William Manson Addressed Public Meeting At Queenstown

Member For District Gives an Account of Stewardship---Made Important Announcement Regarding Timber and Coal Lands---Redistribution Bill May Give Queen Charlottes a Representative.

Mr. William Manson, M.L.A., accompanied by Dr. Scharsmith, organizer for the Conservative Party in British Columbia, H. S. Irwin, of the Forestry Department, and A. H. Tomlinson, of the Horticultural Department, arrived at Queenstown on Saturday afternoon on the launch "Westover." The party came over on the Prince Albert last Thursday to Massett, where Mr. Manson addressed a public meeting Friday night. On Saturday the visitors called at Woden and Nadu before coming on to Queenstown.

Taking advantage of Mr. Manson's presence, a meeting was hurriedly arranged in the Yakoun Hotel, and considering the short notice given was well attended, about fifty being present.

Mr. A. R. Mallory was appointed chairman, and in the course of a few remarks introduced Mr. Manson, which, the Chairman said, was almost unnecessary, as the Member for the district was so well-known to all.

Mr. Manson, who was well received, in the course of a lengthy address, touched on various matters of interest affecting the islands. The Member said he was agreeably surprised to see such a large number present that evening and of the great change that had taken place since he visited Queenstown last year. He had not the least doubt that Queenstown was bound to become an important point in the near future, and in a way, would change the geography of Graham Island as it was so centrally located. He had unbounded confidence in the island as an agricultural country. Referring to the time when he was Government Agent at Port Simpson, Mr. Manson went on to speak of the large influx of settlers and the rapid development of Graham island since that time. When Government Agent, he urged the government to reserve a portion of Graham Island for pre-emption, believing it to be an ideal country for gricultural pursuits. In 1908 the government saw its way clear to follow his advice, and the whole eastern part of Graham Island, from Massett Inlet to Skidegate was reserved from sale or lease. Although some difficulties had arisen through the land being covered by coal licenses, which retarded settlement for a time, he was glad to say that a large number of the licenses had lapsed and the land was now open for pre-emption. Many more licenses will lapse within the course of a few weeks. With regard to timber staked along the inlet, Mr. Manson said that under a new plan that was being formulated by the Forestry Department, the government would soon be in a position to throw these lands open for settlement, as it was quite apparent that there was very little timber on the lands staked along the waterfront. Mr. Manson then turned his attention to some of the legislation passed last session. He referred to the appointment of the Agricultural Commission, which he had no doubt when their work was completed, would help the government in solving some of the problems confronting agriculture in the Province. He was in hopes that some plan would be devised whereby cheap money would be provided to assist the settler in clearing and draining his land. They had with them that evening Mr. Tomlinson, an agricultural expert, who he had secured from the department and who would devote his entire services to the district, giving advice and the benefit of his experience to settlers and those interested in horticulture. With regard to the Amendment to the Land Act, the speaker was sure that it was a much better arrangement to let the settler have the land free. The only conditions imposed were that the settler must improve his holdings to the extent of $5.00 per acre and have five acres under cultivation, which was not a hard proposition, considering he had three years to prove up. Mr. Manson next referred to the Game Act. He said that the government had to look to the future and the reason for the recent legislation was that in many parts of the province no respect was paid to the law and that game was un-

(Continued on page 8)

---o---

Through the courtesy of Mr. Fred Nash, P. L. S., a number of local people, along with Mr. William Manson and party, were invited for a cruise on the lake last Sunday on the launch Polaris. After a smart run, the launch stopped at Sewall City, where most of the party went ashore and had a look around the thriving city. The day being an ideal one, the sail was thoroughly enjoyed by all on board.

Queenstown Saw Mill About Completed

Mr. Barton Says Will be Cutting in Two Weeks To Deliver Goods For New Wharf.

With the arrival of his saw mill plant last Thursday on the steamer Prince Albert, Mr. Barton lost no time in getting down to business, and the following day had a large crew of men at work putting in the timbers for the foundations. Some weeks ago the mill site was cleared and made ready for the erection of the plant as soon as it arrived. Rapid progress has been made with the work during the past few days and already most of the machinery has been put in place.

Mr. Barton has secured the contract to supply the lumber for the new wharf, and says that he expects to have the plant in operation within the next fortnight, which is going some. The sawing capacity of the mill will be 30,000 feet per day.

---o---

Work On Queenstown Wharf To Be Started

The construction of the Dominion Government wharf at Queenstown will be started almost immediately. Through the good offices of Mr. H. S. Clements the work, which would otherwise have been delayed until next season, is now assured, and will be competed as speedily as possible.

Mr. Gillett, the contractor, arrived at Massett last week with his outfit, and after completing the erection of a freight shed on the Massett wharf, and floats at Woden and Nadu, will come to Queeenstown.

