Dear Sir:-

I am in receipt of yours of the 19th and note with considerable interest the move you have taken in joining McAlister in the ranch business. It seems to be all right from what we can hear from Fred Cleland but I would like to hear from you with further particulars as to the size of the ranch and the amount of business they do.

The wheat market is very nervous and it is hard to tell which way it is going to move. We have not got down to business yet as the domestic trade has nottaken hold and we are having very few orders. We have sold, in the last two or three days, a few cars to Great Britain but this is about all.

Yours truly,

G. E. Goldie
