British Assurances Of No Unnecessary Delay To Neutral Mails

Washington, Jan. 19.—Assurances have been given by the British Foreign Office that neutral mail opened by the British censors and found innocent, is not being unnecessarily delayed. This has reached the State Department through Ambassador Page.

So far no normal reply to the American note to London, protesting against the mail offense has been received.

KING NICHOLAS HAS GONE TO ITALY

CHARGES MADE AT ROME THAT RULER OF MONTENEGRO INTRIGUED

Serious Situation Created By The Allegations Which Have Been Made.

Paris, Jan. 19.—The Journal Des Dehats says it is announced officially that King Nicholas, of Montenegro, with his family and his suite has sailed for Italy. Peace negotiations between Austria and Montenegro have been broken off.

SERIOUS CHARGES.

Rome, Jan. 19.—Charges are made by the Italian press that the Montenegrin King has sold out to the Kaiser; that he allowed the Austrians to take Kuc, and that he secretly aided the Austrians by divulging information regarding Allied ships carrying provisions, to enable Austrian submarines to sink these vessels.

Quantities of supplies for the revictualling of the Serbian and Montenegrin armies were left rotting on the quays in Albania, in order to induce the populace to believe that the Allies had deserted them. It is so charged that the Montenegrins repaired the Giakvoa-Scutari road to enable the Austrians to advance against the Serbians.

It is claimed that King Nicholas was in secret agreement, before the outbreak of the war, to cede Lovcen to the Austrians. The defence of the mountain was only sufficient to lull the suspicions of the Allies.

Italy refused to supply Montenegro with guns and munitions, because they would simply have handed them over to Austria.

DESCRIBES DRYDOCK AS ONE OF BEST

W. H. HEWITT, OF TORONTO, SAYS ONLY COLLINGWOOD PLANT MAY EQUAL IT

The Works Here Are Of The Very Best Type Throughout.

The G. T. P. Drydock, at Hays Creek, was inspected yesterday by W. H. Hewitt, of the Canadian Railway & Marine World, of Toronto. He says that there is, as far as he could size up the situation, only one other plant that might be classified with this one, and that was the Collingwood Shipbuilding Works.

The latter plant was well adapted to take care of all kinds of construction work. He did not know that it could be described as any better than the local one, but he knew of no other that would compare with the Prince Rupert outfit.

ICE CARNIVAL HAD TO BE POSTPONED

After a few weeks of first-class skating, the thaw which has been dreaded by the skaters from the start, arrived just in time to ruin the chances for the carnival, which was to have been put on last night. The management still hope to be able to hold it. Due notice will be given.

FRENCH GUNS PLAYING HAVOC

CANNONADING AT DIFFERENT POINTS HAS BEEN SUCCESSFULLY CARRIED ON

Aeroplanes Have Done Serious Damage At Metz And Elsewhere.

Paris, Jan. 19.—An official report says, to the south of the Somme a blockhouse of the enemy was destroyed by our fire.

Between Soissons and Rheims our trench guns have caused serious damage to the enemy's works, in the region of Ailles, west of Craonne.

In Argonne we cannonaded moving troops in the region north of Lescourtes, Chausses.

In **Lorraine, fire** carried out against a group of houses, occupied by the Germans near Alincourt, has given the best of results.

On the night of January 19, two German aeroplanes, having dropped four bombs on Nancy, one of our air squadrons immediately took to the air and bombarded the railway stations at Metz and Arnaville. Twenty-two shells were dropped on buildings, which suffered considerable damage.

FRENCH STEAMER LOUVILLE IS LATEST VESSEL SUNK

London, Jan. 19.—The French steamer Louville has been sunk. The captain and fourteen survivors have been landed.

SERIOUS ACCIDENT TO LOCAL MAN

CHARLES GUSTAFSON BADLY LACERATED BY RIFLE SHOT

Most Trying Experience In Getting The Man To The City.

A very serious shooting accident occurred yesterday when Charles Gustafson, who lives with his uncle at 353 Ninth Avenue West, was badly torn in the lower part of his body by the discharge of a 30.30 rifle.

This man is now in the hospital in a precarious condition. The details connected with the accident are not all known. Fortunately the victim of the shooting is physically a strong man, being only 30 years of age.

With a companion he was near Cloyah Bay. His companion heard a shot and going to Gustafson found that he had, in some accidental way, discharged his rifle and the charge had entered the lower part of his body. The flesh had been torn away from about three of his lower ribs, and the lower portion of his trunk was badly lacerated.

He was carried by his companion to a row boat they had and brought to the city. The shooting happened about 10 o'clock yesterday morning. It was not until about 3 o'clock that he reached the city and got to the hospital. The man had suffered from exposure and from the pain, so that he was practically insensible.

Aeroplanes Have Been Active On Western Front This Week

London, Jan. 19.—An official report says, on Monday sixteen of our aeroplanes attacked the enemy's supply depot at Lasars, causing considerable damage. During the day there were nineteen air encounters, in which five of the enemy's machines were brought down. Two of our aeroplanes were lost on Tuesday afternoon.

The enemy exploded two mines south of Fricourt, doing slight damage. Today we successfully bombarded the hostile trenches at several points. Our troops raided the enemy south of the River Lys and brought back several prisoners.

The enemy exploded a mine near the Hohenzollern redoubt. Another was exploded in front of our trenches, southeast of Cuinchy. No damage was done.

Hostile artillery has been active northwest of Fromelles and east of Ypres.

