ALLIES HAVE HAD SUCCESSES ON WESTERN FRONT

TURKS DISLODGED BY ALLIES AT POINT OF BAYONET

BRITISH PROTECT THEMSELVES FROM GAS ATTACK

Franco-British Army Successful Against Turks At Gallipoli

Pa. 3, May 11.—The Franco-British forces operating south of the Gallipoli Peninsula have delivered a general attack, supported by the guns of the allied fleet against the Turks' position which had already been penetrated the day before by our troops. With conspicious spirit and courage the position was carried at the point of the bayonet.

Several lines of trenches on the heights in the neighborhood of Krithia were taken on May 9. They consolidated and fortified themselves on the ground conquered the previous day. The Turks made no attempt to deliver any counter attack.

ANTI-GERMAN FEELING IN DIFFERENT PARTS OF THE EMPIRE

London, May 11.—Terrific anti-German outbreaks are raging amongst the people of practically every seaport in England aroused to the pitch of furious resentment by the sinking of the Lusitania.

Police and military are doing all they can to curb the fury of the people, and are hurrying terror-stricken Germans into concentration camps for their own protection. German property in the seaports is uninsurable against attack.

Vancouver Enraged.

Vancouver, May 11.—The police are busy rounding up Germans for the concentration camp. It is felt that their position otherwise is one of danger as the resentment of the people is very marked, and violence may easily be done.

SIXTY THOUSAND POUNDS YESTERDAY

COLD STORAGE FLEET BROUGHT IN CONSIDERABLE FISH FROM BANKS

Skugaid Lost Propellor And Had To Be Towed In By The Zibasso.

There were about sixty thousand pounds of halibut brought in by boats of the Canadian Fish & Cold Storage Company yesterday. This would have been considerably increased had it not been that the Skugaid, one of the smaller craft met with an accident on the banks and lost her propellor. The Zibassa of the same fleet also quit fishing and towed her in. The Skugaid had about 10,000 pounds and the Zibassa 20,000 pounds.

The G. Stirrat also came in yesterday with 30,000 pounds. This following a heavy run from the United States craft the day before, has given the Cold Storage quite a large supply of fish to take care of. The management, however, is calling for more, stating that it is able to take care of all that comes.

The weather is good on the banks, so that there may be expected to be good catches coming in now.

Will Take Speedy Trial.

The prisoner McLaren who is charged with stealing a considerable quantity of goods from a tailor shop was before Judge Young yesterday for election. He decided to take speedy trial and the hearing of the case was set for Thursday morning. When asked if he was ready to plead, the prisoner said he certainly never intended to take the goods. This was interpreted as a plea of not guilty.

Inspector Owen of the Provincial police will leave this morning by the train for Fort George.

Formal Opening Of Recreation Grounds

On Saturday it is expected that the formal opening of the recreation grounds that have been undergoing preparation at Acropolis Hill will take place. Ashes and cinders are being put on the grounds now and it is expected that twe baseball matches will be played there on Saturday. This will serve as the opening of the local baseball league season also.

MORE ORE FROM ROCHER DE BOULE

FOUR HUNDRED TONS SENT BY SCOW TO GRANBY SMELTER

Getting Things In Shape For Regular Consignments To Follow.

There is now going forward to the smelter at Anyox, another shipment of ore from the Rocher de Boule mine near Hazelton. The shipment consists on ten carloads that have been brought from the mine and were put through the bunkers provided by the Montana Continental Development Company which operates the mines. The shipment is a four hundred ton one.

With the opening up of the business and the starting of the shipping, there have been many things to adjust, and the shipments have not gone forward as regularly as had been expected. From now on, however, it is expected that the forwarding of the ore will be done without hindrance.

Evidence Concluded.

A case that has occupied the attention of Judge Young for months at different periods, was concluded yesterday, as far as the taking of evidence was concerned. This is the case of Chutian vs Schaffer; a dispute arising out of the collapse of a bake oven erected by the plaintiff for the defendant. It is claimed by the defendant that the oven was defective. The plaintiff contends that it was subject to too violent a heat before it became seasoned. Experts of all kinds were called at different times. The argument will be heard today. Williams & Manson appear for the plaintiff and Mr. Patmore for the defendant, watching briefs are also held for other parties indirectly affected by Mr. E. Fisher nd by Adair Carss.

Won Guessing Contest.

In the guesing contest conducted in the window of Parfkin & Wards, the decision was given yesterday afternoon. The guess was as to the number of peas in a glass. Mrs. P. Stephens was the winner with the guess of 2,185 She was only one out. There were 2,184 peas in the glass.

Will Leave Monday.

