THE SPECIAL TRAIN

GREAT CONVENIENCE TO PEOPLE OF MEANS IN GREAT BRITAIN.

The Cost of a "Scurry" Train If You Ar in a Hurry and Have Plenty of Money —Some Record Trips of This Character Made in the Old Land.

From $250 to $750 and 30 minutes' notice at a big railway station —often less—will provide you with a train of four carriages all to yourself. It will whirl you to the other end of Britain—to whatever station you want to reach. If ever you are in such a hurry that money matters nothing—provided you have got it—you can count on getting an ordinary train at the price of from 20 to 40 ordinary fares to your destination.

But if you want comfort and "style," an extra half hour's notice to the railway people will procure you a dining and sleeping car, with a cook, attendants, food and wines, from $100 to $150 extra. Then you can "b en the ground" over 300 miles by rail, only stopping to water the engine and laugh at all the time tables ever compiled. A great many wealthy people in a hurry have done this.

SUNDAY

Next Sunday will be a large day. The new Methodist minister will hit town: also the Episcopalian from Lytton, & the Catholic Bishop supported by several priests, from Mission City. Two or three Brass Indian Bands, 300 cayooses or all that can be got bet ween Pemberton & Chilcotin, and 1000 natives, are expected to take part in the Flower Procession, and meet the Bishop on Saturday, at Fraser bridge.

Rev. Allan K. Sharp has taken up his residence at the Ashcroft parsonage, with his wife and four children and will come over and get acquainted here, at the end of this week. He will preach once on Sunday, probably in the evening.

Sunday School from ten to ten forty five.

Miss Alice Watkinson and a brother and sister, brought their mother up, for a visit to the town which she had not seen for over 20 years.

Backache and Kidney Disease

Have never been able to resist the extraordinary curative power of Dr. Chase's Kidney-Liver Pills.

The enormous sales of Dr. Chase's Kidney-Liver Pills can only be accounted for by the reliability and exceptional merit of this great family medicine.

MR. E. T. BEDARD, Lac aux Sables, Portneuf Co., Que., states: "For two years I tried a number of different remedies for backache and kidney disease without obtaining any relief. Since having used Dr. Chase's Kidney-Liver Pills, however, I am happy to say that they have proven of wonderful benefit to me. I can certify that for me these are the best Pills I have ever come across, and we always keep them in the house. It will be a pleasure for me to reply to any who care to write me for further particulars of my case."

MR. E. T. BEDARD

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cts. a box. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box of his remedies.

LOCAL

Mrs. Clarke left on Wednesday for a visit to her daughters in Kamloops.

Mr. Brandon had a letter from Leroy Laidley. There is a fine bathing beach at Sidney.

The first train on the V. W. & Y. passed through Lillooet; a pack train of 5 horses and 3 men on preliminary survey.

English Church choir practice, 2.30 Saturday. Miss Vera Miller, organist. All Singers invited.

Inspector Gordon has been conducting the examinations here, for high school entrance. He was accompanied by Mrs. Gordon. They lost a couple of note-books on the way over from Clinton, and will return that way.

Mrs. McIntosh of Pemberton is visiting friends here. Her brother Mr. Ronald Currie, injured two of his ribs, while hauling for the Birkenhead Hatchery.

130 Indians came down Seton Lake on the steamer Wednesday including the Band Boys.

PAGE FENCE

This is the Page standard eleven bar wire fence. Coil, spring wire (not crimped)—takes up the slack in summer, does not become too tight in winter—regulates its own tension all the time. Page uprights in one piece stand a strain of 800 pounds. Common uprights spliced at each bar break at 300 pounds. Page gates, ornamental fences, poultry netting, are standard the world over.
The Page Wire Fence Co., Limited, Walkerville, Ont. St. John, N.B. Montreal, P.Q. 12

Page Woven Wire Fence

with its continuous coil (not crimped) is the best stock-holding fence made. Page No. 7 wire stands a 3,000 pounds' strain—common No. 7 wire only 1,700 pounds. Common wire will *not coil*—it *straightens out again*—it hasn't a spring temper—Page wire has.

