MINE AND PROSPECT

MINING AND LOCAL NEWS OF THE CAMP AND VICINITY.

TO TEST THE GOLD BELT.

Another Red Mountain property is to be prospected and at least one of its immense gold copper deposits developed. A deal has lately been consummated by which the Rockland and Rustler claims have been turned over to one of the strongest mining syndicates operating in the Province, and this company has already made arrangements for the thorough development of this property. The Rockland and Rustler claims are situated on Red Mountain near the head of Eight Mile creek and about six miles from Silverton with which place they are connected by a good pack-trail. The property is what is known as a gold-copper proposition and in it is one of the biggest surface shows [illegible] exist. The character of the deposit is similar to those of the Rossland district, but bigger and giving higher values in gold on the surface. It is to the demonstrating of the value of this deposit that the present company will devote their energies.

There are on the property at present good and suitable buildings to accommodate a large force of men. A cross-cut tunnel has been driven which is now in a distance of 140 feet and which will have to be driven 100 feet further before it encounters the lower side of the ore deposit. The face of the tunnel will then have a vertical depth of 180 feet. New ore cars and steel rails have been ordered and will be at once put in and a force of men employed continuously in driving this tunnel ahead. The work will be done under the management of Frank Watson and will be pushed as fast as possible.

A PROMISING PROPERTY.

Within three miles of Slocan City is situated the Rainbow Group, owned by Messrs Hicks, Barber, Callahan and Tobin. Two tunnels have been driven on this property, the upper one of which is in 35 feet and has cut the top of an ore shute. The lower tunnel has been driven on the ledge some distance down the mountain, with the intention of cutting the ore shute exposed in the upper tunnel, at depth. This tunnel is now in 96 feet and from five to eight inches of clean ore has been encountered. It has still 40 feet to run before it will be directly below the ore showing made in the tunnel above. The character of the ore is a high grade galena carrying some zinc and very closely resembling that of the Enterprise mine on Ten-Mile. At present buildings and ore bins are being erected and it is the intention of the owners to continue developing the property all winter.

SILVER TIP GROUP.

The Silver Tip Group of claims at the mouth of Twelve Mile creek has for the amount of work done on it shown up remarkably well. The ledge which averages nearly twelve feet in width has been traced the full length of two claims and open cuts and shallow shafts have been dug on it every few feet. The strike of this vein is easterly and westerly and it has about a 30 degree pitch southerly into the mountain. The whole ledge is more or less mineralized, but the best streak of ore appears to be next to the footwall and is from four to six inches wide. The character of this The character of this streak of ore is galena carrying some zinc and black sulphurets of silver and giving assay values as high as 350 ounces in silver to the ton.

CROWDED WITH ORE.

At the Noonday mine they are storing ore away in the old stopes, as the ore-sorters are not able to anywhere near keep up to the miners and sort and sack the ore as fast as it is coming out of the mine. All the available space on the outside is piled up with ore, the shutes in the mine are all as full as it is possible to get them and so the old stopes are being used to pile up ore in. Two carloads of ore are now sacked at the mine and awaiting transportation to our wharf. A system of air pipes and a fan have lately been installed at the mine and preparations are being made to work a large force of men this winter.

MINING LOCALS.

The L. H. will work all winter and a string of pack animals are kept busy packing up winter supplies.

The Silver-Cup, Lardeau's star mine, is at present employing 35 men. At the Towser 15 miners are on the payroll. Several Silverton boys are at these properties.

A gang of men are at work fixing up the Silverton wagon road. The large amount of heavy freighting done on this piece of road necessitates the repairing of it quite often.

The Wakefield concentrator is going up rapidly and everything moves along like clockwork. This piece of work shows what can be accomplished by a responsible firm who employ experienced superintendents and are willing to pay good wages.

On Wednesday last, Finley Frazer, one of the carpenters employed in the building of the Wakefield Concentrator, fell from the structure a distance down of about ten feet, striking a square timber. A fractured rib was the result. Dr. Brouse is attending the case.

Hill Bros, our local sawmill men, have delivered here during the week 80,000 feet of lumber and 25,000 shingles. All for the Wakefield Mines new concentrator. This firm also delivered the first lot of lumber, consisting of 30,000 feet, at Bosun Landing for the Bosun mine.

MINING TERMS.

One of the push gives the following definitions of mining terms:

A prospector—A man who has a hole in the ground and is the biggest liar in town.

A proposition man—One who wears faced boots and corduroy clothes and never pays his board bill.

A mining expert—A man who can talk about formations, ramifications, stratifications, dykes, zones, dips, spurs, angles, telegites, oozeites, seddenites and all the other ites and tites; can see a mile into mother earth and invariably condemns the country.

An expert miner—A fellow who loafs around town looking for a job as superintendent of a property, but would be a foreman if he can't be superintendent; one who worked on the Comstock in '70 and has been idle ever since.

A "49er"—A man who came to the coast in the fall of "49 or spring o' 50," and knows where there are diggings that will pay $1 50 to the pan and is going back there just as soon as spring comes.

A mining reporter—A man who wants you to subscribe for his paper, wants to write up your property, and wants you to take him out in the best buggy in town, smoke your best cigars and borrows $5.

A mine promoter—A man who has unlimited capital behind him but not any around him; his watch is in soak.

A tenderfoot—A "Willy boy" just out from the east. Carries a small arsenal with him, goes out prospecting with a shotgun and fishing rod, buys a salted claim and gets money from mother to come home in the fall.

An amalgamator—A man who wears long fingernails, draws $5 a shift and deposits $10 in the bank every day, if the ore is low grade and more in proportion.

"A local mill man of note"—One who has been on the eve of starting for South Africa or some other far off region for seven years, to take charge of the construction of a 1,000 stamp mill for a London syndicate; a man who has been positively known to have constructed a sawmill.

An assayer—A man who charges you $1.50 for throwing your sample out of the back door and writing a certificate.

A mining engineer—One who makes funny figures on blazed stumps and charges a big price.—Baker City (Or.) Democrat.

GUN CLUB ORGANIZED.

The Silverton Gun Club was formally organized last Saturday evening at a well attended meeting held at the Victoria Hotel. About twenty gunners signed the roll of members, some of whom can be depended upon to uphold the honor of the town in whatever matches should be arranged. B. Calbick was chosen captain and Dr. Elliott secretary-treasurer. The Club intends to soon have powder to burn, having ordered 5000 rounds of ammunition as well as clay birds and traps.

AND STILL THEY COME.

The Silver-Lead Mines Association Import More Men.

Business Men Now See What The Association Is.

THIS TIME DAGOES COME OVER.

Who Refuse To Work Although Offered $4.00 a Shift—Ottawa Appealed to.

Once again the efforts of the Silver-Lead Mines Association to down and drive out the Canadian miner from this section have fallen through and once more the mine owners have been slapped back from the ramparts of unionism, beaten again.

This time the august members of the Silver-Lead Mines Association have been snubbed by American dagoes.

They have now been turned down by every nationality except the Chinese and this exception may soon be unnecessary.

Came Into Sandon Under Contract.