A hostile aeroplane was brought down near Frelinghein by our fire.

Herring Still Scarce.

The herring run is still not in evidence.

Italian Forces Have Been Fighting At A Number Of Points

Rome, Jan. 19.—An official report announces that in the Chiesa Valley the enemy's artillery caused a fire which was quickly extinguished. As a reprisal one of our batteries bombarded St. Rada, which has been occupied by the enemy.

In the Sugana Valley, replying to the enemy's fire on Borgo, we bombarded the Caldonazzo railway station.

In the Tolmino sector a detachment of the enemy attempted to attack one of our trenches on the Heights of Santamaria. The attack was repulsed. The enemy left thirty bodies on the field.

In the zone between Hill 188 and Oslavia, the enemy tried to approach our positions, but our troops, who were not deceived by the ruse of false cries, succeeded in promptly repulsing the attempt.

The situation on the Carso front is unchanged.

CRITICISM OF WORK OF GEN. BERTRAM OF SHELL COMMITTEE

Ottawa, Jan. 19.—Hon. William Pugsley, Minister of Public Works in the late Laurier Government, in a speech in the House yesterday, made grave charges against the shell committee, in the placing of contracts to the amount of $300,000,000 to be paid for out of British funds.

Mr. Pugsley declares that members of the committee placed orders with their own firms, at an extravagant rate of profit, and sub-let orders at immense profits. He states that a member of the Candian Parliament acted as middleman in farming out the orders.

One manufacturer was offered a contract on condition that he agree to pay one and a half per cent. commission to a man who was in close touch with General Bertram, chairman of the committee.

Recruits Increasing.

There are now well on for 75 recruits here in the 102nd Battalion. The officers are well pleased with the splendid class of recruits. There is room for quite a large number more.

Will Consider Estimates At Meeting To Be Held Next Wednesdy.

The newly constituted Board of School Trustees met yesterday afternoon for the first time since the election. All the members were present, Mrs. Kirkpatrick, Miss Davies, Dr. W. T. Kergin, G. D. Tite and O. H. Nelson. The meeting was called to order by O. H. Nelson, last year's chairman, who proposed that Dr. Kergin be elected chairman for the new year. This was seconded by Mr. Tite and carried unanimously.

Mr. McPherson appeared before the Board, suggesting some changes he thought necessary at the Seal Cove School.

The Board decided to have the city Building Inspector and the Fire Chief report upon any changes deemed

A FRANK EXPLANATION.

Major General Sir Alexander Bertram, who was chairman of the Dominion Shell Committee since almost the beginning of the war, and for his public services in organizing the munition industry of Canada, has been knighted by the King, has made a public statement as to his responsibility in awarding contracts, in reply to recent criticism of the work of the commisison. He claimed that in contracts of $245,000,000 he has secured prices $42,000,000 lower than the estimates of the British war office. The first shell contract, for 100,000 shells, he allotted at a price fixed by himself, but lower than the prices paid to American manufacturers, and $20,000 surplus was turned back to the British war office on this first contract. In other contracts he fixed the prices at a figure lower than the British war office allowed, with the object of creating a surplus, which amounted to $14,000,000, and he pays tribute to the ability and skill of Canadian manufacturers and workmen, that they were able to produce these shells more quickly and at a less price than elsewhere. He admits that in justice to those manufacturers on the munitions committee, some of whom were manufacturing shells, he assumed the sole responsibility for awarding contracts and fixing prices. He had made up his mind to follow the instructions of General Hughes, he declares—"No politics and no graft."—and as the best way to carry out this policy he had taken upon himself to award the contracts, the committee knowing nothing of the contracts and prices until they had been allotted. The Dominion Government, he further states, had nothing to do with these contracts, he had had no interference, and he had awarded as many contracts to Liberals as to Conservatives. His work—the committee's work—was audited by the British war office and found to be correct. The appointment of a new committee was done at his suggestion.

GOOD PROGRAMME AT WESTHOLME THEATRE TONIGHT

Mary Pickford scores one of her greatest success in "Rags," to be seen at the Westholme Theatre tonight. As the daughter of a drunkard, who abuses her, she loves him with all the ardor of a strong young soul. Her mother, who died in giving birth to her daughter, had been loved by a wealthy man in her youth, but preferred to marry the worthless man she did.

"Rags" is destined to meet the nephew of this wealthy lover of her mother, and to fall in love with him, although realizing that his social position debars any idea of marriage. Eventually her mother's former lover discovers her and takes her to his home, where the nephew again meets her and renews his efforts to win her. It is a story eminently suited to the gifts of the clever little actress, and is one of the finest films screened at the Westholme for some time.

Red Cross Sale.

The Red Cross sale will be held Jan. 21, from 10 to 6, in Spurr's new market, Third Avenue. Mrs. Woodland and Mrs. Humble will be the ladies in charge, and Mrs. Brady will serve tea, kindly donated by Mrs. Spurr. More home cooking is required at these sales if they are to be continued. Don't let this work fall to the same few ladies every week, as heretofore. There has been no time, since the war started, that Red Cross work has been more necessary than the present. Get your name on the list of donators this week, and keep it there weekly until the Allies have crushed German and Austrian tyranny.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

Notice! The Latest!

By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.

Now in use and on exhibition at my shop, 139 Second Avenue.

Quality *vs.* Imitation

The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble

Budweiser

The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.

Budweiser is bottled only (*with corks or crown caps*) at the

Anheuser-Busch Brewery