Wealthy and Studious.

Mr. Balfour is not in politics for money. He has a private income of about $100,000 a year. He is a close student of literature and the arts. For one picture, "The Legend of the Brier Rose," which Mr. Balfour purchased from Burne-Jones, he paid $75,000. Seasickness prevents him from traveling abroad. The secret of Mr. Balfour's bachelorhood has never been revealed. It is said that at one time he offered his heart and hand to a captivating lady, who did not accept the honor, and henceforward, though an admirer of the sex, he has been invulnerable to Cupid's arrows.

Two Kinds of Dancers.

The Rev. Reginald Campbell of the London City temple during his visit to America said a number of amusing things. One of them concerned dancing. A young girl asked Dr. Campbell if he did not consider dancing graceful.

"Professional dancing," he replied, "is, I admit, graceful enough in some cases. But what is there of grace in the dancing of amateurs? A man and a woman, close together, spin solemnly about a room. The man's long black coat tails flap. Such persons always look to me as if they had been hired to dance and were doubtful if they would get paid."

Had No Energy to Do Her Work

Was weak and run down and tired all the time—Restored by Dr. Chase's Nerve Food.

What hosts of people find their trouble described in this letter. Loss of interest in work, waning strength, persistent feelings of fatigue—such are the symptoms which tell of the approach of nervous prostration, exhaustion and paralysis. The means of cure is at hand in the form of Dr. Chase's Nerve Food.

MRS. BEATTIE

MRS. GEO. BEATTIE, Carr's Brook, Colchester Co., N.S., writes: "Last spring I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends. We always keep Dr. Chase's Kidney-Liver Pills in the house to be used for constipation, pains in the back and stomach troubles."

You can be certain that each dose of Dr. Chase's Nerve Food is forming new blood, creating new nerve force, and building up the system. 50 cts. a box, at all dealers, or Edmanson, Bates & Co., Toronto.

NOTICE.

Notice is hereby given, that 30 days after date, I intend to apply to the Chief Commissioner of Lands and Works, for permission to lease 320 acres of pasture land, described as follows:— commencing at a post west of the Lillooet-Alexandria waggon road on the north line of my lot 62, Lillooet District; thence 1 mile west, thence a half mile north, thence 1 mile east, thence a half mile south to point of commencement; containing 320 acres.

Dated this 9th day of May, 1905. } MICHAEL GILLEN

NOTICE

HERE AND THERE

The Manson Boys brought in a hunting party and pack train of 7 horses, from the Cayoosh Creek country.

A. C. Ross, P. L. S. and party went out by Lytton on a Rebagliati Special. They met the Railway reconnaissance party at Anderson Lake which reached town Saturday. 5 horses were bought here, and Louis Mandeville engaged to go up the river. They apparently intend to keep on the west side for a distance above Lillooet. A considerable area of unlocated grazing land is to be had in the region which they will traverse this week.

An agent named Hosking on May 30th staked 13,440 acres of timber near the line of the V. W. & Y. near the junction of the Cheakamus and Squamish rivers.

A. H. Martley received a fine deer head from his taxidermist.

The Seton Lake Sawmill is busy as a bee.

Mr. Ledgerwood is evidently an expert at horticulture, as well as Salmon-breeding: in the former, the finished product can be admired by all.

Recently we had a fine dance. The music was rendered by Mrs. McDowell of Victoria, and Mr. A. F. Hautier. The hall was crowded. Miss Nellie Baillie was Belle of the Ball, and everybody had a most enjoyable time. It lasted until 4 o'clock a. m.

Miss W. Gilligan, of Victoria, and Mrs. McDowell, are visiting friends in Lytton.

The Sports Committee intend to offer pretty liberal prizes, for Events on Friday, June 30th, to make a successful Dominion Day Celebration, and attract the patronage of the horse-racing fraternity. The sports are held on Friday so as to have a dance to follow, which would not be possible, if the sports took place on the 1st.

