WESTHOLME UNDER NEW CONTROL

MR. ALBERT WHO OWNS THE BUILDING HAS TAKEN OVER THE THEATRE

Under The New Management There Will Be No Aliens Employed.

The Westholme Theatre has been taken over by Mr. Albert who owns the building, but who has in the past had nothing to do with the management of the house. He has now taken over from the former company the entire equipment of the house and will in future have full charge of it. In consequence of the change the theatre will be closed Monday and Tuesday evenings, which will allow Mr. Albert the opportunity to arrange for the new service which he is going to give the public, and also to allow the new staff to get on the ground.

A peculiar situation developed in connection with this theatre, a sentiment was aroused against it since the war broke out in consequence of some of those who were interested in it being of foreign origin and of nations now at war with Britain. The effect of this was very evident during the last few days.

Consequent on this, Mr. Albert who built the theatre decided that the best thing to do was to allay all feeling along this line and he therefore decided to take over the business. Yesterday the deal was consummated and Mr. Albert acquired all that goes with the theatre and will immediately organize a new staff.

On the point of sentiment there

Lieut. Barney Johnson For Navy

Lieutenant Barney L. Johnson—better known as Captain Barney Johnson, the one-time popular skipper of the G. T. P. steamer Prince Rupert—is on his way to England, where he will enter the submarine service. Lieutenant Johnson belongs to the Royal Naval Canadian Volunteer Reserve and has for some time been aboard one of the two submarines which have their headquarters at Esquimalt. Prior to entering the submarine service he was one of the Vancouver junior pilots and prior to that for several years skipper of the Prince Rupert, and well known here. Before that again he was with the Union Steamship Company, having brought the ill-fated Vadso to this Coast. All who know him—and he has many friends in this port as well as in Victoria and several northern ports—will wish him success in his country's service.

French Army Has Had Successes Over Germans At Many Points

Paris, May 15.—An official report says:—"To the north of Ypres we have inflicted a check on the enemy. Our troops have taken several trenches, and at the same time occupied Steenstraate and the bridge of the canal.

"To the north of Arras the fighting continues ,resulting in new progress for us.

"To the southeast of Notre Dame our attack has extended.

"In the north beyond the sugar refinery, we have drawn nearer it.

"In west we repulsed counter attack on the slopes south of Lorette.

"At Neuville St. Vaast we are continuing the conquest of the northern part of the village. We captured several groups of houses."

ITALIAN PREMIER REMAINS.

Rome, May 15.—Antonio Salandra has consented to retain the premiership of Italy. There have been riots in different parts, consequent upon the delay of the government to enter the war.

N. OGILVIE HERE TO BEGIN SURVEY

HE WILL CONTINUE THE GEODETIC WORK ON THIS COAST THIS SUMMER

Entire Task Will Occupy About Four Years—Specially Built Boat Arriving.

Noel Ogilvie, who is known here in connection with the Canadian-Alaskan Boundary Survey, arrived yesterday morning by the G. T. P. steamer Prince George. He has completed his duties with the boundary survey, but will for the next few years be occupied with the geodetic survey along this coast.

A start was made on this branch of the work last year. It will be continued this year and will occupy about four years altogether. For this season, Mr. Ogilvie will make Prince Rupert his headquarters. There is required in connection with it a very considerable amount of moving about from point to point by water. For this reason the Dominion Government under which he works had a specially built boat constructed last year. It is the Metra, an oil burner and will be here in a day or two.

The survey that is in hand, consists in the locating of a series of points will be available for all future accurately ascertained and monuments, erected on them. These known points wil be available for all future time for all calsses of survey work, including the hydrographic work of

NEW RULE RELATIVE TO COPPER SHIPMENTS AFFECTS ANYOX

Questions Involved As Being Taken Up Now at Ottawa--Alteration had To Be Made In Plans Of Granby Company Following The Rule

Under the new rule brought into effect by the Dominion Government with respect to the shipping of copper out of Canada to the United States, the Granby Company's works at Anyox in common with other smelters is likely to be affected. The rule has been brought into effect for Imperial reasons, and it is for the purpose of preventing copper from here finding its way to the German enemy, to be used against the Allies in the form of ordinance.

The new rule provides that no copper of 90 per cent. or over shall be allowed to be shipped from Canada to the United States, unless the purpose for which it is to be used is known and vouched for.

Wm. Marchant, the inspector of customs returned from Anyox last night. He had while there occasion to take up with the Granby officials the question, as a shipment of 450 tons was being made the day he arrived. This was to be shipped to Seattle, but the inspector found it necessary to block that. He has no desire to harras the company in any way, but the rule must be observed.

