VOL. 5, NO. 42 LILLOOET, B. C., FRIDAY, AUGUST 13, 1915. $2 PER YEAR

Convalescent Canadians

The convalesent hospital commission, appointed recently to undertake the work of caring for Canadian wounded men on their return to the Dominion from the front, met for organization at Ottawa, under the chairmanship of Hon Senator Lougheed, acting minister of militia.

The committee will make a selection of the homes and estates effered to the department for convalesent homes, of which there are about seventy, with a view to the establishing of a number in every province so that men who return home may be as near home as possible while convalescing from their wounds.

It is proposed to bring as many of the more heavily wounded as can be transported safely to Canada for treatment. instead of leaving them in France or England. The more serious cases will be treated at Quebec, where the new immigration hall, which accommodates 500 beds, will be requisitioned.

Miss Galpin, of Vancouver, is a visitor to Lillooet these days.

Earnie Carson, Jack Germaine, of Pavilion, and Tommy Hurley, of Lillooet town, have gone to Vancouver Exhibition, to compete for honors in the riding contests.

If "Parnell" could only see our water mellons, pears, plums, apples, tomatoes, etc. etc. etc.

For the Sake of the Trees

Don't throw your match away until you are sure it is out.

Don't drop cigarette or cigar butts until the glow is extinguished.

Don't knock out your pipe ashes while hot or where they will fall into dry leaves or other inflammable material.

Don't build a camp fire any larger than is absolutely necessary.

Don't build a fire against a tree, a log, or a stump, or anywhere but on bare soil.

Don't leave a fire until you are sure it is out; if necessary smother it with earth or water.

Don't burn brush or refuse in or near the woods if there is any chance that the fire may spread beyond your control, or that the wind may carry sparks where they would start a new fire.

Don't be any more careless with fire in the woods than you are with fire in your own home.

Don't be idle when you discover a fire in the woods. If you cannot put it out yourself, get help. Where a forest guard or ranger can be reached, call him up on the nearest telephone you can find.

Don't forget that thoughtlessness and negligence are the causes of more than half of the forest fires in this country, and that the smallest spark may start a conflagration that will result in loss of life and destruction of timber and young growth valuable not only for lumber but for their influence in helping to prevent flood, crosion, and drought.

Russia is Bound to Resist

Despatches from Berlin, carefully framed to create the impression that they originated in Russia, suggest that the people are tired of the war and are likely to clamor for peace if the Grand Duke Nicholas is forced to evacuate Poland and fall back upon the line of the Bug. It requires only a glance at the map of Russia to see that the great mass of the Slav race are as remote from the sound of war's alarms as they would be if they dwelt on another planet. The evacuation of all of Poland, and the retention by the Germans of the portion of the provinces of Suwalki, Kovno and Courland now held by them, would give the Germanic powers a little under three per cent of the area of Russia in Europe. When they cross the Bug in persuit of the Bear—if they ever do—the German armies will still be 650 miles from Moscow, and to reach it must traverse the most difficult country in Europe. But even were the to occupy Moscow, Russia would be unconquered still—as Napoleon discovered a centuary ago—so long as her will to fight remains and the western allies continue to supply her with munitions and war supplies. There are between 30 and 40 million men of service age in the Russian empire. Not more than one in five of them has as yet been called to the colors. The war to the great mass of the people means only the disappearance from their familiar places of a small portion of the men who have had millitary training.

To say that among the people there is a demand for peace is to presuppose that they have a grasp of the meaning and scope of the war and know how it is progressing. The Interlectuals and the Buoeaucrats are doubtless no less well informed than the average man in western Europe as to what is happening, but unquestionably the bulk of the Russian peasants only know that the Little Father is having some trouble on the western border of the empire, and that to prevent the soldiers who are helping him from taking too much vodka it has been found advisable to close the state dram shops.

