WITNESS TESTIFIES SEEING MONEY HANDED GOSDEN

RALPH SMITH, LIBERAL, SAYS THERE WAS SOME DELAY IN FIRING SCOTT

Vote Of $200,000 By Government To Assist Prospectors

Provision Made To Complete Pacific Great Eastern With Province Secured

Russians Have Trapped Turkish Army That Forced Townsend To Surrender

Government Aid Is To Be Given To Complete The Line Of P.G.E.

(Special to The Journal.)

Victoria, May 16.—At the next session of the Dominion Parliament the Pacific Great Eastern will apply, it is understood, for a subsidy of twelve thousand dollars per mile, being one similar to that which the Canadian Northern is now obtaining. Strong hopes of obtaining such assistance are entertained by the P. G. E. interests.

In the Pacific Great Eastern loan bill which went through a five hour caucus of the Conservative members here last night, provision is made that the Provincial Government will have a first mortgage upon this subsidy, as part of the security offered for the proposed Provincial Government loan.

The Province, it is understood, will make a loan of six millions to the Pacific Great Eastern, which sum is to finish the line from Clinton to Fort George. It is not proposed to make any further loans or guarantee any more bonds for the line to Fort George.

The matter of payments will be taken care of as it comes up, but the six million loan, it is said, will not cover interest. It is purely for construction purposes, so that the line to the northern city may be rushed ahead as rapidly as possible. Ample security apart from the mortgage on the proposed Dominion subsidy will be given.

The Government of the Province, it was said today, will have a mortgage upon the road when it is completed. This mortgage is to be second only to the claims of the bondholders. The province will also have a first mortgage upon the townsites and terminals of the P. G. E. and Foley, Welch & Stewart. These townsites are very valuable.

In addition, as further security for the six million loan, the Government will hold forty-nine per cent. of the common stock of the P. G. E. Railway, and a similar amount of the common stock of the P. G. E. Development Company. This stock does not pass to the ownership of the Province, but is put up for the purpose of security.

An agreement is also to be made that the Pacific Great Eastern will give a bonus to the Province for the loan and assistance, the Province, in fact, is to get two million dollars' worth of its common stock. This will be owned outright by the Province. The engineer appointed by the Provincial Government will have charge of the construction of the line between Clinton and Fort George.

Mr. and Mrs. D. J. Williams, of Tramville, arrived from the Rocher de Boule last evening. Mrs. Williams will proceed south on a visit.

ENGINEER MINES IS SHOWING UP WELL

CAPT. ALEXANDER, WHO IS IN CHARGE, IS IN THE CITY

At The Two Hundred Foot Level The Atlin Property Is Good Producer.

The Engineer Group of mines in the Atlin district, which have made such a good showing in the past, are now quite as promising as ever. Capt. Alexander, who holds the controlling interest in the property, is in the city accompanied by Mrs. Alexander. They are on their way to the Atlin district in connection with the work that is being carried on their.

Capt. Alexander says that they have sunk to a depth of 200 feet, and at the 200 foot level the ore is showing first-class values. The ore has improved in fact with depth.

The Engineer mines have proved quite a feature of the Atlin country. The ore is free milling and Capt. Alexander has a stamp mill installed at the property. A quartz proposition in a country where placer mining is the general practice has made the Engineer Group widely known.

HALIBUT CONTINUES SOMEWHAT SCARCE

ARRIVALS YESTERDAY SOLD THEIR CATCHES AT VERY GOOD PRICES

The Jupiter, With 17,000 Pounds, Was The Top-Notcher.

Halibut receipts for the last two days have been somewhat light. On Monday the Annie St. Leon, Margalice, Maud and Sea, arrived with about 3,000 pounds each, and sold to the Canadian Fish & Cold Storage Company at 6 3-8 cents.

Yesterday there arrived Nautilus, 5,000; Selma, 6,000; Mira, 10,000; and Doreen, 11,000. These were taken by H. O. Roberts, of the Pacific Fisheries, at 6 1-2 cents.

Later in the day the Alliance, with 10,000, and the Zorra, with 16,000, put in an appearance and their catches will be disposed of today. Later still, last night, the Agnes B came in with 7,000 pounds, and the Jupiter brought in 17,000.

Dr. L. L. Cairns, of Terrace, arrived last evening.

Turkish Army Has Been Surrounded By Russians In East

NO DECISIVE WORK IS IN PROGRESS ON WESTERN FRONT

Paris, May 16.—In the Woevre, shelling is proceeding along the sectors of Eix Moulainville.

On the left bank of the Meuse there was a lively bombardment of our positions in the Woods of Avocourt, near Hill 304.

On the right bank a small German hand grenade attack, northwest of the Thiaumont Farm, was completely repulsed.

