Austrians Are Making Attack Upon Italy In The Tyrols

John L. Sullivan Was In Witness Box At Investigation

He Gave Warning Pluggers Were Coming From Seattle

John L. Sullivan Gave Evidence Of Learning About Liberal Pluggers

(Special to The Journal.)

Victoria, May 18.—John L. Sullivan, the Irving Hotel Manager, who has been chiefly responsible for bringing the Seattle pluggers before the investigation committee and the man whom the Liberals claim they have been very anxious to cross-examine on the stand, gave evidence here today.

Sullivan said he knew of the proposed visits of the pluggers to Vancouver early in the week of the Vancouver by-election. He got word from Tom Carroll in Seattle, Carroll being in charge of one of the parties.

Sullivan went down to Seattle to try and stop the movement and explain that the impersonators were being deceived, when they said that they were to vote for Macdonald the WET candidate, for as a matter of fact Macdonald was opposed to the WET interests.

Sullivan met Jack White in Seattle and warned him that he would get into trouble if he took pluggers to Vancouver. He also saw Monty White coming over to Vancouver with some men on the boat on the Thursday night before election, and gave him the same warning, in a conversation which the witness said was certainly not of the parlor variety.

Then Sullivan sent two wireless messages to F. W. Welsh, one of the Conservative candidates in Vancouver, telling him that pluggers were arriving by boat and train. Jack White met the Friday morning boat, but disappeared when he saw Sullivan, and kept out of sight. Sullivan met one of the Seattle trains at New Westminster and there were more pluggers on it.

Assisted by ex-Alderman Joe Hoskins and others, he attempted to get in touch with the movements of the Whites in Vancouver, but was unsuccessful.

WHY GOVERNMENT CHANGED SYSTEM

PREMIER BOWSER EXPLAINED ACTION IN ADVANCING TO P. G. E.

The Change From Strict Form Of Law Made To Allow Work Proceeding.

Victoria, May 18.—Premier Bowser has put in his defense for the action of the Government in permitting the Pacific Great Eastern to spend proceeds from the sale of Government guaranteed bonds up to the full amount of the bonds. The contract between the company and the Government specified that the company was only to receive this money in the proportion the amount of work it did period by period bore to the total amount of the work to be done, that is to say, if the company did half the work in one year it is to receive half the money, however, the company has received all the money and has not finished the work.

H. C. Brewster the other day brought in a resolution upon this subject, recommending that prosecution be started under the Criminal Code against the Government officials responsible for the infraction of the contract and the statutes. The House voted down his resolution on a party division.

Premier Bowser made an able exposition of the reasons why the Government had allowed the company to draw up to the full amount of the monies from the guaranteed bonds. The winter of 1913-14 was a very hard winter and soup kitchens in the city were started. In the following spring, in order to relieve the situation somewhat, the Government urged Foley, Welch & Stewart, the

CAPT. SHANNON WILL CONTINUE WITH OMINECA

He Has Been Given The Command For Alaskan Service.

Capt. S. B. Johnson is here in connection with the sale of the river steamer Omineca to the United States Government, for use by the commission which is to construct the Alaskan railway. He will remain a few days representing Foley, Welch & Stewart in seeing that the steamer is all in shape for delivery.

He says that the new owners, who are taking the boat to Cooks Inlet, have given the command to Capt. Shannon, who is an old-time river navigator, and who commanded the Omineca for Foley, Welch & Stewart.

Pending the adjustment of his insurance claims, Ben Self has not finally decided where he will locate to carry on business.

FEAR EXPRESSED FOR MAIL CARRIER

MESSAGE RECEIVED FROM ATLIN SAYS J. McMILLAN MAY HAVE LOST LIFE

He Left With Mail On Sunday And Has Not Since Been Seen.

There is fear felt in Atlin that another of the old-time dog team drivers has perished on the lake, through the breaking up of the ice. This is the information received by Capt. Alexander, owner of the Engineer Group at the northern camp. In company with his wife and Mr. Studd, Capt. Alexander leaves today for the northern mining centre.

A message received by him yesterday conveyed the information that the ice was breaking, but that it was not open yet for a boat. It added that McMillan, the mail carrier, had started out on Sunday with a dog team, but the ice was not good and he had not been reported from anywhere. Fears were felt concerning his safety.

J. McMillan is one of the oldest carriers in that district. He was known to all who lived there and was a good musher. There are many in Prince Rupert who know him well who will hope that he may yet be located.

OTTAWA HOUSE HAS BEEN PROROGUED

WITHOUT ANY CEREMONY PARLIAMENT CLOSED ITS WORK

Close Of The Session Came Suddenly Yesterday Afternoon.

Ottawa, May 18.—After a discussion of the report of the special committee that inquired into the matter of soldiers' pensions, Parliament was formally prorogued today.

