THE PROSPECTOR

VOL. 4, NO. 27 LILLOOET, B. C., FRIDAY, APRIL 30, 1915. $2 PER YEAR

General News of Lillooet District

The peach trees are bearing a bumper crop.—Oh you peaches!

The local football grounds have been plowed up and spuds have been planted.

A. Ferguson, of Pioneer mine, passed through town today on his way to the property.

Train was delayed this week owing to a rock slide in the vicinity of Anderson lake.

Dave Craig will shortly place another auto on the road. Mr. Anderson, better known as "Slim," is to be the driver.

Mr. and Mrs. A. F. Noel, left this week on an extended hunt-trip into the Bridge river country. They expect to be away for at least a month.

Reddy. I hear that Pat Dolan was drowned yesterday.
Fitz. Couldn't he swim?
Reddy. Yes, but he was a union man. He swam for eight hours and then quitted.

The old Marshall's tennis court on the Marshall estate, Cayoosh creek, in being put into first-class shape, and will shortly be used by the local Pacific Great Eastern staff.

No, Mr. Correspondent. We do not insert such stuff as you want to publish. We do not belong to the "mud slinging" brigade. If you have any mud to sling, do it yourself.

W. J. Abercrombie, proprietor of the Excelsior hotel, returned this week from the coast cities, after having spent a delightful time.

Morgan Roberton, one of the best known short story writers, and the inventor of the periscope, used on all submarines, died recently at Atlantic City. He sold the invention to the Holland Submarine Company for $50,000.

Mr. James MacPherson, who had been sick for some time, passed away this week at the hospital. The body was reverently interred in the local cementry, the service being conducted by Mr. W. T. Bridge.

Mr. J. M. Williams, Manager, McGillivary Mountain Mines, on McGillivary creek, accompanied by Messrs A. Brett and Cooper, have arrived in our midst. It is their intention to extend the now 179 feet tunnel for another 100 feet.

A court of revision for the purpose of hearing and determine any and all objections to the retention of any names on the Register of Voters for the Lillooet electoral district, and on the list of persons claiming to vote in said district, will be held in the Court House on May 17.

The door bell rang and the mother, was not yet dressed. The little girl sought to engage her in conversation.

"How is your little boy?" she asked.

"I have no little boy," replied the lady.

"No little boy? Well—how is your little girl?"

'But I have no little girl either'

"Well," persisted the child, nonplussed, "what are yours?"

Mr. Kettyls, formerly of Merritt, (more popularly known as "Billie"), has taken over the Lillooet Livery Barn and Feed Stables. Mr. Emmett Darcy, late proprietor, is going in for ranching on an extensive scale and expects to leave town in a few days.

We have just received the picture of the departure of the Expeditionary force. It far surpasses our expectations, and can be seen at the Prospector office.

It is a photographic reproduction showing the 32,000 men of Canada's first contingent breaking camp and on the march to join the Continental forces. It shows miles and miles of the white tents and the marching men. It is a most inspiring sight. The size is 20 x 46 inches, ready for framing. This picture is sure to be a popular souvenir of the war as far as Canada is concerned and will be in great demand. It is owned by The Family Herald and Weekly Star, of Montreal, and a copy is being presented to all subscribers to that great national weekly newspaper. The Family Herald, Montreal, who subscription of one dollar a year is received from this date for a limited period.

War Gleanings

"What's bred in the bone, is sure to come out," can fittingly be applied to the originators of the use of "gases" in warfare.

There is no official conrfimation of the report that 68 German warships have been seen in the North sea.

The Canadian forces, one and all, officers, men, and last but not least, the nurses, are making a name, not only for themslves, but also for their country, that will "never die."

Montreal, April 28.—The Gazette's London correspondent, cabling last night, said that a reliable report received in London, places the Canadian casualties at 2000 in the fighting of last week, with 25 officers killed and 100 wounded.

Official.—Paris reports that the French forces landed on the Asiatic shore, and are making steady progress despite stubbon resistance.

The British section has successfully made a base on the European side of the straits. Turkey admits these landings, but declares that the Allies have been unable to make any progress towards the interior.

"Germany has flagrantly disregarded all the rules of The Hague convention. British officers have been stripped and maltreated. A number have been shot down in cold blood.

"Germany has abundantly proved her military skill and courage, but she has had a slur cast upon them by these outrages."—Lord Kitchener.

LILLOOET LAND DISTRICT
DISTRICT OF LILLOOET

Take notice that Helen Mary Beaumont, of Riske Creek, occupation married woman, intends to apply for permission to lease the following described land

Commencing at a post planted on the bank of the Chilcotin river, about twenty chains south of the south east corner of lot 572, Lillooet District, thence north 60 chains more or less to N.E. corner of lot 572, thence east 60 chains, thence south 80 chains, more or less so the Chilcotin river, thence following the bank of the Chilcotin river northwesterly to point of commencement, 420 acres more or less.

