LILLOOET PROSPECTOR

VOL. 6, NO. 35 LILLOOET, B. C., FRIDAY, JUNE 30, 1916. $2 PER YEAR

TRIED TO SHORT-CHANGE THE EDITOR

Mr. J. P. McConnell, of Vancouver, editor of J.P's Weekly and late editor of The Sun, was in Lillooet this week and created considerable excitement in this peaceful town by having a restaurant keeper arrested and convicted on the charge of stealing $4.25.

Mr. McConnell and his business partner, Mr. W. H. Carswell, had been on a fishing trip in the vicinity of D'Arcy, and being unable to get to Vancouver by the P.G.E. railway, decided to come to Lillooet and go home by way of Lytton. They arrived in town on Wednesday afternoon, weary, footsore and without even the price of a small glass of beer, being towed down Seton Lake by Barney Rorenberg. Fortunately they were well known here and had no trouble getting money at the bank to tide them over until they got back to Vancouver. Mr. Carswell gave the editor a $5 bill and together they hied themselves to a nearby restaurant kept by one Jack, a chinaman. After partaking of spring chicken and various other Lillooet delicacies, Mr. McConnell, whose bill amounted to 75 cents, gave the Chinaman the aforesaid $5, and at the same time ordered a cup of tea. Jack evidently decided that he had an easy victim to deal with, and when requested to return the change, tendered J. P. two bits, claiming he had only received $1.00. The price of newspaper stock has gone up about fifty per cent. and every little bit helps during these hard times, so the fiery editor immediately called to his assistance Constable Bourne and swore out a summons charging the resturant keeper with trying to flim-flam him or words to that effect.

Jack appeared in court yesterday morning at 10 o'clock before Stipendiary Magistrate Dunlop and pleaded not guilty. After hearing the evidence of Messrs. McConnell, Carswell and Penny, who was also in the restaurant at the time the trouble arose, Mr. S. Gibbs, who defended the accused, decided to change the plea of not guilty to one of guilty, and asked for the leniency of the Court. The magistrate sentenced the Chinaman to two months in jail and also ordered him to return the $4.25 change to its rightful owner. In default of this last request Jack will have to spend another couple of months at the expense of the province.

Being well satisfied with his day's work, and after asking the boys to step up and have something, Mr. McConnell and Mr. Carswell left for Lytton by automobile, taking with them about 80 fine trout, which they caught near D'Arcy.

IMPROVING TELEPHONE SYSTEM

The Bridge River telephone line is being put in first-class condition and on a metallic system between here and the Mission to prevent induction from the P. G. E. line, which has caused considerable annoyance in the past. Mr. C. H. Bruneau has charge of the work, three men being employed. It will require several months to complete the job. A new phone has been installed at the hatchery.

Local Items of Interest

Mrs. Tony Viera, of Bridge River, is visiting friends in town.

Fred Olsen has taken over the restaurant next to D. Hurley's store.

Mr. and Mrs. A. F. Hautier, of Lytton, are registered at the Excelsior hotel.

Sunday hours will be observed at the Government telegraph office tomorrow.

Mr. H. Abel, of Kaslo, was a visitor in town during the week and registered at the Victoria hotel.

Messrs. W. Terry and G. Cooper Draphle, of Vancouver, were among the delayed passengers on Monday's P.G.E. train. They arrived in town on Wednesday by boat from the head of Anderson Lake.

Mr. Alf. Smith, well known in Lillooet, Ashcroft and district as the driver of the old Ashcroft mail stage, was in town last week repairing the telephone lines, but left for the prairies Saturday, where he will engage in ranching south of Calgasy.

Rev. Father Rohr, who has been visiting the Indian reserves in this district during the past month, left for Mission City on Wednesday. It is rumored that Father Rohr will leave shortly for the front.

Preparations have been completed for the big two-days' celebration in Lillooet tomorrow and Monday and a big crowd is expected. A number of the finest race horses in the province are in training here and there will be some hot contests. The P. G. E. railway will run a daylight excursion from Vancouver, leaving Squamish at 1.00 p.m. on Saturday and arriving here at 7.00 o'clock in the evening. The train will go through to Clinton, and returning will leave here for Squamish on Sunday morning at 10.18 a.m. Tickets are good up the middle of next month.