Accordingly he got in touch with his headquarters at Ottawa by wire and found that unless the use to which the copper was to be put were vouched for the shipment could not be allowed to be made.

It has been arranged that the copper in the present shipment shall go to Vancouver where Mr. Sylvester, the executive officer of the company will take the matter up with the customs officer there.

An attempt will be made to overcome the difficlulty that has arisen, and which will affect other smelter plants in Canada in a similar way.

AMALGAMATED COPPER DISSOLVED

DIRECTORS ANNOUNCE TERMS UPON WHICH ASSETS WILL BE DIVIDED

Anaconda Company Will Continue To Represent The Stock.

Stockholders of the Amalgamated Copper Company have received a circular from the president, John D. Ryan, stating that inasmuch as the Amalgamated Company has become merely the holding company of the Anaconda Copper Mining Company, it is proposed to dissolve the Amalgamated Company and distribute its assets.

To effect this dissolution to the best advantage, the Amalgamated has decided to sell an amount of Anaconda stock which will reduce the holdings of the company so that distribution on the present issue of shares of the Anaconda Company many be made at the rate of two shares of Anaconda for one of Amalgamated. To carry out this plan, directors of the Amalgamated have concluded to offer stockholders of record on May 17 next, the privilege of buying one share of Aanaconda at $25 per share for each six shares of Amalgamated held by them. Proceeds of the sale of these shares will provide a sufficient sum of money to ensure the discharge of all outstanding obligations of the Amalgamated Company, and to leave approximately $3 per share in cash for distribution among the stockholders upon completion of the company's liquidation.

Shareholders of the Anaconda Company will act at the annual meeting on May 19, on the proposal to change the par value of these shares from $25 to $50, without change of capitalization, thereby making the authorized capital 3,000,000 shares

Malaspina In Port.

The Fishing Protection steamer Malaspina, Capt. Newcombe, arirved in port yesterday. The vesel is making one of its regular cruises.

Many American Boats Coming In

The fishing trade here is advancing more rapidly than ever the most sanguine had expected. During the past month, since the new order-in-council came into effect permitting of the landing of catches from United States boats for shipment in bond, there has been a very steady increase in the number of tons landed. During the past two days over 100,000 pounds of halibut were landed at the Cold Storage plant from United States bottoms. Of this the Morenger landed 18,000 pounds and the Samson 14,000 pounds yesterday. The day previous there were about four of these small American boats in, bringing 60,000 pounds.

THE SONG OF HATE.

When the Kaiser called his troops to war he said: "Remember that the German people are the chosen of God. On me the spirit of God has descended, I am his weapon, his sword, and vice-regent. Woe to the disobedient, death to cowards and unbelievers." After the fatal rush into Belgium the Kaiser's mases and Chancellor went a little further and stated: "We know we did wrong not to respect Belgian neutrality; but have we not done everything to save Belgium as far as possible from the horrors of war? Have we not declared again and again that we would redress the wrong and touch no hair on a Belgian head if the passage of our troops were unopposed!" Following all this comes Cardinal Mercier, who states: "The German deeds in Belgium have nothing to do with war, either of the old days of chivalry o rthe modern and scientific form; it is an eruption of barbarians into a prosperous, honest, and industrious country. It is a blind ebullition of rage against God, against his temples, against art, sacred or secular and still more against God in the massacre of helpless women and children." The whole civilized world should know, by this time, wether the Kaiser, or the Cardinal, are mistaken. Should any common individual make such statements as emanate from the mouth of the German "Lord," he would be incarcerated in an asylum for the insane as a dangerous human being. If one of our readers would only go out in the street, and make such a declaration, he would be arrested, and haled before two medical men. Despite all this, millions of supposedly sane persons have taken up arms and are murdering their fellow creatures on land and sea. Standing in the ranks of the German army are followers of the creed of Cardinal Mercier, giving up their lives at the behest of a human being who has even stepped into the "shoes" of their Supreme Pontiff, as the representative on earth of the True and Living God. Why are they there? Why, like the German Chancellor, are they standing by an "Anti-Christ," knowing that a great wrong is being done the whole human family? They are not alone in the category. All professed German Christian, whether Protestant or Catholic, must stand or fall by the words of the German "Lord." If the greatest drama the world ever knew is not being enacted, on the fields of Europe, truly then the world is "mad," and there is no hope for the generations to come. Surely the professed Christians, in the German army, are aware of the madness of their emperor? If his raised hand is able to call all persons of one nationality to steep themselves in the blood of innocent victims, is it not time for them to rise against the murdering of not only the women and children of other lands; but the cutting off of the flower of their nation? In the years to come, when the millions of their women and children will be shedding tears over the graves of their loved ones, would it not be a pity if the war, in which so many lives were wasted, must be looked upon as one caused by the machinations of a crazed individual —a modern Nero. If our christianity shows only the present state of affairs, after two thousand years, where will man look for succor in the time to come? If we must have wars, let us always stand with the oppressed, as we do in the fight against the "Weapon of God." German hatred may bring death to those we love; it may take us, and sweep away our homes, as it does in Belgium and France; but the world will be better to know that we once lived and held to the right in all things. Let us not forget that an enemy must be dealt with by a higher power than man. Although we are giving of our best, let us continue to look for higher ideas and ideals, and let all honest Christians pray that the Great Ruler of the Universe will crush the war spirit in our enemies, through the universal sorrow brought about by the war-mad "Lord" of a once respected nation.

