City Council Discuss Questions Affecting Prince Rupert

British Empire Expect To Retain Control Of The Air

The City Council Discuss Action Taken By City Organizations

Before the adjournment of the City Council last evening Ald. Casey brought to the notice of the Board the fact that other organizations in the city were attemping to arouse activity in certain directions.

He said that the Board of Trade at a recent meeting had passed resolutions and had otherwise taken action in reference to local conditions as affected by the G. T. P. He pointed out that the Retail Merchants intended holding a meeting in the course of the next few days, which he thought was for some public spirited move. He was of the opinion that the City Council should get in with these bodies if they are running a safe line. It would be a good policy for the Mayor and Council to consider this matter. An attempt should be made to bring some activity out of the drydock. He was aware that Mr. J. H. Pillsbury had gone to Winnipeg, and that possibly that there was going to be activity at the dock. But he thought that the council should join with these other bodies and bring this matter to the attention of the Grand Trunk Pacific. Some time ago there was talk of a lease. He referred to the Cotton petition for a lease of the drydock, which was taken to Ottawa and brought before the Hon. R. L. Borden. A person did not want to seem ridiculous, and last year no action was taken by the council. He claimed that Hon. Sir R. L. Borden blocked the leasing of the drydock and continued to do so. He thought that the Mayor ought to submit some policy and get in with the other organizations and find out why the Prime Minister blocked this movement, and also find out why the G. T. P. did not take some action in the city.

In replying to Ald. Casey, the Mayor said that he understood that some of these other organizations that had been referred to had instituted a blockade on the G. T. P. for not making this port their headquarters. That being the case, it would not be within the jurisdiction of the council to take any action in connection with a boycott. He was quite willing that they should get together and attempt to start the drydock or anything else. There should not be any trouble getting together collectively. As an instance of this, he referred to the Fisheries' Delegation that had left for Ottawa and what they had accomplished.

Ald. McClymont remarked that the Fisheries' Delegation had met with some success, but it was regrettable that the most aggressive member of the committee had not gone to Ottawa. At least he said this seemed to be the consensus of opinion. He did not know whether they got as much as possible.

Ald. Montgomery in reply, said that he was not particular about going to Ottawa with the delegation. He was glad that they had met with success. What he had done was done in the interests of every one. He would have liked to have seen more of the legislation passed this year, instead of having to wait until next year. But he was pleased that the city had got what they did. He said that there was more work to do than people imagined. The fish were becoming depleted. This should be taken up with the proper authorities and pointed out that restrictions ought to be put on. People did not realize what the depletion meant. Years ago nothing was put up but the sockeye salmon, and a full pack was to be had. This year only a fifty per cent. pack was put up. We should have restrictions or the fight went for nothing.

Ald. McRae in discussing the fishery end of the discussion, said that he had talked with a fisherman and had asked him if there was anything to the depletion argument. The fisherman informed him that there was a great deal to it. But the reason was that in years past, when the fish were plentiful, the smaller halibut and cod had been thrown back into the water. As a result the bottom of the bays had become fouled. Scavenger fish had been attracted and had driven the better class of fish out. He also gave Ald. Montgomery credit for the work he had done on the Fisheries Committee.

No action was taken by the council, notwithstanding the lengthy discussion.

TRADES COUNCIL PETITION COUNCIL

RESOLUTION REGARDING MUNICIPAL CLAUSES ACT IN REFERENCE TO VOTING POWER

Petition Was Concurred In And The Provincial Government Will Be Asked To Appeal Clause.

At the City Council last evening the following communication was received from the Trades and Labor Council:

Prince Rupert, B. C., Jan. 24, 1917.

To the Mayor and Aldermen of the City of Prince Rupert,

Gentlemen,—

At a regular meeting of the Prince Rupert Trades and Labor Council, held in Carpenters' Hall, Prince Rupert, on the 23 day of January, 1917, the following resolution was moved and seconded and carried unanimously:

WHEREAS, it is found that the present provision of the Municipal Clauses Act, which provides that corporate companies have votes as companies, and that also the members of said companies have individually votes, thus giving a plurality of votes to one business concern, is not in harmony with true democracy and is a menace to just representations;

THEREFORE BE IT RESOLVED that this Council petition the Mayor and Aldermen of the City of Prince Rupert to use its best endeavors to have this clause in the Municipal Clauses Act duly repealed.

British Command Of Air To Be Complete As That Of The Seas

New York, Feb. 1.—"Great Britain now is seeking to dominate the air just as she already dominates the sea. If she has not yet fully achieved that dominance, it is only because time has not yet put her to the test. This reaching for supremacy is perfectly obvious, perfectly patent—just as patent as that two and two make four—and when the veil is lifted it will be found that Britain must inevitably be recognized as far and away in the lead in this new weapon of war that prominent Britishers assert is to settle the outcome of the present war."

This is the dictum that has just been brought back to this country by a student of affairs in Britain whose opportunities for observation and inside information have been unusual to a degree. With a knowledge that is born only of what he has actually seen at first hand and gleaned from official conversations, he has been able to determine that Britain's air fleet now actually numbers more than 10,000 machines, that it is being added to so rapidly that one can not guess from one week to the next just how much larger the air squadrons have grown, and that a vast army of persons now is engaged in England in the manufacture and preparation of aeroplanes for war service, in the handling of the machines and in the various details of organization connected with the conquest of the air.

