VICTORIA, B.C.

THE PROSPECTOR

VOL. 3, NO. 38 LILLOOET, B. C., FRIDAY, JULY 17, 1914. $2 PER YEAR

P.G.E. Break All Records

Breaking all records for rapidity in railroad construction in Western America, an army numbering 5600 men is at present employed on the Pacific Great Eastern Railway, along the whole of its length, from Squamish to Peace River, via Fort George, a distance of 810 miles. With this achievement in progress, there are being revealed evidences of great natural resources throughout the district traversed which prove a revelation even to those who have supposed they were well informed as to the possibilities of this section of British Columbia. The scenery is said to be very fine along the route, and the timber and waterpowers are valuable.

Pemberton Gleanings

Farmers in the Meadows are delighted with the weather conditions; we have had a very welcome rain, which coming after a long dry spell has brought along the crops by leaps and bounds. The Valley is looking fine just now

The well-known prospector, J. K. McKenzie had the misfortune of losing by fire practically a new house and all his stores, tools, etc. Our sympathies are with Mr. McKenzie and may dame fortune be kinder to him in the future.

We have had a few visitors in the valley lately looking for land, several of whom came in from the Okanagan country. They were pleased with the prospects of agriculture here and predict a big future for Pemberton Meadows.

The P.G.E. piling across the valley is now completed to the bank of the Upper Lillooet River and all is ready for building the bridge across the river. We understand from Messrs. Culleton, bridge contractors for the P.G.E. that this bridge will not be built until the steel is laid, probably about the end of September.

Settlers in the lower end of Pemberton Meadows are anxiously awaiting the Drainage Commissioners report on the possibility and estimated cost of draining the meadows by enlargening and lowering the outlet of Lillooet lake, and so bringing several thousand acres under conditions suitable to agriculture.

Messrs. Keddy and Keene and associates are busy on their Eagle group claims, and there are rumors of a smelter going in here in the near future.

Church Services

Methodist church : Morning (Sunday School) at 11. There will be the usual evening service at 7.30, Rev. R. D. Hall, pastor, will officiate.

A cordial invitation is extended to all.

Subscribe for the Prospector and obtain the local news.

LOCAL AND GENERAL ITEMS.

NOTICE

Notice is hereby given that the date in Mr. J. Bell's advertisement on page 4 is August 8 instead of July 8, as stated in our last issue.

Dr. Jones arrived in our midst this week; he left for his ranch down the river.

H. Paynter of Vancouver, was here this week, looking after his business interests, in Lillooet and vicinity.

J. A. McGee of 15-mile ranch, Ashcroft road, was a visitor to town; he came in to meet his sister, Miss McGee, who will be his guest for the summer months

Dr. A. G. Hirschberg, manager of the Toric Optical Company will visit Lillooet personally, instead of the regular representative. See back page

Plans of a cable to be constructed by the Pacific cable board for the Pacific cable hut at Bamfield to Albernie, B.C., have been deposited with the Department of public work at Ottawa.

Tenders are being called for the construction of public buildings at Ashcroft and Merritt, also for a drill hall at Kamloops. The money was voted for the Ashcroft building two years ago.

Among the many visitors to Lillooet this week were— J. B. Tiffin, J, B. Bryson, G. Carson and P. Garigan. It is a rare pleasure to meet these oldtimers and listen to the reminiscences of the good old days.

Sir Donald Mann, vice-president of the Canadian Northern Pacific railway is expected to arrive in Vancouver this month and according to advices will bring with him instructions to start work on the C.N.P. undertaking in British Columbia, including the False Creek terminous, Kamloops, Kelowna and Vernon line, also a further extension of the Vancouver Island Canadian Northern lines,

S. A. Macfarlane left for the coast yesterday to visit his family and will be away for a week or ten days.

V. D. Webb, rancher of Pemberton, passed through Lillooet early this morning; he was accompanied by Mrs. Webb. They have just returned from they honeymoon. We wish them the best of luck in their venture.

Extensive improvements are being made to the Excelsior hotel these days. The hotel is being repapered, painted, and generally renervated. Mr. W. J. Abercrombie, proprietor, states that he intends to keep accomodation for his guests, as good as any at the coast.

Dora Manson—George Prosser

Mr. and Mrs. Geo. Prosser returned home from their wedding trip. The wedding took place at Ashcroft, last week. They have the best wishes of their many friends for a happy and prosperous wedded life; we also desire to echo these good wishes.

What greater thing is there for two human souls than to feel that they are joined for life, to strengthen each other in all labor, to restrain each other in all sorrow, to minister to each other in all pain, to be with each other in silent, unspeakable memories at the moment of the last parting—George Eliot.

Hammondsport, N.Y., July 14. The turning of the hull of the America into a gigantic "sea sled" was tonight hailed as the solution of the problem that has delayed the over ocean flight of the Wanamaker flying boat.

The hollow runners with an air space between them take the place of the V-bottomed hull. This is believed to be the best system to raise the craft with its heavy load quickly from the surfce of the water.