PROGRAMME

DOMINION DAY CELEBRATION
LILLOOET, B. C., JULY 1st and 3rd, 1916

SATURDAY, JULY 1st

Bridge River Stakes, half mile and repeat (all horses to be bred in the district),	$50.00	$20.00
Gents' Saddle Horse Race, half mile.....	10.00	5.00
Cowboy Race, half mile.....	10.00	5.00
Klootchmans' Race, half mile dash.....	10.00	5.00
Ladies' Race, half mile.....	10.00	5.00
Turning Stakes, Cowboy	15.00	7.00

Field Sports

Children's Races.....		$20.00
Indian Children's Races		10.00
100 Yards Dash, open.....	10.00	5.00
200 Yards Dash	10.00	5.00

MONDAY, JULY 3rd

Pony Race, half mile dash (14 1-2 hands and under).....	$15.00	$ 7.00
Lillooet Stakes, half mile and repeat (free-for-all).....	75.00	35.00
Indian Saddle Horse Race	10.00	5.00
Klootchman's Race, quarter-mile dash	10.00	5.00
Bucking Contest.....	20.00	Boots
Obstacle Race	10.00	5.00
Consolation Race, half mile.....	15.00	7.00

Field Sports

Three-legged Race	$ 3.00	$ 2.00
Sack Race.....	3.00	2.00
Klootchman's Foot Race.....	3.00	2.00
Chinese Race.....	3.00	2.00
Married Men's Race.....	3.00	2.00
Old Men's Race (over 50).....	3.00	2.00
Ladies' Race.....	Box Soap	2.00
Egg and Spoon Race for Ladies.....	Pr. Boots	2.00

Baseball Match Brass Band Each Day Dance

GOD SAVE THE KING.

P. G. E. TRAIN WILL BE IN TONIGHT

The citizens of Lillooet have been without a train service since last Friday. Monday's train was held up by a slide on the P.G.E. line about 70 miles from here, and every effort is being made to have the damage done repaired as quickly as possible. The railway officials announce that they will have a train right through to Clinton tonight. All the railway companies operating in B.C. have had more or less trouble from slides and floods during the past couple of weeks.

But our main kick is in regard to the mail service. When we had a mail three times a week from Lytton everyone was satisfied, but since the Thursday mail was taken off the people have had to put up with a great deal of annoyance, as the service given by the P.G.E. Ry. Co. has been far from satisfactory. A protest was sent to the post-office authorities some time ago, asking to have the Thursday mail stage from Lytton restored, but nothing was done. As far as knowing what is happening in the outside world the people of Lillooet might as well be out on the deep blue sea on an ocean liner with the wireless apparatus out of commission. The last Vancouvers newspapers to arrive by mail were the issues of Thursday, June 22nd.

ENTRANCE EXAMS.

Mr. A. Buchanan, teacher of the Foster Bar school, is registered at the Victoria hotel. Mr. Buchanan is conducting entrance examinations for high school. The three candidates who wrestled with the scholastic problems presented by the provincial board were Dorothy Kinder, Seton Lake; Kitchener Bell, Lillooet, and Tom Hambrook, Pavilion.

SCHOOLS CLOSE

All the schools in this locality closed this week for the summer holidays. Miss Wiegand, who had charge of the school in Lillooet since Christmas, has decided not to come back after the holidays, and a new teacher will have to be found. Mr. Fournier, of the Seton Lake school, will again be in charge at the commencement of the fall term. Miss Wiegand's pupils are enjoying a picnic today.

COMMENCE DEVELOPMENT WORK

Mr. J. B. Perkins, who has been in Lytton for the few days, arrived in town last night and he and his partner, Mr. A. Hautier, are leaving at once for their mining property on Texas Creek. Mr. Perkins went to Lytton to meet one of the bondholders of the property and arrangements were made to commence development work on a large scale. The provincial government is sending a mining engineer to inspect the mine and if found satisfactory a good road will be built to Lillooet this summer. Molybdenite metal is in great demand all over the world just now, and Messrs. Perkins and Hautier are receiving letters every day asking for information about their property.

JUNE 30, 1916.

THE WEATHER.

This is a subject so familiar that scarcely a day passes without some comment on its merits or demerits by all of us. Weather is only one feature of climatic conditions and we associate climate with the most important things of life. We associate climate with crops, with industry and with health, all of which are subject to the influence of weather. And notwithstanding its importance to our existence, it seems that science has been slow in giving us anything practical. But it is coming.

Within the last few months "Fosters' Weekly Report" held out a strong hope that in a very short time it would be possible to give a forecast of the weather two weeks in advance with as much certainty as a forecast for one day can be given now. This is surely great news, and of greater importance to the world than one can imagine at first blush. A little thought and the reader will understand the great importance to every one, though greater to some than to others, to know from day to day the sort of weather he is going to have for two weeks in advance. Should the Foster prediction prove correct, and we are almost sure it will, then we shall forgive science for being so long "under the weather."

