BOWSER GIVEN SPLENDID RECEPTION IN INTERIOR

Fish Receipts At Rate Of Quarter Million Pounds Daily

About A Quarter Of A Million Pounds Of Halibut In Yesterday

Nearly a quarter of a million pounds of halibut reached this port yesterday, but the price remained about the same as it has been for the past week. The only company boat to arrive was the James Carruthers, which came in during the afternoon and had 60,000 pounds. All the others were independent craft, selling on the open market, and their catches were eagerly picked up at 7 1-2 and 7 5-8 cents a pound.

Olaf Bernhoft, of the National Independent Fish Company, bought the Corona 6,000 and the Alvilde 19,000 at 7 5-8 cents. The Atlin Fisheries took the M. T. No. 3, 7,000 and Volunteer 20,000 at the same price. While the Cold Storage Company paid 7 1-2 cents for the Anna D. 3,000, Petrol 7,000, Thelma 11,000, Fram 13,000 and Magnolia 30,000.

Later in the day, and too late to take part in the sales, there arrived the Bravo 10,000, Nellie 10,000, Nautilus 11,000 and Liberty 27,000 pounds.

Spring salmon receipts were light and commanded a price of 6 1-2 cents a pound.

RUSSIANS HAVE CONQUERED WHOLE OF BUKOWINA

London, June 27.—The Russians have now conquered the whole of Bukowina and now occupy Kimpolung, in the extreme south of that province and right on the Rumanian border.

Along the River Pruth, in the drive towards Kolomea, the Russians have captured Willischoff and Toulounoff, and are still advancing in Volhynia. The advance in Kolomea will cut off any possibility of an Austrian retreat towards the southern passes through the mountains.

BORN.

In this city on Monday, June 26, to Mr. and Mrs. C. C. Loop, a son.

GIRL WANTED.

RISINGS REPORTED AGAINST TURKS IN MESOPOTAMIA

London, June 27.—It is reported that the Shu Moslems at Kerbela and Nejeft, in Mesopotamia, have risen against the Turkish garrisons near Bagdad. In order to quell the uprising and strike terror into the revolutionaries, the Turks have shelled the sacred shrines at Kerbeat.

ITALIANS HAVE DRIVEN AUSTRIANS BACK IN FIGHT

London, June 27.—The Italians, in a terrific offensive on a fifteen-mile front, have driven the Austrians back and have recaptured seven positions taken by the enemy under the Austrian Crown Prince in the recent big drive.

PORT SIMPSON TO GO ON STIKINE

THE TAHLTAN BUILT BY HUDSON'S BAY COMPANY IS NOT POWERFUL ENOUGH

Her Power Will Be Doubled Before Next Season Opens.

The Hudson's Bay Company's steamer, Port Simpson, is being taken off the ways at Port Simpson preparatory to entering the Stikine trade this summer. C. H. French, Manager of that end of the service, is here after making the trial trip up the river with the new steamer the Tahtlan.

The latter vessel, he says, is admirably adapted for the run, but is a little deficient in power. She has been tied up and will be improved in respect to power this winter. Instead of the two 40 horse power engines that are now in here there will be two 80 horse power engines put in, so that she will be ready for the opening of next spring.

In the meantime the Port Simpson will be put into commission for two runs this summer.

UNIFORMS FOR FIRE BRIGADE

TENDERS RECEIVED VARY VERY MUCH AS TO PRICE—REFERRED TO COMMITTEE

Recommendation Made That Work Should Be Done By Union Tailors.

The tenders for clothing for the firemen as received at the council meeting were as follows: J. Weinstein, $40; Sweder Bros., $43 and $47.50; John Harnett, $42.50 and $45; Bryant Company,, $27; and Rex Tailors $45. In view of the fact that there were differences in price and quality of goods the tenders were referred to the Fire Committee and the Purchasing Agent.

A suggestion was made that the year before the clothes were made by Chinamen.

This statement was doubted, and the opinion was expressed that they should not be made by Orientals.

The Mayor wanted to know about sweat shops.

Ald. Nelson did not think there were many if any of that class in the

(Continued on Page Four.)