AUSTRALIA WILL AID IN EXPEDITION TO SEEK SHACKLETON

Melbourne, May 16.—Australia will assist in organizing an expedition for the relief of Shackleton by supplying the officers and twenty-six men, who will be provisioned for eighteen months.

London, May 16.—Remarkable progress has been made by the Russion army operating in Mesopotamia. It is believed the Grand Duke's strategy has completely outwitted the Turks and their German leaders.

The army which forced General Townshend to surrender will be compelled to yield to the Russians unless something wholly unexpected, and that cannot now be forseen, happens. The Turkish army has been led into a trap from which it cannot extricate itself.

POTASH AND FELDSPAR SUPPLIES ARE CONSIDERED

Canada Has Abundance If Treatment Can Be Found.

Dr. Frank D. Adams, speaking at the recent annual meeting of the Commission of Conservation, said: "A question of great importance is whether we can find deposits of potash in Canada. It is practically impossible for us to find deposits of potash similar to the German ones, but, locked up in the rocks of the northern Laurentian country, where we have these great granites, we possess enormous deposits of silicate of potash and feldspar. These are now awaiting the arrival of some one who will invent a method to get supplies from the old granite rocks. Whenever that can be done we will have in the northern country an enormous and inexhaustible supply of potash."

Vote To Be Made By Government To Assit Prospectors So As To Further The Interests Of Mining

(Special to The Journal.)

Victoria, May 16.—Announcement was made today of the decision of the Government to bring down a special estimate before the close of the session of $200,000, which is to be used this year to give assistance to prospectors.

The administration of the fund will be in charge of Hon. Lorne Campbell, Minister of Mines. This assistance is part of a general scheme of the Government for aiding mining men of the Province, particularly the small miners and prospectors.

The importance of the project has already been discussed in the House by L. W. Shatford, member for Similkameen, who took up the question at considerable length, urging that assistance along this line be provided.

Where it is found that a prospector has opened up a claim which shows signs of good values, the Minister of Mines will send out an expert to investigate the property thoroughly, and if his report is favorable the Government will consent to assist in construction of roads and trails to enable the claim owner to get his ore out.

The Government will be prepared to pay up to one-half of the cost of constructing such roads and trails, and the $200,000 fund is for this purpose. It is believed that this decision on the part of the Government to render very material assistance to small miners and prospectors, who by reason of their being in remote districts cannot move their ore, will do much to stimulate the mining industry in this Province.

Bulger & Denike do reliable watch repairing. 1-w.

FRED WELLS HERE FROM THE SURF INLET CENTRE

One Of The Original Holders Of The Tonopah-Belmont Property Is Here.

Fred Wells, a well known mining man in the west, is in the city, having arrived from Surf Inlet, where he is now developing a mineral proposition near the holdings of the Tonopah-Belmont Company's works. Mr. Wells was one of the original holders of the now famous Surf Inlet mines. He still holds an interest in them under the terms of purchase.

Witness Testified That He Saw Macdonald Hand Money To Gosden

(Special to The Journal.)

Victoria, May 16.—Ralph Smith, ex-M. P., and one of the Liberal candidates for the Vancouver seat, and well known old time political war horse, was before the Vancouver Election Frauds Committee today. He said that there had been several meetings of Liberal candidates after the Liberal workers accused J. T. Scott of attempting to use a crooked list. These candidates had recommended that Scott's services be dispensed with, but it was some time before the member elected at the Vancouver by-election and Messrs. Farris and Stables took any action.

Some question was raised as to where this provincial organization committee got it's money for Scott's work, but the treasurer refused to tell the city Liberal executive.

Mat Fraser, the man who was with Gosden when the latter said he got the fifty dollars from Macdonald for his work for helping Scott, testified at the investigation this morning.

Fraser said he stepped out of sight when Gosden met Macdonald here on the Tuesday night following Easter Monday, and heard from his post of observation around the corner of the building, Macdonald say, "Here's fifty, I'll give you the rest when I go over to Vancouver again."

Macdonald is now suing Gosden for perjury in connection with Gosden's story in this connection.

Sparrow, the clerk of the St. James Hotel, gave evidence to corroborate Gosden's statement, that he 'phoned to Macdonald from that hotel making tell he city Liberal executive.

RALPH SMITH'S ATTITUDE.

Judging from the evidence given by Ralph Smith at the investigation of the Vancouver election, there would seem to be a disposition on the part of some Liberals in Vancouver to make Mr. Macdonald something of a scape goat. Mr. Smith says complaints were made by the Liberal candidates in the city against Mr. Scott in his conduct of the campaign. Yet there was a considerable loss of time before the provincial campaign committee, of which Mr. Macdonald was a member, took action. Certainly, judging from the remarks of Mr. Smith, as given by the correspondent of The Journal, there was not any particular desire on Mr. Smith's part to screen Mr. Macdonald.

