The line is now nearing completion and within the next few days there will be through service to the Coronation mines. In all probability a line will be built shortly from here to Lytton. FRIDAY, OCTOBER 25, 1912

The hinges of true friendship never rust.

Many a bewhiskered man has been known to tell barefaced lies.

The present slaughter in Turkey is a mere trifle compared to the slaughter of turkey before Thanksgiving.

There is but one method of acquiring wisdom, but when it comes to making a fool of himself a man can take his pick of a million different ways.

Dry air, bright sunshine, a virgin soil, vast forests, mineral wealth of every description in the hills, constitute assets which promise to make the Lillooet district one of the most populous and prosperous regions in British Columbia within the next few years. These are only a few remarks which help make up a well written article headed "Overland by Trail from Historic Lillooet to Newport, Howe Sound," which appeared in a recent issue of the Vancouve Province. It is one of the best writeups that has been written on this district.

We would recommend that all householders and house owners pay particular attention at this season to their chimneys and stove pipes. Defective flues, chimneys and dirty pipes, etc., are a menace and liable to cause a fire. A little precaution taken now before the winter sets in will save perhaps much expense later on and eliminate all danger of fire.

Special attention should be given to the fire hall to see that everything is in readiness there in case of a fire. Is the hose in proper shape? Are there any axes, lanterns and buckets there? We suggest that a meeting be called to discuss the matter.

Revolt In Canadian Cabinet

F. S. Monk, minister of public works, and W. B. Nantel, minister of internal revenue, are now almost openly in revolt against the proposal, indorsed by the majority of the cabinet, for an emergency contribution of $30,000,000 to the British fleet. No final decision has been reached by the cabinet as to the terms of the naval resolutions to be proposed at the coming session of parliament in November. Mr. Monk's opposition to committing Canada to any large naval proposition without first consulting the people through a plebescite has been emphatically made known to the cabinet, and his resignation from the government will be forthcoming if his views are not met.

There are twenty automobiles in Grand Forks.

This year the C. P. R. has bought 206,147 tons of steel rails, tieplates, and fastenings, at a cost of $7,700,000.

Water Purification

A level teaspoonful of choloride of lime should be rubbed into a teacup of water. This solution should be diluted with three cupfuls of water, and a teaspoonful of the whole quantity should be added to each two gallon pail of drinking water. This will give .4 or .5 parts of free chlorine to a million parts of water and will in ten minutes destroy all typhoid and colon bacilli or other dysentery-producing organisms in water. Moreover, all traces of the chlorine will rapidly disappear. This method of purification has been tested with Toronto Bay water innoculated with millions of bacteria. Every germ has been destroyed and it has been unnecessary to boil the water. This method should be very valuable for miners, prospectors, campers, and those living in summer resorts where the condition of the water might not be above suspicion.

BAD FLOUR

"I wish to complain," said the bride, haughtily, "about that flour you sold me. It was tough."

"Tough, ma'am?" asked the grocer.

"Yes, tough. I made a pie with it, and my husband could hardly cut it." Everybody's Magazine.