W. T. Donnelly the designer of the G. T. P. drydock who is accompanied by Mrs. Donnelly on a visit here will leave for New York on Monday. He will return in September, about the time the dock is completed. He will then proceed to Honolulu to inspect a dock of similar design, which is being constructed there. The Honolulu dock is not as large as the one in Prince Rupert.

Appointed To Office.

J. G. H. Bergeron, the former member for Beauharnois, has been appointed postmaster of Montreal in succession to Hon. L. O. Taillon, once premier of Quebec and later postmaster-general of Canada.

MIGHT MANUFACTURE ARTILLERY HERE

W. T. DONNELLY DESIGNER OF THE DRYDOCK SAYS IT COULD BE DONE

The Matter Will Be Looked Into With The Object Of Doing It.

W. T. Donnelly the designer of the G. T. P. drydock which is now nearing completion says that the works there are capable of manufacturing guns for the purpose of the war. He is not sure exactly how the situation stands with respect to the supply of artillery, but is of the opinion that there must in all likelihood be some of these guns required, as well as the shells that are being made elsewhere. The matter will be gone into and Col. Bertram whose firm supplied a good part of the machinery in the work shop at the dock will be communicated with by the management of the dock with the object of finding out if something cannot be done here.

Mr. Donnelly says that without additional machinery over that which is installed in the workshop there, four or five-inch guns could be turned out of first-class quality.

The matter came up at a meeting which Mr. Donnelly had with the Board of Trade yesterday afternoon to discuss the subject of the shell contracts. It was explained by Mr. Donnelly that that work seemed to be very well in hand in the eastern factories, and he found that there was little likelihood of that being taken in hand here. He however, suggested that along the line of ordinace, there was the chance that guns might be turned out to the advantage of all concerned.

CHEAPER POWER FOR HOME COOKING

ARRANGEMENT MADE FOR CHARGING A LOWER RATE THAN THAT FOR LIGHT

City Will Segregate The Two As A Means Of Encouraging Use Of It.

The City Council has adopted a method on the recommendation of the superintendent of electric lighting which will make it possible to give the users of electric power for cookers and such household utensils, the advantage of the power rate without the putting in of a second system of wiring. The arrangement is to take the average of last year as the lighting bill for those who use the electric utensils. This will be reckoned as the light part. The remainder of the amount will be regarded as due to the power, and will be charged for at the rate that is made to prevail for power.

As Ald. Kerr the chairman of the committee explained at the meeting of the council, it was felt that this would be a fair proposiion. There were a good many using the cooking apparatus, and it would not be right to put them to the expense of installing a new system for this.

British, Belgians And French Scored Successes Against The Germans

Paris, May 11.—The official report says:—"To the north of Dixmude the Belgian troops succeeded in throwing a bridge at the head of the right bank of the Ypres. In doing so they were subjected to violent attacks by three German battalions. The Belgians repulsed these, inflicting heavy losses on the enemy.

"To the east of Ypres, the British troops were attacked again by the Germans, with the aid of asphyxiating gases. The British allowed the fumes to pass over them, under the protection of masks. By rifle and machine gun fire that annihilated at the points of their guns, the German columns which had advanced in close formation.

"Our success north of Arras have been sensibly enlarged. During the course of the fighting in an engagement of extreme violence we captured an important German work, the entire system of trenches constructed along the road from Loos to Vermelles. We have without pause, pursued our success in pressing the enemy energetically between Notre Dame and Ablain-St. Nazaire. All the German trenches south of Chapelle have successfully fallen into our hands."

AUSTRIA DEFENDS ACTION OF GERMANY IN SINKING SHIP

Venice, May 11.—The Vienna papers justify the Germans for the sinking of the Lusitania, saying the incident is just the same as the sinking of a British battleship, as the Lusitania was armed.

They regard the affair with joy as a great naval defeat.

AUSTRIA ACCEPTS DEMANDS MADE BY ITALIAN GOVERNMENT

Rome, May 11.—It is expected here that Austria has accepted all the demands made upon her by Italy in the effort to maintain peaceful relations with that country.

Austria cedes Trent as far as Brenner in the Tyrol together with Triest and Istria Pola.

CANADIAN BANKS HAVE PAID FIRST OF WAR TAX

Public Exchequer Is Richer By A Quarter Of A Million Dollars As Result Of First Contribution.

The public exchequer of the Dominion is richer by a quarter of a million dollars as the result of the first contribution of the banks under the war revenue act.

It was made retroactive to January 1, and the amount received on May 1 represents the first quarterly instalment. The estimated revenue from this source was $1,000,000, the banks paying one-quarter of one per cent. on the average amount of notes interchanged.

