Allies Extended Line In The Vicinity Of Hooge Taking Trenches

London, Aug. 9.—An official report says:—Since the communication of August 1, the artillery on both sides has been active north of Ypres. In exchanges the advantage has been with us.

This morning after a successful bombardment in which the French left co-operated effectively, we attacked the trenches at Hooge captured by the enemy on July 30. These were all retaken.

Following up this success, we made further progress northwest of Hooge, extending our front. Trenches were captured to a distance of 1,200 yards. During this fighting our artilley shelled the German station at Langemarck, derailing and setting fire to five trucks.

French Proving Too Much For Germans Along the Front

Paris, Aug. 9.—An official statement says:—The day has been comparatively calm along the whole front in Artois, betwen the Somme and the Oise. In the valley of the Aisne some artillery fighting is reported.

Rheims has again been bombarded.

In Argonne near Fontaine aux Charmes, the enemy attempted to capture our postions but were repulsed everywhere.

In the Vosges there has been only artillery firing.

FARMING LAND IS INCREACING

ASSISTANT HORTICULTURIST TELLS OF CONDITIONS IN DISTRICT

Mr. Tomlinson Has Returned From The Interior Valleys.

A recent visit to Lakelse and Kitsumkalum Valleys, again shows what prospects there are for agriculture in this district, says A. H. Tomlinson who has just returned from the intreior. The various crops are looking well, and much more land is under cultivation.

With growers it is a question of a suitable market. It is hoped that this year will bring about a closer union between the grower and the consumer, and that produce may be in the first place, grown properly and shipped in an up-to-date way to the city market, the local merchants, or direct to the consumer.

In older places these difficulties have taken place, and various problems have occurred. The farmers must produce the right article, ship co-operatively, and send to a market which is sure. On the other hand, middle-men and consumers must be assurred of receiving from the growers the quantity as well as quality in the various lines of produce.

From experiments carried out at the Experimental Plots, it is found that various ideas are confirmed to the effect that hardy fruits; vegetables and grains will grow and mature well. Certain farmers of the valleys are now cutting very fine oats, wheat and barley.

Farmers must aim to procure live stock, so as to keep up the soil fertility. All kinds of fodder, grain, roots may be raised to feed such.

It is hoped that before long the outlying districts will be able to have the manure from the city barns shipped in car-load lots, for use on the land. It is unfortunate that this valuable product has to be often thrown away. The G. T. P. will no doubt see fit to handle such from the city to the farming district. The buying of fertilizer is too expensive for the average farmer to go in for, when he should be able to procure stable manure. As is well known, for continued successful crop raising, manure or fertilizer, (sometimes both) is necessary.

A. H. TOMLINSON,
Horticulturist.

TEN MILLION MEN UNDER GERMAN CONTROL

London. Aug. 9.—At the session of the meat cargo cases before a British prize court, Sir Frederick E. Smith the Solicitor-General, produced a sworn affidavit made by Major Eric Dillion, a member of the General Staff, giving a British estimate which he says is approximately correct, showing that the number of persons serving in the army and under the control of German military authorities, aggregates 10,000,000.

BELIEVE ALDERMEN WORTHY OF SALARY

City Council Last Evening Received Petition In Favor Of Cutting Off Pay For Members---Voted Proposition Down

At the council meeting last evening the members considered the question of cutting off the recompense paid the mayor and aldermen. It was decided to keep the salaries on. The question came up on a petition presented by a number of citizens, who asked that the salaries attaching to the offices of mayor and aldermen should be done away with, in view of the prevailing conditions.

Ald. Maitland felt that unless the petitioners were property owners, their petition should not be considered.

Ald. Montgomery did not approve of the practice of cutting out salaries for those holding public office. There might be reasons for doing it sometimes, however.

After the names had been read, Ald. Casey moved that the terms of the petition should not be complied with.

Ald. Dybhavn did not altogether agree with Ald. Maitland, who contended that non-property holders should not be considered. He said that non-property holders had a voice in electing the council. He was inclined to think that the council was taking advantage of the municipal act, in taking the full amount specified. He felt inclined to grant the petition from August 1.