Wm. Rogers of Gladwin was nearly killed by a large mountain lion, which is supposed to be the same that has been killing Loring's sheep. Mr. Rogers was hunting for wild cats, and sure enough he got up against a big one. He was close up before discovery, and only broke its fore paw with a shot. He avoided the first spring but not the next. In fact the panther, or cougar, or puma, or catamount, or lion or painter or what-you-call-it,—hit square on his back, and he did pretty well to get away with the loss of one eye and most of his clothes.

The Lillooet Skeptic says this tale is twisted, as Bill Rogers hasn't had but one eye for ever so long.

MAMMOTH CAVE

A wonderful subterranean excavation exists about 20 miles east of the southeast extremity of East Lillooet, which is said to be the largest cave known.

It is only two miles from the railroad, and not far from Revelstoke, in a region thought to be fully explored. It has 4 entrances, and its length is two miles, and its width nearly half a mile, with a depth in places of over 2000 feet.

It is studded with millions of crystal and colored stalactite, from white, pink, red, and brown, to purple. They hang from the top and sides in clusters like icicles. Beautiful colored columns 6 inches in diameter rise from floor to ceiling. The formation is blue limestone, and the cave has been formed, probably, through the action of water, for far down in the abyss in the centre of the cave can be heard the rushing waters of a mighty subterranean river, whose source or outlet is yet a mystery. There are evidences that this cave had been inhabited by Indians of an ancient race. As Rider Haggard is scouting in the Rockies not far from here, looking for stories, we may yet hear their true history. You know, he's great on caves!

HORSESHOES.

If a horse kicks off a shiny old shoe, the finder will carry it carefully home and nail it over the door. How would forty look? All new, all different, all shining like silver. Visitors at the Fair at Westminster will see such a collection, the work of J. B. Uren of Lillooet. They might be said to represent 40 days of skilled labor at $5 a day.

They run from an ounce and a half to three pounds;—for running horses, Clydesdales, pacers, racers, trotters, oxen and mules.

Cross-firing shoes, contrivances for interfering horses, nevicular, knee-hitters, foundered, stifled; side-weights, under toe weights, spike toe weights, draught shoes, side hill calks, sharp shod, Centennial shoe, (Harris patent.) Bar plates, rim ridged, centre or inside rimmed. bar protector, spring bar to press the frog when the foot is down only.

These shoes didn't come out of a barrel,—They were all made right here.

Mr. Uren has invented a lock-bolt for fish-plates, or other uses. It is patented in Canada, U. S., Britain and France. P. Santini, and Duncan McDonald have each an eighth interest in it. Arthur Phair and J. B. Uren have applied for patent on another invention of the latter's, an interchangeable gun sight for various light and weather. Mr. Uren's anti-rattler clip for Thill couplers is patented in United States and Canada, and is in use on the BX stage wagon. His spiral spring-making machine may be seen at the shop. A child can operate it. Also, an effective saw gummer for cross cut saws.

The Iron Mask at Kamloops has nine millions in ore, in sight, and are shipping enough to clear $1000.00 a week. This mine is not for sale, but there will mines as good, on Bridge River in a few years.

Explained and Justified.

Longf llow has made it incumbent on us to explain and justify the expulsion of the Acadians. If it had been only Acadians in the abstract who had been expelled the affair would have been forgotten long ago. Nobody has any sympathy with the Acadians in the abstract, because nobody has ever met them or associated with them in that form. Expelling the Acadians would scarcely awaken a passing comment, but expelling two Acadians is a serious matter and must be justified. Longfellow has shown us two Acadians, real, living people like ourselves, people who were not abstractions, people with life, hope, affection, love and constancy.

How It Is Done.

It is only as we regard our fellow-mortals as abstractions that we can kill, scatter, injure or speak evil of them. So long as we regard them as human beings like ourselves, only not quite so good, with affections and sympathies, with feelings, with friends and relatives, with hopes and aspirations, with joys and sorrows, we cannot do any of these things The soldier kills the enemy because the enemy is an abstraction. But he will share the contents of his water-bottle with the same enemy wounded on the field, because that enemy has ceased to be an abstraction and has become a man.
