Dear Sir,

I have to advise you that my Council will esteem it a favour if could arrange a date to meet them for the purpose of discussing the possibility of securing a Municipal Road through the old Albers property so as to connect the Bessette Road with the Lavington Road. Should the Mc'Allister property be subdivided later on and placed on the Market a Road of this discription would be a decided advantage to the present owners not only as a means of entry but also for having the Main of the Municipal Domestic Water extension which has been outlined to serve the property laid along the Road so that in the event of Sub-Division it would serve both sides. If you will kindly advise me when you will again be in Vernon and can make it convenient to meet some of the Councillors I shall be pleased to make the necessary arrangements with them.

Yours faithfully

E. Henderson

Municipal Clerk.