Climatology is an interesting but complicated study. For a long time it has endeavoured to find a connecting link between the "Sun Spots" and our weather, and the search is still on. It has, however, enlightened us on many things. For instance: Health resorts with a temperature from 50° to 70° improve the delicate, who increase in weight, increase in vigour both in mind and body, and become less liable to disease, while a strong individual under the same conditions loses strength and suffers from various degrees of lassitude. A corresponding intensity of cold acts in the reverse manner in each case. It gives useful warning when it tells us that cold with wind and damp should be avoided by the aged, the delicate, the gouty and the rheumatic. A resort with moderate heat is the best for the aged and those weakened by illness. In warm moist air strength is lost and intestinal troubles occur. As the altitude is raised circulation and respiration are quickened and this gives an impetus to the growth and blood-forming organs of children and young people whose development is not yet complete. The benefits are said to continue "for a considerable time after a return to lower ground." The people of Lillooet do not half realize what a blessing they enjoy in such a healthy climate.

Space prevents us from going much further into the question of health as influenced by weather, but we shall note one feature which may interest prohibition controversialists. For a long time it was the opinion of many that the drunken habits of northern Europe were due in a measure to the cold climate. While cold is partly the cause, it is not the sole cause. Climatology informs us that the habit is intensified by moisture in the atmosphere. The conditions most favourable for predisposing the human taste for strong drink are a combination of cold, damp, cloudy, murky weather. Such a combination is common in northern latitudes and thus it is that countries like North Russia, Scandinavia, Great Britain and Ireland are the most drunken countries in the world. Here we see a physiological cause which can no more be argued away than the physiological distinction between the sexes, and until temperance people recognize this fact they can never have anything approaching a sensible and satisfactory temperance system. We may return to this subject again.

On this date many years ago the editor of The Prospector was born. Cigar dealers and others will please make a note of this.

Three-quarters of a million horses have been purchased for the Allies, principally in the United States. It is expected that British buyers will purchase 20,000 artillery and transport horses of 1,200 lbs. and up this summer in Canada.

IMPRESSIONS OF A PROSPECTOR

To the Editor:

I have always had a hankering to try my luck in the hills of Lillooet, but kept putting it off until a letter from my prospecting friend, Malcolm Munroe, decided me. The trip out from the metropolis was anything but a swift one. The limited (to speed) left Squamish at 1.30 p.m. and rushed into the main depot at Lillooet at 10 p.m., not so bad considering the distance is somewhere about 120 miles. It would have been the height of folly to have rushed along at a high rate of speed. We'd have missed all that grand and rugged scenery.

On June 5th we outfitted at the city's department store, owned and operated by Mr. Phair, who gave us some valuable suggestions re ways and means of getting over the country en route of our proposed trip. Mr. Phair, having spent most of his life in these parts and being fond of hunting, knows the country like a book. The following day we hit the hills—some hills, believe me, when you've got a pack on your back. We took the right bank of Cayoosh creek and crossed that stream at the now abandoned Ample works. This mine, along with the Golden Cash two and a half miles further up the creek, has been idle since 1896. A pot of money has been expended in machinery, piping, tools, buildings, etc., and they are just as they were left twenty years ago, except for the had of time. Before coming to Deer Creek we passed through an extensive flat. The soil is rich, easy to clear and there is enough of it to support many families. Mr. Phair, of Lillooet, I understand, owns a pre-emption here, and the time is not far distant when all the available land on these creeks will be settled up. With a patch of bottom land to grow hay, etc., and the hills as a range, there is no reason why stock raising should not become one of the main industries of these parts.

Mr. Perkins passed our camp at the head of Deer creek on the way to his mining property at the head of Cottonwood. He is one of the lucky few who have found molybdenite in large quantities. His is an exceptionally rich proposition and will make him a mint of money. He richly deserves it, for a harder working man is not to be found in the country, and although getting on in years there are few young men who can follow his trail day after day over the mountains. His is not the only rich proposition by any means. There are hundreds of claims, both placer and quartz, staked along the creeks and on the mountains awaiting only the hand of man to develop them.

Capital and good trails are a crying need in this part of the province. It would be a good investment for the Government to open trails and let capital and those in search of land see what lies in store for them. It would bring business to the P.G.E. and eventually revenue to the Government. When in operation the mining population will afford an excellent market for all farm products raised in the adjacent valleys.