CANADIANS NOW PREPARE FOR PEACE

MANUFACTURERS EXPECT GOOD RESULTS TO FOLLOW CLOSE OF WAR

Export Association Already Handling Orders From Some Sources.

An advanced step towards the creation of an extensive export field for Canadian merchants was taken when Mr. F. C. Armstrong, joint General Manager of the Export Association of Canada, left London for an extensive tour of France, Belgium and Italy, writes W. A. Willison, staff correspondent of the Toronto News, in Great Britain. Mr. Armstrong's object is the preparation of commercial facilities for the extension of Canadian trade after the war. He also has the immediate object of securing for Canadian manufacturers as much export business as possible during the continuation of hostilities.

Mr. Armstrong's visit may well mark a new era in the commercial affairs of the Dominion. It is true that Canadian manufacturers were slow to realize the fact of war, slow to accommodate themselves to the new conditions, above all, slow to grasp the extraordinary opportunity afforded to capture German trade. Thanks however, to the activities of such men as Mr. Armstrong and Mr. R. J. Young, to the co-operation of the Canadian Manufacturers' Association, of the great transportation companies, and of the Government and Government Departments, the Export Association of Canada was organized this year. Its objects are:

Aims Of The Movement.

1. To create a favorable strategical position in outside markets for Canadian industry as a whole.
2. To secure detailed information and actual orders for its members.
3. To introduce the representatives of Canadian firms to the most important buyers in other markets.
4. To find reliable export agents for its members in markets where re-

POSTAL NOTICE.

Postmasters are informed that the exchange of Money Orders with Denmark, Holland, Norway and Sweden, which was suspended on the 8th August, 1914, has been resumed, and Money Orders may be issued on these countries at the same rates of commission as formerly.

TIMBER SALE X 611.

Sealed tenders will be received by the Minister of Lands not later than noon on the 31st day of May, 1916, for the purchase of Licence X 611, to cut 4,969,000 feet of Spruce and Hemlock on an area adjoining Lot 1,548, Shannon Bay, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. m8-4w.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

CANADIANS NOW.

(Continued from Page Two.)

presentation is desired.

5. To collect and make shipments of export orders, and where possible, to finance same.
6. To organize production in Canada which will make possible the successful execution of large export orders.

Much valuable work has already been done. The association has opened offices in Montreal, in London, in Auckland, New Zealand, and in Melbourne, Australia. Representation is about to be established in South America. Canada was represented at the recent Lyons Fair.

The association has been appointed purchasing agent in Canada and the United States for the Crown Agents of the colonies, and is already receiving important orders from these sources. Shipments are being made regularly to Australia and New Zealand. In a word, the movement for the capture of foreign trade of the Central Empires is well established.

Expects Good Results.

Mr. Armstrong's visit to France, Belgium, and Italy will be a great forward step. He left London enthusiastic over the possibilities of his mission. Careful study of Allied markets, together with the success which attended the Canadian exhibit at Lyons, has convinced him that the Allied countries offer a rich field for Canadian manufacturers. "My main object in going to France," Mr. Armstrong told your correspondent, "is to study the French market with a view to the practical direction of our association's activities, so that we will be well prepared in advance to meet the commercial requirements of France during the reconstruction period after the war. France is extremely friendly towards the Dominion. She wants Canadian products. Careful examination of the French market and proper organization of Canadian manufacturers to meet this demand should result in important openings for many lines of Canadian industry.

Want To Break Away.

"In Italy the increasing determination of the Italian people to free themselves from the economic domination of the Central Empires offers large opportunities to Canadian manufacturers. While she is not likely, except temporarily, to furnish a large market for Canadian imported goods, she will draw on the Dominion for those raw and semi-manufactured materials which formerly she obtained through German financial and commercial organizations.

"During my trip I shall also take up with the Belgium Government the question of the materials required during the reconstruction period. Belgium is anxious to establish closer commercial and personal relations with Canada and things Canadian are assured of friendly reception. The Belgians appreciate deeply both the valor of Canadian troops in the field and the generosity of Canadians at home in the matter of relief funds and personal assistance to Belgian people."

M. M. Stephens rents houses.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

CATHOLIC CLUB TURNED TABLES ON OPPONENTS

By Score Of 7 To 4 The Colts Were Defeated Last Night.

The Catholic Club Baseball Team turned the tables on the Colts last evening, winning the match at the Hill by a score of 7 to 4. The game was an exciting one, the score remaining very even. Jack Keefe made a wonderful hit during the game, smashing the ball over to the rock pile.

The grounds at the Recreation Park have become rather bad for playing on. The ball players will endeavor to have the council place some loam on the ground.

PRINCE RUPERT PEOPLE GET INSTANT ACTION

Those who have used it in Prince Rupert are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-i-ka relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. C. H. Orme, Pioneer Druggist.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C., — Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More — The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient — In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials — There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely — Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.
