HAVE YOU GOT IT?

If you're sore
To the core,
With aching bones,
And husky tones
When you speak,
And you're weak
In the knees,
And you sneeze,
And often cough
Your head near off,
And you note
That your throat
Feels quite raw,
And your jaw
Feels as if
You'd got a biff,
And dull pains
Vex your brains,
Then you've caught it,
You have got it—
It's the grip.

If you feel
The heat steel
O'er your frame,
Like a flame,
Till you burn
And you yearn
For chunks of ice
At any price,
Then like a flash
The shivers dash
From head to feet,
A chill complete,
And you shake,
And you quake,
And there's desire
For a fire,
And something hot
Right on the spot
To quickly drink,
And you think
Right there and then
You'll ne'er be warm again,
Then you've caught it,
You have got it—
It's the grip.

It's in the air,
It's everywhere;
The microbe of the grip;
It's on another trip,
And up and down,
Through all the town,
By night and day
It seeks its prey,
And its the fad,
If you are sad,
Or even mad,
Or if you sneeze,
Or cough or wheeze,
Or feel too warm,
Or chills alarm
To wear a look of grim dismay
And hoarsely say:
"I've caught it,
I've got it—
It's the grip.

Brief Despatches.

WAR IN THE PHILIPPINES.

Capt. D. F. Allen, of Frankfort, commanding Company I., 38th United States Volunteers, says that the Philippine insurrection will continue. He believes that the United States will have to eventually have to withdraw from the Islands, and that Aguinaldo will take the first opportunity to make his escape into the mountains and to lead the insurgents as before.

AMERICAN SPECULATORS BUY UP MANITOBA LANDS.

Reports from Winnipeg state that about 100,000 acres of land has been purchased by American syndicates. Already numerous American settlers have arrived, and many new arrivals are reported daily.

THE HOT WAVE REACHES THE WORLD'S METROPOLIS.

News items from England describe the heat there as tropical, The intense heat in London has caused an increase of deaths, while sunstrokes, prostrations and faintings have kept the ambulances busy. Shipyards have been handicapped on account of the absence of men suffering from the heat

THE FOOD STORE OF THE WORLD.

While we rejoice in the prospect of an abundant harvest throughout this country, the report is published that the crops of Australia, Russia, Germany and France are short. Considerable quantities of grain will have to be imported by these countries to make up the shortage.

REFUSE TO RELEASE AMERICAN WHO FOUGHT WITH BOERS,

The American Government recently applied to Great Britain for the release of an American citizen named Morgan, a native of Virginia. Great Britain has declined to comply with the request and the legal officers of the Washington State Department have concurred in Lord Milner's opinion that any person who serves in the Boer army loses his former nationality and right to protection.

GERMANY SECURES NEW TERRITORY.

The Patria states that Germany has occupied the Farsan Islands in the Red Sea, and has arranged with the Turkish Government for the cession of a strip of territory on the Arabian coast.

EMPEROR WILLIAM BUILDS AN ELECTRIC RAILROAD,

According to two American engineers who have recently returned from Berlin the Kaiser is joint partner with the well-known engineering firm of Siemans & Halske, for the construction of a fast express line between Berlin and Hamburg. The intended rate of travel is 100 miles an hour His Majesty is said to be contribnting several million marks from his private fortune.

THE ROSSLAND STRIKE.

The strike situation at Rossland remains about tha same as last week. About 1,200 men are now idle. The Iron Mask, Homestake, New St. Elmo and a number of others have not been affected.

TO THE DEAF.

A rich lady cured of her Deafness and Noises in the Head by Dr Nicholson's Artificial Ear Drums, gave $10,000 to his Institute, so that the deaf people unable to procure the Ear Drums may have them free. Address No. 14523 The Nicholson Institute, 780 Eighth Avenue, New

NEWS OF THE MINES.

A meeting of the shareholders of the Anderson Lake Mining and Milling Co was held in Lillooet on the evening of July the 15th which was largely attended. All local shareholders who were in town were present and Dr. F. S. Reynolds of Ashcroft, vice president of the company. Arrangements were made by which the mortgage on the property will be lifted and ten additional stamps added to the mill. The greatest confidence in the future of the mine prevailed among those present as the mine is paying its way with only ten stamps. Before many years the people of the town will see fifty or sixty stamps in the mill.

Shares will be placed on the market in a very short time.

STRIKE IN ROSSLAND.