We had rather an exciting trip down Cottonwood side of the divide. We built a sleigh and chose a snow-slide for the descent. Everything went well at the start, then she got away and landed head-on in some logs. We got her clear, however, but on coming to another steep pitch away she went again with disastrous results to some of the contents of the grub sack, beans, etc., being scattered all over the hill-side. After straightening things up once more, we finally got to our camping ground without further mishap.

This is the paradise of the sportsman. Game of all kinds is plentiful and some fine bear skins can be got at the head of the creek. As fine a bunch of spruce as I ever saw is located below the forks and the land in the flats would grow fine hay. If there was a trail up Cottonwood it would only be a matter of about eight hours from Lillooet to the head of the creek. Wild potatoes, celery and all kinds of berries grow in abundance on these hills during the summer months, and the creeks are alive with trout. That, combined with the fine climate, make it an ideal spot for an outing.

We pulled up stakes at 3 a.m. on the 16th inst. and after getting outside of a feed of beans, bacon and bannocks, loaded on our packs and muled our weary way over the divide once more, and by the time we reached Cayoosh creek I was staggering like a hayseed with a tide on. One needs good legs and wind to negotiate these hills, particularly with a pack. On our return I visited the old grist-mill that stands on the Marshall estate and was built and operated by that gentleman (now deceased). Looking over the books which still lie on the desk is like reading the history of the district. Some accounts date back as far as 1876. It was also used as a store in the early days and supplied the miners and settlers with provisions. Mr. Craig's hotel is located near the mill. You don't pay for style here, but for solid comfort and plenty of clean, well cooked food.

CHAS. STEWART.

The Family Herald and Weekly Star and Lillooet Prospector until Jan. 1st, 1917, for $1.00

WAR NEWS

No Excuse to be Without Reliable Up-to-Date News From Battle Front.

We have pleasure in announcing an arrangement completed with that great family paper The Family Herald and Weekly Star of Montreal by which we can offer THE PROSPECTOR and The Family Herald and Weekly Star for the balance of 1916 or until Jan. 1st, 1917, for the small sum of $1.00.

The Family Herald and Weekly Star is noted for its reliable war news summaries each week and is replete with most interesting stories from the battlefront. The Family Herald and Weekly Star is a family paper all Canada is proud of, and when combined with THE PROSPECTOR, our readers are supplied with all the local news and news of the world. In addition to the news the reader receives in The Family Herald each week a magazine section equivalent to several of the best monthly magazines printed. The agricultural section is another feature of that great weekly which is keenly appreciated and is alone worth many times the subscription price. We now offer the two papers for only $1.00 until 1st of January, 1917. Present readers of THE PROSPECTOR may have The Family Herald and Weekly Star for the balance of 1916 for only Forty cents.

WATER NOTICE

DIVERSION AND USE

Take notice that I, H. Graham, whose address is Indian Agent, Lytton, B.C., will apply for a licence to take and use twenty-five (25) inches of water out of Young John (Indian name), also known as Young John, which flows westerly and drains into—all disappears. The water will be diverted from the stream at a point about at the east boundary line of the Anderson Lake I.R. No. 1, and will be used for irrigation and domestic purpose upon the Anderson Lake I. R. No. 1, described as Anderson Lake Indian Reserve No. 1.

This notice was posted on the ground on the 20th day of June, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Ashcroft, B.C.

Objections may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

H. GRAHAM, Applicant,
Indian Agent.

The date of the first publication of this notice is June 23, 1916.

WATER NOTICE

DIVERSION AND USE

Take notice that I, H. Graham, whose address is Indian Agent, Lytton, B.C., will apply for a licence to take and use five (5) inches of water out of a spring, also known as on west of Cayoosh Creek I.R. No. 2, which flows easterly and drains into—all sinks. The water will be diverted from the stream at a point about—carried down its natural course onto Reserve, and will be used for domestic and irrigation purposes upon the Cayoosh Creek I.R. No 2, described as Cayoosh Creek Indian Reserve No. 2.

The notice was posted on the ground on the 20th day of June, 1916.

A copy of this notice and an application pursuant thereto and to the "water act, 1914" will be filed in the office of Water Recorder at Ashcroft, British Columbia. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

POLITICAL NOTES

William Sloan, ex-M.P., will be the Liberal standard bearer in Nanaimo at the approaching provincial elections.

The Conservatives of the Cowichan district pledged their support to Captain W. H. Haywood as their candidate at a well-attended meeting held at Duncans last Saturday.