On Wednesday last a crowd of Italians arrived in Sandon. They were the advance party of others engaged in Seattle by Rod Tolmie, secretary of the Silver-Lead Mines Association, through the General Employment Agency. Several others arrived on Thursday, forwarded by the same people. Others came as far as Revelstoke. All were under contract to work in the mines of the Association.

Not of All Who Came only Two Stay.

Among all engaged by Secretary Tolmie, only two would go to work after the circumstances now prevailing in the Slocan were explained. The Payne mine has the honor of employing the only two scabs in the importation.

Scabs Have A High Rating.

The Silver-Lead Mines Association was formed to protect the working mine owners of this section from the avaricious demands of the Canadian miners, who ask for $3.50 per shift. This same Association are offering $4 per shift to scabs. This is not only around Sandon but also around Nelson. The Miners Union is to be smashed at any cost, apparently, by the Association.

Sir Wilfrid Laurier Appealed To.

The Miners' Union at Sandon sees the signs of an approaching unequal fight. If they are to limit their effort to the bounds set by law, as they have done in the past, the mine owners must likewise be forced into the observance of the same rule. The Association have broken the law and the authorities are being appealed to. The following telegram has been despatched to Ottawa:

Sir Wilfrid Laurier,
Ottawa;

1000 Canadian miners of the Slocan with their wives and families are being driven out of Canada by the importation of labor from the United States. Mine owners of the Slocan are importing men to take our places. Our wives and families and all others dependent on our labors, as well as we ourselves, appeal to you. We ask you to assist us in securing the enforcement of the Alien Labor Law. As British subjects we naturally resent the circumstances which are driving us from our native land. Will you, as First Minister of the Crown, secure for us the protection which the Alien Labor Law provides? Please assure us by an immediate reply that we will have your co-operation.

(Signed) W. L Hagler,
Sec. Sandon Miners' Union.

Other Messages Sent.

Similar messages have been sent to Minister Cotton at Victoria, to the Attorney-General at Ottawa and to Hewitt Bostock, M. P.

As we go to press no reply has been received from these gentlemen, but when such replies are received further action will probably be taken.

THE LOCAL LAYOUT.

Josher Cole has wandered back from the Lardeau.

G. A. Jackson visited Nelson during the week on business.

John Adams, who was laid off from work at the Wakefield concentrator as the result of last week's accident, is back again at work.

The Silverton Drug Store has received a shipment of the following goods; Syrup of Horehound & Tolu, 5 Drops, Swamp Root, Sponges and Perfumes. All New Goods. †

All work in the Jewelry Repairing line, left at the Silverton Drug Store, will be promptly forwarded to Jacob Dover the well-known Nelson jeweler. All repairs are GUARANTEED FOR ONE YEAR.*

A. P. McDonald has been building a large coalshed on 2nd. Avenue for the stock of fuel he is daily expecting from Lethbridge. He is preparing to do a big business in coal and wood during the coming winter.

THROUGH THE WEEK.

The city fathers are already planning what civic improvements will have to be done before Silverton's Third Annual Queen's Birthday Celebration.

— — —

Mrs. Wm Brandon gave a very enjoyable whist party on Thursday evening in honor of her guest, Miss Bennett of Slocan City. The evening was pleasantly passed with cards, music and dancing.

— — —

Last Wednesday's meeting of the Literary Society developed into a discussion of the Government's action in despatching a Canadian contingent to the scene of hostilities in the Transvaal. An animated debate was carried on by the members.

— — —

J. W. Bengough, who was billed for Slocan City last night, has cancelled all his engagements, consequent to the recent death of his father. Mr. Bengough will resume his B. C. engagements later on, when our citizens will be able to hear him.

During the last Dominion elections, Mr. Bengough contributed a series of articles to the Toronto Globe, writing as "Caleb Jenkins," a name now famous in Canada. Under the same name, he is now relating his western adventures for readers of the "Toronto Saturday Night." His impressions of the Slocan will be printed soon.

WRIGHT—RIDDELL.

Early Thursday morning the home of Capt. Seaman in Slocan City was the scene of a quiet wedding, when Mr Fred Wright and Miss Maud Riddell were made man and wife.

Both of the young people are well acquainted in the Slocan. The bride is sister of Mrs. Seaman of Slocan City, with whom she has lived for some time. Mr. Wright was until a short time ago purser on the C. P. R. Slocan Lake Steamboat service, he now being on the Kootenay Lake run.

After the ceremony the happy couple left for a tour of the coast cities, going via Revelstoke. On their return they will reside in Nelson.

THE SILVERTONIAN extends its best wishes to Mr. and Mrs. Wright.

TO BE DEVELOPED.

The Freddie claim which lies just below and adjoining the Noonday mine is to be developed at once. This claim is owned by H. Nixon and John A. Turner of Nelson and it is the intention of the owners to erect suitable buildings and put a force of men to work as quickly as possible. The Noonday ledge crosses this claim and a large amount of float has been found on it, but as yet the ledge has not been found in place. The work of cross-cutting on the surface will be commenced at or near the wagon bridge below the Noonday claim and the owners are confident that the ledge will soon be uncovered. Development work will be carried on all winter on this property.

From two to five pack-trains leave Silverton every morning loaded with supplies for the various mines that are as yet not connected with town by wagon-road.

DOINGS THROUGH THE WEEK

NEWS OF THE WORLD IN BRIEF

A Complete Review of the Events for the Past Week in This and Foreign Lands—Summarized From the Latest Dispatches.

Grant Allen, the author, is dead.

Iloilo is stirred by expectation of important fighting.

Vandals have defaced the newly-erected monuments in the Sieges Allee, Berlin.

The little girl of C. A. Inman of Creston, Wash., is believed to have been kidnapped.

Ted Perry was shot and killed on a farm four miles south of Salem, Ore., by J. A. Willard.

The Prince of Wales received former President Benjamin Harrison in audience at Marlborough House recently.

The scarcity of seal and sable, furriers in Chicago declare, is the cause of the big advance in the price of all furs.

The recall from his post of duty of Rounsevelle Wildman, United States consul general at Hong Kong, is imminent.

Count Torranaz, governor of the Bank of Spain, has been appointed minister of justice in succession to Senor Duran, who resigned.

Advices from Colombia announce the commencement of a revolution there with the object of restoring the financial equilibrium.

Emperor William will exhibit the Frederick the Great collection of curios, literary treasures and French paintings at the Paris exposition.

The United States government expedition in charge of Capt. Glenn, which went north to explore Sushnita river, has returned to Valdes to winter.

The court of appeals of New York has affirmed the verdict of conviction in the case of Howard Benham, the banker of Batavia, sentenced to death for wife murder, and he will be resentenced.

An appropriation of $4385 was made by the Woman's Home Missionary Society of the Methodist Episcopal church at their present session for the Utah work.

Acting Postmaster General Heath has instructed Director of Posts Vaille at Manila that a United States citizen residing in the Philippine Islands may secure a copyright from that point.

Juan Garcia, a Cuban, and his sweetheart, Miss Bessie Maheney, daughter of a prominent publisher, were found dead in the coal near Peoria, Ill. Garcia had shot the girl and then himself.