Water Commission Meet at Lillooet

The Board of Investigation in connection with the water rights of settlers in Lillooet and vicinity met at in the Court House last Tuesday morning. The Board consisted of Mr. J. S. T. Alexander and Mr. E. Davis, with Mr J. R. Mountain as clerk; Mr. Alexander, in the absence of Mr. Armstrong, occupied the chair. The sitting lasted two days, and it was a patient but tired Board that closed the proceedings on Wednesday evening; about one hundred claims having been investigated.

It will be a matter of satisfaction to know that in future all streams, creeks, rivers, etc., will be given an official name, and will be known by that name only not by two or three as the case is at present. This will simplify matters in connection with water records, besides giving greater satisfaction to all concerned.

As soon as the revised list of names come out we will publish same.

The lawyers present;—A. H. Douglas, P.G.E.; H. M. Whiteside, for Mr. McEvoy; Mr. Tobin for J. M. Mackinnon; Mr. McIntyre for M. Foster. S. Gibbs of Lillooet, acted on behalf of several of the ranchers and residents.

A. Cochram of Vernon, was here looking after the Indian Reservation water rights.

The Board left for Merritt, and from there will go to the 150-mile house, Cariboo road, where they are due Wednesday July 22nd.

Mr. Rowlands, who is connected with the Water Department, is in town, and will enlighten anybody on any possible doubt the may have in connection with the Water Rights Act.

War Declared at Victoria

The attention of all farmers and land owners generally is called to the necessity of waging a vigorous campaign against noxious weeds, which are becoming so prevailant in many of our best farming districts throughout the Province.

All Provincial Constables and Forest Guards have been again appointed as agents for this Department towards the enforcement of the provisions of the Noxious Weeds Act. In addition, Noxious Weeds Inspectors have been appointed in different parts of the Province, whose duties will be to carefully go over their districts, see that farmers and land owners are taking the necessary steps to destroy the weeds growing on their lands, and in the event of non-compliance with notices served on them, to institute proceedings against them.

The Department is determined to use every legitimate effort to have the provisions of the Act strictly enforced, and look for the whole-hearted co-operation of the farmers themselves in this most important matter.

Weeds may be divided into three classes—Annuals, Biennials, and Perennials.

(1) Annuals complete their growth in a year. The prevention of the formation of seed for one year, followed by careful cultivation to kill all young plants will soon eradicate Annuals. In addition to this, all seed in soil should be encouraged to germinate in order to complete control.

(2) Biennials require two seasons to complete their growth, the flowers and seeds being produced during the second year. Due notice should be taken of this fact when fighting weeds of this class.

(3) Perennials are the plants which continue to grow for many years, being propagated by underground root-stalk, stems, etc., as well as by seeds. The aim in fighting perennials should be to prevent any growth from being made, hence starve the root systems.

There is no known weed which cannot be eradicated if proper measures are taken. Never allow seeds to ripen, and if they do, encourage them to grow so the plants may be killed by cultivation.

In our next issue we will publish the government report and instructions as to the best methods of eradicating the weed pest.

The degree to which foreigners are responsible for capital crime in the Dominion is ineicated by the fact that eleven death sentences now before the justice department at Ottawa; there is not a Canadian or British subject in the list.

THE PROSPECTOR.

Published in the interests of Lillooet District

A. E. LUDWIG, Manager.

JULY 17. 1914.

Three new pre-emptors maps covering the Nechaco, Chilcoten and North Thompson districts have just been issued by the Surveys Branch of the Department of Lands. These maps form part of a series covering approximately 100,000 square miles of land, and will prove of great assistance to intending pre-emptors. They show the land surveyed to date in the sections covered, the tracts available for pre-emptions being shown in pink, while those taken up are indicated in white. The surveyed areas shown in pink and the unsurveyed land shown in the same color can be pre-empted at the office of the Government agent of the land recording division in which it is situated. It is necessary to stake the unsurveyed land and describe it according to metes and bounds in the application. The surveyed tracts can be applied for without staking, being described in the application by their number.

Maps have already been issued in this series showing the land for pre-emption in the Fort George and Tete Jaune districts. It was in these districts that 80,000 acres was opened to pre-emptions last month, and over three quarters of this land remains open. The new maps cover the areas adjoining that embraced in previous ones; the whole series are drawn to connect with each other.

The Nechaco sheet shows the territory westward of the Fort George district extending to the Hazelton division and embraces the great interior lake basin, and the Nechaco, Endako and other fertile valleys. The North Thompson sheet shows the land adjoining the new C.N.P. railway, and extends northward from the railway belt to the territory embraced in the maps previously published It includes the Canem Lake, Bridge Lake and Bonaparte districts of eastern Lillooet and the Clearwater, Barriere and Adams Lake districts, other areas in which settlement is taking place. The Chilcoten sheet covers the northern Lillooet and southern Cariboo plateaux and valleys. Another map, the Quesnel sheet, is being completed, which will cover the territory between that embraced in the Chilcoten and North Thompson sheets.

The series of pre-emptors maps together with series of pamphlets published by the Department of Lands describing in detail the topographic and other features of the Fort George, Fort Fraser, Skeena, Cariboo and Peace River Land Recording divisions, will prove of great value to intending settlers.