In the absence of the Governor-General, Sir Charles Fitzpatrick came to the museum building unattended and read the speech from the throne.

EARTHQUAKE IN ITALY ALONG COAST OF ADRIATIC SEA

Rome, May 18.—An earthquake of particular violence has occurred along the Adriatic coast, between Rimini and Seninia. At the latter town a dozen persons were injured.

Following the picnic which the High School pupils had on Wednesday, Killas Bros. entertained them to an ice cream treat in their parlors. This is a practice which Killas Bros. carry out each year.

Fire Fighters Held Conflagration Within A Limited Area

Yesterday Prince Rupert was visited by what was the most dangerous looking proposition the fire department has ever had to face. As a consequence the living apartments of Ben Self, over the popular restaurant he has conducted, were completely gutted, while the restaurant itself was flooded out; the same situation followed in Demers' Millinery Store, next door. The fire department kept the flames confined to the two buildings, however, thus checking a conflagration that might have wiped out the business centre of the city.

Just how the fire started is unknown. The opinion of those on the ground was that it started from the restaurant range and ran up between the walls of the building. When first discovered, Mr. Self rang up the fire department and told them there was a fire in the rear of his place.

The department came to the conclusion that the fire was one of rubbish somewhere in the alley, and proceeded to it without any alarm being run in. The fire chief and his men proceeded to the rear, but upon finding the progress made by the flames they were obliged to attack from the front on Third Avenue. A willing body of citizens was already at work there. The situation was soon in hand and with many lines of hose playing on the buildings the fire was soon drowned out.

Chief Macdonald wishes to thank the many citizens who aided the department so well at the fire. There was one slight accident. William Ferguson, who was working with might and main on a hose line, was met at the window of an upstairs room with a cloud of smoke followed by flames. He was knocked out and fell down the ladder, hurting his back. He is not seriously hurt.

Mr. Self carried $2,500 insurance on the contents of his building. In the case of Mrs. Demers', who is absent from the city at present, the insurance amounted to about $4,500. There was heavy loss from water, especially in the Millinery Store.

BELIEVES WEST WILL COME INTO ITS OWN SOON

F. Lannic Is Here After A Trip To The East.

F. Lannic, formerly a resident in this city, is here after a trip to the eastern part of the Province. He will proceed to Vancouver where he makes his headquarters now.

Mr. Lannic says that in the east, while there are in the cities a number of empty stores, owing to so many having gone to the war and through the centralizing of the business, nevertheless the east is prosperous. After the war is over he expects to see many who are employed in the factories come west to enter into business here.

Austrians Trying To Drive Through Lines Of Italian Forces

Paris, May 18.—The attack launched by the Austrians against the Italian front in southern Tyrol, which has gradually extended along the entire Austro-Italian front, is being followed with great interest. French military authorities are satisfied that the Austrians are doomed to failure.

It is pointed out that the Italians made every posible preparation for just such an attack. The most powerful defences that engineering skill could devise has been prepared for the Adiago plateau and the mountains northwest of Arsiero.

AIRSHIP ATTACKS.

Rome, May 18.—An official report says: A despatch from Italian headquarters reports that Austrian aeroplanes had made several attacks on a town near Venice. It is stated the attacks caused insignificant damage. No lives have been lost and no military results accomplished.

FIRE INSURANCE PROBLEMS ARISING FROM YESTERDAY'S FIRE

Messrs. Killas Bros. sustained a consequental loss in yesterday's fire through the moving of the stock, smoke and water through the fire which started at noon in Self's Restaurant and quickly spread to Demers' and threatened the "Royal Confectionery." Willing hands helped remove the stock of confectionery, show cases and goods from the place, which were replaced after the fire had been extinguished. The stock was insured in the Alliance Assurance Company, Ltd., of London, England, and the Agent, Mr. M. M. Stephens, was quickly on the job to adjust the claim, and at 5 o'clock, p.m. last evening he presented Messrs. Killas Bros. with a check for the loss sustained, without loss of time in the conduct of their business other than that caused for a few hours by the fire. Mr. Stephens is as much alert in looking after the settlement of claims as he is in the rustling of business, and that is saying something.

Blair Fleming is in the city on a business tour.

GOVERNMENT TO PROVIDE HOLIDAY

PREMIER OF PROVINCE GIVEN HEARTY RECEPTION BY CLERKS

The Measure Will Be Submitted To Legislature This Session.

More than 1,000 retail employees of Victoria "demonstrating" in the old Victoria Theatre for a weekly half-holiday wildly cheered and applauded Premier Bowser when he announced that legislation providing for a weekly half-holiday for clerks will be introduced into the Legislature next week. "And I believe that the retail clerks of the Province will have no cause for disappointment in the legislation which we will introduce," he said.

