THE PROSPECTOR

VOL. 3, NO. 28 LILLOOET, B. C., FRIDAY, MAY 8, 1914. $2 PER YEAR

Mining Opening Up In The Lillooet District

The Broken Hill

Mr. Hunt, Superintendant of the Broken Hill mineral claim, at Bridge river, was in town last week and met a party of interested mining men from the coast and England, whom he took over the claim. They were highly satisfied with what they saw and reported the conditions as follows.

There is a 90 foot ledge with 225 feet drifting and crosscuts, the walls are not cut yet, the average assays for the entire drifting is $16.75 with concentrates of 176.10, 174 of which is gold. work begun last November and a wonderful amount has been accomplished for the short while they have been at it. There is three miles of trail, a cabin has been built, 8000 pounds of supplies been packed in, and over 400 feet in tunnels and open cuts done.

It is a large body of low grade ore which will be easily mined and milled, and is purely a concentrating proposition, and is expected will turn into a silver mine eventually as all indications point that way.

A concentrating mill will be erected in the neighborhood of Seabrings ranch, with about a mile of areial trams.

The party, which consisted of C. J. Beacham, London, England, Wm. Bundette, F. C. Porter, H. Pollard, H. B. Neilsen, J. P. McConnell (Saturday Sunset) and J. Hendricks, all from Vancouver, left for the coast with 200 pounds of ore for assaying.

Horse Shoe Bend

Mr. T. R. Rigg, representing London, England capitalists, arrived in Lillooet last week en route for the Horse Shoe Bend mineral claim, on the North Fork of Bridge river, accompanied by Mr. J. A. Shertchly, Consulting mining engineer of very wide experience. The property, which is near Burkholder's ranch, is considered a good prospect, and if it works out as expected, it will be a big asset to the district. Mr. Rigg has complete charge and has gone on the property fully equipped with both capital and experience, also, from reports, has with him one of the best consulting engineers to be obtained. Work will be started at once.

Mr. Rigg was accompanied by his wife and child.

NOTICE

The Prospector has taken up its abode in more extensive quarters and will, from now on, be published in the new building opposite the Church of England, on Main Street.

LOCAL AND GENERAL ITEMS.

If you have friends or relatives visiting you let us know about it.

Mr. and Mrs. A. Noel arrived this week from the coast where they have been all winter.

H. Reed left for Bridge river to work on the Horse Shoe Bend mining claim.

Mr. and Mrs. G. L. Johnson of Douglas, Alaska, arrived in town en route for the Brigman ranch to visit their friends.

Mrs. Adams arrived home from her visit to the Cariboo, having made a pleasant trip and spent a very enjoyable time.

H. Burkholder of North Fork passed through Lillooet en route for the Fountain ranch where he will stay for some considerable time.

Conrade Herberg of Berlin, Germany, brother-in-law of H. Murk, arrived in town with his family to settle among us. We welcome him to our town.

There is a an abundance of blossom on the fruit trees in Lillooet and near vicinity, and from present indications it is safe to predict another good crop this year.

Bob Hume, late manager of the Prospector, left this week for the Alkali Lake district to take up his duties in the Forestry department. We wish him every success in his enterprise.

The Rev. Mr. Horton, Methodist preacher of Ashcroft, preached his farewell sermons in this town last Sunday in a very direct but appealing manner. We wish his every success in the work he is undertaking, wherever he may go.

The land registry for April, intimates an increase in real estate activities. The fees collected amounted to well over $19,000, a slight increase over March, and $2000 more than February. There were 2067 applications for registration of deeds etc.

The Pemberton boys were just one goal better than the Portage eleven, when they met at the Portage in a soccor match last week, but the Portagers are looking forward to the return match which is expected to come off in the near future, when they hope to reverse the decision. The ref. was a good one and had full control of the game.

Police constable J. H. Robinson, No. 190, has resigned from the Vancouver Police Force to live on a ranch in Lillooet. He is reported to have been a very popular member of the force and his fellows wished him all kinds of luck. We know that 'Robert' will agree with us before long, that if there is one place better than all others in British Columbia, Lillooet is that place.