Ald. Casey said that if it could be shown that the signers were really anxious to effect a saving, he would be ready to hear any argument they could put forward. The purpose of the petition was to give some disgruntled feelings. Many had signed the petition conscientously. He noticed a lot of names of men let out of the city employ. These were disgruntled. He had no apologies to offer for what he had done. If a relief fund was started, he would would give dollar to dollar according to his means, in comparison with those who signed the petition. He was not going to be "bully-ragged" by any such move. He personally gave about fifteen hours a week to the city.

Ald. Maitland saw in this petition a good deal of spite work. Ald. Dybhavn had never come forward since election with any scheme to reduce expenditure.

Ald. Montgomery felt that it was going too far to say that these petitioners signed this for spite work. He believed that an alderman should get enough salary to keep himself, say $100 a month. Then they could give their time to the city. He was going to cut out the salaries.

A vote being taken Ald. Casey, Nico and Maitland voted against granting the petition. Ald Dybhavn and Ald. Montgomery voted for granting it.

Wounded Man Improving.

Chief Gammon, of the Provincial Police, returned last evening from Port Essington. He reports that Murphy, the man who was wounded by stabbing a week ago, is making good progress towards recovery.

Court Of Revision.

A court of revision will be he'd on Aug. 28 in connection with the new walks proposed. The court will consist of the Mayor, Ald. Maitland, Edge, Nicol and Casey.

Not Ready To Build.

A telegram from the Dominion Government to George B. Hull, resident engineer, was read to the council last evening. The message said that the government, in view of the conditions that existed, proposed to postpone the construction of the water line to Digby. The council would therefore have time to consider the matter at length later.

French Aeroplanes Played Havoc With Town of Saarebruecken

Paris, Aug. 9.—This morning an air squadron consisting of thirty-two aeroplanes convoyed some scout speed planes. They sailed forth to bombard the station and factories at Saarebruecken. The weather conditions were unfavorable, the valley being concealed under a fog. The sky was also cloudy, but notwithstanding the difficulties attending the proper steering, 28 aeroplanes reached their goal.

They dropped 164 shells of varied calibre. The speed planes meanwhile keeping away the German aviators, who were attempting to cut off the squadron form it destination. Many fires were observed in the territory shelled.

Offer To The City.

F. Shaw made an offer to the council last evening to do the redecking of streets at 8 cents per lineal foot. He would take the city debentures in payment for the work.

WOULD LIKE TO HAVE ACT AMENDED

W. B. CLAYTON WROTE LETTER TO COUNCIL LAST EVENING ON SUBJECT

Communication Was Referred To The Finance Committee For Report.

W. B. Clayton who has a proposition before the city to erect another cold storage and fish plant here, wrote the council last evening suggesting that the council might take steps to try to have the municipal act amended so as to overcome certain difficulties, which made it impossible to carry out the proposition here.

Salmon Run In Northern Waters Is Proving Good One

In spite of the fears of those interested a week ago, that the pack of sockeye would be smaller than hoped for this season, there is now every reason to expect a full pack. In the Skeena Slough yesterday, the North Pacific cannery boats had catches of 90 to a boat. This is regarded as exceptionally good. In the river proper, the catches were smaller, averaging only 40 to a boat.

The canners are now optimistic, and believe that the canneries will have, before the season closes, a full average catch of sockeye. This is about three-quarters sockeye to the total catch. There is an abundance of humpbacks to complete the pack.

In Rivers Inlet there is a full pack in sight, with abundance of sockeye. The season is an excellent one for that section. On the Naas the conditions are steadily improving. There is a prospect that the pack will be up to the mark this year again.

From the south comes the report that the Fraser River is proving a failure this year. It would appear that the salmon supply of the future must be from the northern rivers.

RUSSIAN DUMA FOR FIGHTING TILL VICTORY IS SECURED

Petrograd, Aug. 9. via London.—On the conclusion of the debate on the war the Duma placed itself on record by the unanimous adoption of a resolution declaring it to be the Empire's unshakable determination not to conclude peace before Russian victory was complete, and pledging the willing assistance of the entire population for the creation of fresh means for continuing the struggle.

The resolution emphasized the necessity of forgetting old political quarrels and recalled the government's benevolence with regard to the interests of "all loyal citizens of Russia, without distinction of race, language or religion."

