Rome, Aug., 12.---An official report says that in the lower Adriatic the Austrian submarine U-3 has been sunk. The second officer and eleven of the men were saved.

Hope Held Out For Capt. Moore

Friends of Capt. Don Moore will be pleased to learn that there is still hopes held out that he may be alive. Word has been received from headquarters by his brother, C. A. Moore that Capt. Moore, who was previously reported wounded is now officially reported wounded and missing.

Germans Have Been Forced Back Under Pressure of Russian

Petrograd, Aug. 13.—An official statement admits the evacuation of Sokolow, Siedlee and Lukow to the east of Warsaw, but claims that the Germans in the region of Riga have been driven back. Near Kovno under pressure of the Russians the Germans abandoned their attack.

Kovno lies on the Niemen River, and is on the Villna-Koenigsburg line of defenses.

The government archives had been removed from Kovno to Bobruisk, in Minsk, 250 miles to the southwest, in anticipation of evacuation.

ENORMOUS DEMAND FOR TIMBER WILL FOLLOW

When War Ceases There Will Be A Ready Market In Europe.

Cessation of the war in Europe will mean an enormous demand for the lumber products of the Northwest and will make necessary greatly increased shipping facilities if utter paralyzation of the industry is to be avoided.

Prize Winners In Garden Competitions

AWARDS MADE IN INTERESTING COMPETITION HELD IN THIS CITY UNDER THE GOVERNMENT DEPARTMENT OF AGRICULTURAL

In the competitions conducted in the city for gardens, the following letter giving the awards is self explanatory:

Dear Mr. Editor:—Great interest is being centered in the introduction of garden competition into the city, by the Department of Agricultural. From the original idea of the competition, namely: (a) Garden with casual help; (b) Garden with no outside help; (c) City lot under cultivation, it has been found necessary to change the contests into three classes as follows: (a) The Ornamental and Utility Garden combined; (b) Ornamental; (c) Utility. In each case the garden work to have been done by the owner and family.

It has been found very difficult to make the awards. All the gardens from the various standpoints are a credit to the district, and the local gardeners deserve great praise for the success they have achieved. If it were possible, not a competitor should go without recognition. Those who did not receive a place, need not be the least discouraged, because the work is far above anything that was expected.

The following score card was used: Care and upkeep, 35 points; clutivation, 25 points; arrangement, 20 points; variety, 10 points; utility or ornamental, or the two combined, 10 points; total of 100 points.

In class (a) the first prize winner has distinctively emulated the natural surroundings. Nothing clashes. Even the small chicks running round the green award, away from the flower garden, are not out of place.

In class (b) the winner has also followed nature as much as possible. The whole arrangement shows this. The wild is portrayed rather than the more circumspect city garden.

Class (c). Here the first prize was awarded mainly on account of continual care and attention. The arrangement and the value of such a garden are well marked.

As judge, my thanks are due to you for publicity and help in this work; the Horticultural Society and its officials, namely, M. M. Stephens, President; Mrs. Dawson, Vice-President; M. H. Howitt, Secretary Treasurer; committee: Mrs. Arnold, H. S. Woods and J. McRae.

The winners were as follows:

Ornamental And Utility.

First Prize—Class (a), Mr. G. Burrowes, "The Kraal" Hays Cove Circle.

Second Prize—Class (a), Mr. Thomas McClymont, Borden Street.

PUBLIC MEETING HELD TO ORGANIZE FOR PROHIBITION MOVE

D. G. Glass Secretary Of The Movement Addressed Meeting Last Night.

In the Empress Theatre last evening, the campaign initiated by the Business Men's League in the south to press for prohibition of the liquor traffic, may be said to have been started. D. G. Glass, the Secretary and organizer of the movement, held a meeting which was not very largely attended, but the plan of action was set forth and a start was made on organization in the city.

Thomas McClymont was elected chairman, while Mr. Glass was the speaker. At the conclusion of the meeting a committee which is charged with the drafting of a general committee was named as follows: Walter Shaw, G. R. Naden, Thos. McClymont, H. F. McRae and Dr. W. T. Kergin.

Mr. McClymont in opening the meeting, said that he had not heard anything of the meeting until about noon. He had never hid his light under a bushel. He had always

Allies Repelled An Attack Of Germans Near Nieuport

Paris, Aug. 13.—An official report says:—The day has been comparatively quiet.

In the region of Nieuport a German attempt was repelled by our fire.

Their is nothing to report along the rest of the front except artillery action in Artois, on the Apremont front and in the forest of Argonne, where the cannonade has been accompanied by fighting by means of hand grenades and petards.

Successful Sale.

The sale of work in aid of the Red Cross Fund held yesterday was a decided success, everything being sold. The sale was held in the offices of Harrison, Gamble & Company. It was under the charge of Mrs. McIntosh and Mrs. Woodland. Bernice Palmer and Phil Dowling assisted in many ways going errands, and in every way aiding the ladies in charge to the fullest extent.