The Premier also announced that he has called a conference of representatives of the employers and employees at his office at noon next Monday, to see if there is not a way of all coming to a satisfactory agreement. At this conference the employers and employees will each have two representatives from Victoria, two from Vancouver, one from New Westminster and one from Nanaimo. These 12 men with the Premier will formulate the details of the legislation.

The Premier said that the difficulty between the employees and some of the employers was not over a half-

SHIP-BUILDING AID.

It was to be expected that differences of opinion would arise over the Government bill in aid to ship-building. There are people who object to any assistance being given to ship-building, some who do not see the necessity of developing a ship-building industry on this coast, and others who would prefer the continuance of the present inadequate system under which ship-owners living outside of Canada, not only get the money paid for freights in and out of British Columbia, but can control those freights as they see fit, to the distribution of freight money among local owners and a local control of freight and shipping facilities. British Columbia built ships, British Columbia owned ships, and the payment to British Columbia owners of the money earned in carrying British Columbia cargoes is what the Government measure aims at promoting. We do not suggest, and we do not suppose the Government imagines that they will be fully accomplished by the bill now before the House, which, as we understand it, is intended as a first step in that direction. Its object is the inauguration of a new industry, a new line of investments, a new branch of business looking to the future. We hope that the result of the adoption of this policy will be that the time will come, and at no distant day, when ship-building and ship-owning here will need no Government stimulus; but we are dealing with things as they are today. It is highly desirable that ship-building shall be inaugurated here. There never was, and there is not likely to be again, so auspicious an apportunity for such an inauguration.

NOTICE.

Notice is hereby given to firms and individuals who sell provisions or other supplies to Stewards of Canadian Government Ships under this Department, that the Department is not responsible for debts contracted by such Stewards.

Clause No. 8 of Contract with Stewards, covering the Victualling of such Ships reads as follows:—

"It is distinctly understood by the "parties hereto that the said Department shall not be responsible for "any debts contracted by the said "Steward, and the said Steward "agrees to notify all persons with "whom he wishes to contract for the "purchase of any such provisions, "store or groceries, and before con"tracting for same, that the said De"partment, shall not be responsible "for any debt to be contracted by him "in that or any other respect."

Ottawa, March 21st, 1916.

TIMBER SALE X 597.

Sealed tenders will be received by the Minister of Lands not later than noon on the 7th day of June, 1916, for the purchase of Pulp Licence X 597, to cut 3,924,000 feet of Spruce, Balsam and Hemlock, on an area adjoining L 730, Lake Island, Mathieson Channel, Coast District, Range 3.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. 1-w-4-w

TIMBER SALE X 605.

Sealed tenders will be received by the Minister of Lands not later than noon on the 23rd day of May, 1916, for the purchase of Pulp Licence X 605, to cut 691,000 feet of Spruce, Hemlock, Balsam and Douglas Fir, on an area adjoining T. L. 3,417, Dean Channel, Coast District, Range 3.

One (1) year will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. 1t.

GARDEN COMPETITION.

The Provincial Department of Agriculture is offering cash prizes for City Gardens as follows:

Three prizes in each class.

CLASS I.

House Garden where occasional labour is employed for the work.

1st. 2nd. 3rd.

CLASS II.

House Garden where all work is done by occupant and family.

1st. 2nd. 3rd.

CLASS III.

Ordinary lot, without house. Area cultivated to be not less than (1,000) sq. ft. (i.e. 22 ft. by 50 ft.; 30 ft. by 33 1-2 ft.; or 40 ft. by 25 ft.)

Judging will be done chiefly from the standpoint of utility.

1st. 2nd. 3rd.

An entrance fee of one dollar will be charged.

Final judging to be done about end of August (dependent on season).

Plots must be staked or clearly defined in some way.

Competitions open to all citizens of Prince Rupert.

Apply by letter to

A. R. NEALE,
Department of Agriculture,
City.

Any literature or information in connection with the work may be had by applying to the same office.

All those desiring to enter will please send in their applications as soon as possible.

POSTAL NOTICE.

Postmasters are informed that the exchange of Money Orders with Denmark, Holland, Norway and Sweden, which was suspended on the 8th August, 1914, has been resumed, and Money Orders may be issued on these countries at the same rates of commission as formerly.

TIMBER SALE X 611.

Sealed tenders will be received by the Minister of Lands not later than noon on the 31st day of May, 1916, for the purchase of Licence X 611, to cut 4,969,000 feet of Spruce and Hemlock on an area adjoining Lot 1,548, Shannon Bay, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C. m8-4w.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

WHY GOVERNMENT.

(Continued from Page One.)

Pacific Great Eastern firm, to put on as many men as possible and rush construction in order to provide employment for the thousands of men out of work.