The members also expressed their "unshakable faith that the shortcomings which hitherto have existed in the provision of munitions for the army will be immediately removed and that those responsible for criminal omissions will be made to pay the penalty, no matter what their position."

CABLE LAID AT HASTINGS ARM

THE DOMINIO GOVERNMENT TELEGRAPH LINE IS IMPROVED NEAR ANYOX

The Overhead Wire Has Been Done Away With Now.

Yesterday the Dominion Government Telegraph line successfully laid a cable across Hastings Arm, in connection with its telegraph service. In the past an aerial wire has been strung across the gap for a distance of 3,400 feet. This was found troublesome, especially in the winter, and it was decided to put a cable in position

Yesterday with Mr. Porter, an expert from the south in charge, the work was accomplished.

W. J. Sanders, of Vancouver, who has large interests in this northern section of the country, was a passenger by yesterday's train to Hazelton. Mr. Sanders believes that this district is the section that is coming into its own now.

THE FISHING INDUSTRY.

The fishing trade in this city is developing at a rate that is most gratifying to all that are in any way connected with it, or is interested in the city and its advancement. Fishermen who have been coming in to the port speak in the highest praise of the opportunities that exist here for the building up of this industry. They are well satisfied and agree that there is nothing to prevent this becoming at once the greatest fishing port of the coast.

There have been those who have been afraid that the winter will prove slack, arguing that the fishing will fall off then to some extent. It would appear that the pessimistic can at all times find ground for their pessimism, but that it is equally true that the optimists have the surest foundation for being optimistic. Fishermen contradict the theory that the winter is to be slack in the fishing line. They point out that while it may not be so difficult to go south with catches in the summer, it will be much more expensive, and result in more serious loss of time if done in the winter. During the winter months, they say, there will be every reason for the coming into this port with catches, so that the winter should be livelier than the summer in the fishing industry out of here.

WELLINGTON'S ARMY.

Wellington's official report on the battle of Waterloo, written on June 19, states that "the army never upon any occasion, conducted itself better. There is no officer nor description of troops that did not behave well." Yet five days later he wrote privately to Lord Bathurst, secretary for war: "I really believe that, with the exception of my old Spanish infantry, I have got not only the worst troops, but the worst equipped army, with the worst staff, that was ever brought together. On account of the deficiency of drivers of carriage, we have not one-fourth of the ammunition which we ought to have." Lord Stanhope records the duke as having said of his Waterloo army: "On the whole our army that day was an infamously bad one, and the enemy knew it; but, however, it beat them."

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Halibut Arriving In Large Quantities At Local Port These Days

The port of Prince Rupert is certainly establishing its right to the rank of the greatest fish centre on the coast. Following very substantial deliveries of fish on Saturday, a special train left Sunday evening for the east. The train was made up of six express refrigerator cars of halibut and five tank cars of oil for points along the route.

Yesterday and Sunday there were brought in well up for a quarter of a million pounds. This may necessitate another special going out before Thursday morning. Yesterday's regular train had a carload attached.

Among the chief arrivals yesterday and on Sunday were Tom and Al., which was bought by the Atlin Fisheries. This schooner had 50,000 pounds on board. The Skugaid, of the Canadian Fish & Cold Storage Company, brought in 45,000 pounds; the Zebassa, of the same company had 23,000 pounds; The Liberty brought 40,000; the Shamrock 30,000; the Olga 7,000 and last evening late, the local boat Triladi brought in 15,000 pounds.

The boats arriving all report dirty weather on the outside. Friday, Saturday and Sunday were all bad days. This will probably reduce the catches for the next few days.

NINE THOUSAND ARMENIANS.

(Continued from Page One.)

that Turks, after massacring all the males of the population in the region of Bitlis, Turkish Armenia, assembled 9,000 women and children and drove them to the banks of the Tigris, where they shot them and threw the bodies in to the river.

These advices have not been substantiated from any other source.

The Armenian population of Cilicia, in the Turkish village of Adana, also has been subjected to persecution, according to the reports of the committee. More than 40,000 persons already are dead, and it is feared that the Armenians at Moucke and Diarbekr, in Kurdestan, also have been massacred.

Twenty members of the Armenian Social Democratic party, M. Varazdate says, have been publicly hanged in Constantinople after being charged with wishing to found an independent Armenia.