The Canadian government has chartered the steam whaler Herman to search the Artic circle for Stefansson's ship, the Karluk, which broke away from the ice during a storm in October last.

The Russian polar expedition are also missing and the department of marine St. Petersburg, has acquired two Norwegian vessels, Hertha and Eclipse, for search purposes.

The number of visitors registered at the hotels since April 30 is 136.

C. Smith of Pemberton was in town this week, he reports everybody progressing favorably.

The local baseball fans clashed with the Pavilion nine and were successful in defeating them by a score of 5 to 1.

T. R. Rigg of North Fork came into town this week for supplies for the Horse Shoe Bend mining camp.

Mr. and Mrs. O. Warren have returned from their trip to the coast and have resumed duties at the Excelsior hotel.

Grading on the Pacific Great Eastern is now in full swing at Kelly Lake, Clinton and ten miles north.

There is now a good opening for auto traffic on the Bridge River road. There seems to be plenty of trade for at least one machine.

A traveler over the Bridge River road reports it now in excellent condition, and that ranchers throughout the valley are making great improvements on their properties.

A land slide on the Lillooet-Lytton road caused considerable inconvenience to the traffic. It occurred on Sunday morning at or near the twenty mile camp. A gang of men were put to work and through traffic was resumed in the evening.

Shamrock IV., Sir T. Lipton's new challenger for the America cup, described by those who have seen her as the most wonderful boat of her kind ever built, is to be launched on May 25. Her trial races will begin the first week in June and continue until the middle of July, principally on the Solent.

The new challenger is said to be entirely original in design and to combine many new and novel features.

While riding his wheel on Brink street, Nelson Chappel, of Ashcroft, lost control of his machine at the critical moment when an auto was about to cross in front of him. It is not known what happened to the bicycle, but before he could clear himself he was knocked down by the auto which passed over his body with both front and hind wheels. He was hurried to the hospital where it was found that he had sustained injuries to the extent of three broken ribs and a fractured collar-bone.

Six Firemen Killed

An explosion on May 5 at the Government of Panama dynamite magazine resulted in the killing of eight persons. Nineteen were seriously injured. The property was destroyed. The explosion was caused by a brush fire which made its way to the interior of the building. Six of the dead and most of the injured are firemen. A man and a woman who were watching the blaze from a distance were torn to pieces. The concussion of the explosion shook Panama.

Big Slide On The Canadian Pacific Railway

A Close Call

A bad mountain slide occurred on the C.P. railway about 8 miles east of Spuzzum, on Wednesday morning. It derailed the dining car of Number 13 travelling west and hurled it down the bank. The cook, who was in the dining car at the time was very seriously injured, an only escaped being killed by being thrown into a space between the car and the stove. The waiter was only slightly bruised, and to all appearances was none the worse for his experience. All traffic was delaid for five hours and a half.

Captain Moran Departs

We hear with regret of the death of Captain Moran of the Vancouver Fire Brigade. As a firefighter he has a record as a fearless man and an excellent leader, who would not send a subordinate where he would not go himself. Many times he faced death in carrying out his duties. He joined the brigade in 1886, was made Captain in 1896, since when he has been in charge of the Mount Pleasant branch.

Crucified and Burned

Two hundred and fift Mohamedan Albanians, captured by the Epirote invaders at Hormova, were crucified in the orthordox church at Kodra, according to information received by the Albanian government. The Epirotes are said to have set fire to the church afterwards and allowed the bodies to burn.

The like of this should make us thankful that we are here.

All hope of rescuing alive the 203 miners entombed by explosion last week at Eccles, W. Pa. has been abandoned. Rescuers were unable to force their way to the burning shafts. This disaster is the second largest in the history of W Virginia, and was caused by gas explosion.

DIED

Died at Vernon on the 26th of April, 1914, the infant son of Mr. and Mrs. Norman Denison.

Dissolution of Partnership

Acker and Sherwood

Notice is hereby given that the partnership hitherto subsisting between P. Sherwood and John Acker has this day been dissolved by mutual consent.

