VOL. 4, NO. 2 LILLOOET, B. C., FRIDAY, NOVEMBER 6, 1914. $2 PER YEAR

General News of Lillooet District

Dance tonight in Santini Hall.

Thompson the Dentist for good work—next to the Excelsior hotel

Mr. and Mrs. Howard Reed rode in from the Horse Shoe Bend Mine, Wednesday evening.

Mr. and Mrs. Geo. Carson, accompanied by the little heir and Mr. McGee, of Pavilion were visitors to town this week.

The weather has changed, and nature's sprinklers are supplying the earth with moisture—who said dry belt.

Geo. Bell has arrived in our midst; we hear he is going to live the retired life this winter—Oh to be a miner.

It is amusing to notice how many of the "arrivals" in town make so poor a "bluff" concerning their intentions here.—Of course we take it all in.

The P. G. E. office staff gave a social evening to their friends on Wednesday evening, at their residence on Bluffville avenue. A record evening was spent.

Some of the local boxing fans are talking of going to Merritt on November 21, to witness the contest between John O'Leary and Charlie "Rough House" Burns, for the light weight championship of Canada.

Mr. Geo. Benson, head clerk of the Excelsior Hotel, will leave tomoorow morning by way of Ashcroft on an extended trip to coast cities, thence through the States and by a round about way to his home.

Messrs Geo. Benson, Tommy Hurley, Wm. Lemarchant and Larry Keary, are reported to nave had an exceptionally good time. A record hunt is reported; they returned with two deer and sundries; we are informed that they had a real good hunt for their horses.

Special Constable Sweet left on Tuesday for O'Kalla, he was accompaning John Miller who is going to reside at the Government farm for the coming six month, he having earned this distinction by supplying three of the native beauties with "firewater. "Teddie" Sweet will be back in a day or so.

The usual hal ' o ' een pranks took place on the eve of October 31. Some of the pranks took place quite close to this office, and must have been very funny, even the smallest room of our house could not restrain itself, and being unattached, rolled over and over for a distance of about 40 feet—we are glad it did not split its sides.

The Lillooet School is getting fine selection of B.C. Game trophies, the heads have been contributed, by some of the residents and fathers of the scholars. Miss Stewart, teacher, realizing the opportunity for the children to study natural history, has awakened in them a keen desire for knowledge of the subject.

Besides several small species, the collection to date is, a Bear, Stagg, Ram, and Goat head.

We doubt whether any of the Coast city schools can boast of such a collection.

War Gleanings

All along the battle line in France and in the East, battles still continue, but without decisive result. The Allies are advancing steadily.

It is reported officially that the British-French squadron has bombarded the Dardanelles.

Following the lead of the greater powers, Servia has severed diplomatic relations with Turkey.

The Russian troops have crossed the Turkish frontier and delivered a crushing blow to the Turks. They captured several of the smaller towns, and killed a large number of troops.

It is stated that "owing to the flooded condition of the Belgian coast country" the Germans have abandoned their attempt to get through to Calais by the Northern route and have shifted their lines further south.

An official Belgian despatch from Harve states that everywhere along the Yser are precipitate retreat by the Germans. A German officer admits the loss of 30,000 men during the last few days. Ten thousand of these were killed.

In the North Sea the British suffered a loss when the German cruiser dropped a mine in front of the British submarine D-5, which ran into the explosive mass and was sunk. The fishery cruiser Halcyon lost her wireless and suffered other miner damage and had several casualties on board during a fight between British and German cruisers, of which the sinking of the D-5 was a part.

The latest C.P.R. timetable is as follows:

From Lytton

Westbound;	4:23 a.m.	5:10 p.m.
Eastbound;	1:18 a.m.	2:58 p.m.

Church Services

Church of England; Morning 8 a.m.; 11 a.m. Evening at 7.30 p.m.—Archdeacon Pugh is expected to take the services.