Trust companies also have made an initial contribution which is up to

(Continued on Page Four.)

INDIAN GIVEN A LENGTHY TERM

WILLIAM LAWSON SENTENCED TO SERVE THREE YEARS IN PENITENTIARY

Lee A Young Halfbreed Was Given A Year By Judge Young.

Yesterday Judge Young disposed of the two prisoners who were tried a few days ago in connection with the stealing of $140. Lee the young halfbreed who was convicted of doing the actual stealing, and William Lawson the Indian to whom he delivered the whole of the money, were both found guilty and sentenced by His Honor Judge Young.

When Lawson was asked if he had anything to say why sentence should not be passed upon him, said that he intended to return the money. He never intended to keep it. He also pleaded that he had a wife and family.

His Honor pointed out that unfortunately he had a very bad record, and a long one of trouble with the police. He did not seem to have been giving his family very much attention, and for a long time he had been getting into trouble and serving time in jail. For eight years he had been in trouble. There was the fact that he had been convicted of highway robbery on a previous occasion, which certainly did not look well. Besides this he had had lots of time to return the money and had not done so. The people the money was taken from could not well afford to lose it. His Honor further contended that he could not help believing from the evidence, that the boy who took the money was controlled by the prisoner.

This the prisoner denied, however. He said that the boy just brought him the money.

The judge said he could not help believing that the boy was under his control. He could not see why he should bring the money to him.

He passed sentence upon him for a term of three years in the penitentiary.

The boy Lee who did the stealing was also sentenced. The judge gave him advice, and in sentencing him to one year, to take effect upon the completion of the two years he had yet to serve on previous counts, he called attention to the fact that he believed that the boy was influenced by the older one.

He pointed out to the prisoners that by good behavior the term might be shortened by the authorities.

Among The Wounded.

Alex. Quinn of Vancouver, a brother of Mrs. Hugh Dunn of this city has been wounded at the front. He went out with the first contingent from Vancouver.

THE ROCHER DE BOULE.

The Rocher de Boule mines are now making regular shipments to the Granby smelter. The development of such a mine as this one is proving itself to be, is of immense benefit to the city and the whole district. Mr. Oppenheimer who has come here and put his money into the proposition is deserving of every encouragement. It is true that he is not working on sentiment at all. He is a shrewd business man who has invested his money in what he believes will be a good paying proposition. In common with other citizens of this city, we hope that his efforts in this direction may be attended with the very greatest success. He is a pioneer in a line of industry in this new part, which it is hoped will attract lots of others, and with gratifying results it is to be hoped for all of them. This country needs more men of the type of Mr. Oppenheimer who invest their money carefully and well and get results. These men are the backbone of our industrial advancement.

ADVERTISING THE WEST.

The Dominion Parks ranch recently issued three publications which are noteworthy on account of the attractive form in which they are printed and the interesting matter they contain. They are: "Classfied Guide to Fish and Their Habitat, Rocky Mountains Parks"; "The Nakimu Caves"; and "Glaciers of the Rockies and Selkirks."

The Fish Guide is written for the sportsman and naturalist rather than the scientist. It is a compilation of first-hand information for anglers, by one who has fished in all the principal waters of the Park. It takes up each locality, describes the best means of reaching it, the different varieties of fish which can be secured, and the best bait to use. The game fish of the Rockies include five species of trout, one of which—the Lake Minnewanka trout—has been known to run as high as 40 lbs. The Grayling, the Dolly Varden and the Cut Throat trout are found in many of the lakes and streams of the Park and a fish hatchery has recently been established at Banff for the purpose of re-stocking those which have become depleted.

The second phamphlet gives an interesting account of the formation, character and discovery of the famous Nakimu Caves near Glacier, British Columbia. These interesting natural curiosities are supposed to be about 40,000 years old and consist of a series of underground chambers, some of them fifty feet high and more than two hundred feet long, hollowed out partly by erosion and partly by volcanic action, and opening into each other at different levels. The walls of the caves are covered with strange florescent limestone formations and they reverberate to the roar of underground torrents. The different chambers have been given names suggestive of their character: "The Pit"; "The Marble Way"; "The Ballroom"; "The Art Gallery"; "The Judgment Hall"; "The White Grotto"; "The Bridal Chamber"; etc., and when they are lit with electricity and proper guards and handrails have been placed on the stairs and platforms, they should be among the most interesting sights in the Rockies for tourists.