SOCKEYE SALMON IN NAAS RIVER

THE RUN THERE IS EARLIER THAN USUAL THIS SEASON

From Eighty To One Hundred Fish To The Boat Are Being Taken In North.

R. J. Woods, northern manager for the A. B. C. Packing Company, arrived in the city this week from the Naas River, where his company operates a cannery. Mr. Woods reports that the sockeye salmon run reached the Naas early last week, and the canneries there are doing fairly well. Fishermen are taking from 80 to 100 fish to the boat, which is considered good this early in the season. The sockeye run as a rule appears on the Naas a week or ten days earlier than it does on the Skeena. The A. B. C. Packing Company operates sixteen canneries on the coast, which are strung out all the way from Blaine, Washington, to Ketchikan, three of them being on American soil. Mr. Woods territory embraces Rivers Inlet, the Skeena and Naas Rivers.

SWIMMING PLACE IS BEING FIXED

COMMITTEE OF CITIZENS HAS PROPOSITION IN HAND AT SALT LAKES

Council At Last Sitting Made Grant Of $100 To Work.

Under the name of the Prince Rupert Swimming Association, the Salt Lakes across the harbor from the city are being fitted up to permit of bathing all season, under better conditions than have hitherto prevailed.

The Association, aided by all who wish to volunteer for the work, are providing dressing rooms for the ladies and will also arrange to have a safe place laid out for children for bathing. The City Council on Monday night made a grant of $100 towards this work. There was an application made for a grant, and a committee comprising Dr. Kergin, Joseph Scott and E. H. Mortimer, appeared to back up the appeal.

Dr. Kergin pointed out that the Salt Lakes across the harbor were very suitable as far as the water was concerned. In addition to the men that availed themselves of the swimming factilities, ladies also went over there. It was proposed to put up a dressing room for the ladies and perhaps for the men also. It was also proposed to make provision for children there to make it perfectly safe.

J. Scott said there were some places to fix up.

Ald. McRae wanted to know what it was expected the work would cost.

Dr. Kergin said the plans were not very perfect. All the work would not be undertaken this year as it would cost too much.

Mr. Mortimer asid he had counted forty-two boats there at one time. It had been arranged that a launch should take those who wished to go over for 25 cents for the round trip.

The council agreed to vote $100.

MANUAL TRAINING INSTRUCTOR WANTED.

For the Prince Rupert Public School. Salary, $100.00 per month. Duties to commence on August 1, 1916. State expreience and qualifications.

P. O. Box 1556.

Premier Bowser's Visit To Northern Part Of Province Was A Grand Success

Indications Point To Sweeping All Ridings

J. E. Merryfield, who is the candidate in the Conservative interests for the House of Commons, has returned from a trip along the line of the G. T. P. from here to Prince George, made in company with Hon. W. J. Bowser, the Premier of the Province, Hon. W. Manson, Minister of Agriculture, Hon. W. R. Ross, Minister of Lands and H. B. Thompson, of Victoria. The trip was a political one, undertaken by the Premier and his party for the purpose of meeting the public of the northern part of the Province relative to the policy of the Conservative party in the forthcoming election. Mr. Merryfield, who, as the representative of the North on the Provincial Executive, has studied the political situation in this part of the Province is very enthusiastic over the prospects of the party at the coming elections. He says that the impression that was created by Mr. Bowser and his Ministers was the very best. There is no doubt in the mind of Mr. Merryfield that the Government will sweep the northern part of the Province, winning all seats.

The Premier, he says, was accorded splendid receptions. The public had learned to know him as one who was accustomed to administer everything in connection with his department without fear or favor. There was noticeable also a tendency on the part of some who had not know him personally to expect to see a man that was very austere. The representations that are made by the Opposition press had tended to strengthen this impression. To those of this mind the Premier's affable ways was a great surprise.

The Premier was careful to make no promises in connection with his visit. He relied upon the legislation that had been put through the House at the last session. Mr. Bowser expressed his satisfaction that the electorate could be trusted on the strength of that legislation to return him to power, and allow for the development that would follow under it.

The questions of prohibition and woman suffrage, the Premier explained to his audiences, were open to be voted upon. As the electorate wanted, it would be decided. If the majority of the electors wanted these they would automatically come into effect.

