for Dormer to be on hand. Also please let Baily know at Bellevue that we will be up there and probably take either lunch or supper there. I am specially anxious to have Bellevue looking well as I may be able to sell it to Warren.

Would also like them in this connection to get as favorable idea of the possibilities of Rainbow as we can give them as I want to get Warren interested in the valley.

I hope all is going well with you and am looking forward to seeing you and spending a day or two.

Faithfully Yours
J. McAllister

Greenwood B.C. June 3rd 12

Dear Jim:-

On Saturday evening I gave a note of introduction to you to Mr Lorne Campbell and hope he called upon you. He was motoring through the valley and had with him Mr Fraser who is going to take charge of the Bank of Montreal in Victoria, and Mr Deschamps a lumberman. Campbell himself is member at Victoria for Rossland and a man of some importance in B.C.

Their time I am afraid would be very limited but I wanted them to get as good an idea of Rainbow and its possibilities as you could give them.

I expect to leave here now early Thursday by motor and will have Mr and Mrs Warren (G. Mgr B.C. Copper Co) with me. Our plans are as follows

arrive Princeton Thursday night and spend Friday there going on to Keremeos that evening. Leave Keremeos at 7.30 Saturday morning and go right through by motor to Rainbow. I am assuming that the lake shore road from Summerland to Peachland is open for traffic so we should get to Westley (where I take it we ferry across to Kelowna) by about twelve or one Saturday noon and to Rainbow about two hours later.

I would like to have Mr & Mrs Warren put up at Rainbow and we want to be back at Penticton the following Tuesday night, sleep there and then get back here to Greenwood early Wednesday afternoon.

This will give me Sunday, Monday and most of Tuesday with you and we will have the motor (a big six cylinder Stevens-Duryea) to get round in so please have everything ready we want to take up and arrange