Anderson Lake Boat

The Anderson Lake boat will run as follows until further notice

Leaves head of Anderson Lake 8 a.m. Wednesday and Saturday mornings, connecting with Seton Lake boat. A. C. PHAIR.

Court of Revision

Notice is hereby given that Courts of Revision and Appeal, under the provisions of the "Taxation Act" and the "Public Schools Act," for the Lillooet Assessment District will be held as follows:—

At the Court-house, Clinton on Saturday, November 21st, 1913, at 10 o'clock in the forenoon

At the Court-house, Lillooet, on Thursday, November 26th, 1914. at 2 o'clock in the afternoon.

Dated at Clinton, B.C., October 29th, 1914.

EDGAR C. LUNN,
Judge of the Court of Revision and Appeal.

Inspection of University Lands

On Thursday November 5th. District Forester LeMare returned from Riske Creek and the Chilcotin Distrist, with Forest Ranger Johnson, and packer Tom Manson with pack train, after having taken Chief Forester McMillan, Dr. Westbrook (President of the University of B.C.) and Professor Klinck, on a tour of inspection of the lands allotted to that institution by the Government.

Forester LeMare left Lillooet on October 11th and met the Chief Forester and party at the Gang Ranche, where the first of lands lying to the north of the Ranche were gone over. The party were then taken to Riske Creek, crossing the Chilcotin river by way of Farewell's bridge. A large number of the University lands lies in this vicinity, and these were gone over to determine their suitability for agricultural purposes. L. S. Klinck, Professor of Agriculture will make a report in this respect, and Chief Forester H. R. McMillan will deal with the matter in the interests of the timber.

The majority of these lands; lying as they do in the heart of the Chilcotin Stock country, are now being grazed over by cattle and horses owned by the Ranchers in their vicinity. Dr. Wesbrook, Professor Klinck, and Chief Forester McMillan returned to Victoria. from Riske Creek via 150 Mile House and Ashcroft. Forester LeMare with the pack outfit returning via Saddle Horse Mountain and down the Fraser river.

The weather was all that could be desired, there being only two wet days during the whole trip.

Social Evenings

On the eve of All Hallows, October 31st at the home of Mrs. Anderson, a card party was given by Mesdames Anderson and Asselstine. Invitations were conveyed to the twenty guests by means of artistically designed cards in the form of black cats. The room in which the party assembled was tastefully decorated with symbols suitable to the occasion, and the evident care taken by the hostesses to ensure that each one present should have a "good time," was rewarded by the unanimous verdict that it was a delightful evening.

Mrs. W. T. Bridge won the first prise, consisting of a little gem of a pen-knife.

The booby prize was awarded to Mrs. Hardy. This was a small cushion designed in the form of a goat.

The many friends who were present at the party and drive, given by Mrs. J. S. Bell, at her residence, on the eve of October 31st, had a real good time. The rooms were tastefully decorated and every table was filled. When the drive was finished, refreshments, prepared by Mrs. Bell, were served and enjoyed by all. It was a very happy and contented party who wended their ways home, realizing it was good to have been there.

Mr. C. Place of Pemberton, is n town, on a visit.

A Message to The People of Canada

In response to urgent appeals from many parts of the Dominion I inaugurated the Canadian Patriotic Fund, tho object of which is to provide for the needs of the wives, families, and dependent relatives of those who go to the front to fight the battles of Great Britain and her Allies. Unless generous-minded citizens come to their aid, there will be, during the coming winter, much hardship in many families owing to the absence of the bread-winner. I have the greatest confidence that those that are in a position to give need but the opportunity of doing so, and that the response will be wide-spread and generous

During the past few weeks the Canadian Patriotic Fund has been duly organized, a strong Executive, representing the whole Dominion, has been appointed, and a central Bureau established at Ottawa.

I sincerely hope that in every city and town throughout the Dominion, branches of this organization may be formed, full particulars of which can be had by addressing the Hon-Sec. Mr. H. B. Ames, M.P., Ottawa.