Rossland, B. C..—The strike is still unchanged in situation here. All the employees of the big mines, embracing approximately 1,200 men, are idle and those remaining at work in the principal properties are engineers and pump men, who stayed in at the union's orders to keep the mines free from water. A number of mine properties, including the Iron mask, I. X. L. New St. Elmo, and Homestake have not been affected by the labor trouble.

The city is very quiet, nothing having transpired partaking in the slightest degree of disorder. The union has sternly forbidden its members to indulge in any practices savoring of violence. Several communications have passed between the strike executive and the mine managers, all of a most courteous nature, but nothing has evolved yet in shape of a basis of agreement. The board of trade is exerting every effort to promote a settlement but so far without marked success, although it is too early to judge of the probable outcome of the Business men,s attempt at pacification.

MR. SMITH TALKS.

H POINTS OUT THE GREAT NECESSITY FOR WAGON ROADS.

Speaking to a Province reporter, Mr. Smith was emphatic in his declaration of the future that lay before his chosen home.

"Lillooet" he said, "has been a mining country since 1860, and will be the finest district in the whole of the province for many years to come. The placer claims are still working after 40 years of washing, and a hydraulic company there, the Lillooet Hydraulic, has a record of nearly forty years of continuous work and is still in active operation.

On Cadwallader Creek in the Bridge River country, there are many meritorious properties. The ledge worked is a free milling quartz and good results have so far been obtained. There are three stamp mills in full work, and a fourth has just been set up and will be operating in a short time.

The great trouble is the want of roads. The stamp mills on Cadwallader creek have had to be taken in piecemeal at an enormous expense and then set up on the ground.

Some idea of the extent or the prosecution of the industry in this region may be gathered from the fact that last season one Lillooet merchant packed in over 20,000 pounds every month. For this a charge was made varying from 6½ to 9 cents a hundred pounds, a serious handicap on the mining industry". Province.

A Sunday School superintendent, who happened to be a dry goods merchant, and who was teaching a class of very young tots, asked when he had finished explaining the lesson: "Now has any one a question to ask?" A very small girl raised her hand. "What is it, Martha?" asked the superintendent. "Why, Mr. Brooks, how much are those little red paraso's in your window?" said Martha.

JNO. WAWN

LILLOOET, B. C.

shoemaker.

AS OTHERS SEE US.

LILLOOET FROM AN OUTSIDE STANDPOINT.

The News Advertiser, in its Sunday edition, publishes a long and glowing account of a trip taken by one of its representatives through the Bay Ranch. The writer lays great stress on the advantages of this section as a pleasure resort and advises those who are seeking a suitable spot in which to spend their holidays not to overlook the delightful localities of the interior. A summary of the mining operations now in progess in the district is also given. Readers of the Prospector may take note that the News Advertiser seems to be the only coast paper that gives Lillooet a fair shake.

We give a few extracts from the description of the mines.

The Anderson Lake Mining Co,'s property, on McGillivray Creek, is one of the largest mines in operation in the district This property is situated on the creek some 3,000 feet above the the level of the lake. About $25,000 have been spent in developing and opening up the property, including the erection of a ten stamp mill, the building of a trail four miles long, the erection of bunk houses, flumes, tramways, etc.

At the present time 14 men are employed in the mines and mill under Manager W.E. Brett.

Although a low grade free milling property, some remarkably rich ore has been taken out of the mine, and there is at the present a sample on view in the local branch of the Bank of B. N. A., which weighs ten pounds, but which carries a wonderful amount of visible gold. The work in the mine so far, consists of a tunnel 400 feet long in the main ledge, and one 200 feet long above. From the latter there are two upraises, one 200 feet, and another 180 feet. There is an upraise of 180 feet from the lower tunnel. No. 3 is in 80 feet. The ledge is from 5 to 10 feet broad, the quartz averaging $5 per ton, but occasional pockets of very rich ore are struck. The ore is free milling, the cost of treatment being estimated at slightly under $2 per ton.

Only a few of the mines at Bridge River are working at the present time, although 166 mineral claims were recorded there last year, and 115 certificates of work issued. The Bend Or is, perhaps, the best known mine here, and although little work is being done at the present time on the property, about 7,000 tons of ore have been treated in the stamp mill installed, which have yielded over $70,000. Some 1,800 feet have been gone in the mine, and the thickness of the vein-filling ha been shown to vary from 12 inches to 4 feet. A 10 stamp mill is on the property, and is worked by water power of which there is sufficient available to operate 40 stamps if needed.

The Lorne group which has yielded many thousands of dollars worth of gold, extracted with the old fashioned arrastras, is now temporarily closed down. A 5 stamp mill was erected on this property last year, and the water power originally used to run the arrastras, is utilized in working this. In 1899 and 1900 this property yielded over $10,000.

