June 12th 1916

P. O. Box 471
Vernon
B C

Dear Goldie,

You will notice by the above that my box number is different to the one I first gave you which was 271, the postmaster made a mistake and gave me a box rented by another party in the first instance hence the change, so if you would kindly address any mail to box 471 in future.

I am located out at Long Lake house now with the man that is going to run the Aberdeen house this year, his name is Charlie Brosi, do you remember the fast packer that you saw out at Lavington 2 years ago he was running that house at the time it is the same, he comes from Skinner's home, we get along fine, as he is quite a good head

we are working together getting this house fixed up and are then going along to clean up the Aberdeen house, we have the phone in here at Long Lake now and you can get me almost any time the number is 1708.

I was out to Bellevue for the week

end, the Lamberts are keeping very well, Bert is certainly going to try and make that place go he has the whole thing in crop orchards and all large acreage of spuds, a bunch of field peas oats, (wheat which is poor on account of winterkill) barley and a lot down to timothy and clover, the trees as a whole dont look bad, but lots of winterkill in spots, I think Mr. Mr. Allister would be wise to turn that place into a dairy and stock ranch, Bert is still as crazy on hops as ever, has about 22 young ones, on the whole they look fairly good, he will have some forrowing again this summer, I would like to see him win out this year, his great worry now is some as usual making it stick with no money, he has cleaned out a lot of that bush by the big shed at the house and seeded it down.

Give my kindest regards to the wife & love to the kiddies

How are things going with you, well I hope, phone me up and have a talk some times

best of luck to you

H. H. Evans