---o---

J. S. Ferguson of Sewall was in town Monday.

During a dense fog, the steamers Prince Albert and the Flamingo, belonging to the New England Fish Company, collided in Johnstone Strait last Sunday morning. The collision was luckily not a serious one and both vessels proceeded on their voyage.

Mr. Wm. Manson and A. H. Tomlinson left Monday morning for Skidegate and Queen Charlotte City, going by way of the Mexican Tom trail. Charlie Spence accompanied them part of the way. During his visit to the south end of the island, Mr. Manson will open the agricultural exhibition at Lawn Hill on Saturday, and Mr Tomlinson will judge the exhibits.

Prince Rupert Fair Opens Wednesday

Every day, as the time draws near to the opening of the Prince Rupert Exhibition, which opens next Wednesday, interest is being aroused in the big fair. That it is possible for the new north to give an exhibition of its natural products and resources is shown by the widespread interest and numerous entries in all classes already received by the exhibition management, and it can safely be stated that the fair is already launched on a big success. Some hesitancy was naturally felt at the inception of so large an undertaking, covering a period of three days, and the possibility of financing the same. This however has been swept aside by the business interests and the city fathers of Prince Rupert subscribing an initial guarantee fund of $7,000, to which is to be added the Provincial government grant and concessions. The fair itself will be free to everyone. Only nominal entry fees have been charged in all classes of exhibits, as the management has followed the idea that the initial exhibition should be made a success regardless of expense.

The Queen Charlottes will be well to the front with exhibits of the field, the range, mineral and fisheries. A special excursion steamer will leave Massett Tuesday for Prince Rupert, returning Friday, and a large number intend taking in the fair.

---o---

The telegraph line has reached Queenstown, the wire being connected up last Saturday.

A petition has been largely signed for a post office at Queenstown, with Mr. A. R. Mallory as postmaster.

Mr. F. C. Wright, general manager for the Graham Island Coal & Timber Syndicate, returned last week from a business visit to Vancouver.

ON SALE AT MARTIN'S INLET STORES—Swift's Famous Hams and Bacon at 25c per lb. Our quantity purchases enable us to offer you these low prices.

The steamer Prince Albert came up to Queenstown last week and unloaded the machinery for Mr. Barton's saw mill, piping for the Graham Island Coal & Timber Syndicate, and a large cargo of general freight.

Dr. Scharschmidt, who spent several days here this week, left Wednesday morning for Massett. The Doctor was greatly taken up with natural surroundings of Queenstown and predicts it to be the most flourishing centre on the island. Although so much impressed with the quality of the soil around here, it is not the case, as reported, that the Doctor staked a pre-emption.

The important announcement made by Mr. Manson on Saturday night regarding the forthcoming Redistribution Bill, should be carefully noted, and acted upon by residents and settlers on these islands without delay. As Mr. Manson said, before we can expect to get a representative for the Islands we must have sufficient voters to warrant it becoming an accomplished fact. During the past two years the population of the Islands has increased rapidly, principally along Massett Inlet, where large and growing settlements have sprung up. We might say that the population is more than double what it was two years ago, and we can confidently look forward to an even greater increase during the next two years. Some time next year the Grand Trunk Pacific Railway will have their trains running from the Atlantic coast to Prince Rupert, and if that road is going to help any district in Northern British Columbia, it is the Queen Charlotte Islands more than any other. With our splendid climate and free land, new settlers will pour in by the hundreds and locate in the fairest spot to be found in all Canada. But now is the time to act if we want a member of our own. Nothing like being prepared for any emergency. An election might happen before two years. Those who are not on the voters' list and have the necessary qualifications, should see that an application form is made out and sent to the Registrar at Prince Rupert. Any Commissioner, Notary, J. P., or Postmaster will put you on. We want a member of our own, and now that the opportunity is within our grasp, it is up to the people of the Islands to see that every person, who is eligible, is put on the voters' list and that two years hence—when the Bill comes up—the Queen Charlottes will be made a separate constituency.

William Manson at Queenstown

(Continued from page 1)

wantonly destroyed and in some instances nearly wiped out. The Member did not think it was a hardship on anyone who wished to take out a license to pay a fee of $2.50. He would be glad, however, to meet their views and if they desired any amendment to the act would present it to the government for consideration. Mr. Manson afterwards dealt at some length with the appropriations. Since the McBride Government went into power in 1903 the appropriations for public works had increased from $400,000 to $8,000,000 for the present year. The Skeena District got $403,000 this year—more than any government spent, previous to the McBride administration, in the whole province in one year. Considering the vast territory comprising Skeena District and the great development going on, each place had to get a square deal, and their share apportioned out. The Queen Charlottes received as their portion this year the large sum of $85,000 for roads, trails and bridges, which was a big increase over the previous year. He was sure that with the development taking place on the islands, the appropriations would be kept up. It only lay with the settlers to do their part and there was not the least doubt of the government doing theirs. Referring to the road work under construction on the islands, under the superintendence of Mr. Sandilands and his assistants, Messrs. Gordon and Spence, Mr. Manson said he thought they gave good satisfaction with their work. New roads were under consideration and any recommendations presented to him would receive careful attention. Before concluding an excellent address, through which the Member was given an attentive hearing, Mr. Manson referred to the forthcoming Redistribution Bill and the possibility of the Islands being made a separate riding. The Skeena District had grown so rapidly, he said, that two years hence the district might probably be split up into four constituencies—three at anyrate. He urged everyone on the islands to make sure that their name was on the voters' list and to see that new people who came in were also put on the list, so that when the time came the islands would have the necessary number of voters and be entitled to a representative.

