68 King St East
Toronto 2, March 1st 1932

Dear Mr Goldie! -

Thanks for copies of your correspondence with Dom Income Tax people. Please keep me fully posted re this so that when I hear from them we will know what line to take.

I also have yours of 16th re Family Corporation and am today letting Mr Fennell have your letter on this and mine to you of Feb 11th together with the auditors balance sheet of Feb 28th 1931. He will go into it more carefully and let me know his views after which I will at once communicate with you.

I think your last letter to the tax people is good and dont see why they want to keep on persecuting us. I dont see why it was necessary to put D.G. McA on the books as advances to shareholders; does this not further complicate matters and it could all have gone to J.E. McA without introducing a new name.

Our invalide keeps cheerfully on his weary way and I think is making progress

Yours faithfully

J Elliot Allison