"Glaciers of the Rockies and Selkirks" is by Dr. A. P. Coleman, Professor of Geology in the University of Toronto, and bears on the cover an attractive reproduciton in color of a sketch of Mt. Ball, one of the picturesque peaks near the Divide. Dr. Coleman is a scientist with the imagination of a poet and he has written the story of the formation and work of the Canadian glaciers with all his well known literary charm. The phamphlet should prove not only a great help to the student of glacial phenomena who visits the Parks, but it should inspire many Canadians with a desire to see the wonderful mountain scenery of their own country for themselves, "to put on," as Dr. Coleman says, "warm, strong clothes and hobnailed shoes and to fill one's lungs with mountain air in a scramble up to the snowfields to see how the glacial machinery works."

The phamplets may be obtained upon application to the Dominion Parks Branch, Ottawa, without charge.

Advice To Liberals.

(From La Patrie.)

If the Liberal party does not want an election, let them silence their clubs. If they do not wish to appeal to the people, why do they unceasingly provoke the Government? They profess to desire a political truce. Let them respect it themselves. Let them guard against their political fanaticism breaking it. Let them display less hypocracy and do less lying. Let them stand to the level of the times, so solemn and serious, through which we are passing.

TIMBER SALE X 406

Sealed tenders will be received by the Minister of Lands not later than noon on the 18th day of May, 1915, for the purchase of Licence X 406, to cut 535,0000 feet of Spruce, Balsam, Red Cedar, Hemlock, on an area covered by Lot 2241, Smith Lagoon, Range 5, Coast District.

Two (2) years will be allowed for removal of timber.

SPLENDID FOR PLUMBERS
The sale of Product No. 99 is strictly confined to the high-class supply houses. Its cost of manufacture is therefore not affected by Dept. or "price cutting store" influence that so often drives manufacturers to the use of inferior chemicals and processes. Nor is the dealer allowed to reduce the retail price under penalty of having his supply terminated.
A POWERFUL SOLVENT FOR
CLOGGED UP DRAIN PIPES
"99" destroys accumulations of lint, paper, cloths, hair, slime, grease, vegetables, soap, fruit and many others. It is harmless to fines plumbing.
DON'T ARGUE DON'T PUT OFF TEST IT
This preparation has been so generally successful in clearing drains that it is bought over and over again by those who have tried it, but inasmuch as no on can know the actual condition existing within a pipe, it is absolutely impossible for the manufacturer or the dealer to guarantee the result.

NOTICE OF CANCELLATION OF RESERVE.

NOTICE IS HEREBY GIVEN that the Reserve existing on Detention Island by reason of a Notice published in the British Columbia Gazette on he 30th of May, 1912, is hereby cancelled.

R. A. RENWICK,
Deputy Minister of Lands
Department of Lands,
Victoria, B.C.,

NOTICE.

The Canadian Patriotic Fund.

Will those who need assistance from the above fund, resident in the city or district and whose breadwinner is on active service with the forces of the Empire or her Allies, kindly notify the secretary of the local organization.

tf W. E COLLISON,
P.O. Box 735.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

PERSONALS

C. Doolittle, provincial police officer at Terrace is in the city on business.

J. J. McKay, a well known commercial man of Vancouver is in the city. He leaves this morning for Prince George.

A. J. McCullough who has been cruising timber at Hartley Bay for the Rat Portage Lumber Company has returned to the city.

Judge Robertson will arrive on the Prince Rupert this morning from the south on his way to Prince George, where he will in future reside. He will remain here until the end of the week.

Expect Reinforcement.

It is expected that a detachment of about twenty-five men will arrive this morning from Vancouver to join the Irish Fusiliers here.

Canadians Crucified.

The London Morning Post states that a lieutenant-colonel, writing from the front, says that the Canadians have done splendidly. "They are mad with rage," the officer says, "because they say they found one of their men crucified. This is not more camp gossip, as a general vouches for the fact."

CANADIAN BANKS HAVE PAID FIRST OF WAR TAX

(Continued from Page One.)

the estimate. They pay one per cent. on the gross interest, the property of the company from loans, etc., and a similar amount on income other than interest on business transactions in Canada.

Free

GUARANTEED American Silk HOSIERY

WE WANT YOU TO KNOW THESE HOSE

They stood the test when all others failed. They give real foot comfort. They have no seams to rip. They never become loose and baggy as the shape is knit in, not pressed in. They are GUARANTEED for fineness, for style, for superiority of material and workmanship, absolutely stainless, and to wear six months without holes or replaced by new pairs free.

Our Free Offer

To every one sending us 50c to cover shipping charges, we will send, subject to duty, absolutely free:

Three pairs of our famous men's AMERICAN SILK HOSE with written guarantee, any color, or

Three pairs of our Ladies' Hose, in Black, Tan or White colors, with written guarantee.

DON'T DELAY—Offer expires when dealer in your locality is selected. Give color and size desired.