HELEN MARY BEAUMONT, applicant

Forest Protection

Tomorrow the 1st day of May commences the close season for the setting of fires by any person, without first obtaining a permit therefor.

The close season will last till September 15th or throughout the driest and most dangerous period of the year, when the forests need the greatest protection against their worst enemy, fire.

Lumbering is the chief industry of the province, and our forests constitute our most valuable asset.

The output of our forest products in 1913 was valued at 34 million dollars. This amount could easily be doubled or trebled if markets can be obtained, as we have a vast supply of raw material awaiting manufacture.

The approximate value of the products of the wood-using industries for the Lillooet District for the year 1914 was over $100,000, a large amount of this being distributed to labour, merchandise, etc., within the district.

Fire not only destroys this raw material, but consumes the soil also, leaving the ground bear and unproductive. It also destroys the greatest conservator of our water supply, as with the loss of the timber cover, the snows on the water sheds of our streams, melt rapidly causing floods, after which the streams dry up, and we lose our regular supply of water during the hot dry weather

The farmers in the district are cultivating a larger acreage this year than ever, which will demand a greater amount of water, so that it is essential to the welfare of the crops that no harm befall the cover of the watersheds, which would interfere in any way with the regular flow of their waters.

The terrible war now raging in Europe offers a lurid illustration of the effects of deforestation.

Before the war Poland was fairly well well forested, it owed its woods its freedom from famine, which so ravages Russia as a result of drought.

When the German invasion began, the timber began to vanish, at first being cut down for roofing trenches. In the fall, when the rain turned the country into an impassable moras, material was needed for road pavement. Poland has no accessable stone. Millions of trees were hewn, and solid roads of timber built across these wastes.

During their second advance the Germans made a fifty mile long road through the marshes of the Bsura river.

This road swallowed up four hundred thousand trees. The forests near Kalisch and Petrokow have entirely disappeared.

Poland is becoming like East Russia, where there are no trees to keep moisture in the soil, so that the melting snows carry off the surface soil to the big rivers, leaving nothing but deiscated sand.

After the war is over, there will be a tremendous demand for lumber, in the countries which are now being devasted, and British Columbia will undoubtedly be able to ship immense quantities of timber to European ports through the Panama Canal.

It is essential, then, that we cooperate and work in harmony to protect one of our greatest national assets, that instead of the bare and blackened stubs and unproductive burned-over lands, we may have green fragrant trees, running brooks, productive land, bumper crops, and prosperity.

Shortage of Eggs

Canada is short fifteen hundred thousand hens. Canada in 1914 imported two hundred thousand dollars' worth more poultry than she exported, and imported eggs to the enormous amount in value of $2,500,000 in excess of her shipments abroad. These are the somewhat surprising, if not alarming statements made by the poultry division of the Dominion department of agriculture, from which also emanates the important announcement that Britain took from Belgimu, France, Russia, Germany, and Austria-Hungary, in the available months of 1914 three million dollars' worth of poultry and sixteen hundred and thirty-two million eggs—sufficient to give two million, two hundred and thirty-five thousand, six hundred and sixteen people two eggs a piece for every day in the year. Such facts must surely convey a world of meaning to poultry breeders in Canada. These facts are further emphasized by the statement that the average egg yield per hen in this country is but 80 eggs per year, where, we are further assured by experts, could, by careful selection, feeding and housing be increased to 180 eggs per hen per year. As the head of the division at Ottawa remarks, "It would be a profitable thing to strive for."

Pamphlets particularly bearing on the subject can be obtained free on addressing the Publications Branch, Department of Agriculture, Ottawa.

Under the post office act, section 65 to 66, the Postmaster General has the exclusive privilege of receiving, collecting, conveying and delivering letters within Canada.

Bills and accounts whether in open or sealed envelopes, as well as circulars or other printed matter enclosed in envelopes sealed or ready to be sealed, are "Letters" within the meaning of the Post Office Act.

There is a penalty under Section 136 of the act which may amount to $20.00 for each letter unlawfully carried.

It has been brought to the attention of the Post Office department that some business firms desiring to avoid paying the War tax, propose making arrangements for the delivery of accounts, bills, circulars etc., thru means other than the post office, contrary to the act, and a warning is hereby given that the post office department intends to insist that the law shall be rigidly lived up to, and will in no circumstances allow these parties to avoid paying the one cent tax which has been imposed for war purposes.

All letters conveyed, received, collected, sent or delivered in contravention of the Post Office Act will be seized and necessary steps immediately taken for the prosecution of the offenders in all cases where the law has been contravended.