Seven More Cars Of Fish Leave Today

THE TRAIN WILL HAVE ANOTHER HEAVY SHIPMENT OF HALIBUT WHEN IT PULLS OUT THIS MORNING.

When the train pulls out of the station this morning it will have seven cars of fish. The train on Thursday had a similar number of refrigerator express cars. Since that time fish have been coming in rather plentifully and it is necessary to take out seven more this morning.

The demand for halibut in the markets of the east is reported to be good. The fish is being sent forward, therefore, as fast as it arrives.

There is a growing tendency now with the weather becoming more broken on the banks, to bring in smaller catches without waiting for a full boat load. In this respect Prince Rupert has all the advantages, as there is very little waste time in making the run in here.

CANADIAN AFFAIRS.

Questions connected with the financing of war contracts obtained by Canadian firms from foreign governments have been receiving the attention of the Dominion Government since the outbreak of the war, and particularly since the international exchange situation, to which reference was made in this column last week, became somewhat unfavorably to Europe, says the Edinburgh Scotsman. Efforts were made from time to time to bring about the arrangement of credits in London from which payments might be made. Some weeks ago the Dominion Minister of Finance, cognisant of the significance of the exchange situation, offered, in the event of the banks requiring such accommodation, at any time to make advances in Dominion notes against foreign securities which they might buy to facilitate purchases of munitions and supplies in Canada. The attitude of Canadian banks is understood to be that they are extending credits on a generous scale to customers engaged in manufacturing munitions and supplies. They are conserving their resources for the movement of this year's crop, expected to be the largest by far in the country's history. The question of currency inflation should further Dominion notes be issued against securities is also of great importance in the consideration of the question.

It has been announced that the war may add still another important industry to those already existing in the Dominion. General Bertram, head of the Dominion Shell Committee, stated recently at Ottawa that, in addition to the manufacture of shells, the government had under consideration the question of establishing copper refineries in Canada and the further question of manufacturing brass, which is at present in great demand for various purposes. Canada has vast copper resources, both in British Columbia and in the East, but the raw material has to be shipped to the United States, in the face of heavy freight rates and a considerable duty, to be reshipped under similar conditions in its refined state when needed in the Dominion. Operations of the copper trust in the United States have been responsible, it is stated, for a great increase in the price of copper since the war began. While this trust controls the refined article, Canada can have no say in the ultimate price which she herself has to pay for the copper mined from her own soil.

Raffle For Red Cross.

At C. H. Orme's Drug Store tickets are now obtainable for the drawing, for the Red Cross Fund, made possible by the gift of a large sized boat with Evinrude propeller by C. N. Crowell, formerly superintendent of the drydock. Pictures of the boat are in the window. The prices for the tickets range from 1 cent to $2.00.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Deputy Minister of the Interior

ENORMOUS DEMAND FOR.
(Continued from Page One.)

Assurance of these facts was given members of the Federal Trade Commision in Seattle by Allan H. Daugherty, President of the Ocean Lumber Company, one of the heaviest exporters of lumber in Puget Sound.

There is at present a demand for lumber in Europe that is greater than can be supplied with the existing transportation facilities. Mr. Daugherty said, and exporters could double their lumber sales abroad if ships could be found to carry the cargoes.

He suggested to the commission that the big problem in the development of foreign trade was the building up of a merchant marine adequate to the needs of American shipping.

come out on every occasion. While he was not one that "never touched, tasted or handled," he was not a "booser." He always voted for local option, believing that it would do good. He felt that British Columbia would soon follows the example of Saskatchewan and Alberta. There might soon be a measure for the whole Dominion, which he felt would carry. He introduced Mr. Glass.

Mr. Glass said this was a business men's movement. He traced the development of the movement in Vancouver. There were twelve strong Conservatives and twelve strong Liberals on the committee, while the twenty-fifth man "the devil himself could not say what he was." Every wholesale grocer in the city was in the movement. A banquet had been held in Vancouver when 550 men voted for total prohibition. In Victoria they held a monster parade.

Liquor men had themselves said they were satisfied with the way the movement was being handled. All they asked of the papers was fair play.

In Canada they were fighting a different class of men to that which they met in parts of the United States. They only fought the traffic here, not the men. It was a clean fair fight. The Miner's Union in Rossland had asked him while there to speak before them.

Mr. Glass quoted figures to show that Kansas had prospered under prohibition.

He expected to see a cleaner fight in British Columbia than in some other provinces. He deprecated any attempt being made to cut out business from newspapers, because they came out and advertised liquor propositions. It should not be done on the other side.

The Vancouver World had come out flat-footedly for prohibition. This was the first time in the history of newspapers in British Columbia where a paper had so come out. Later on he said there would be public speakers of note coming to the city to speak.