Dr. Scharschmidt, in the course of a few remarks, said he was surprised to see so many present on such short notice. He visited the islands 20 years ago and at that time there was only one white man on the whole islands. He thought it was wonderful the advance that had been made in the district during the past few years. The Doctor referred to the good work accomplished by Mr. Manson in securing such large appropriations for the district, which he was sure was appreciated very much by the people. He said there was no sign of an election, but advised everyone to see that their name was on the voters' list, and for Conservatives to see that all Liberals were put on. Mr. Clements sent his regrets at being unable to visit the islands at this time owing to important engagements elsewhere. The Doctor also referred to what had been accomplished by Mr. Clements for the islands in the way of a better mail service, telegraphic communication, wharfs, etc. He heard that a post office was very much needed at Queenstown, and he was sure that if a requisition was sent to Mr. Clements, he would see that we got it. The Doctor criticized the statements made by Mr. W. W. Baer, the Liberal organizer, which he said were untrue, and were apt to deter settlers from coming to the islands.

A. H. Tomlinson of the Horticultural Department, and H. S. Irwin of the Forestry Department, also made a few remarks.

J. M. Campbell proposed a vote of thanks to Mr. Manson for his address, which, on the call of the Chairman, was unanimously passed.

Mr. Manson briefly replied, paying a similar compliment to Mr. Mallory for presiding so ably, and jocularly remarked that as there were so many lonely batchelors on the islands, he intended rectifying this by bringing out a number of Scotch lassies.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Jetty and Dredging at the North Arm of the Fraser River, B. C.," will be received at this office until 4.00 P.M., on Tuesday, September 30, 1913, for the construction of Jetty and Dredging at the North Arm of the Fraser River, B.C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B.C.; W. Z. Earle, Esq., District Engineer, Winnipeg, Man.; J. S. MacLachlan, Esq., District Engineer, Victoria, B.C.; J. L. Michaud, Esq., District Engineer, Post Office Building, Montreal, P. Q.; J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to five per cent. (5 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, August 18, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the department.—45241.

The Islander $2 a Year

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territery the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORRY.
Deputy Minister of the Interior.

N. B.—Unauthorised publication of this advertisement will not be paid for.

Sea Serpent Roams Waters Near Skidegate

Another sea serpent has been discovered, according to the officers of the G. T. P. steamer Prince Albert. The Indians at Skidegate have become greatly alarmed over the appearance of a peculiar fish or animal on their fishing grounds. The story goes to the effect that a monster, 20 feet in length and two or three feet in circumference, wrapped itself twice around the oar of one of the Indian canoes. The natives were so frightened at the appearance of this queer fish that they released the oar from the rowlock and dropped it overboard. The next day the monster took two hitches around one of the canoes. The natives were paralyzed with fright. Finally one old warrior drew forth a sharp hunting knife and carved the body of the sea serpent. Feeling his body being severed, the monster struggled violently and nearly upset the canoe. The cutting was soon done and his grip being lost the two parts went overboard into the water.

Mr. Meldrum Denies Allegation.

Mr. J. A. K. H. G. Meldrum, of the Nash survey party, when interviewed this morning concerning the report that reached town a few days ago to the effect that he had abandoned the use of cigarettes, wishes emphatically to deny the authorship of any such report, and states that it was absolutely without foundation and must have had a malicious origin, trying to defame his character.

Mr. Meldrum, while speaking of the luxuries of life, went on to say a few words for publication for the benefit of his many friends regarding alcoholic beverages, to the following effect. "Although I have always used the choicer brands of strong drinks as freely as my occupation and pocket-book would permit, I, at this time, after a hard season, with nothing stronger to drink than that abominably thin Yakoun water, will be delighted to mix (socially) with any friend where alcohol, in any form, is used."

Receiver Appointed For The Doughty Fisheries.

Mr. J. K. Ball, Vancouver, manager of the Bank of Toronto, has been appointed receiver of the B. C. Fisheries Company on the application of Mr. J. E. Bird, solicitor for the debenture holders. The order was made by Mr. Justice Clement and carries into effect a previous order made by Mr. Justice Warrington in the chancery division of the High Court of England.

Sir George Doughty, who visited the coast recently, was taken suddenly ill while on the road home and is confined to bed in New York.