TIPPERARY HAS GONE INTO DISUSE

CORRESPONDENT WRITES THAT IT IS NO LONGER HEARD AMONG SOLDIERS

Popular Song Of The Early Days Of The War Is Not Now Sung.

The Central News Correspondent, who is visiting the British headquarters in France, writes:

In the market place at Bethune an urchin was whistling a tune that seemed familiar. "C'est le chant des soldats Anglais," he announced proudly, breaking off for a moment in his whistling, and then I realized that it was indeed Tipperary. In a tour which had taken in practically the whole length of the British lines, it was the first time I had heard the strains of the famous melody, and the last. To the average "Tommy" the song of "Tipperary" now seems as ancient as "Ta-ra-ra-boom-de-ay." Not only has he abandoned his old love, but as far as I could make out he has not taken on with a new one. In other words, one hears very little singing or music of any kind at the front.

"We hear much of the necessity for military bands at home, but I have never seen it suggested that our soldiers at the front would be glad of them. And yet they need them even more than the new recruits of Kitchener's army. War is not all bayonet charges and shrapnel fire. A great deal of it consists of waiting. The Germans know the value of music in these circumstances, and bring their military bands to the front. A band would have been very welcome in that depressing little village, where we found Territorials from the north and midlands just settling down in billets, after their very first taste of war and the trenches. The air was cold, and occasional flakes of snow were falling gently. The reaction had come after their first fight, and the men were wondering what to do with themselves as they hung about the village street, looking in at the poor little shops. Our arrival, with our pockets fairly full of English cigarettes, came as a gleam of sunshine, and they talked in half a dozen dialects."

par value $50 each. A requisite amount of stock to effect this change has been pledged in favor of the plan.

When the change has been made and dissolution of the Amalgamated Company is declared operative distribution of Anaconda stock of new par value, will be made at the rate of one share for each share of Amalgamated, instead of 2 of Anaconda for one of Amalgamated, as would have resulted if the present number of Anaconda shares had remained unchanged.

The Amalgamated Copper Company was organized in 1899 and took over the controlling interest in the Anaconda Copper Company, Washoe Copper, Parrot Silver and Copper, Boston and Montana, Butte and Boston and other copper mining companies in Montana. In 1910 these were consolidated with the Anaconda Company which increased its capital stock from $30,000,000 to $150,000,000 (par $25) for the purpose.

INFANTRY REGIMENTS GIVEN PLACE OF HONOR

In German Army As In England Foot Soldiers Are Considered The Men Who Win Battles.

Field Marshall Sir John French, in a recent interview, as reported by Mr. F. Palmer, says: "I think there has been an inclination to exaggerate the importance of artillery, though, no doubt, of the three arms, artillery has increased in relative importance. It may take a dozen shells to get one man, while one bullet will get one man. The weapons which will decide the day are the rifle and the machine gun, and the infantry is still the queen of battles."

"This brings to mind," says the Infantry Journal, "the anecdote which Gen. Baden-Powell relates in one of his recent books": "I once had the interesting experience of having a talk with the present German Emperor regarding the relative value of the different arms in the field and his Majesty said, 'You will observe that I put the infantry in the front line, on parade, while the cavalry, artillery, engineers and train, come in the second line. The infantry takes the place of honor, since, by virtue of their armament and action it is the infantry who win the battle. The remainder are their servants.' 'I cordially acquiesced in the Emperor's statement, but then he turned on me and put me a poser. Why, then, do you in England put the artillery in the place of honor on the right of the line, the cavalry next, then the engineers and lastly the infantry?' I was rather at a loss for an answer, and blurted out the first idea that came into my head. I said, 'I suppose it is that we place them in alphabetical order.' This answer pleased his Majesty, if one could judge by the chuckling which lasted for some time afterwards."