It is announced that a sensational burglary has taken place at the Savoy Hotel, London, where the room of Mrs. Stockwell, of New York, widow of a New York jeweler, was entered and robbed of jewelry, valuables and money.

The resolutions of the W. C. T. U. at Seattle censure President McKinley, Mr. Griggs and Gen. Russell Alger. They also denounce Congressman Roberts of Utah, trusts, lynching, immoral shows and offensive advertising, and ask suffrage for the ladies.

The typhoon through which the steamships Empress of India and Senator passed proved even more disastrous on land than on sea. In Tokio and Yokohama it raged with great fierceness. Hundreds of houses were wrecked in all districts, though the storm seems to have been attended with less loss of life than usual.

Notwithstanding the fact that fully 500 armed men surrounded the island between Atchison and Doniphan, the two bandits who recently killed one man and wounded another at Doniphan, and duplicated this crime at Atchison later while being pursued by a posse, crept through the line of guards during the night, and, stealing a team, escaped.

Captain Charles H. Lester, U. S. A., retired, is dead.

Fifty new residences have been completed in Hoquiam this year.

John Goodby, a negro, was lynched at Reagan's mill, about six miles from Macon, Ga.

A carload of express packages valued at $20,000 was burned near Holton, Ill., on the Santa Fe road.

Rev. C. E. Morrison was hanged at Vernon, Texas, for wife murder. He met his death resignedly.

Miss Helen Gould has given $6000 to the League for Social Service, to be used in a crusade against Mormonism.

Joe Choynski defeated Steve O'Donnell in the fifth round of what was to have been a six-round bout in Chicago.

A game of football has been arranged between the Universities of California and Oregon, to be played at Berkeley, Cal., on November 18.

As a result of a quarrel with her lover, William Oliver, Verda Smith of Spokane lies dying from carbolic acid poisoning in Rossland, B. C.

Joe MacDonald, provincial land registrar, committed suicide in Kamloops, B. C., by shooting himself in the head. No cause can be assigned for the act.

The United States transport Missouri, with a large quantity of medical supplies and a number of nurses, has arrived at Port Said en route to Manila.

The first bloody fight of the coal miners' strike which was declared seven weeks ago occurred at Decatur, Ill. Two union miners were shot, one probably fatal.

A giant brass combine is being formed which, it is stated, will comprise all the plants in the Naugatuck valley, Conn. The main office will be in New York.

The Spokane exposition was visited by 80,000 people. The total receipts were $31,000, and expenses $35,000, leaving $4,000 to be made up by the guarantors.

Current rumors in Berlin are to the effect that the nineteen Russian men-of-war in the Pacific will soon be reinforced by six ships from the eastern squadron.

The canal commission in Nicaragua is actively and successfully engaged in the work of straightening the proposed route and otherwise lessening the cost of constructing the waterways.

The story that Mr. Wildman is to be removed from the post of United States consul general at Hong Kong and replaced by Edward Bedloe, late consul at Canton, is emphatically denied at the state department.

Gen. Shafter has provided headquarters in the army commissary building at San Francisco for the committee of the Red Cross society now engaged in collecting books for a free library to be established in Manila for the use of American soldiers.

A special to the Post-Dispatch from Austin, Tex., says: Samuel Watrous, one of the murderers of G. W. Engberg and his wife, was hanged in the jail yard here today. Watrous said he was going to heaven. James Davidson, convicted of the same crime, will be hanged Nov. 24.

A head-end collision of freight trains occurred on the Baltimore & Ohio railroad five miles east of Cambridge, wrecking both engines and 14 cars. Engineer Carney remained at his post and was killed. Three tramps, who were stealing a ride, were killed. The accident was caused by Engineer Carney's failure to take a siding.

Football Games.

Cambridge, Mass., Oct. 30.—While Harvard had no difficulty in disposing of the famous Carlisle Indian eleven on Soldiers' Field, the crimson players were unable to keep little Hudson from kicking his customary goal from the field, and a wretched muff by Girasch early in the game, followed by a quick pick-up by Red Water, who ran 50 yards for a touchdown, gave the visitors 5 more points, making the final score 22 to 10.

New York, Oct. 30.—At Manhattan Field, in a game that was fiercely contested throughout, the football eleven of Columbia defeated that of Yale by the score of 5 to 0.

Chicago, Oct. 30.—The football eleven of the University of Pennsylvania barely escaped defeat at the hands of the University of Chicago in a game in which more desperate playing has seldom been witnessed. The score was a tie.

Ithaca, N. Y., Oct. 30.—In one of the finest football battles that Cornell has ever waged on an opposing 11 she wrested victory from Princeton by a score of 5 to 0.

San Francisco, Oct. 30.—The freshman game between Leland Stanford university and the University of California was won by the former. The score: Stanford 6, California 0.

At Oberlin, Ohio—Ohio State university 6, Oberlin 0.

At Cincinnati—University of Cincinnati 26, Centre College of Kentucky 0.

At Cleveland—Case school 34, Baldwin university 0.

At Madison—University of Wisconsin 10, Rush medical college 0.

At Pittsburg—Duquesne A. C. 12, Buffalo university 5.

At Washington, Pa.—Washington and Jefferson 6, Western Reserve 0.

Denver, Oct. 30.—The Denver Wheel Club eleven defeated the team from Ogden, Utah, at D. W. C. Park by a score of 46 to 0.

Greatest Transport Afloat.

New York, Oct. 30.—Secretary Root of the war department accompanied by the army officers made an inspection of the transport Thomas, lying at the government dock in Brooklyn, and which came here a few days ago from the Cramps yard at Philadelphia.

The vessel sails November 4 for Manila with the Forty-seventh regiment, now at Camp Meade. There are 1346 men in the regiment, commanded by Colonel Walter Howe. Among the vessel's supplies are 200 coffins.

Secretary Root said the vessel was the greatest transport in the world.

Fitzsimmons Won.

Chicago, Oct. 30.—Jeff Thorne, the English pugilist, was knocked out by Bob Fitzsimmons in one minute of fighting at Tattersalls. Thorne who was evidently very much afraid of Fitzsimmons, did not land a single blow, and only made one light attempt to lead with his left, the blow falling short by several inches. The blow delivered by Fitzsimmons was a short left jolt, which did not pass through six inches of space before landing on Thorne's jaw. After Thorne was counted out Fitzsimmons picked him up bodily and carried him to his corner, placing him on a chair which Sam Fitzpatrick, who had been confident of Thorne's victory, had placed hurriedly on the platform.

Germany's Naval Plans.

Berlin, Oct. 28.—The correspondent here of the Associated Press learns authoritatively that the conference between the secretary of the admiralty, Admiral Tirpitz, the minister of foreign affairs, Count von Bulow, and the imperial chancellor, Prince Hohenlohe, related solely to the increase of the German navy by speedier and larger ships than those contemplated under the existing program. This is due to the radically changed political situation of the world.

Bring Home the Dead.