AGENTS wanted to sell our Fruit Tree Stock. Apply Royal Nurseries, Limited, 207, Hastings St. W Vancouver, B.C.

For Sale

A litter of well bred hound pups. Good on rabbits and coyottes, can be seen at the old Lachore ranch. Full particulars from Smith & Bradshaw, Lytton.

WATER NOTICE

Application for a Licence to take and use and to store or pen back Water will be made under the "Water Act" of British Columbia, as follows:

1. The name of the applicant is John Bishop
2. The address of the applicant is Churn creek, B.C.
3. The name of the stream is China creek. The stream has its source in the mountains west of Empire Valley, flows in an easterly direction, and empties into Grinder creek about four miles from its mouth
4. The water is to be diverted from the stream on the north side, about 400 yards south west from S.W. corner of lot 992
5. The purpose for which the water will be used is irrigation
6. The land on which the water is to be used is described as follows: Lot 992 Lillooet district
7. The quantity of water applied for is as follows: 200 acre feet per annum
8. The quantity of water to be stored is 200 acre feet per annum
9. The reservoir site is located on China lake about 2 miles from the point of diversion
10. This notice was posted on the ground on the 27th day of June, 1914
11. A copy of this notice and an application pursuant thereto and to the requirements of the "Water Act" will be filed in the office of the Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

37 JOHN BISHOP

Another Oil Strike Reported in Alberta

Irma, Alta., July 10—According to Mr. Ainslie, secretary of to the Board of Trade here, a strike of oil has been made on section 21, 47, 11, at a depth of 85 feet. At 100 feet the oil was still flowing. Woods and Merry were drilling for water and at the depth of 80 feet met sandstone, and at five feet further down struck oil, which flowed to the surface and continued doing so all the time drilling was in progress. It had not stopped when a depth of 100 feet was reached.— News, New Westminter.

Large tract of good valley farming land just thrown open for free settlement in Oregan. Over 200,000 acres in all. Good climate, rich soil, and does not require irrigation to raise fine crops of grain, fruit and garden truck. For large map, full instructions and information, and a plat of several sections of exceptionally good claims, send $3.40 to John Keefe, Oregon City, Oregon. Three years a U.S. surveyor ond timberman. An opportunity to get a good fertile free homestead near town and market.

English Sparrows Too Much For Texas Rodents

Fort Worth, Texas.—July 10—Many stories have been told of the powess of rats in combat with other animals and the fact that one can kill a dog is well known, but the fact that they themselves are warred upon and exterminated by the lowly English sparrow has just been brought to light.

At North Fort Worth the erection of three brick buildings in a peculiar manner left a small court in the rear of one building with no outlet except the blue sky above.

This court has for some time been used as a playground for unusually big rats that they are almost driving the grocers and butcher in that vicinity to distraction.

English sparrows have of late become attracted to this court and wish to use it as a nestling place. That rats and sparrows cannot live together is a settled thing, therefore the sparrows have decided that the rats must leave and daily they are killing them off in large numbers.

WATER NOTICE

Notice is hereby given that the Marquis of Exeter of Bridge Cree, B.C. will apply for a license to take and use (100) one hundred miners inches of water out of Bridge creek which flows in a northwesterly direction and empties into Caninn Lake. The water will be diverted 1 1-2 miles from the south west corner, and will be used for irrigation on the land known as Lot 2I0I.

At the same time he will apply for a licence to take and use 100 miners inches of water out of Buffalo creek which flows in a south westerly direction and empties into Bridge creek on Lot 2I0I.

The water will be diverted about one and a half miles from S.W. corner of Lot 2I0I, and will be used for irrigation on the land described as Lot 2I0I

He will also apply for a licence to take and use 200 miners inches of water out of the same Buffalo creek to irrigate the land described as Lot 2I00

The water will be diverted about 2 miles from the N east corner of Lot 2I00.

These notices were posted on the ground, June I9th, I9I4

The application will be filed in the office of the Water Recorder at Clinton B.C.

Objections may be filed with the said Water Recorder, and with he Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

THE MARQUIS OF EXETER, Applicant
36 C. G. COWAN, Agent

Water Notice.

Application for a Licence to take and use Water will be made under the "Water Act" of British Columbia, as follows:

1. The name of the applicant is Lillooet (British Columbia) Mining Company, Limited.
2. The address of the applicant is Box 49, Lillooet Post Office
3. The name of the stream is North Fork of Bridge River
4. The water is to be diverted from the stream on the East side, about 220 yards from North West Line of Lot No. 3I04
5. The purpose for which the water will be used is mining.
6. The land on which the water is to be used is described as follows: Horse Shoe Bend Mining Leases covering leases Numbered I6I, I27, I78, I79
7. The quantity of water applied for is as follows: 10,000 miners inches
8. This notice was posted on the ground on the 29th day of June, 1914.
9. A copy of this notice and an application pursuant thereto and to the requirements of the "Water Act" will be filed in the office of the Water Recorder at Clinton. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.