Russia is not yet a democracy, whatever she may become as the result of the changes war will inevitably bring, and the little group of men in Petrograd who make war and peace on behalf of her swarming population are as determined to see the thing thru as Asquith or Kitchener. The war was begun because Russia refused to give up her small Slav satellite, Serbia, to the un restrained vengeance of Austria Hungary. It will be continued to a successful end because Russian statesmen know that a Teuton triumph now would make the Bulkan States the plaything of Germanic diplomacy, and the bridge across which the Teutons would pass to the possession of a great empire in the Near East. Russia may be badly hammered during the next six months, but the Bear will take it all standing up.—Natal Reporter.

It's nearly time somebody got "roped in"—the nails in the side walk want pounding down.

Lillooet Machine Gun

On August 4th, consecration day, Mr. Wm. Adams, while addressing the citizens of Lillooet, stated that he thought he could collect the amount necessary for the purchase of a machine gun, said gun to be called the "Lillooet."

On Saturday last he opened a subscription list. The people of Lillooet and surrounding district responded so whole heartedly that by Tuesday noon the magnificent sum of $1000.00 was subscribed.

During the two and a half days the above gentleman, accompanied by Wm. McIntyre covered a lot of ground, working hard to accomplish this worthy purpose, and are to be congratulated upon the success of their endeavour.

Contributions are still coming in, the grand total subscribed to date, on this list being $1130.68.

We regret that we are unable to publish the subscription list. It can be seen at the office of the secretary.

War Gleanings

Allied aviators have destroyed a zeppelin airship near Ostend.

The British torpedo destroyer Lynx was sunk August 9 by striking a mine. Four officers and twenty-two men of the crew saved.

Bulgaria is ready to march on Turks. If Serbia will cede Serbian Marcedonia Bulgarians will drive Turks from Constantinople.

Heaviest fighting since second battle of Ypres is now in progress. British consolidate gains of previous day in the vicinity of Hooge. All attacks repulsed.

After a desperate struggle the Muscovite troops took possession of Merghe-Mir-Pas from the Turks.

A Zeppelin raid on the east coast of England, with fourteen people killed and fourteen wounded, has taken place.

Switzerland has a striking force of 300,000 trained citizens from 20 to 48 years of age. Yet this army costs less than the Canadian army, which before the war had a striking force of about 60,000. In Switzerland every young man must train. The period is 65 days the first year, then 11 days a year for 7 years, then 11 days every fourth year. After 40, the men are called out only in case of war. The man who is physically unfit for drill pays a special tax, which goes to pay the expenses of those who physically fit. When peace returns, Canada should adopt either the Swiss or Australian system—Canadian Courier.

Na, says Tonal, I'm nae thinking I ken.

Well, says Tougal, there are the men o' Cork in Ireland, the men o' Ayr in Scotland, but there are lightermen in London. Hoots, mon!

A Board of Investigation, in connection with the Water Act, rights and priviledges, will be held in the Court-house, in the near future. For full particulars see page 4 of this issue.

Mr. J. Greenfield, Inspector of Postoffices, accompanied by Mrs. Greenfield and two daughters, arrived in Lillooet on Wednesday evening. Mr. Greenfield stated that a tri-weekly mail servive from Vancouver to Lillooet, will be put in operation on October 1, via the Pacific Great Eastern Railway. He also stated that he had never seen the crops in B.C. in such fine condition, and that prospects never appeared better for an abundance of everything.

Wise or Otherwise

The preacher's evening discourse was dry and long, and the congregation gradually melted away. The sexton tiptoed up to the pulpit and slipped a note under one corner of the Bible.

It read:

"When you are through, will you please turn off the lights, lock the door and put the key under the mat?"

What is that little boy crying about? asked the benevolent old lady of the ragged boy.

Dat other kid swipped his candy. was the response.

But how is it you have the candy now?

Sure I got de candy now. I'm de little kid's lawyer.

When I go home tonight I'll take
A kiss from you, he said.
She scanned him with a roguish glance,
Then said: "Oh, is that so?
Well don't you see, 'tis half past ten?
Young man, it's time to go!"

He—after the all important question: "Why do you cry, my angel. Did I offend you by my proposal?"

She—still sobbing: "Oh, no, dear, it is not that; I am crying for joy. Mother always said to me, 'May' she said, 'you are such an idiot that you will not get even a donkey for a lover,' and now I have got one, after all."