New York, Oct. 28.—A special from Washington says that D. H. Rhodes, an employe of the quartermaster's department, who superintended the removal of the dead soldiers from Cuba last spring, has departed for Manila to make arrangements for bringing to this country the bodies of the boys who have fallen in battle or died of disease in the Philippine islands.

Died of His Wounds.

Macon, Ga., Oct. 28.—J. L. Robertson, a prominent planter of Twiggs county, died from the effects of wounds inflicted by John Goosby, who was lynched by a mob near here for the assault.

England's youngest major is 27 years old.

BOERS SHELLED LADYSMITH

TWENTY THOUSAND ENGAGED.

The English Silenced Their Guns—Rumored That the Boers Retreated—Both Sides Lost Heavily—Skirmish at Rhodes.

Ladysmith, Oct. 31.—Firing commenced at 5 a. m., the Boers shelling Ladysmith with 40-pounders. After seven shots the British gunners succeeded in silencing the Boer force.

Joubert Is Pushed Back.

London, Oct. 31.—The war office has received a dispatch which says General White has fought an engagement, presumably with Joubert's forces, which were pushed back after several hours' fighting. The British lost about 100 men. The Boer losses were much greater.

The Boers were in greater numbers and had better artillery.

Wild Rumor From Holland.

Berlin, Oct. 31.—A report received from Holland says the whole British army at Ladysmith has surrendered and the troops are now prisoners.

London, Oct. 31.—A dispatch to the Associated Press from Ladysmith, which was sent at express rates, came through in the remarkable time of two hours. It shows a crisis in operations in the present stage of the war has been reached and that the attack on Ladysmith by the joint Boer forces has opened.

That the heavy guns of the Boers from which so much was expected should be silenced so speedily, as indicated in the Associated Press dispatch from Ladysmith, is a matter of great surprise, but the subsequent advance of the burgher force on the British left flank shows the attackers were still full of the self confidence and daring they have already exhibited on various occasions.

Apparently the Boers have concentrated for a supreme effort at Ladysmith. They have withdrawn their forces from other points which they consider momentarily to be of less importance.

The latest news from the western border has apparently assured the British authorities as to the ability of Mafeking and Kimberley to withstand assaults.

A dispatch from Fort Tuli, forwarded during the evening of October 24, announces that Blackburn's force in a skirmish at Rhodes drift killed 12 Boers. A Kaffir spy reported many more Boers were lying in the drift dying. Blackburn died of his wounds on returning to Fort Tuli. The scouts there report that the Boers are concentrating strongly on the Rhodesian border with Maxims.

The Boer War.

London, Oct. 30.—The South African war has now been in progress nearly three weeks and so far the British arms have been consistently crowned with momentary successes, though at a cost which verifies President Kruger's prediction that the conflict would stagger humanity. But though victory has fallen to Great Britain whenever and wherever the issues were of paramount importance, General White's position is scarcely more reassuring than at the outbreak of the war. So far he has only shown his ability to outwit by strategy the Boers' strategy. That, in its conception, meets high praise from the British military critics. Now he appears to have reached the limit of this game of war by which he was able to prevent the massing of the Boer columns and must either meet the enemy's combined forces or retreat. Many people think that General White should rest content with the successes so far achieved and fall back on Colenso, pointing out that he appears to be fully able to move his forces quickly and without deterioration. It is scarcely probable that he will follow this course, preferring rather to hold Ladysmith, though against much superior numbers, until reinforced. It is the feeling that the general intends to follow the latter course that creates uneasiness, for victories over Boers as units are not believed to indicate that the same result can be achieved over the Boers when massed.

Great Fire in a Cannery.

Fairhaven, Wash., Oct. 31.—The Aberdeen Packing Company cannery was burned yesterday. The loss is estimated at $150,000; insurance, $70,000.

There were 15,000 cases of canned salmon in the building. Little was saved. A million and a half labels, 13,000 empty boxes, $2000 worth of lacquer, 5000 empty cans and other cannery material was burned.

The fire originated from an explosion, probably in the lacquer room. The Fairhaven Canning Company's store house, near by, was partially burned and part of $40,000 worth of sockeye salmon was damaged. This loss is fully covered by insurance.

Commission to the Pope.

Manila, Oct. 28.—The Filipino congress has selected a commission of native priests to proceed to Rome and explain to the pope the abuses and iniquities of the friars and ask for correcting intervention.

Aguinaldo, in a recent speech at Tarlac, characterized the friars as intriguers and abusers of honor, law and morality, and declared they caused Spain's downfall in the Philippines.

In Darkest St. Louis.

St. Louis, Oct. 31.—It is just reported that Robert R. Jennings, general manager of the Broadway Cable Company, was held up and robbed of a large sum of money, said to be in the neighborhood of $8000. The robbery occurred on a crowded street. The thieves escaped.

Andrade Arrives at Barbadoes.

New York, Oct. 28.—A dispatch from Bridgeton, Barbadoes, says that Gen. Andrade, ex-president of Venezuela, who was driven out of his country by insurgents, has arrived there.

WASHINGTON.

Several mild cases of smallpox are reported at Doe bay.

Sneak thieves robbed several stores in Aberdeen recently.

The first bank in Castle Rock began business last week.

Many home seekers are coming into this state over the several railroads.

Hog cholera is making big inroads into the herds of swine near Walla Walla.

There is some talk at New Whatcom and Fairhaven of building a joint high school.

The disappearance of Little Ruth Inman of Creston is still shrouded with mystery.

Henry Kampeter of North Yakima, has shipped 12 carloads of potatoes to the Sound.

An unknown man was killed at Badger on the westbound overland while stealing a ride last week.

The prune crop this year in Yakima county has been more satisfactory than any season for the past 10 years.

The 5-year-old daughter of Joseph Giskra, of South Bend, was nearly crushed to death last week by slabs falling upon her.

The mysterious disappearance of the 4-year-old son of George Miskin, a rancher near Sequin, is causing general excitement in that section.

A wild deer came out of the woods at Centralia, crossed the depot platform, where there were a number of people, and escaped unharmed.

The flouring mill at Yakima City, which has been idle for several years, has been purchased by Spokane millmen and will soon be in operation.

The hop growers near North Yakima are much disappointed with the market up to the present. They are now planning to organize and to hold their hops.

The section of country east of Garfield was visited recently by a severe hailstorm, some of the stone, it is said, measuring two and one-half inches in length.

Lou Spader shipped 33 boxes of peaches of the Wonderful variety from Chelan. They were so big that they packed in the boxes four peaches wide by seven long.

Mrs. Eva Llewellyn, keeper of a lodging house, at Tacoma, was awakened by a burglar ransacking her room. Springing out of bed, she ordered him to put up his hands and relieved him of several articles he had stolen from her.

George Parks, of Quinault, harvested the following products from one acre of ground: About 1 ton of good timothy hay, 3 tons of potatoes, 200 pounds threshed oats, 7 sacks onions, 1000 heads cabbage, 1000 pounds carrots, besides much kitchen-garden truck.

