Mr. J. L. Logie,
Okanagan Centre,
B. C.

Dear Sir:

Following Mr. Norrington's conversation re By-pass construction for the Flat I called a meeting of the directors of the Water Association to consider the calling of a public meeting. After going into the matter fully we fail to see wherein the individual growers are in any way responsible for this expenditure. It seems to us that if the responsibility falls to the license of lands under the Company system it is then up to the Company rather than the individual user. As water carriers you would be responsible for the protection of the rights of the user. Before calling a meeting I must have something to put up to the people. They will immediately contend that it is up to the Company. I should therefore be glad if you would let me know by return mail what is your interpretation of the matter, and what your claim that it is up to the users to make themselves responsible for a portion of the cost of this construction. Are you contend that it is up to either of us rather than the water users of the Flat?

Trusting to hear from you by return, I am

Yours truly,

(sgnd) V. R. McDonagh on behalf of
the Okanagan Centre and Winfield Water User's Association.
