Dear Goldie,

Your wire received on 21st inst so you expect to be in Vernon about Feb 6th.

There is one thing I wish you to do while you are in Vernon that is to get us a new cook as this fellow is quitting as soon as you come back he has been anxious to know when you would be back as he is wanting to get to Vernon for Chinese New Year but guess he wants his money too.

Charlie has just told me he wishes to go up on his pre-emption about Feb 14th, so am writing to B. Gutsell to see if he would care to start in.

I received the 5 ton of oats from company last week finished hauling them from Centre on 21st. not bad sample

No ice fit to cut yet, so this week am going to start getting hay over while it is good sleighing,

I have about six days more pruning to do lots of prunings to pick up but are

buried in snow, so my Japs have all pulled out from shack and gone to S. Edwards clearing bush.

I have just got the black mare and colt down and am weaning the colt off also that old strawberry cow am trying to break that heifer off. It is a bonnie time with them I can tell you the first day I got the cows parted I took them all but the old strawberry up to the pasture & about 3 o'clock at night the whole bunch was down at buildings had walked clean through the fence.

Guess there is no other news this time as we are having no excitement

Yours faithfully

Barney. H. Evans