At that time, however, financial conditions were becoming depressed and the P. G. E. could not carry on the operations in any very extensive scale without some special financial arrangement. The proceeds from the sale of the guaranteed bonds were lying in the bank drawing 3 1-2 per cent. interest. Foley, Welch & Stewart, in order to put on the men required, would have had to borrow large sums of money at 5 per cent. The Government, therefore, decided to allow the firm to use the money from the guaranteed bonds up to the full extent of the amount of work they did, then the Pacific Great Eastern took on 7,000 men and rushed construction for the entire summer, also doing considerable work in 1915. The result is that the grade is practically completed from Fort George to Squamish, and trains are operating as far as Clinton. Another five or six million will complete steel to Fort George. A bill to cover this loan has been brought in.

The Premier pointed out that had the Government adhered to the strict interpretation of the statutes is could have refused to allow Foley, Welch & Stewart to draw the proceeds from the guaranteed bond sales until after the work was done, and then only to draw in the proportion mentioned above. But this would have meant, however, he claimed, that owing to the hard times Foley, Welch & Stewart would not have been able to get temporary loans from the bank, the steel would not have been laid to Clinton, nor the grade made to Fort George, nor would employment have been given for the many thousands of men for work on the P. G. E. in 1914-15. Foley, Welch & Stewart would have lost a million and a-half dollars' worth of supplies which they had purchased and the Government would have been forced to commence bearing the bond interest burden at that time, and would have had to continue to carry it for two or three years, until the line could be constructed in better times. Now, however, although the Government is paying the interest on these bonds, the P. G. E. in another year will be operating to Fort George and will be able to meet this interest account itself.

The Government, therefore, felt fully justified, said the Premier, in waving a strict interpretation of the statutory contract, when it decided in 1914 to permit the Pacific Great Eastern to draw on the proceeds of the bond sales up to the full extent, in order to keep the work on the line going ahead.

GOVERNMENT TO PROVIDE.

(Continued from Page One.)

holiday, but whether the holiday should be on Wednesday or Saturday.

"But it seems to me," he continued amid applause, "that there is only one day consistent with the policy of a half-holiday, and that is at the end of the week. As far as the clerk is concerned, having the holiday in the middle of the week breaks up the week, and after all amounts to very little of a holiday at all. Having Saturday and the week-end, the employee will have a holiday worth something to him.

"There is no doubt that the habit of shopping on Saturday afternoon or Saturday night is an acquired habit. There is no reason why it can't be arranged that this shopping should be done earlier in the week. We must view this from the standpoint of the greatest good to the greatest number."

The Premier said that the law will most likely affect only the three largest centres in the Province, Vancouver, Victoria, and New Westminster, as it would be unfair to put into effect drastic regulations on some of the small towns, where the stores are small and the clerks are few.

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Orme, Pioneer Druggist. g-.

TAX NOTICE.

Prince Rupert Assessment District.

Notice is hereby given in accordance with the Statutes that all assessed taxes, income and school taxes, assessed and levied under the "Taxation Act" and "Public Schools Act" are now due and payable for the year 1916.

All taxes collectable for the Prince Rupert Assessment District are due and payable at my office, situated in the Provincial Land Registry Building, in the City of Prince Rupert, B. C.

This Notice in terms of law, is equivalent to a personal demand by me upon all persons liable for taxes.

C. W. HOMER,
Assessor and Collector for the Prince Rupert Assessment District.

LAND ACT.

TAKE NOTICE that I, Miles MacInnis, of Anyox, B. C., occupation merchant, intend to apply for permission to purchase the following described land: Commencing at a post planted about 1,500 feet distant in a southeast direction from the shore of an unnamed lake situated near the summit of the divide between the head of Alice Arm and the Naas River, being about sixteen miles in an easterly direction from the head of Alice Arm, Cassiar District, B. C. Thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.

MILES MacINNIS,
Applicant,
Carl Bowman, Agent

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

PRICE OF HALIBUT DROPPED WITH HEAVY RECEIPTS

With Over A Hundred And Fifty Thousand Pounds In, Rate Dropped To Five Cents.

There has been a sharp decline in the price of halibut. On Wednesday several catches, aggregating 155,000 pounds, were sold to local buyers at five cents a pound. This was a cent and a-half lower than the price realized on the previous day, and the lowest since last January.

This price, however, is in excess of what is being paid at other coast points, and is much higher than what prevailed at the same season in past years.

The arrivals were: Soya, 4,000; Star, 18,000; Niagara, 20,000; Vesta, 28,000; and Magnolia, 35,000. These, with Tuesday's arrivals, made an aggregate of 155,000. The Agnes B and Star sold to the Pacific Fisheries. The Zorra and Alliance to the Atlin Fisheries, and the remainder to the Canadian Fish & Cold Storage.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C., — Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More — The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient — In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials — There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely — Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.

THE GOVERNMENT OF CANADA

THE DEPARTMENT OF AGRICULTURE — THE DEPARTMENT OF FINANCE