Water Notice

Diversion and Use

Take notice that Alfred Ernest Simms whose address is Big Bar will apply for a licence to take and use thirty inches of water out of Big Bar creek which flows to south west and drains into the Fraser river about six miles from southwest corner of P. R. 1759. The water will be diverted at a point about 60 chains N.E. of S.W. corner of P.R 1759, and will be used for irrigation purposes upon the land described as pre-emption record 2233, Lillooet District.

This notice was posted on the ground on the 1st day of February, 1915.

A copy of this notice and an application pursuant thereto and to the requirements of the "Water Act" will be filed in the office of the Water Recorder at Clinton, B.C.

Objections may be filed with the said water Recorder or with the Comptroller of water rights, Parliament Buildings, Victoria, B.C.

For Successful Pruning of All Fruit-Trees Except Peaches

By M. S. MIDDLETON, B.S.A.

1 year old. Cut back to about 24 to 30 inches from the ground. If side branches are present, select the three most suitable, and cut back to an upper bud at about 6 to 8 inches from trunk. Start the first branch at about 15 inches from the ground.

First year after setting. Winter-prune, leaving three main side branches evenly distributed around the main stem on about 1 foot of space Allow a leader to grow.

2nd year. Summer-prune all stronger branches not required as main leaders to stubs about six inches long. If leader branches are making over 3 1-3 feet growth, pinch off the tips during summer. Winter-prune all leaders for strength, and check centre leader if required.

3rd year. Summer-prune all stronger growths not required as main branches to stubs, and tip back leaders if making over 3 1-2 feet gro'th Winter - prune for strength and form.

4th year. Thin fruits if necessary, according to the growth the tree is making. Summer-prune stronger unrequired branches to stubs. Winter-prune for strength, and check leader if necessary. Cut out some of the stronger branches and leave weaker ones for fruit.

5th year. Thin fruit according to growth. Summer-prune all the weak unrequired branches to stubs. Winter-prune for strength, light, and shape.

6th year. Same as fifth year.

Trees in bearing. Thin fruit-spurs according to the growth the tree is making. Winter-prune for strength, and to keep the trees open enough to allow the penetration of light and air, and to shape the tree.

Old bearing trees. Winter prune to thin the fruit by removing a number of the fruit spurs, or by cutting back long fruit-spur branches to invigorate those fruit-spurs left. Prune to invigorate growth of tree, to open out the tree to allow plenty of light and air to enter, and to shape and balance the trees.

In general. Encourage the formation of fruit-spurs on young trees. Let them bear according to the growth they are making. Thin branches most where least light can enter. Avoid all narrow, weak crotches and spread or contract your trees by taking advantage of natural-growth characteristic. Keep your pruning-tools sharp. When removing large branches, prune close and in line with the remaining parts to facilitate quick healing of wounds. Use grafting-wax on large wounds to prevent water from entering the wood until nature heals it over.

WATER NOTICE

Notice is hereby given that the Pacific Great Eastern Railway Company of Victoria, B.C. will apply for a licence to take and use One Hundred Thousand Gallons (Imperial) Per Day of water out of the Fraser River which flows in a southerly and westerly direction through the Province of British Columbia, and empties into the Gulf of Georgia, near New Westminister, B.C. The water will be diverted from Wells Located Between High and Low Water Marks About Eight Hundred (8oo) Feet South of the North East Corner of Lot Six Hundred and Seven (6o7) Lillooet District, and will be used for Railway purposes on the land described as the right of way of The Pacific Great Eastern Railway.

This notice was posted on the ground on the 23rd day of March, 1915.

The application will be filed in the office of the Water Recorder at Clinton, B.C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

PACIFIC GREAT EASTERN RAILWAY COMPANY, Applicant.
by (Sgd.) C. R. Crysdale, Agent.

This notice first appeared in the Prospector on the 2nd day of April, 1915.

Water Notice

Diversion and Use

Take notice that the Golden Dream Mining Co. whose address is Lillooet, will apply for a licence to take and use eight cubic feet and store nine hundred acre feet of water out of Sucker Lake, which flows northerly and drains into Bridge river at Sucker creek. The storage dam will be located at Sucker creek. The capacity of the reservoir is about , and it will flood about 24 acres of land. The water will be diverted from the stream at a point on Sucker creek about half a mile from exit from the lake and will be used for Mining purposes upon the mines described as the Marconi and Dennison mineral claims and on the Golden Dream Mining leases.

This notice was posted on the ground on the 8th day of April, 1915.

A copy of this notice and an application pursuant thereto and to the "water act, 1914" will be filed in the office of Water Recorder at Clinton, British Columbia. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

THE GOLDEN DREAM MINING COMPANY
Applicant.
25 Samuel Gibbs, Agent
