Mr. McCaffery with an admonition to see that it was used

(Continued on Page Two.)

Vice-President Donaldson Is Still Optimistic With Respect To Future Of This Country And Advocates Co-Operation

M. Donaldson, Vice-President and General Manager of the G. T. P., leaves this morning for the south by the Prince George, after visiting Anyox. He is accompanied on this visit by his sister and the Chief Engineer of the company, Mr. Woods. The latter will return east by the railway. The visit to the smelter town was not significant in any way, it was stated by the Vice-President last evening. He went there to inspect the place, with which the company is having considerable business and expecting still more.

Mr. Donaldson advises, on the part of Prince Rupert, the steady agitation for all kinds of industrial works that can be got here. The city must expect to come more and more into competition with other places, and will have to work to get all that is coming to it. The G. T. P. is willing to co-operate in every way to accomplish this. It is unfortunate that the financial situation is such that the company is not able to carry into effect many of the undertakings that would otherwise be under way. The citizens, he feels, should seek assistance of any other means of building up a city here. He has no question about the port. It is to become a very great one, but the citizens can, by united action, aid in the shortening of the time when all this will be accomplished.

He has every reason for believing that Russia is to become a large dealer with this country when the war is over. She is ready to deal now in the matter of munitions and other lines, to the extent that this country can supply the demand. Mr. Donaldson points to the fact that the Orient is now using macaroni and other articles of diet, in which the Canadian wheat will be used. In this connection the United States is sending a very large amount of, what is classified as soft wheat, to that country. In the vast valleys of the interior of this Province, along the line of the G. T. P., there is a tremendous country that is well adapted to the raising of this class of wheat, and this should find its way through the port of Prince Rupert. There are tremendous areas that are easily prepared for the cultivation and should produce a great tonnage.

In the east now, Mr. Donaldson says, the factories are, for the most part busy.. There has been a tremendous industrial awakening, and the west will have to wake up.

On the prairies the company is handling a lot of grain, and it will take until spring before all of it is brought forward. There is evidently going to be a large influx of people upon the land in the prairies this summer. During the last two months of the year gone past, the sales of farms by the Hudson's Bay Company were record makers. The sales were not in large sections but individual farms. Most of the buyers were from the United States and elsewhere in Canada. In many instances, he thinks that the purchasing was done for sons who have grown up, and who desire lands for themselves. At the same time, while there is a large number of purchases made, Mr. Donaldson does not look for the same acreage of grain next year that there was during the past one. The fall interferred with the getting ready of as much land as the year before, so that there will be a cutting down in the amount put under grain.

With the activity in the prairies, the demand for lumber is bound to increase. It is already doing that. Mr. Donaldson says that one can notice the lumber being taken off from the cars for use, which indicates that there is a most active demand. In the interior of the Province of B. C., along the line of the G. T. P., there are active preparations for the cutting of lumber to meet the demands that are made.

The fish trade out of Prince Rupert, Mr. Donaldson points to with pride. His company is doing all that it can to take care of that trade. He hopes the citizens will co-operate and see that the matter receives the most considerate thought locally. Everything should be done to encourage the industry here.

CAMPAIGN WAS NOT UNSUCCESSFUL

Naval Officer Points Out That Dardanelles Operations Kept Turkish Army Well Employed.

That the Dardanelles campaign in the wider vision was anything but a failure has been illustrated in many ways since the expedition was abandoned. Still further confirmation of this fact is given in letters received in Vancouver from an officer of H. M. S. Duncan, "on duty somewhere."

The officer writing to a friend says:

"We are out where most of the busy work is going on. Things are warming up very well, the only annoyance is that the papers were allowed to publish the nonsense that they do, such as describing the Dardanelles campaign as a failure. Certainly it is a harder nut to crack than was expected, but it has had the effect of keeping 1,000,000 Turks

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

QUESTIONS ASKED.

(Continued from page two)

tural resources of British Columbia. For this purpose I am submitting a series of interrogatories, and the advantage of your knowledge and experience in this regard would be greatly appreciated.

"1. Do you believe in the building of wooden ships to relieve the situation?

