Okanagan Centre, B.C.
Rainbow Ranche. October 10th.1929.

Dear Sirs :-

Our last report was dated The 22nd. Sep.

On the 28th we finished packing the McIntosh. the following is the pack.

Extra Fancy	298
Fancy	5091
Cee	3078
Household	1226
	9693
Brown Core (held)	175
	9868

All but 644 House hold and the brown core have moved out. The Final receipts are not all in and the above might change a few boxes.

Our June guess on Macs was 11000. We expected this decrease on account of the fruit not sizing. The grade however was better than last ye year.

You will notice the Committee prices published in the Vernon News. To get at our net price per packed box one has to deduct from 30 to 40 Cents and possibly more if there are many blow backs.

The market is still holding firm.

Tonight we finished picking Jonathan. We have packed 8800 boxes out of which we have shipped to date 5100. The estimate is likely to be exceed a little.

By ~~Saturday~~ Sunday we should about finish picking Spitzenberg and Delicious. They are fairly well colored but the Romes and Wagner are poor.

We expect to have the crop picked by the 24th. There have been a few showers but the weather is fine for apple picking.

Yours truly.

Jam Foldie

Rainbow Ranche Limited.
Okanagan Centre, B.C.
October 27th. 1929.

Dear Sirs :-

Our last letter regarding the Crop was dated Oct 10th.

The last apple was picked yesterday morning about ten o8clock. The weather has been ideal. Not more than a day and a half was lost on account of rain.

We have finished packing Jonathan, Wagner, Spitz,Delicious, Nonsuch and tomorrow will finish the Rome Beauty. This week will see the wind up of the packing.of Newtowns. The Salome will go to Winfield for storage to be packed out later. We are handing these over to the Associated to store instead of carring them ourselves as in the past. This we think is a good year not to take the chance. The Salome are not as good quality and there are likely to be more apples stored than usual.

The yield to date is about as follows.

	Extra Fancy	Fancy	CEE	XF.&F. Tiered Lined.	Jumble House Hold.	Bulk	Union	Total
Jonathan	1813	5993	2181	746	828	785	785	13,131
Wagner		1958	970		939			3,867
Spitzenberg	453	334	327		95			1,209
Delicious	711	1207	729		300			2,947
Nonsuch						489		489

Estimate on the balance	
Romes	4,100
Newtown	4,200
Salome	2,500
Sundries	50
	32.493
Wealthy, Macs. Crabs. Cherries	18,727
Present estimate of Crop in boxes	51,220

This is two thousand less than our June guess. The Newtown shows the most difference. Our boss Jap Sam guess was very close to what is shown above. They are going to run to small sizes. The Delicious and Romes were very ~~large~~ large.

There has been no change in prices but the praries are holding back,and it now looks as if we would not clean up as early as we at one time though

If you get the OK bulletin you will see that the Mac. deal is goingto be fairly good. Up to date the Jonathan that have gone over seas have been doing all right.

We still expect to make some money.

Yours truly,