John Acker will continue to carry on the business and hereby agrees to receive all monies due to the late firm of Acker and Sherwood and pay all liabilities due by said firm.

Dated at Lillooet this Sixth day of May, A.D. 1914.

P. Sherwood
J. Acker

Witness:
Samuel Gibbs,
Notary Public.

THE PROSPECTOR.

Published in the interests of Lillooet District

A. E. LUDWIG, Manager.

MAY 8, 1914.

The Fraser river claimed two more lives when last week John Charles Lual, better known as Dutch Charlie and a Chinaman were drowned. Dutch Charlie has been running the government ferry about a mile and a half up the river from Lytton, for the past eighteen years, and was counted one of the most careful boatmen in the country.

"Water-front Development" will form the theme of discussion at one session of the International Conference on City Planning to be held at Toronto on May 25-27 next. Mr. Gourlay, representative of the B. T. on the Harbor Commission, will give an address on this subject, which should be of interest to the whole country. Our harbors are national gateways, and the Dominion Government is expected to contribute over $6,000,000 to this particular project.

Rev. Father Bohr, St. Mary's Mission, arrived in town with the news of a horrible tragedy at the Indian reserve near Merrit, an Indian woman called Mary Spring being murdered by a well known bad Indian by the name of Tullelor. At the preliminary trial accused was committed for trial at the Kamloops Assizes to be held next month.

This is the old story over again of an Indian inflamed by drink, and place the blame where you will it is time that something was done to stop this kind of traffic among the Indians.

A mysterious malady has appeared in a New Brunswick town and is causing considerable alarm among the residents. Local physicians are completely mystified and ten outside doctors have not been able to throw any light on the situation. Some of them, however, are disposed to diagnose the epidemic as Asiatic cholera. It is certain that the disease was brought to the neighborhood by an immigrant family whom Mr. McKelvie recently engaged to work on his farm. A strict quarantine is being enforced.

In the death of the Duke of Argyll, son-in-law of the late Queen Victoria, Canada has lost a firm friend whose influence in the old land in favor of this Dominion has been widely felt ever since he occupied Rideau Hall as our governor general.

He was a truly royal gentleman, able withal, and his death following so closely on the passing of our own beloved Strathcona, leaves a still wider gap in the ranks of the friends of Canada in the mother country. His keen insight into affairs pertaining to this land has been at our service perhaps oftener than the ordinary Canadian citizen realizes.

Water Notice

Application for a License to take and use Water will be made under the "Water Act" of British Columbia, as follows:

1. The name of the applicant is Bernhard Henry Bodenberg.
2. The address of the applicant is Lillooet, B.C.
3. The name of the stream is Spider creek. The stream has its source in the mountains at the southwest corner of Seaton Lake and flows in a northwesterly direction, and empties into Portage creek on I.R. No. V.
4. The waier is to be diverted from the stream on the south side about I0 chains from the northeast corner of lot I578
5. The purpose for which the water is to be used is irrigation
6. The land on which the water is to be used is described as follows: Lot I596, the quantity of water applied for is one cubic foot per second
7. This notice was posted on the ground on the 28th day of April, I9I4
8. A copy of this notice and an application pursuant thereto and to the requirements of the "Water Act" will be filed in the office of the Water Recorder at Clinton. Objections may be filed with the said Water Recorder, or with the Comptroller of Woter Rights, Parliament Buildings, Victoria, B.C.

WATER ACT.

NOTICE OF APPLICATION FOR THE APPROVAL OF PLANS AND PETITION FOR APPROVAL OF UNDERTAKING.

TAKE NOTICE that Bridge River Power Company, Limited, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Bridge River, which the applicant is by Water Permit No. 102, authorized to take and use for power purposes.

Petition for approval of the undertaking will also be made to the Honorable the Minister of Lands.

The plans and particulars required by Sub-section (1) of Section 70 of the "Water Act" as amended, and the petition and plans for approval of undertaking, as required by Section 89, have been filed with the Comptroller of Water Rights at Victoria, and with the Water Recorders at Clinton, Vancouver and New Westminster.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria.

Dated at Vancouver, B. C., this 26th day of February, 1914.