"2. If wooden ships are decided upon, would you recommend the use of auxiliary engines?

"3. Would you recommend steel ships in preference, and if so, why?

"4. What is your idea as to the size of ships that should be built?

"5. Do you believe the Government would be justified in co-operating with private individuals or firms in building ships, either wooden or steel?

"6. What form, in your opinion, should the assistane take—bonusing, guarantee of bonds, partial ownership, etc.?

"7. What, in your opinion, are the probabilities of obtaining return freights in order to render business profitable?

"8. In order to give British Columbia business in lumber a decided preference over Puget Sound, at what rate of freight, having regard to capital expenditure, could Government assisted ships afford to carry cargoes? This, of course, would be contingent upon return cargoes and can only be answered having in view the actual or prospective business conditions

"9. What other ntural products, such as potatoes, apples, ores, pulp and paper, canned salmon or fresh fish, etc., etc., could be advantageously sent abroad?

"10. To what extent should the Dominion Government be expected to co-operate as a part of a policy which would apply uniformly throughout Canada?

"The foregoing are merely suggestive of the kind of information we should like to obtain from the people who are interested in the question, and you are not asked to confine yourself to these, but to give me, if you will, the full benefit of your views in a concise form on the entire subject in its varied aspects."

WILL BE BUSY FISHING CENTRE

MR. BERNHOFF WHO HAS JUST RETURNED FROM SEATTLE IS OPTIMISTIC

Magnolia Came In With Catch Of 10,000 Pounds Yesterday.

The fishing fleet, after the lay-up for the season, is beginning to return. The boats are coming in slowly, but a few weeks, it is expected will see most of them back again. Yesterday the Magnolia arrived in port with 10,000 pounds on board. The catch was bought by H. O. Roberts, representing the San Juan Company. The fish was sent south by steamer to meet the demand that is there for the halibut.

Mr. Bernhoff, representing the National Independent Company, of Seattle, has returned to the city after a holiday in the south. He says that there is every indication that this season will see all the boats practically running here. It is assuredly going to be a good season for the port in the matter of the fishing industry.

CAMPAIGN WAS

(Continued from Page One.)

away from attacking Russia; also Egypt. If there had been a serious attack on Egypt, the Moslems might have risen. Also the campaign had the absolute approval of Joffre and the Grand Duke Nicholas, as well as all our own people; so it has fulfilled its principal object.

"The wonderful thing is that the country has done so well. Over 3,000,000 volunteers is more than a record. You know the whole secret was munitions. We started the war with ample munitions for ourselves and our army of 250,000, but we have supplied France, Russia, Belgium and Serbia, all in turn, and at the same time multiplied our army by 12, so there is not much to be ashamed of. No; this war has done good—the British Empire has been united as nothing else could ever have united it. We have got complete command of the seas. Even the German submarine menace has utterly failed—we have destroyed twice as many as they started the war with, and are now destroying them faster than they can build them. Of course, there is some fighting yet, and out our way we are in for some of the hottest, but if only the people at home will keep quiet and cheerful, and the papers not slander the men who are doing their job well, we will find the war will end sooner than expected, and then Vancouver will be a jolly good place to come to."

TENDERS FOR FREIGHTING OF SUPPLIES FOR THE YUKON TELEGRAPH LINE.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Packing Supplies," will be received until 4 p.m., on Tuesday, March 7, 1916, for the packing of material and supplies for points along the Yukon telegraph line between Hazelton and Atlin, in the course of the season 1916, 1917 and 1918.

Forms of tender and specification may be obtained from Mr. J. T. Phelan, Superintendent of Government Telegraphs, Vancouver, B. C., Mr. Wm. Henderson, District Superintendent Government Telegraphs, Victoria, B. C., and from the Government Telegraph Agents at Ashcroft, B. C., Quesnel, B. C., Hazelton, B. C., and Telegraph Creek, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures stating their occupations and places of residence. In the case of firms the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

SPIRIT OF UNITY.

