Stip from Mcarthy barn to Powby gate

Powby gate to Bridge.

7'6" drop from Powby gate to bottom of Kayama ditch at hall.

Co. re bye pass morning.

Does Co. charge 118" for carrying water through Bye pass?

Who should own new flume.

If who can charge for carrying water
" Repairs.

Does contribution from 118 & Powby complicate ownership question?

Powby could irrigate top field, which has never been irrigated out of Duck creek. ?
would save cost of Dam. & Flume and get measure at high point of property.

Clark, Philips, clark, & Mcarthy also Swalwell could get water measured to them at their high point.

Flow would be regulated.