NOTICE OF DISSOLUTION OF PARTNERSHIP.

NOTICE IS HEREBY GIVEN that the partnership heretofore subsisting between J. S. Johnson, J. A. Swanson, and C. C. Ketchum, in the City of Prince Rupert, has this day been dissolved by mutual consent. SPLENDID FOR PLUMBERS
The sale of Product No. 99 is strictly confined to the high-class supply houses. Its cost of manufacture is therefore not affected by Dept. or "price cutting store" influence that so often drives manufacturers to the use of inferior chemicals and processes. Nor is the dealer allowed to reduce the retail price under penalty of having his supply terminated.
A POWERFUL SOLVENT FOR
CLOGGED UP DRAIN PIPES
"99" destroys accumulations of lint, paper, cloths, hair, slime, grease, vegetables, soap, fruit and many others. It is harmless to fines plumbing.
DON'T ARGUE DON'T PUT OFF TEST IT
This preparation has been so generally successful in clearing drains that it is bought over and over again by those who have tried it, but inasmuch as no on can know the actual condition existing within a pipe, it is absolutely impossible for the manufacturer or the dealer to guarantee the result.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Taylor, St. George; Dr. Orok, The Pas, and possibly Mr. G. R. Ray, Nelson, whose seat has been challenged by the Opposition on the ground of no real election. By-elections for these seats will be hurried on, and they will then return by acclamation supporters of the new government. After that a session of the Legislature will be called, when one of the important pieces of legislation will be redistribution. The women of Manitoba expect an early implementation of the Liberal promise of female suffrage.

According to general opinion there is not likely to be an election before the end of the war, that being avowed by the curious and quite unique expedent of the vacating of the several Conservative seats.

Finally it is expected that the Royal Commission inquiring into the Parliament buildings contract will rush its labors to an early conclusion.

would appear to be nothing wanting with Mr. Albert in charge. He is a naturalized British subject, being a Russian by birth. Not only is he by birth connected with the nation that is putting up such an heroic fight in the cause of the Allies against the German and Austrian foe, but of his four brothers all are closely identified with the fighting, one of them is a prisoner in Germany. Another is in a hospital wounded, while the other two are serving with the colors. He has moreover, fourteen of his kinsmen serving in the war.

Mr. Albert says that no one will have any cause to complain that any alien enemies are employed at the theatre under his management. There will be none but British subjects, or those of nations allied with Britain in this war that will be given employment.

The intention is to keep the reputation of the house up quite as high as it has been. None but the best pictures will be shown. To carry out the arrangements he will have to close Monday and Tuesday evenings. He will reopen the place on Wednesday with a splendid programme if his plans do not fail. In the meantime he is arranging for an excellent service and getting a new staff and a well qualified orchestra together.

KINCOLITH INDIANS GOT BIG HAUL

OVER TWENTY THOUSAND DOLLARS HAS COME TO THEM

Distribution Made Of Proceeds From Sale Of Granby Lands.

C. C. Perry, the Indian agent has returned from the Nass after paying a visit to the Kincolith tribe. There he made distribution of the proceeds coming to the Indians from the sale of certain lands near Anyox that were acquired by the Granby Company.

The price paid for the lands in question was $20,500, of this the Indians received fifty per cent. among them. The remainder is credited to them by the department.

The Kincolith tribe have in view, the putting in of an electric light plant on the reserve and also the installation of a water system.

the coast. From these known points bearings may be taken at any time. The nearest of them to Prince Rupert is one located by Mr. Ogilvie across Shawatlans Passage and named by him Mount Nelson.

Mr. Ogilvie, who is recognized at Ottawa as a most efficient official has been promoted since he was last here. He has been named as an assistant-superintendent of Geodetic Surveys for the Dominion under Dr. King the superintendent. Mr. Ogilvie has been assigned the charge of the Pacific coast survey.

He will be assisted by W. M. Dennis, W. H. McTavish, H. S. Mussel and Kimbal Keeping.

Must Have Qualified Captains.

The shipmasters' assistant of this city has received the information from the department that all vessels of five tons or over plying out of here, must in common with the rules in force elsewhere, have captains with certificates in charge of them. This does not apply, to vessels engaged in the fishing business.