The Alhambra, adjoining the Lorne, is only working a few men at the present time. The vein on this is about 24 feet 6 inches.

Miners of the district have every confidence that the present quietness in the camp will only be of short duration. The Govertment has appropriated $7,500 to widen the trail from Seaton Lake to Bridge River, and 30 men are now employed in widening the trail to 6 feet and easing the grades along the route.

THE PROPER TIME TO TAKE A BATH.

In the Province of New Brunswick, all would-be teachers who present themselves at the Provincial Normal School are required before admission to pass an entrance examination. Among a variety of subjects they are examined on physiology and hygiene. On one such occasion the question was put "What is the proper time to take a bath?" One of the candidates, a young lady answered· "The proper time to

ORGANIZED LABOR.

The struggle on the Pacific Coast between the Canners and Fishermen has now reached an acute stage. At any moment opportunity may be given the strikers to retaliate on those who have taken their places on the river. Such retaliation invariably involves financial loss and personal injury. We deplore this, yet cannot argue that the Labor organizations are the centres of constant revolt and that strikes would not occur if Labor Unions were discarded. We do not believe this. Even Trades Unions which presuppose a difference of interests between employers and employed, have often had conservative leaders who have counselled pacific measures when even outsiders saw injustice dealt out to members of the Union. Such organizations as the Knights of Labor take a somewhat broad outlook, and teach that the interests of employer and employed are identical.

Some of the most severe labor struggles have occurred in Belgium where Labor has seldom, if ever, been efficiently organized. Where the leaders of laborers' organizations are received respectfully by the employer and when they are recognised like other representatives, friction will be reduced to a minimum. We have reason to think that this courtesy is beginning to be shown. The Labor representative is treated already on a par with one who represents Shipping, grain and other interests. The interests are equally important, therefore equal deference should be paid to all.

Organized Labor is not more, nor less faulty, than organized Capital, and where Capital is organized, Labor must inevitably be organized.

Let us hope that the debates and discussions on Labor questions, may have more of an educational tendency, for a broader knowledge is much needed.

A man came into our office the other day and voluntarily paid up his subscription in advance. Go and do thou likewise. The path made by the footsteps of the benefactor while on his way to the palatial office in which this great family journal is published, is still in good condition for travel. Dollars are as necessary to run a newspaper as well as any other business Although the wind does blow 'loud and long' at this end of town, we can't pay our bills with it. If you think you could, come and try. Being well provided with fire arms, having both a rifle and shot gun, each suitable for different classes of people, woe betide the delinquent subscriber who tries to pass this way without paying up. We are also contemplating importing a bull dog of a very fierce breed, and we will teach him how to tell by a man's appearance whether he is paid up or not. If the latter, look out for squalls for the chances are, that when that man goes home, his wife will have to mend his trousers. We don't wish to use peremptory measures at all but the end often justifies the means.

We call our readers' attention to the interview with Mr. Smith by a Province reporter, in which Mr. Smith is reported to have said that there were three stamp mills on Cariwallader creek, and another about to commence operations. Of course this little slip is somewhat in our favor, but reporters at the coast have the happy knack of getting everything which pertains to Lillooet wrong. For instance, when the Lorne and Woodchuck were bonded, one coast paper made the astounding statement that these properties were on Texada Island. Other examples of the same thing could be quoted. Why is this?

We had arranged to make for this week a vast improvement in our inside sheets, but circumstances over which we have no control, most probably the unaccountable stupidity and negligence of our paper manufacturers, prevented our good intentions from being carried out. However we can safely promise a marked improvement in our inside sheets for next week.

The Misses Carson have returnad to their home on Pavilion Mountain from Columbia College, New Westminster.

A. W. Smith, M. L. A. and J. B. Cherry, B. A. are in Victoria engaged in a lawsuit concerning the vacant lot behind the flag pole.

Dr. F. S. Reynolds, editor of the Ashcroft Journal and vice president of the Anderson Lake Co., spent Monday evening in town.

Messrs T. A. Brett, A. A. Brett, and W. McLeod came down from McGilli-Creek Monday, returning to the mine on Wednesday.

F. H. Nelson has been slightly under the weather during the past week.

Dr. Child's Ointment is the best remedy in the world for Itching Piles. It is sold by Clarke & Co., at the Pioneer Drug Store, Lillooet.

Mrs. and Miss Gibbs, of Cayoosh Creek paid a short visit to town on Wednesday.

Dr. Sanson returned on Tuesday from Clinton, accompanied by his brother who has recently arrived from Australia.