The Premier expressed his opposition to the policy that was being pursued by Mr. Brewster, the leader of the Opposition, in attempting to tie up the business of the country by taking the course of attacking, through the court, the legality of the legislation passed. This he was doing in opposition to the opinion given by such a prominent Liberal lawyer as Hon. Joseph Martin, and also in opposition to men like Ralph Smith. The Opposition, he showed, had no policy. In nearly every instance in the Legislature the Opposition voted with the Government on the most important legislation that was passed. This in itself was sufficient to warrant them in deciding that there should be no change in the Government of the Province. The different sections of the community, in the many places visited, represented nearly all the industrial lines in the Province. These all showed their appreciation of what the Government had done in the last session in the way of providing for improved conditions in connection with their particular undertakings. At many points practical mining men were met and they were all interested in learning of the amendments passed to allow for the better development of the mining propositions in the country. The farmers likewise were pleased with the amendment to the land laws, that were dealt with by Mr. Ross at length, and which it was felt would overcome the difficulties that now stood in the way of settlement at least to a very considerable extent. The granting of the vote to the soldiers who have gone to the front was heartily endorsed. With this came the endorsement on all hands of the Soldiers' Aid Act.

Mr. Manson, who has been the representative of the great district that has now been divided up, was given a splendid reception along the whole route. He was the subject of all kinds of congratulations upon the elevation to the position of Minister of Agriculture. Mr. Manson will have a good majority along the Skeena Mr. Merryfield says. The farmers along the line felt that, in the appointment of Mr. Manson to the position he now holds, the district would have a very warm friend at court in all matters pertaining to the industry of agriculture. Mr. Manson was able to explain the workings of the Agriculture Loan Act and show the advantages that it would have for the actual settler who wished to develop his land and get it ready for producing on a paying basis. The farmers manifested very deep interest in this line and were ever ready to endorse the proposition.

At Terrace the question of a bridge across the Skeena was brought before the Premier. He promised to have the Government engineer visit the place and go into this matter on the ground, with the object of deciding where the bridge should be built and all the details connected with it. This announcement was received with the greatest enthusiasm by the settlers on both side of the river.

At Pacific several mining men were met, and the mining amendments were explained there to all those present.

When Hazelton was reached, F. M. Dockrill, the Conservative candidate for the riding of Omineca, was met. He continued with the party all the rest of the way through the Omineca constituency. Along with him was also R. S. Sargent. The latter, on all platforms throughout the district, advised strongly in favor of the return of Mr. Dockrill. He pointed to the fact that the large interests that Mr. Dockrill held in he district in the line of mines and agricultural lands made him a splendid representative for the district and none other could be found to excell him.

Mr. Merryfield points out that there is great interest being taken in the farming industry. In the Bulkley Valley the farms are looking excellent. There is a very progressive class of farmers in the district and it does not seem to be far away when the valley will have its creameries and its cheese factories. The farmers are taking in good stock this year and the valley was looking at its best. All the speakers advocated the

QUARRELLING FISHERMEN.

In the past the conduct of the fishermen from American boats has been such as to give little cause for complaint. It is true that in common with fishermen and sailors of all nations there has been a tendency sometimes to take on a little too much proverbial habits of "Jack ashore." Of late, especially during the last few days, there has been cause for rather more serious complaints. Fighting has been indulged in between rival crews. There is no necessity of going into the merits of what crew is to blame. The fact remains that members of fishing crews have proceeded to administer what they believed to be justice. These men must learn that they cannot do that here. If they persist in such practices they are liable to be dealt with very severely and there should be little allowance made. It would be well for those concerned to take warning before they get into trouble.

PREMIERS BOWSER'S VISIT.

(Continued from Page One.)

introduction of mixed farming as a means to overcome the likelihood against loss. Mr. Manson was strongly inclined to the idea of mixed farming in order to bring the valley quickly into its own.

Mr. Dockrill has been through the whole of the southern end of the district and finds it a heavy one. There is no question as to the results now. Mr. Dockrill has the interests of the whole of the country he represents at heart. The settlers know this and are prepared to return him by a big majority.

