Reports of Committees of Senate

Academic Building Needs Committee

Dr. Smith presented the report of the Academic Building Needs Committee.

Several briefs and written comments from Senators had been studied by the committee before they had agreed on the three top priorities recommended in their report, i.e. new buildings for the Faculty of Commerce and Business Administration, and the Department of Civil Engineering and a north wing for the Biological Sciences.

Wednesday, September 15, 1971.

Reports of Committees of Senate

Academic Building Needs Committee (continued)

The committee felt that the Faculty of Commerce and Business Administration was not being accommodated properly in the Angus Building and because it had no departments it was impossible for that Faculty to establish and maintain its identity in widely scattered huts. As a result of the Faculty's rapid growth their needs were considered urgent.

The problems of the Department of Civil Engineering and Biological Sciences were much longer standing and the committee simply re-confirmed the University position for those buildings which had been carried to the stage of working plans some five years ago.

The committee could not agree on the fourth priority and recommended that it be deferred until later in the Fall.

Dr. Smith)
Dr. Volkoff)

That the report of the Committee on Academic Building Needs be forwarded to the President and to the Board of Governors for their consideration and decision and that the full transcript of the debate within Senate also be forwarded to the President and to the Board of Governors for their consideration and action.

It was stated that the criteria applied to various building proposals were obtained in part out of briefs presented to the committee. The criteria were then given component weights. Although they showed the relative priorities for more space they did not show that a Faculty, because it had a strong case, should necessarily have a new building as compared with having an annex to an existing building.

Wednesday, September 15, 1971.

Reports of Committees of Senate

Academic Building Needs Committee (continued)

Members of Senate expressed concern about the criteria used. The Chairman of the committee stated that the criteria were under continued study.

In the ensuing lengthly debate strong arguments were heard from various members urging the committee to reconsider the recommended priorities in favour of what they considered more urgent needs.

An opinion was expressed that the report was not written in a manner which enabled Senate to judge whether the committee had in fact reached sensible decisions and that at least a minimal amount of quantitative information would have been more helpful.

It was also argued that it was necessary to know what the University wanted the educational philosophy to be in five or ten years time before recommending any further building needs.

A suggestion was made that the criteria and weights used by the committee should be evaluated and sensitivity analyses made so that members could see just how much criteria or weights matter in the priorities which are eventually reached.

Dr. Gibson)
Dr. Hardwick) *That the report be referred to the Committee on Academic Building Needs for further consideration and that it be brought back to Senate at an early date.*

Carried

Wednesday, September 15, 1971.

Reports of Committees of Senate

Academic Building Needs Committee (continued)

Dr. Scott)
Dr. Friedman)

That in reporting back to Senate the committee be asked to furnish Senate with its comments on the criteria and weights used in the evaluations with "sensitivity analyses", if possible.

After further debate the motion was put and carried.

Dr. Norris presented the report of the Senate Curriculum Committee.

Two new courses, Urban Studies 200 and Urban Studies 400 were approved by Senate at its meeting of May 18, 1971, subject to no objections being raised by the Senate Curriculum Committee. The Chairman of the committee explained that at the committee's request the descriptions of these two courses had been redefined and they now recommended approval.

Wednesday, September 15, 1971

Proposals of the Faculties

School of Architecture

Bachelor's Degree Programme 1971-72 (continued)

Dr. Norris)
Dr. Scott)

That Senate authorise the School of Architecture to teach, for 1971-72 only, the courses as proposed in their recent submission;

that the authorisation not be taken as approval of the programme by Senate;

and that the Senate ask the Dean of the Faculty of Applied Science to examine the programme and structure of the School of Architecture, and ensure that carefully considered proposals for a programme of courses be prepared in good time for Senate to approve it well before publication of next year's calendar.

The Senate Curriculum Committee had examined the proposals briefly in the short time at their disposal and several changes had been made. However, it was felt that it would be of assistance to the School of Architecture if they were to consult with the Senate Curriculum Committee from time to time during the year.

Wednesday, September 15, 1971.

Other Business

Concern was expressed regarding two marijuana research projects presently being undertaken at the University.

Dr. Friedman)
Dr. Norris)

That the independent marijuana research project being conducted by Dr. Schwarz be referred to the Committee on Human Experimentation.

Carried

Members were then asked to consider the following motion:

> That Senate call upon the Federal and Provincial Governments to suspend prosecution of users of marijuana and hashish and release all those who have been incarcerated on such charges while research is being conducted on this question.

After a brief discussion the motion was ruled out of order.

It was suggested that it might be useful if some rules and procedures could be set out to assist members of Senate since there had been some confusion when items had been ruled out of order. It was argued that detailed procedures could be very restricting and that Senate business was basically defined by the Universities Act.

Mr. York gave notice of motion as follows:

> That a committee be struck to determine the criteria for deciding who are and who are not "graduate" students.

The Chairman suggested that Mr. York discuss this matter with Dr. Moyls. Dean Kenny offered to explain to Mr. York the reasons for Social Work being administratively in the Faculty of Arts rather than in the Faculty of Graduate Studies, which was the basis for Mr. York's concern.

Wednesday, September 15, 1971.

The meeting adjourned at 10.50 p.m.

The next regular meeting of Senate will be held on Wednesday, October 13, 1971.
