Tom Manson arrived back in town this week from his hunting trip in the Bridge river vicinity; among other specimens he obtained the finest head of Big Horn brought into town for some time. The measurements are: 15 3 4 inch base and a 35 inch curve.

A pleasant social evening was spent last Sunday when a number of friends met at the home of Mr. and Mrs. Bellamy. The object of the evening was to show in a small way, the appreciation of the goodfellowship they had for Mr. A. B. Greig, late manager of the local branch of the Bank of British North America, who was leaving for the 150-mile branch, to which place he has been transferred.

He left Lillooet for his new station on Monday by way of Lytton.

The Hon W. R. Ross is advised by the Department of Trade and Commerce at Ottawa, that the exhibits of British Columbia lumber recently sent to Australia are being shown at the Royal Exchange, Sydney, and will afterwards be featured at an approaching architectural exhibition. The Canadian Trade Commissioner at Melbourne, to whom the exhibits were consigned, is arranging for timber importers, builders, and others who are interested to view them, and reports that the varied and beautiful finish which British Columbia Douglas Fir takes has been the subject of considerable comment. It will be remembered that a number of these exhibits were sent abroad earlier in the year, and, as in the case of the Sydney display, have attracted much attention in the important trade centres at which they have been placed.

Seventy cents per capit of population, men, women and children was Canada's contribution towards the support of soldiers' families during the first year of the war. While this is more than sufficient for the requirements of that period, it falls considerably short of the contribution that will be required during the next 12 months. The total estimated requirements for that period will be $7,500,000 or about $1.00 per head af population.

Pioneer Mine

Vancouvsr Nov. 10—Mr. C. L. Copp, manager of the Pioneer mine, Bridge river, left this morning with two carloads of machinery that practically will complete the installment of the plant to make the Pioneer claim a mine. The manager and his machinery went from here by steamer for Squamish to connect with the P.G.E. The Pioneer claim was bought a number of years ago by a group of Vancouver men. Since about 1910 they have been carrying on prospecting work on the claim in a small way. Developments have been such as to justify this summer an expenditure of $30,000. In August Mr. Copp went up with the sawmill plant. In September it was running and it has made a record of 150,000 feet in sixty days. The timber has been put into buildings for 150-horse power hydraulic plant, the 30-stamp mill, the 12x12 compressor plant and the hoisting and electric light system. Mr. Copp said this morning that he expected to have the whole plant ready for opperation in sixty days after his arrival back at the mine.

The Pioneer claim, or it may now be called a mine, is owned by four or five Vancouver people who have carried on the work without any stock selling. Whatever is made now out of the mine which is a free milling gold proposition, will be theirs.

Lytton Jottings

The Proprietor of the Lytton hotel has returned from the coast

Tom Baillie is on a visit to the coast. J. Deverney is attending to the pool room.

Another carload of horses has been secured by Messrs G. Levis and C. McKnight, for the prairies.

Messrs. A. Buchanan, A. Watkinson, and Jim Watkinson of Lytton- Lillooet road; M. Mundle of the 20-mile house; J. Magee of Spences Bridge, were among the visitors to town recently.

A pretty wedding took place here last Thursday evening, October 4th, when Miss Durham and Mr. Robert Somerville were united in holy wedlock. The ceremony took place at the home of the Rev. Edwards. The bride's maid was Miss Dorothy Melog and the best man Mr. McIntosh. Luncheon was served at the Globe Hotel quite a number of guests being present. The dining-room was beautifully decorated by Miss D. Conn.

The many friends of the happy couple wished them the good old wish as they departed on their honeymoon. They will reside at Spences Bridge.

Board of Trade

The frequency with which we are reminded of the immense possibilities of our country's future development, leads us to enquire how far the particular province in which we are interested will share in this great unfolding of immense wealth.

The turn of the tide has come for B.C. Mines are active. Lumber is reviving. New industries are being introduced, and many favorable signs are making it clear as daylight that we are on the eve of big things.

What about "Lovely Lillooet" and its vicinity?

What will be its share in the great revival?

That just depends on two things.

1st—How far its inhabitants are alive to its value.

2nd--How far they give publicity to its advantages.

Now that the P.G.E. railway makes the little town more accessible, strangers are coming to visit it in increasing numbers.

And what is the verdict of men who know, men and women who have trotted over half the Globe, men who see with the true perspective, which enables them to compare, contrast, and weigh up advantage and place them in their true position in the scheme of things?

"Lillooet has a place in the Sun." It will have a still greater. It is a duty, to say nothing of a pleasure, to inform the outside world that here indeed is a paradise. s spot of crystal stre'ms, of unfathomable and mysterious lakes, of majestic mountains, snow-capped peaks, enchantingly-beautiful scenery at every turn. Masses of mineral wealth waiting to be prospected and developed.

Lillooet streets were once paved with gold but that was back in the sixties and men have gone and taken much of that which lay on the surface waiting to be picked up.

But now opens up that area of develepment of Natural Resources which lie around. Public bodies and private companies are already proceeding to give vitality to our district. Railroads, wagon roads, and trails are all soon to be the arteries along which will flow the life blood of a trade which will be ever growing.

And Lillooet holds out a welcome to all who come boat and railway winding through gorges and disclosing to the astonished traveller scenic wonders which unfold such effects that they who visit our little Home in the Mountains may well imagin that some fairy is guiding them with magic wand to her abode in wonderland.

But the traveller after winding along the track which clings to the hillside (which on the right continues to slope down, down into the deepest of deep lakes and on the left rises tier upon tier till it pierces the clouds) emerges into an open piece of bench land with agricultural and horticultural capabilities beyond compare.

Here indeed is a favored spot and it is called "Lillooet" and Lillooet is trying to impersonate itself in a form which shall have eyes, ears and mouth, which shall have at least five senses and perhaps six, and it proposes to call itself in this form the LILLOOET BOARD of TRADE