Wallace Whitmore has been in Pomeroy buying horses for government use in the Philippines. To fill the bill a horse must be from 14 to 15 hands, weigh from 900 to 1050 and be of solid color. Mr. Whitmore says such horses are hard to buy at the prices he is authorized to pay, which range from $30 to $60.

The Sound salmon pack for this season will be nearly 900,000 cases, says A. C. Little, state fish commissioner. Added to this is the frozen, salted and dried fish, which will amount to what is equivalent to a quarter of a million cases more, and it would be safe to say that the total output of the Sound for the season will reach a value of $4,500,000. That is a nice little item to be added up in the list of products of the state, and does not include the Columbia river fisheries, which until recently were considered of far more importance than the fisheries of the Sound.

Is It Malaria or Alum?

(Popular Science Monthly.)

Languor, loss of appetite, indigestion and often feverishness are the common symptoms of a physiological condition termed "malaria." All these symptoms may be and frequently are the effect of the use of alum baking powders in food making. There is no question about the poisonous effect of alum upon the system. It obstructs digestion, prostrates the nerves, coagulates and devitalizes the blood. All this has been made clear, thanks to physicians, boards of health and food commissions. So "highly injurious to the health of the community" does the eminent head of the University of Pennsylvania, Dr. Barker, consider the alum baking powders, that he says "their sale should be prohibited by law."

Under these circumstances it is worth the while of every housewife to employ the very little care that is necessary to keep so dangerous an element from the food of her family.

A pure cream of tartar baking powder, which is the only kind that should be used, ought to cost about forty-five to fifty cents a pound. Therefore, if you are paying much less, something is wrong; if you are paying twenty-five cents or less per pound, the powder is certainly made from alum.

Always bear these simple facts in mind when purchasing baking powder.

Buried With All Honors.

Washington, Oct. 31.—General Guy V. Henry was given a military burial, his grave being close to the Temple of Fame and within sight of that of his old commander, General Crook. The president, the secretary of war and other members of the cabinet attended the services both at the church and at the cemetery.

Inventor of Collapsible Boots.

London, Oct. 30.—The Rev. Edward Lyon Berther, the inventor of collapsible boats, is dead.

Plague at Santos.

Santos, Oct. 28.—Two fresh cases of bubonic plague have occurred here.

There are in Europe 71 reigning princesses of marriageable age and only 47 corresponding princes.

OUR SITUATION IN MANILA

AFTER SEVEN MONTHS' WAR.

The Present Campaign—The Situation of Our Forces—Railroads Captured—The Insurrection Grows Outside Luzon Island—Robbers Plentiful—Steamboats Needed.

Chicago, Oct. 30.—Here are some figures made seven months and a half after our campaign against the Filipinos began:

Say it is 51 miles Angeles, we hold possession of the railroad up to that point. We can fairly claim to possess the land a half mile on each side of the track. We have possession of the wagon road and, let us say, a half mile on each side from San Fernando through Bacolor to Santa Ana, eight miles, with four to Guaga. We have a road from Malolos to Balinag, 11 miles northeast. We can claim 11 square miles here, we have Manila, out as far as the water works, five miles away. That gives us, say 25 miles around the city.

Then we have the road and a half mile each side down 18 miles to Imus. Then we have Calamba and some other points on the lake that General Lawton captured before he was ordered back. These towns are not approached by road, but by boat across the Laguna de Bay, and we only control the land they stand on. Summing up our total possessions, we find we have 117 square miles.

The island of Luzon contains 42,000 square miles.

Outside of Luzon the insurrection seems to be growing.

The insurgents hold ports in Mindanao, the next largest island to Luzon in the Philippines, and said to be incalculably rich in gold and silver mines, iron and copper ores, coal and other minerals, besides wonderful forests of hard woods.

No Americans have dared venture there as yet, as General Otis has sent no troops to the island. Englishmen and Germans are prowling about the island, getting all the concessions they can. It is said several prospecting parties are at work.

General Otis reports conflicts between "the robber bands" and American soldiers in Negros and Cebu. The Nineteenth, the Eighteenth, the Sixth and one battalion of the Twenty-third infantry are now in these islands fighting the "robber bands," who dig trenches and occupy towns and make night attacks after the fashion of the insurgents in Luzon.

A late report from Cebu is that 20,000 robbers were menacing our forces and a collision was imminent.

The next campaign is going to be different from the last. We will get out of the flat, open country, into the mountainous, thickly wooded country. If we do not end the war here, we will have to carry it into the high, rocky mountains of Luzon.

It will be no violation of a state secret to say that the first object of the next campaign will be to take the rest of the railroad from the hands of the insurgents. The insurgents ought to be firmly convinced by this time that we want the Manila and Dagupan road, as we have fought along that line seven months. They know we want it and they also know we are going to get it, for they are already tearing up the track, burning the ties and burning the rails north of Angeles.

The country east of the railroad, north of Angeles, is more like it is south of Manila, except high and broken. West of the railroad are high mountains that will offer the insurgents better opportunity of retreat and escape than they had in the low country.

With the taking of the railroad, we will have cut off the provinces of Zambales, Paggasinan, Tarlac, Pampanga and Bataan from the main part of the island and can lay claim to a good deal more country than the precise amount of real estate on which our army is now holding.

Another great need of the army is light draught steamboats for use in the many lakes and rivers in Luzon. There is hardly a place in the world where an army could use river steamers to greater advantage.

With almost 42,000 miles of territory from which to draw supplies, and with boats coming in without any opposition from Hong Kong, Japan, and from Central and South America, and Australia, the insurgents are probably doing well as far as supplies are concerned.

Rainfall at San Isidro.

Manila, Oct. 27.—At San Isidro rain has raised the river and supplies are arriving there in cascoes of natives. The health of the returning columns is excellent.

The Twenty-sixth infantry has arrived here on the Transport Grant, and sailed for Iloilo without disembarking.

The insurgents have returned to the vicinity of Calamba. They have increased in numbers and are surrounding the town on the land side.

Della Fox May Recover.

New York, Oct. 30.—Della Fox, the actress, who has been in a critical condition from a bad cold the past two weeks, is said to be better. It is believed the crisis is past and it is expected she will continue to grow better.

Shot Himself.

Tacoma, Oct. 30.—Robert Minnes, manager of the wholesale department of the People's store, the largest department store in the northwest, accidentally shot and killed himself.

Transports at Portland.

Portland, Oct. 30.—The United States transports Pennsylvania and Olympia arrived here to take on board the Thirty-ninth infantry and a battalion of the Forty-fifth infantry for the Philippines.

Europe's national debt is $23,000,000,000.

Have Yaqui Prisoners.

Austin, Tex., Oct. 30.—Information was received here from Orita, state of Sonora, Mexico, stating that a detachment of Mexican troops have arrived here, having in charge 25 Yaqui Indian prisoners, whom they were taking to Guaymas to be placed in prison pending a settlement of the war. Hitherto the Mexican forces have given out the information that they were taking no prisoners, nor would they take any, as they proposed to kill the Indians as fast as they came upon them. The fact that they brought in 25 today, however, evidences the fact that they intend to take prisoners.

It is reported that these prisoners were captured in a skirmish with Indians near Sahuaripa, Mexico, during which several Mexican soldiers were wounded.