Furthermore, this authoritative information that now is published here for the first time, discloses that Britain's Royal Flying Corps and Royal Naval Air Service now number more than 100,000 men.

RETURNED SOLDIERS HELD MEETING

There Was A Large Attendance—Make Appeal For Assistance For Honor Roll.

The Returned Soldiers' Association of this city held a meeting in their rooms last evening.

It was decided to ask the press to request the citizens or any person knowing the names or having any information that might lead up to the names being secured of any of the boys from Prince Rupert who have paid the supreme sacrifice to furnish the same to the Secretary, C .D. Brethour.

A vote of thanks was tendered the Bartenders' Union for the sum they handed the Association as a result of the dance that they recently held. The donation was $20.

Mayor McCaffery Submits Report Of Mission To Victoria

At the City Council meeting last evening the Mayor submitted a report dealing with his trip to Victoria. On motion of Ald. McRae and Montgomery the report was received and filed. Following is the text of the report:

Dear Sirs,—

In accordance with the request made by the Minister of Lands, I went to Victoria and placed before the Government the legislation we desire enacted in the comming session, i. e.

1. To bring down legislation whereby the Provincial Government would pay the local improvement and other taxes on the lands in the City of Prince Rupert in which the Government holds an equity.

2. Legislation to enable us to legally have a Reserve Fund.

3. To persuade the Government to place a reserve on the Work Channel waterpower, and any other powers tributary to this city; and, in addition to placing a reserve on same, to hold such powers without payment until such time as the city has developed the same.

4. I visited Seattle and had a consultation with Mr. J. D. Ross, head of the Electric Light Department in Seattle, regarding the governor at Shawatlans.

Regarding item (1), I am of the opinion that the Government will pay us these taxes.

Item (2), I also feel that they will bring down legislation to enable us to legally have a Reserve Fund.

Regarding item (3), water power reserve, and item (4), consultation with Mr. Ross, I have nothing to report as yet, but I hope to be able to report on these two matters within the next two months.

I remain yours,

Signed, M. P. McCAFFERY,

Mayor.

AN APPEAL MADE FOR CITY EMPLOYEES

The Question Of The Scavengers Brought Up At Last Meeting Of The Board.

At the Council Board last evening Ald. Casey made an appeal on behalf of the men employed by the city on the scavenging waggon.

He thought that the Board of Works or the heads of the departments should try and give these men extra work if possible, as he could not see how they could support a family on the returns from working four days a week. One of the men, he pointed out, had six children, and had been in the employ of the city two years and was worthy of some consideration.

Ald. McRae, while he heartily concurred in the expressions of Ald. Casey, pointed out that the men mentioned were receiving employment five days a week instead of four.

Ald. McClymont, in speaking on the question, said that in looking over the pay roll, he came across where these men were receiving work

NAVY AUGMENTED TO MEET MENACE

H. H. Asquith Declares That Naval, Military And Economic Resources Of Allies Ensure Victory.

London, Feb. 5.—In a speech at Ladybank to his constituents, former Premier Asquith said that the naval, military and economic resources of the Entente Allies assured them inevitable victory.

"A notion that the struggle is about to come to squalid ends—to result in a stalemate—is a mere dream," he said.

"The fortunes of battle may fluctuate and shift, but if all the influences at work are taken into comprehensive account, every month of the conflict becomes more unequal, and the balance of success more and more in favor of the Allies."

Referring to the new German submarine campaign, Mr. Asquith said:

"It is impossible to dispute the gravity of the situation, but the navy has been supplemented by other measures, such as arming of merchantmen; acceleration of new tonnage, and allocation of the tonnage resources of the Allies. These are being used with the special object of countering the German campaign."

Mr. Asquith said he would not waste breath upon the "so-called overtures of peace, which," he declared, "were put out by the enemy with transparent insincerity, but the country was bound to give respectful attention to the recent speech of President Wilson, which constituted a policy of the American people, or, more precisely, of American ideals. Mr. Wilson's ideal for a world league of peace is a fine one, which must arouse all our sympathies."

The former Premier recalled his speech in Dublin, in which he spoke of the enthronement of public right as the governing idea of European politics, and said his idea was not substantially different from President Wilson's ideal, except that the latter would blot out the geographical boundaries of Europe.

MANY CONVENTIONS SOON TO BE HELD

Of Interest To Farmers And Others In Prince Rupert District.

February is the convention month in this Province and several meetings of importance will be held in Victoria within the course of the next few weeks.

Farmers and all others interested in agriculture in any way in British Columbia are looking forward with interest to these gatherings, the first of which is the meeting of the Board of Horticulture, which is to be held in Victoria on the 9 and 10 of February. Closely following this comes the meeting of the B. C. Fruit Growers' Association. This convention is scheduled for the 13 and 14. Many interesting subjects will be discussed and a large number of fruit growers in different parts of the Province have promised to attend.

Next on the list comes the B. C. Stock Breeders' Association convention. Addresses of interest have been arranged for this meeting as for the others and everything taken up will be, not only of use, but also of interest, to those attending. On the second day of the B. C. Stock Breeders' Association convention the Farmers' Union holds the first of the mass meetings arranged for the 16 and 17 of February.

Many of the visitors who will be in attendance at the other conventions have expressed their intention of staying in Victoria in order to be present at the meetings arranged by the promoters of this new organization.

Reduced fares have been granted by the railways, but those who intend attending the convention must not forget to ask the agent when purchasing tickets, for a standard certificate. Without this no reduction will be available.