There has been a general feeling about the city, in connection with the late municipal elections, that Prince Rupert had aroused herself to a better feeling, with respect to her civic affairs, than has been characteristic of the place at some other times. There was, during the last election, a general evidence that party politics had been sunken out of sight, and the candidates were voted upon from other considerations than their ability to serve some political party. This was gratifying to the great body of citizens. It was a condition of affairs that there had been a longing for for a considerable time. There is an expressed hope among the great bulk of the people that this condition may prevail.

It does not, of course, suit all. It is an unusual thing indeed to have anyone come forward and whine that some one of the parties has not done its duty in eliminating party feeling in an election like that through which we have just passed. There will be few that will sympathize with such a feeling. The city of Prince Rupert can well afford to lose from its municipal government anyone who seeks power simply because he belongs to some one of the political parties. That is surely not enough upon which to base a claim for election. A city can hardly expect to make progress that elects men to administer its affairs on such a qualification. It looks, happily, as if the time had passed in Prince Rupert, when it would be impossible for a candidate to base his hopes for election upon the fact that he may be a Liberal or a Conservative. The vast majority of the electorate hope so at least.

In the administration of Dominion and Provincial affairs the employment of the party system of government has been found to have been a very safe method of conducting affairs. In the administration of civic affairs, it has been found to be a system that was just as undesirable as it is desirable in the larger field.

From now on Prince Rupert will likely have to fight for herself to a far greater extent than she has in the past. Whatever comes to this city will have to be won in, large measure, in competition with other centres with which the city comes in contact. To do that, the spirit of party politics in all matters, even her local affairs will never succeed. The editor of the Journal has had the opportunity of discussing, with many citizens of the place during the past few days, this subject of the elimination of party feeling in connection with city affairs. The opinion is general, among those even who are very closely identified with the active political battles, that there should be a union of all hands in the city to fight for Prince Rupert first, and let the parties take care of themselves until the time for the elections come.

The war has had the effect of driving from peoples minds, much of the party spirit. It is easier to sink partyism now than it has been for many a day. Prince Rupert should do it and get busy in her own interests.

NEW COUNCIL

(Continued from Page One.)

only in a proper way.

All the members of the council were present, as well as the City Clerk, E. A. Woods and the City Solicitor, Fred Peters, K. C.

Mr. Carss, following the ceremony, congratulated Mayor McCaffery and the aldermen upon the election. He said he had little to say other than that. They had been entrusted by the electorate with responsible duties. He knew they would appreciate that fully and respect the trust put in them. He wished them success in office.

IN THE SUPREME COURT OF BRITISH COLUMBIA

IN THE MATTER OF THE ESTATE OF EDWARD M. HAYNES, DECEASED,

AND

In the Matter of the "Administration Act."

Dated the Ninth day of November, A. D. 1915.

UPON reading the affidavits of John H. McMullin, it is ordered, that John H. McMullin, Official Administrator for part of the County of Atlin, shall be Administrator of all and singular the estate of Edward M. Haynes, deceased, Intestate, and that notice of this Order be published in the Prince Rupert Journal for two issues.

TIMBER SALE X 541.

Sealed tenders will be received by the Minister of Lands not later than noon on the 19th day of January, 1916, for the purchase of Licence X 541, to cut 1,256,000 feet of Hemlock and Spruce, on an area adjoining L. 1,625, East Arm, Juskatla Arm, Graham Island, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C. t-d-28.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Skeena Land District—District of Queen Charlotte Islands.

TAKE NOTICE that R. N. Ferguson, agent, Victoria, B. C., and A. M Hall, manager, Vancouver, B. C., intends to apply for permission to prospect the following described lands for coal and petroleum: Commencing at a post planted 100 chains east and 60 chains north of the mouth of Joseph Creek, to the southeast corner of C. L. No. 10,148, thence 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to the point of commencement.

R. N. FERGUSON and A. M. HALL

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

Notice! The Latest!

By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.

Now in use and on exhibition at my shop, 139 Second Avenue.

Quality *vs.* Imitation

The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble

Budweiser

The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.

Budweiser is bottled only (*with corks or crown caps*) at the

Anheuser-Busch Brewery
St. Louis, Mo.