It is also reported that two were killed and one or two taken prisoners by the Indians. Immediately following this skirmish, which was somewhat in the nature of a surprise to the Indians, the main body of Indians retreated to the mountains northwest of Sahuaripa and are now hiding in the mountain fastnesses.

Shipmate Killed and Eaten.

Charleston, S. C., Oct. 28.—The Norwegian government has instructed its representative at this place to secure the release of two shipwrecked sailors held here for murder. The consul has secured their release.

In August last a Norwegian bark was caught in a West Indian hurricane off the Florida coast and completely wrecked. Three of the crew remained on a raft for several days without food or water, and finally drew lots to see which should die for the others. The two remaining were rescued and brought to this port and held for murder when they related their experience. The men will be sent home.

Hobart Is Seriously Ill.

New York, Oct. 31.—The family of Vice President Hobart, who is ill at his home in Paterson, N. J., announced that the condition of the vice president had undergone a marked change for the worse in the past few days.

Waverly Tragedy.

Waverly, Oct. 31.—John Gaston was killed Sunday night in the Letzig saloon in a quarrel with Charles Adams, foreman of the Corbin beet sugar factory at this place. Adams has been placed under arrest to await developments.

It Will Be a Holiday.

Olympia, Wash., Oct. 31.—Governor Rogers has announced that the day the First Washington regiment arrives in Seattle will be declared a legal holiday. The exact day cannot be determined until the date of arrival is definitely set.

Fire at Philadelphia.

Philadelphia, Oct. 30.—The D. M. Osborne Farm Implement Company's plant and the W. S. Cooper brass works, adjoining, were destroyed by fire, causing a loss of $140,000. The Osborne Company's loss was $100,000.

Argentine Paper Money.

Buenos Ayres, Oct. 30.—The chamber of deputies has passed a bill fixing the conversion of paper money at the rate of 44 centavos gold per dollar as soon as there is sufficient specie on hand to permit of such conversion.

MINES AND MINING CAMPS.

METALS OF THE NORTHWEST.

Items From the Rich Regions of the Pacific Northwest—News From All the Principal Mining Camps—Personals—Mining Notes.

The Anaconda Mining Company has commenced suit against F. Augustus Heinze to recover a seven-twelfths interest in all the ores extracted from the Parnell lode claim and to compel the defendant to permit the company to enter into joint possession and occupancy of the claim.

Republic Camp.

The shaft on the Bodie is 275 feet in depth.

The Gopher shaft is nearly 235 feet in depth.

The Chico shaft has reached a depth of 180 feet.

Good progress is being made on the Hill Side tunnel.

The Liberty is about to resume under new management.

A winze has been started in the tunnel of the Stray Horse.

The Surprise continues to show rich ore on the face of the drift.

The Star winze is about 25 feet deep. The ledge is somewhat broken up.

The ore chute on the San Poil has not diminished in size or value as drifting proceeds.

Good progress is being made in putting the Princess Maud in shape to receive the compressor plant.

An unconfirmed report is circulated that work will shortly be resumed on the Mountain Lion on the south.

Reports from the Chespa-Blue Jay are quite encouraging. There is said to be four feet of good ore in the east drift.

Superintendent Hall of the Morning Glory states that the mine is looking well and continues to show its wonderful values.

Some high assays are being made from Blacktail ore and these are favorable indications of the richness and value of the property.

The winze on the Flag Hill is about 30 feet deep upon a vein which shows three feet of ore which will average $20. It is a favorable showing and the work is being well done.

A 10-foot breast is being carried in the drifts at the 600-foot level of the Republic. The entire face of each of the drifts, both north and south of the tunnel, will assay about $200 per ton.

The hoist for the Butte & Boston is on the ground and will be ready for use in a few days. It will be used on the old shaft which will be sunk to a depth of several hundred feet before any other work is done on the mine.

The Jim Blaine holds its own but does not improve in the drift. It is the opinion of many that a winze sunk from this level on the Jim Blaine would encounter the big Republic ore chute at the 600-level or sooner.

Small pieces of petzite picked from the streaks which seam the Republic ore in the lowest levels and it assayed the staggering sum of $19,946.80, almost $10 per pound. There is but a small quantity of such ore as this, but it helps bring the averages up to very high figures. This precious stuff is carefully taken down and as carefully sacked and stored in the mine. A few tons of it would make millionaires of the stockholders if the balance of the ore continues as rich as it now is.

The Miner's Nightmare.

Jim Blaine and Tom Thumb gave a
  Trade Dollar
For a Stray Horse, and went up to see
  Princess Maud
Of Butte & Boston. When they
  reached the Summit
They were surprised to see an Insurgent
Running from the Mountain Lion with
  a Black Tail.
To gain his Liberty, he shinnied up the
  Lone Pine.
They ran down the San Poil without
  Looking Backward,
Where they met Kate Hayward, who
  gave them $2,000 for the Golden Goose.
When she found she didn't have a
  Golden Harvest
She kicked like the devil for Rebate.
How'd you like to have Ben Hur?

—*Frank Finney.*

British Columbia.

The Black Prince, near Slocan City, has sent out its second car load of ore.

The American Boy mine, in the Slocan, is shipping ore to the Everett smelter.

About twelve miles from Vancouver, B. C., a promising mining camp is coming into life on Howe sound.

The French Creek Mining company has stopped work on its claims near Oro Fino, but will resume in the spring.

The Hungarian group, in the Nelson district, has been bonded to Montreal capitalists and will be developed this winter.

There is much satisfaction in British Columbia that the Le Roi, the banner mine of the province, has announced that it will resume dividends.

One of the notable aerial tramways of the British Columbia mines is to be erected in the North Star, near Kimberley. It will be 6,200 feet in length.

The Quebec-Boundary Mining company is pushing work on the Strawberry and Orphan Boy claims which it recently acquired.

In spite of the long-continued strike more than 700 miners are at work in the Slocan. Nearly all of them are employed on mines not included in the Owners' Association.

Cascade prospectors should know that if the demand and use of copper increases at the same ratio during the next ten years as it has in the past decade, the present production will have to be doubled to meet the demand.

In the final settlement of the affairs of the O. K. company, Sheep Creek, the creditors will be paid in full, but the shareholders will receive nothing, although their stock represents an investment of 25 and 30 cents per share.

The Humming Bird, north fork of the Kettle river, has a 200-foot incline shaft. In the bottom the vein has become almost vertical, and the twelve feet of ore measured is claimed to average $40 a ton. There are 1,000 tons on the dump and 4,000 of this class of ore on the dump.

Already the output of Rossland camp has passed the 5000 ton mark, and it may soon be expected to equal 10,000 tons per week. The Le Roi has doubled its capacity, and will in future ship 400 tons daily from the mine alone. Meanwhile shipments from the dump will be made at the rate of 200 tons per day, in addition, so that the mine will actually ship 4200 tons per week.