Minister of Lands, Hon. W. R. Ross, on June 24 received by an unanimous vote the nomination for candidate in the interests of the Conservative party in the riding of Fort George. His nomination was proposed by A. G. Hamilton, who was formerly in the field, but retired in favor of Mr. Ross.

Sir Robert L. Borden was 62 years of age on June 26. He was born at Grand-Pre, Nova Scotia, in 1854.

Fourteen seats are now without representation in the House of Commons, Ottawa. Ten of the seats were held by Conservatives and four by Liberals.

Sir Robert Borden and Hon. Frank Cochrane, minister of railways, were in New York this week in connection with the appointment of a commission to enquire into Canadian railways.

CAN IT

Writing on "Winter Storage," The Prospector of June 16th said: "The food question has become an all-important one, and how to get the largest yield from the soil for labour and expenditure, and also how to care for that yield till the last ounce is consumed, are questions now of the very deepest concern.

If you've any surplus fruit, can it.
If you've any surplus meat, can it.
Do not waste a single pound,
Do not let it lie around,
Putrifying on the ground.
Can it.

Nature in her wisdom says, "Can it."
All her lessons have one note—"Can it."
Every piece of coal and wood
That's employed to cook your food
Is the "bottled sunlight" good.
Can it.

Some of those who're blest with wit, can it.
Some who sing sweet melody, can it.
While the singers live, let's haste
Records make for every taste.
Music is too good to waste.
Can it.

If you're feeling full of cheer, spread it.
If you're nursing any hate, dread it.
There are always those who need
All the kindness you can breed.
It can't hurt to stamp out greed.
Can it?

—W.T.B.

WAVE

Wave, flag of Canada! wave far
O'er the Lorlei land of the evening star,
Like a rose caressed on the billowy breast
Of the beating heart of the golden west.

In glory wave, in grand unrest,
O'er canyon, cave and mountain crest,
And soar and shine, a heaven-sent sign,
On peak and plain and purple pine.

Wave in the roaring storm and the hush,
When the sunset meets the rival blush
Of the prairie's pride, on the great divide,
And the proud Pacific rolls deep-dyed

On battle field and stormy steep
Of furnace-flames that roar and sweep,
In splendor poise, above the boys,
Whose bayonets are Terror's toys.

Fling far thy folds above the brave,
And proudly o'er the hero's grave.
Wave wide and leap where the mighty sleep,
And rise and dip on dome and deep.

—A. MARTLEY.

P. G. E. RY. TIME TABLE

Trains leave Squamish for Clinton on Mondays, Wednesdays and Fridays, returning on Tuesdays, Thursdays and Saturdays, and passing through Lillooet at 10.18 a.m.

VANCOUVER CHAMBER OF MINES WANTS SAMPLES OF IRON ORES

The approaching Vancouver Exhibition is making a special display this year of the iron ores of this province, and stress will be laid on their suitability for the manufacture of iron and steel.

The Vancouver Chamber of Mines, through its representative, Mr. James Ashworth, on the board of directors of the Exhibition, is doing its best to make the display as comprehensive and attractive as possible, and worthy of the great resources of those raw materials it is the good fortune of British Columbia to possess.

During the Exhibition week a lecture by some prominent mining man or metallurgist will be delivered each afternoon on some mining or kindred subject, and special attention will be given to the manufacture of iron and steel from British Columbia iron ores.

The Chamber of Mines is a non-profit earning institution and bureau of information, organized to foster legitimate mining, whose services and advice is free to mine owners, miners and prospectors alike. It invites the co-operation of all parties interested in mining, will be pleased to have such people visit its exhibit and library when in the city, and in order to make its end of the Exhibition as educational and attractive as possible, requests mine owners and prospectors to send samples of their ores and particulars of their properties, especially iron ores. Samples to be addressed: JOHN CUNLIFFE, Secretary, Vancouver Chamber of Mines, 543 Hastings street W., Vancouver, B.C.

Form F.

Certificate of Improvements

NOTICE OF APPLICATION.

SUNSET, EAST PACIFIC AND CLIFTON MINERAL CLAIMS. Situate in the Lillooet Mining Division of Lillooet District. Where located, on Cadwallader Creek, Bridge River,

Take notice that we, Andrew Ferguson, Free Miners Certificate No. 99335B, and Adolphus Williams, Free Miners Certificate No. B5171, intend, sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 21st day of June, 1916.

ANDREW FERGUSON.
35 ADOLPHUS WILLIANS.