By co-ordinating and harmonising benevolent efforts in this way, the danger of overlapping on the one hand, or neglecting deserving communities on the other hand, may be met and overcome.

I am convinced that all Canadian hearts will go out to their brave fellow citizens who have gone to the front. A prompt and hearty response to this appeal will put all anxiety at rest about those near and dear to them, and will also afford to those who cannot go, an opportunity of doing their duty to Canada and the Empire.

ARTHTR,
President
Canadian Patriotic Fund.

Bridge River Splashes

D. C. Paxton has got his stamp mill at the Wayside mine.

W. G. Duguid has a gang of men repairing the Bridge river bridge at the foot of the Mission Mountain.

Wm. Haylmore is in charge of the Coronation mine. Mrs. W. Haylmore will leave in a few days, the will stay at the mine for the winter months.

The sawmill at the Golden Dream Mine is now running full time, the logs are being obtained at Sucker creek, and it is the intention of C. P. Dam to keep the mill running all winter. The lumber will be used by the Golden Dream Mining Company.

Mr. W. J. Rolfe of the Canadian Exploration Company, has just returned from a trip into the Bridge river country, where he has been looking over the mines. He was greatly impressed with what he saw and intends to return in the Spring to look the district over thoroughly. He was accompanied on the trip by Mr. J. Russell.

Mr. Ballwin leaves for Vancouver tomorrow morning by way of Pemberton and the P.G.E.

THE PROSPECTOR.

Published in the interest of Lillooet District.

A. E. LUDWIG, Manager.

NOV. 6. 1914.

Recent investigations by the Conservation Commission reveal some very interesting facts regarding the effect of care, or neglect, as the case may be, upon the life of machinery on the farm Between 90 and 95 farms, divided into three districts, were visited in each of the provinces of Manitoba, Saskatchewan and Alberta.

In Saskatchewan, out of 94 farms visited by the Commission's representative, 76 leave all of their implements out of doors. On 73 of the farms, there were no implement sheds of any description. On 21 of the farms, sheds large enough to cover part of the implements were found, in most cases this being only a buggy or a democrat, but not on one single farm was the machinery all housed. Not one farmer was found who painted his implements toprotect them from the weather.

In Manitoba only 14 out of 94 keep their machinery under cover during the winter, while 44 claim to keep part of it inside. On 34 Manitoba farms no provision whatever is made for protecting implements, and only four claim to have done any painting.

In the three districts visited in Alberta, mixed farming is carried on quite extensively, making more barn room available, so that implements are more likely to be protected, but even here, 37 out of the 92 visited leave all machinery out of doors.

In one district in Ontario where 40 farmers were visited, every man housed his implements during winter, although none of these men do any painting.

In the Ontario district visited where the implements are housed, the average life of the binder was found to be between 16 and 17 years. Many binders were seen which were in good running order after cutting 20 seasons' crops.

In Manitoba and Saskatchewan, where so much of the machinery is left out of doors the average life of the binder is given by the farmer as about 7 years, which is less than half that of the binder protected from the weather. Many binders do not last as long as seven years.

An implement shed costs money, but if its use will double or treble the length of time the machinery will last. it is a good investment.

Farmers often say that they cannot afford to build a shed. The truth is they really can not afford to be without one. Apart from the additional power necessary for operation, the depreciation on unhoused machinery on the average sized farm is so great as to amount to much more than the cost and upkeep of an implement shed. The binder works for only a short time during the year, while machinery in a shop works the whole year through and lasts proportionately many times longer. It is simply a matter of care. The life of a machine extends in direct ratio to the care it receives, and obuse and neglect will shorten the life of any mechanism. The manufacturer is not responsible for the care of the machinery after it is sold. This rests entirely with the farmer, and as a common-sense business proposition he should look after his own interests sufficiently to house his implements and thus save the thousands of dollars wasted annually in unnecessary depreciation.