The War Eagle is producing 2000 tons per week, and the Centre Star can be relied upon to furnish at least 1000 tons weekly until its hoist is in place, when the output will be equal to the War Eagle's. These three mines—The Le Roi, War Eagle and the Centre Star—will ship 7200 tons per week, or over 1000 tons daily, and this is not all, for when the War Eagle and the Centre Star make their contemplated improvements, it will bring the output of Rossland up to 10,000 tons per week.

These figures do not include the production of the Iron Mask, I. X. L., Virginia, Columbia and Kootenay, or the Josie and No. 1, which are preparing to join the shippers.

The increase in the output of the Le Roi is made possible by improvement in the shaft. The knuckle on the 300-foot level has been cut away and the skip can be raised clear to the surface at full speed—1500 feet per minute. Superintendent Wilson started work with a full force, after the recent shutdown for repairs.

MINING NOTES.

Nevada's mining outlook has never been so favorable.

Zinc ore has been found in McPherson county, Kansas.

Southern California has 4,000 mines and prospects in operation.

Operations have been resumed on the Gold Hill claim, near Keller.

Idaho also comes forward with big tunnel enterprises in the older gold regions of the state.

The Rocky Mountain states are now entering upon the most prosperous period in their history.

Last year 5,200,000 pounds of aluminum, valued at $1,716,000, were produced in the United States.

A contract for a 150-foot shaft on the Delhi, a promising property on Shaw mountain, near Boise, Idaho, has been let. Indications are promising.

A dredge is being erected by the Florence Gold Mining company at Florence, Idaho. The number of dredges in the state is increasing rapidly.

Ore similar to that of Index, and in large quantities, is reported to have been found in the Leavenworth district, on the east side of the Cascades.

The Magnolia group on Miller mountain, has been bonded to a Boston company for $60,000, the company agreeing to extensively develop the property this coming winter.

The copper belt which crosses the country just south of Mullan, Idaho, is attracting a good deal of attention. It has already been shown that there are a number of veins running through there which carry ore assaying well in gold and copper on the surface. The only question is as to whether they will carry their values with depth.

The United States still occupies the second place as a silver producing country, to which it was relegated by Mexico in 1897. In 1898 it produced 54,438,000 ounces fine of silver, with a commercial value of $32,118,400, against the Mexican production of 56,738,000 ounces fine, with a commercial value of $33,475,400. Together they produced 67 per cent of the world's product.

The following table shows the production of gold and silver in the principal producing countries of the world during the year 1898:

Country—	Gold.	Silver. Fine ozs.
United States	$64,463,000	54,438,000
Africa	80,428,000	.....
Australasia	64,860,800	12,021,682
Can. & N'fundl'd	13,838,700	4,452,333
Mexico	8,500,000	56,738,000
Russia	25,461,400	278,492
British India	7,781,700	.....
Germany	73,600	5,571,516
Spain	37,900	5,597,965
British Guiana	2,048,700	.....
Colombia	2,263,200	5,483,717

Acid in the Blood

That rheumatism in its worst form can be cured by proper treatment is shown by this interview with Mat Tanner, of 231 Hamilton St., Albany, N. Y. He said: "I was taken with rheumatism that began in my hips and spread throughout my body. For two years and a half I was confined to my bed. I employed nine of the best physicians of Albany, and two specialists from New York, but all declared my case hopeless. My niece recommended Dr. Williams' Pink Pills for Pale People. The use of several boxes enabled me to leave my bed and go about with crutches. Finally I abandoned the crutches, and am now as well as ever. No praise of Dr. Williams' Pink Pills for Pale People is too strong for my case.
MAT TANNER."
Sworn to and subscribed before me this 17th day of September, 1898.
NEILE F. TOWNER, *Notary Public.*
—*From the Albany (N. Y.) Journal*

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Co., Schenectady, N. Y., 50 cents per box. 6 boxes $2.50.

OREGON.

Agents seeking cavalry horses are in eastern Oregon.

Free mail delivery will be inaugurated in Baker City before November 15.

Elgin's new water works system is in operation and giving entire satisfaction.

A horse dealer at Salem reports the market good, especially for draft horses.

La Grande consumes annually 100,000 gallons of milk, 80,000 of butter, and 12,000 of cheese.

Ted Perry was shot and killed in a quarrel on a farm four miles south of Salem by J. A. Willard.

La Grande people are considering a proposition for the establishment of a creamery there.

Z. V. Carland, a young man 22 years old, has disappeared from Napavine three weeks ago and has not since been seen.

The rains the last week greatly delayed harvest operations in the vicinity of Elgin and there is yet a considerable amount of grain here that is not cut.

R. S. Ross, a molder in the employ of Wolff & Zwicker, fell off a dock at Portland and was drowned in about six feet of water. The body was recovered.

Last year the cannery at Castle Rock put up prunes and pears, but fruit being a short crop this year, the cannery is running on beans and corn, of which the supply is abundant.

She Was Acquitted.

Colville, Wash., Oct. 30.—Mrs. Nannie Brown, who for a week has been on trial for the murder of her husband, L. J. Brown, at Northport, this county, October 10, was acquitted by the jury.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for Ingrowing Nails, sweating, callous and hot, tired, aching feet. We have over 30,000 testimonials. Try it *today*. Sold by all druggists and shoe stores. By mail for 25c. in stamps. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

A cat in a Strand tavern in London has become intemperate through drinking wine spilled by waiters.

Ice can be rapidly cut into cakes by an Iowa man's machine, which can be operated by either power or manual force, having a system of gears by which a circular saws it rapidly revolved, the latter being mounted at the end of a pivoted beam, which can be adjusted to the proper depth.

Two hundred representative hop growers met at Woodburn, and organized the Oregon Hop Growers' Association, for mutual profit and protection. The association hopes to raise the price of hops 2 cents per pound by holding at least 20,000 bales out of the market.

Worms

CASCARETS are a sure cure for tape worms and those other pests of worms that make the lives of children and their mothers miserable. Any variety of parasites that live in the human stomach or bowels, and feed on the substance which should properly nourish the body, are dislodged by Cascarets Candy Cathartic, and expelled. One or two tablets usually drive them out, and persistent use is sure to do away with the unwelcome intruders. Many children and older people suffer from worms without knowing it, and get thin and weak, although their appetite is good. The best way to find out is to take Cascarets. **Never accept a substitute!**

"A tape worm eighteen feet long at least came on the scene after my taking two CASCARETS. This I am sure has caused my bad health for the past three years. I am still taking Cascarets, the only cathartic worthy of notice by sensible people."
GEO. W. BOWLES, Baird, Miss.

—Brooklyn Citizen.

The judge began to understand, and

Cascarets

Sales Agents Wanted!

Men and Women make $50 to $200 every month selling our Gents' and Ladies' Waterproof Mackintoshes or Rain Coats. WE SELL MEN'S MACKINTOSHES in all styles at $1.80 to $4.75. LADIES' MACKINTOSHES AND WATERPROOF DRESS SKIRTS and CAPES at $2.00 to $6.00.

YOU (man or woman) can make $5.00 every day taking orders for these garments. At your low prices, everyone will order from you, for no one can meet your prices.

