Establishment of a School of Rehabilitation

School of Rehabilitation at the University and the appointment of a Director of such a school. After studying this brief in some detail, the Committee made the following recommendations:

1. That the University inform the Society that in its opinion the survey under a Director of Rehabilitation Study should be conducted under the auspices of the Provincial Department of Health and Welfare rather than by the University;

2. That accordingly the University suggests that the submission and the request for a survey should be referred for consideration to the Provincial Department of Health and Welfare;

3. That the University express its willingness and desire to co-operate fully in any survey that is undertaken.

Dr. Copp) That the Senate Committee discuss these recommendations with the Western Society for Rehabilitation with a view to the brief being submitted to the Provincial Department of Health and Welfare.

President's Committee on Place of International Affairs in the University

Dean Andrew, Chairman, reported that the President's Committee on the Place of International Affairs in the University had been studying problems involved in the training of foreign students and had agreed that the greatest difficulty of students from foreign countries is their inadequate preparation in the English language.

With regard to this matter, the Committee had, on April 4th, 1955, passed the following resolution:

> "This Committee recommends that Senate consider the feasibility of administering a pre-entrance examination on the English language to foreign students who apply for admission to the University and who have studied at schools where the language of instruction is not English. Such an examination would be administered abroad by officials of the Canadian government, if they were willing to do so,

or by other responsible persons designated by the Registrar. The results of the examination would assist the Registrar in making a decision under the requirements of paragraph 5, p. 54, Calendar, 1955-56. At the same time, the Registrar would be better able to inform the foreign student as to the likelihood of his success at the University."

Dean Andrew)
