Left home Wednesday Sep 1931 6.30 P.M.
train from Salmon Arm 9.00 P.M. arrived Vancouver
9 a.m. arrived Victoria 2.30 P.M. put up at Empress Hotel
Left Victoria 12 P.M. Friday the — Left Vancouver
Saturday night 7.30 for Summerland. Left Summerland
11 a.m. ~~Sunday~~ arrived home 2.30 P.M. Sunday —

Wired – Kennedy and Jones for appointments.
" Seaton re clause in contract
Recd. 2 Wires from Seaton re Morris objection & contract signing
wired re meeting of council & home.
" everything seems satisfactory — & home.
" Dr Wolfe for approval. — He wired this to Cathcart
Recd – Sat night 7.25 P.M. re Morris object & suplied that all OK. Friday night

Interviewed MacDonald 3 P.M. Jones & Kennedy in evening
arranged for council meeting 11 a.m. Friday.
9 a.m. MacD. & I had interview with Cathcart etc until 1 P.M.
Secured letter dictated by MacDonald, inspected by Jones
& signed by Cathcart.
Long discussions as to our powers in face of Morris & Company objection
understand Morris C. L. for storage cancelld. and assurance
given verbally that our records as to storage & building have
in order and that there is no reason why we should not proceed.
It would seem that property rights question might be raised
in regards to old crooked Lake dam. Suggest that it be
left alone. The countess C.L. has been cancelled & Morris objection not considered
I gather that it would be considered in order if we built a dam
above present Beaver Lake dam, so long as present work not
interfered with.

in my judgment the District could take care of them. I stressed this & that we would be in expenditure conservative

Two By Laws are necessary as per Sec 214 Sub Sec E & J.

Terms of By Law must contain two alternative plans of repayment.

1st total amount paid to hand if coming from Conservation funds.

2nd. or shall be provided on subsequent By Law

Our case was stated to Mr. Munro Asst. Sup. of Bk. Commerce, and he assures me that if we present the proposition in due form that it will have the Superintendent of Office's support, and thinks we should have no trouble in securing credit. The first move is to figure out as closely as possible the amount that will be required. Take up with Fraser of Kelowna. He will make formal application. But he must also recommend the credit. When application reaches Vancouver office Mr Munro will phone Jones & Mag. MacDonald ~~with~~ has also offered to ~~[illegible]~~ call on Mr Munro to explain our situation

There is no money in Conservation fund that has not been alotted, but I understand that there are amounts such as our $4000. which may not be used and I am assured that if there is sufficient of this that we will have first call on it.

I have stated by all ministers most emphatically that no further moneys would be advanced out of the Conservation fund without definite agreement as to repayment.

Which the Evans report may have been accepted it is not likely to be acted upon. The question has not been finally settled by the Gov. but I am assured that any arrangement we make will be brought into line with the general scheme adopted. Mr. Jones stated to me in front of MacDonald and Cathcart that the council had considered our case and were prepared to recommend the passing of $15000 in the estimates for next year, ~~and the~~ but could give no written assurance that it would be definitely passed, as it ~~would have to~~ council ~~has~~ Cabinet has no authority to do so. It would have to go through the floor of the house. Mr. Jones. McKenzie & MacDonald all assure me of their support in getting it passed. ~~[illegible]~~ ~~to get to Bank phone~~. The better the terms of repayment the better the chances of it going through. I did not bargain in any way in regard to terms, but it was suggested by Jones himself that the 15 year 6% basis be used. — 15 years term means 10.3% sinking fund. —

I stated that we intended to making these payments in the shortest possible time. and stated that

Maj MacDonald still thinks that there will be little gained by building on Crooked Lake. but admits that his judgement may be wrong, and has done every thing that we could expect him to do. in the way of helping us both as to rights & financing.

after having interviewed the Bank, I phoned Mr Jones telling him that our proposition had received favorable consideration and that Munro would phone him as soon as he had received the application from the Kelowna office.

I also stated to Jones that if ~~f~~ my present information was correct that we might get away with much less than 15000. in fact we might possibly get by with six or seven thousand. He sounded pleased with this and thought it was just possible that later on in the season that this smaller amount might be secured from the conservation fund.