At Hazelton there was considerable talk about the Kispiox Valley again this year. There are more settlers going in there again this year, and it is said to be destined to become a great farming country. At Fraser Lake a most interesting meeting was held. At that place there was the closest attention paid to the Premier's remarks. At the conclusion of it there was a luncheon served at the Weldon Cafe to the Premier and party and the crowd that had gathered. Francois and Ootsa Lakes sent representatives to the meetings to hear what was to be said. The ferry across Francois Lake was proving a boon. J. Bostron had taken over 42 head of cattle on it at one time. He has taken over 125 cattle into that country. There was general praise for what the Dominion Government was doing there for the farmers in the matter of telephones and telegraphs. These were advantages that were difficult to over estimate.

When Vanderhoof was reached the Socialist candidate, J. McInnes, was met. He wanted to know if the Premier would punish the district in the matter of appropriations if he were elected. Mr. Bowser referred to the time when Mr. McInnes was in the Legislature before, as the member for Grand Forks. He had him acknowledge that he had been treated fairly at that time and the Socialist riding had been similarly treated.

At Prince George there was an excellent reception waiting for the party. There a banquet was tendered to the Premier and party and the delegates who had gathered for the nominating convention that was held there. This was given in the spacious dining room of the Prince George Hotel. Following this there was a convention of the delegates of the district associations held. After the whole matter had been gone into, it was decided to tender Hon. Mr. Ross an honorary nomination. This was accepted and Mr. Ross will, it is agreed, be the next member for the district.

It was at Prince George that Mr. Merryfield parted company with the Premier's party and returned to the city. He comes back more than satisfied with the political situation in the interior. There can be no question as to the results. The Government will be endorsed in all of the ridings.

FISH ARRIVALS IN PORT FOR START OF WEEK

First Two Days Showed Rather Small Catches Landed Here From Outside.

Halibut receipts for Sunday and Monday were somewhat light. Spring salmon on Sunday was down to 5 1-2 cents a pound.

On Sunday the Atlin Fisheries took the 15,000 halibut catch of the Alameda at 7 3-4 cents. The Roald, 4,000; Lillian M., 5,000; Agnes B., 8,000 and Vansee, 10,000 pounds went to the Cold Storage Company at the same price. H. O. Roberts, of the Pacific Fisheries, paid eight cents for 25,000, taken from a number of small craft.

Yesterday the only arrivals were Tuladi, 5,000; Aurora, 11,000; Vansee, 17,000. These were taken by the Cold Storage Company at 7 3-4 cents.

RETAILERS ASK FOR REDUCTION IN FEES

The Matter Has Been Referred To The Finance Committee For Report.

A request that the fees charged for trade licenses should be reduced in this city was put farward by the Retailers' Association at the council meeting. The fee is now $20 a year, or $10 each half year. J. H. Thompson and H. E. Peck appeared as a delegation to urge the matter upon the council.

J. H. Thompson said he thought it was higher than anywhere else in the Province, and it was felt that it should be reduced.

Mr. Peck backed up the proposition presented by Mr. Thompson. Mr. Thompson felt that as the city had been placed on a financial basis now, through the financing done, this license fee might be reduced.

The Mayor suggested that this should receive careful consideration and should go to the Finance Committee. This course was adopted.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

GREAT MARGUERITE CLARK FILM HERE TONIGHT

Famous Players Star Triumphant In "Mice And Men."

Following her marvelous performance in the dual title role of the adaptation of "The Prince and the Pauper," the first of the inimitable Mark Twain's works to be transferred to the screen as a feature, Marguerite Clark appears as the star in the Famous Players Film Company's presentation of the popular theatrical success "Mice and Men," which will be the Paramount Picture at the Westholme Theatre tonight.

"Mice and Men," which was written by Madeleine Lucette Ryley, was first presented at the Royal Academy in Manchester, England, in 1901. The tremendous success of the initial production led to its appearance in London, at the Lyric, where Sir Johnston and Lady Gertrude Forbes-Robertson scored a great hit in this happy combination of comedy and pathos, the play enjoying the unique distinction of a twelve months' run. Annie Russell, the distinguished actress, starred in "Mice and Men," at the Garrick Theatre, in New York, in the season of 1903, which marked the first presentation of the play in the United States.