WE WANT ONE AGENT (man or woman) in every city and county in the United States. No experience necessary, no capital required. We furnish a BIG BOOK of Mackintosh Cloth Samples, fashion figures, your name on rubber stamp, tape measure, business cards, all necessary stationery. Everything complete for doing business.

We are the LARGEST DEALERS in America in Men's and Women's Waterproof Mackintoshes and we sell them at the lowest prices ever known, and exclusively through regularly appointed men and women agents, who make $50.00 to $200.00 every month at the work.

OUR LIBERAL OFFER. Cut this notice out and send to us. State the territory you wish to work in. Say in your letter you will give this work an immediate trial of at least 10 DAYS, and we will immediately SEND YOU FREE OUR SALESMAN'S COMPLETE OUTFIT on the following easy conditions. Each outfit costs us nearly $2.00, for it is made very complete to insure immediate success for the agent. The outfit consists of one handsome heavy cloth bound book, 10x7x2 inches, containing a complete assortment of large samples of our entire line of men's and women's mackintoshes, also handsome large fashion figures, etc., one confidential price and instruction book, one tape measure, one rubber stamp with your name and pad, business cards, order blanks, stationery, etc. WE MAKE NO CHARGE FOR THIS OUTFIT, but as a guarantee of good faith on your part and to protect us against those who would order outfits (which cost us nearly $2.00) out of curiosity or just to get the cloth samples, we require everyone, after receiving the outfit at the express office, to pay as a temporary deposit 50 cents and express charges, and we will return the 50 cents with your first order. Understand we will send you the complete outfit by express C. O. D., subject to examination, you to examine the outfit at your express office and if found perfectly satisfactory and you are convinced you can make money taking orders, pay the express agent 50c and express charges, we to return your 50c with your first order.

START TO WORK AT ONCE. You need no money; show the samples, take the orders at your own price, adding a good profit for yourself; we will fill your orders daily, send the mackintoshes to your customers C. O. D., subject to examination, collect your full selling price and weekly send you in cash your full profit. No other work is so simple. Money can't be made easier. Any man or woman any where can make $5.00 every day. Our book of instructions makes everything so plain that anyone can do the work at once and be sure of big wages from the start. Cut this notice out and send to us today saying you will give it 10 days' trial. YOU WILL NEVER REGRET IT. Nearly everyone sends the 50 cents with their application. We refer to Metropolitan National Bank or any Express Co. in Chicago. Address, DUNDEE RUBBER CORPORATION, 184 Fulton St., Chicago.

EDITORIAL OUTCROPPINGS.

The settling of the Dominion of Canada and the filling up of our vast expanse of vacant fertile prairie lands with desirable settlers has been the study and aim of our Canadian statesmen ever since Canada became a united country, or for the last thirty years. Starting out, as Canada did, with a population of 3,485,000 settled in a country easily able to support at least one hundred million people, with almost unlimited resources in farm, forest, mine and fisheries, yet what do we find at our last official census taken in 1891? That our population has increased to 4,833,000 or a little over one million. Where has our natural increase in populotion gone to? and where are all the assisted immigrants gone? If they have left our country, which undoubtedly they have, as the last census of our southern neighbors shows that there are 980,000. Canadians enrolled among their citizens, why have they left?

The solution to this problem is easily solved. We have examples of it at hand; when foreign capitalists are allowed, in defiance of law, to import "Dago" labor into this province with the avowed intention of driving Canadian workingmen out of their own homes and into a foreign land to seek an honest livelihood. If our authorities would pay more attention to keeping our young men and women at home and pay less attention to trying to fill up our country with the scum of Europe, it would not be long before an increase would be seen in our population and an increase made up too of a class of citizens that any country would be proud to call its own.

Skilled Canadian miners are not worth $3.50 per shift to the Silver Lead Mines Association but foreign miners are imported and promised $4. per shift for the same work. What possible excuse can the Nelson Miner offer for this? Where will the Sandon Mining Reyiew find ground upon which to write an editorial defending the Silver-Lead Mines Association now? The promises of Rod Tolmie give the lie direct to all the hard time talk of both these doughty champions of the mine owners. A new line of argument must now be hunted up. They had better come out squarely and honestly against the Miners' Union as that is what the Silver-Lead Mines Association has done.

The "lawless and bloodthirsty" Miners' Union, so often held up to view by the Nelson Miner and the Nelson Economist, show a somewhat different side to the public. They are lawabiding and demand the protection of the law. In appealing to the Premier of Canada, the Attorney-General and Minister Cotton, they show a respect for and a knowledge of the law which must be surprising to the two papers mentioned above.

Any self-respecting Briton, should be ashamed to be known as a compatriot of such men as those who have tried to introduce "Dago scabs" into Canada and who are trying to run Britons out of a British country. When men become so low as to resort to such shabby tricks they should be hooted out of this land by self-respecting citizens.

A. W. McCune, advance agent for our new Italian colony, passed through Silverton on Friday on his way to Sandon. Mr McCune is a friend to labor in Utah, where he would like to be elected United States Senator. In British Columbia he believes in crushing union labor and working "scabs" The vote of British Columbia is of no use to him. The Union here however will see that the Utah workingmen do not have the wool pulled over their eyes by this aspiring Yankee politician.

J. Roderick Robertson, the head push of the Mine Owners Association whose mines are so poor that his company cannot afford to pay Union miners $3.50 per day, has offered to pay $4. per day to men to scab in his mine at Ymir. This same bluffer paid into the Recorder's office at New Denver $100. in cash, rather than give some poor miner a chance to earn it by doing the assessment work on, one of his claims. And this man would like to pose as a politician and a friend of the people, but business men as well as workingmen when they see the bristles can locate the hog.

BE READY.

Physic should be thrown to the dogs, but there are certain "household remedies" and "first aids to the injured" that should always be ready for use. Marion Harland explains just what they are in the first of the four volumes "Health Topics" presented to each subscriber who takes advantage of the clubbing offer for 1900 of The Weekly Globe, which has been for over 55 years, and is now, Canada's leading family newspaper, from now to January 1, 1901, with THE SILVERTONIAN, regular subscription price alone $2 00, for $2.50 and Marion Harland's latest book "Bits of Common Sense," four volumes. Sent free; postage prepaid. To take advantage of this clubbing rate subscribers must pay cash in advance. †

Father Used To Make.

Said a young and tactless husband
To his inexperienced wife,
"If you would but give up leading
Such a fashionable life,
And devote more time to cooking—
How to mix and when to bake—
Then, perhap, you might make pastry
Such as mother used to bake."
And the wife, resenting, answered
(For the worm will turn, you know),
"If you would but give up horses
And a score of clubs or so
To devote more time to business—
When to buy and what to stake—
Then, perhaps you might make money
Such as father used to make."

J. D. ANDERSON.

21 | 10 | 99.

NOTICE TO WORKINGMEN.

Owing to a reduction in miners' wages caused by the enforcement of the eight hour law, the miners are all idle and the mines have shut down. Therefore all workingmen are hereby warned to keep away from the Slocan and Kootenay country, British Columbia, until present troubles are amicably settled between mine owners and miners.