Mr. and Mrs. F. H. Nelson intend leaving next Tuesday for Kamloops to remain there a few days. They have not yet decided where they will make their home.

Mr. J. Newsom. of the Vancouver Hardware Co. is spending a few days in town.

Mr. Jno. Marshall's horse created a considerable disturbance on Thursday evening by tearing down the tie pole near Phair's store, to which it was tied, and starting off home with it. It may be that Mr. Marshall was short of lumber for his saw-mill, or perhaps the horse wanted to make its presence felt, like Mr. Marshall.

Willis Allan, who had been prospecting 40 miles from the North Fork had the misfortune to wound his leg very badly with an ax cutting off a piece of bone. He rode down to the North Fork to the camp of W. Jones and W. Andrews, both of whom accompanied him to town. Dr. Sanson, who was telegraphed for at once, dressed the wound which is now doing as well as could be expected after Allan's terrible ride to obtain medical assistance.

Dan. Hurley is foreman of the gang of men employed across the river on the Lytton road. The very steep grade on the hill immediately after crossing the bridge is being materially lessened which will be a great boon to travellers on this road.

We learn on good authority that the Lillooet-Ashcroft road, via the Fountain is to be built some morning before breakfast. We are very much afraid that the sudden and intense joy of waking to find ourselves but 34 short miles from Ashcroft would prove such a shock as to entirely rob us of our appetites for breakfast. So, take your time Ashcroft please and don't surprise us any more than you can help.

Clarke & Co., Lillooet, have a complete stock of Drugs, Medicines and sundries. Letter orders promptly attended to. Just tell them what you want or what the trouble is, enclosing money and they will do the rest.

A young man named Howard Bruce, who has been employed around this section for some time was arrested on Monday on the charge of stealing rich specimens from the Anderson Lake Mine and was sentenced to 5 months imprisonment. As Bruce is yet quite young, he has ample time in which to return to the paths of rectitude. A severe lesson of this kind would not fall amiss in other places.

Fred. H. Nelson who has been conducting the Pioneer Hotel for the past fifteen months, has handed over the management of the hotel to its owner, Mr. W. Allan, who will conduct it in its usual first class shape.

W. Miller has completed his contract of renovating the English Church and will commence work on the new jail immediately.

Paul Santini and Rod Atkins have transferred their stock of groceries on Cadwallader to Willie McKivor who will conduct a first class general store there.

The Nightwatchman Question.

Interest in this 'burning' question seems to lag. Some people don't seem to realize what an immense safeguard a nightwatchman would be to the town. When a big fire strikes it some windy night, the citizens will wish they had had such a person to guard their property while they were sleeping.

Now that the matter has been fairly started, it should not be dropped. We would suggest that a public meeting be held in the near future for the purpose of talking the matter over. There it could be ascertained how much funds were necessary, how much had been promised and the details in connection with appointing a committee etc. could be arranged and every man in town would have a chance to express his assent or dissent. We are convinced that all difficulties can be overcome if we all pull together for the common good. But let there be a public meeting to discuss it.

VANCOUVER STREET FAIR.

Summer Carnival, Aug. 5th to 10th.

Every effort is being made to make the Vancouver Street Fair and Summer Carnival to be held August 5th to 10th a success. It is expected that the C. P. R. will put in effect special rates from all points into Vancouver, and that special excursions will be run.

The Province has this to say about the event—:

When Vancouver's summer carnival opens here in all its wealth of entertaining and attractive features, every one will be especially delighted with Jabour's Oriental Carnival Circus and Menagerie.

There are many things to see at Jabour's, many strange and interesting things, which show the modes of life of the peoples in the congregation.

The street parade is spectacular and pleasing. Oriental people in their native costumes catch the eye and hold it.

There are really too many features in Jabour's circus to enumerate, and they are all good.

The aggregation add to the gaiety of any community it visits.

NOTICE.

ANDERSON LAKE MIMING AND MILLING CO. LTD.

Notice is hereby given that an extraordinary meeting of the shareholders of the Anderson Lake Mining and Milling Company will be held at the company's office in Lillooet on Monday July 29th 1901 at the hour of 7.30 in the evening, for the purpose of considering, and if deemed advisable, of passing a by-law for the purpose of raising funds for the purpose of paying off the mortgage and placing ten additional stamps on the company's mine, and for the purpose of increasing the company's capitalization, and to authorize the directors and officers of the company to complete and sign all documents and papers in connection therewith and to make any further provision for the carrying on of the company's business; and for general business.

Lillooet July 5th 1901.

W. M. BRANDON.