Miss Clark's exquisite daintiness in the role of Peggy is a fortunate selection to follow immediately upon her appearance as the sturdy little boy in "The Prince and the Pauper." For it affords a superb opportunity for studying the versatility of the diminutive star who changes from boy to charming little girl with all the ease and grace of which human ingenuity is capable. It is this remarkable display of versatility on the part of Miss Clark that has made her so tremendously popular everywhere that motion pictures are exhibited.

In "Mice and Men," Miss Clark has an unusual opportunity to do especially clever work because, during the course of this play, she portrays every stage in the development of an orphan girl from her unfortunate and unhappy life as a child to her ultimate debut as a charming and graceful society bud. Then, having reached maturity, she proceeds to break hearts as only a Marguerite Clark could. Her guardian, a philosopher, falls desperately in love with this delicate flower that has bloomed beneath his own roof and at the same time his nephew, a young army officer, is also victimized by the beauty and charm of the little coquette whose ingenuousness appeals to him in contrast to the studied wiles of another woman with whom he has come in contact.

The other woman's efforts result in a big mistaken tangle which involves the officer in an unmerited accusation, of which he is eventually cleared. But there still remains the love of his uncle for Peggy as a further barrier. The situation resolves itself into a battle of wits between the older and mature student and the impetuous young hero who comes back from the war covered with glory. The question is, will hero-worship and youthful impressionability conquer over the strong sense of gratitude which Peggy feels for the man whose unselfish devotion has lifted her from the obscurity of a number in the Foundling Home to her present enviable position in the social world.

The talented little star has among her supporting cast such distinguished players as Marshal Neilan, Clarance Handyside, Charles Waldron and Robert Conville.

---o---

Let us have lots of that stuff. WHAT? Good-feeling and Good-fellowship July 1st.

NAVIGABLE WATER PROTECTION ACT.

R. S. C. Chapter 115.

The Surf Inlet Power Company Limited hereby gives notice that it has under Section 7 of the said Act deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry District at Prince Rupert, B. C., a description of the site and the plans of wharves and power house proposed to be built at the head of Surf Inlet, Princess Royal Island, in front of Lot 40, Range 4, Coast District, B. C.

And take notice that after the expiration of one month from the date of the first publication of this notice the Surf Inlet Power Company Limited will, under Section 7 of the said Act, apply to the Minister of Public Works, at his office in the City of Ottawa, for approval of the said site and plans and for leave to construct the said wharves and power house.

LABOR MEN DISCUSSED QUESTIONS OF HOLIDAY

Several Matters Relating To The Subject Of Trades Came Before Meeting.

The question of the Saturday half-holiday came up for discussion at the regular meeting of the Trades and Labor Council last evening. A report was brought in by the organizer that an organization of the clerks and store assistants had taken place during the week and that they along with the Retailers' Association would like to have a uniform holiday by setting aside Saturday afternoon, and appealed to the Trades and Labor Council for any assistance they might be able to give, as some of the firms wished to make it Wednesday afternoon. After considerable discussion a committee was appointed to interview the City Council with a view to having the city bylaw changed so as to make it compulsory for all places affected to close on Saturday afternoon, with permission to remain open the Friday evening previous until 9:30. The committee will also interview a number of the firms who are standing out against Saturday afternoon.

A report was brought in regarding the laundry workers. The Trades and Labor Council deferred action on the report submitted, leaving further action in the hands of the union affected.

Correspondence was received from the B. C. Federation of Labor to the effect that the question of attempting to secure represenations on the Royal Commission dealing with compensation in the event of prohibition carrying in the Province was being taken up. A request had been sent to this body to give whatever assistance was possible in an endeavor to have labor represented on the commission.

The committee appointed to look into the Oriental labor question reported progress, having interviewed a number of business places, who promised that if white help could be secured the Oriental would be dismissed.

At the last meeting it was decided to hold a Smoker on the First of July. The chairman of the committee who have the matter in charge reported that a good programme was being prepared, which would include a boxing contest.

The question of having the firemen's suits made by white labor came up for discussion. A committee was appointed to go into the matter. It was reported at the meeting that the City Council had decided to have the suits made by union labor.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, Prince Rupert, B. C., April 9, 1914.
"The Reliable Plumber,"
Prince Rupert, B. C.,

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.
