Of The Richest Camp Of British Columbia

VOLUME THREE. SILVERTON, BRITISH COLUMBIA, SATURDAY, NOVEMBER 18, 1899. NUMBER 21

Provincial Libr

## MINE AND PROSPECT

### MINING AND LOCAL NEWS OF THE CAMP AND VICINITY.

#### THE TORPEDO.

Another strike of some importance has been made on the Torpedo claim, a ledge running parallel to that on which the tunnel is being driven having been lately discovered. This ledge lies about 40 feet from the Torpedo vein and runs parallel with it, this new ledge has been traced along the surface for several hundred feet and an open cut now being run in to it has exposed over four feet of mixed carbonate and galena ore. It is the intention of the owners of this claim to drive a cross-cut tunnel, to this new find, from the tunnel already run on the Torpedo vein, commencing at a point about 170 feet in from the mouth. This cross-cut will not need to be driven over 50 feet and will tap this new find over 125 feet deep.

#### THE ENTERPRISE.

At the Enterprise mine, on Ten Mile creek, acommodations have just been completed for 75 men. A new ore house has just been erected and the track laid from the No. 3. tunnel to the road. The wagon road, that connects the mine with the wharf at Ten Mile Landing, has been repaired and put into good condition. A small force of men are employed working on the outside and putting every thing in shape for winter. The Enterprise is, excepting the Payne, the best developed and biggest mine in the Slocan and that it should be kept closed by the mulcishness of its managers is a shame.

#### AT THE BOSUN.

The Bosun mine, which is situated about one and one half miles from town and within the Silverton school district, is making every preparation to resume operations. A fine office building is being erected a short distance below the mine, and at the mine a large two-story building 24 by 44 feet with a lean-to is nearing completion. This building is to be used as a bunk-house and boarding-house for the employees and will easily accommodate 60 men. At the mine itself everything is in first class shape and it only awaits the signal from the manager, Mr. Sandiford, to become a hive of industry and resume its place as a dividend payer and one of the heaviest shipping mines in the Lake region. The Bosun has one of the best records in this camp and has already sent out this year to the smelters 580 tons of high grade mineral, which nets the company $70. per ton. The Bosun company have a private dock of their own on the lake, which is situated about half way between Silverton and New Denver and is known as Bosun Landing. It is at this point that the company's ore house is situated and from which all shipments of ore are made.

The cable for the Wakefield tramway has all arrived and part of it has already been taken up. The total weight of the cables is nearly 30 tons, and the heaviest piece consists of a single length 1⅛ inches thick, 6350 feet long and weighing 11600 pounds.

#### SLOCAN LAKE ORE SHIPMENTS.

The shipment of ore from Slocan Lake points, up to and including the present week, from Jan. 1, 1899.

#### MINING LOCALS.

Harry Mahon, one of the largest stockholders in the Vancouver Group visited that property this week.

Mr. Fradgley, one time superintendent of the Galena Mines, has gone to Greenwood to manage a mine for the Ymir Mines Company.

F. L. Byron, under whose management the A. E. property on Red Mountain is being developed, was in town last Monday. He reports the tunnel as being in now 72 feet with every indication in the face of nearing the big ledge.

During the week most of the pipe for the Wakefield Mines has been delivered here. This pipe is to be used to conduct the water from the mouth of the flume to the mill. It will carry 400 miners inches of water with which it is expected to generate 400 horsepower to be used in driving the machinery. The length of this pipe line is 1440 feet and the pipe tapers from 30 inches in diameter at the head to 26 inches at its outlet.

On Wednesday night a piece of the wagon road, about three miles up, gave away owing to the late rains and the heavy freighting that has been going over it. A force of men were at once set to work and it is now again passable. The breaking down of this road would be a serious calamity to the camp as their is now lying in town over 200 tons of freight that must be sent over it, to our various mines, and more freight to be sent up is being delivered here daily.

#### OUR BIT OF "THE THIN RED LINE."

They have gone with a people's hopes
and prayers,
Out over the eastern brine,
To strike for the might of Britain's right,
Our bit "of the thin red line."

They have gone by danger of flood and
field,
As their brave sires went of yore,
To fight and bleed for the world's great
need,
As Britons have bled before.

To slay or be slain for the loved old flag,
In the cause of the just and true;
To stand for the right of common earth,
And the heaven's open blue.

And over our loyal land to-night,
Where the stars of our freedom shine,
From all true hearts the prayer goes up
For our bit of "the thin red line.

They have gone to fight the freeman's
fight,
For our far-off kith and kin;
Brothers of our own blood and breed,
In the fight where the right must win.

For the sacred cause of freedom's laws,
To win the glad release
Of those who tread 'neath tyrannies dread
And widen the gates of peace.

And shame on the soul on Britain's soil,
Where the stars of freedom shine,
Who will not pray in his heart to-night
For our bit of "the thin red line."

We send them forth from our 'true north'
For sacred bond and sign,
That will or ill, to the great brave end,
We are Britons from brine to brine.

And whenever the Lion's hunters are out
And danger threatens his lair,
Be the world on this side, he on that,
Canadian hearts are there.

And stand or fall, though he go to the
wall,
Canadian hearts are true,
Not only to stand for our own birth land,
But to die for the empire, too.

Yea we send them forth from our "true
north."
Sons of the Empire's might;
And alien the heart that will not pray
For our soldier-boys to-night.

Yea, traitor the heart that takes our bread
And drinks of our free sunshine;
That will not throb when the battle joins
For our bit of "the thin red line."

—W. Wilfred Campbell.

Ottawa, Oct, 31, 1899.

#### How To Cook.

Pope says:—
"The vulgar boil, the learned roast an
egg."

But if he had lived until now he would know there are twenty other ways of cooking one. Marion Harland tells them all in the volume of "Cooking Hints" in her "Bits of Common Sense Series."

This valuable book is the second of the four volumes presented to each new subscriber who takes advantage of the clubbing offer for 1900 of The Weekly Globe, which has been for over 55 years, and is now, Canada's leading family newspaper, from now to January 1, 1901, with THE SILVERTONIAN, regular subscription price alone $2.00, for $2.50 and Marion Harland's latest book "Bits of Common Sense," four volumes. Sent free; postage prepaid. To take advantage of this clubbing rate subscribers must pay cash in advance. †

#### TOO MUCH.

"If I should die to-night
And you should come to my cold corpse
and say,
Weeping and heartsick o'er my lifeless
clay—
If I should die to-night
And you should come in deepest grief
and woe
And say, 'Here's that ten dollars that I
owe'—
I might arise in my large white cra-
vat
And say, 'What's that?'

"If I should die to-night
And you should come to my cold corpse
and kneel,
Clasping my bier to show the grief you
feel—
I say, If I should die to-night
And you should come to me and there
and then
Just even hint of paying me that ten,
I might arise the while;
But I'd drop dead again."

#### ANOTHER MINERS' UNION.

One of the most interesting meetings ever called in Slocan City was held on Wednesday evening, when James Wilks, organizer for the Western Federation of Miners, and the Rev. Mr. Roberts addressed an interested audience on matters connected with the industrial question.

After a few remarks by the chairman, Mr. Roberts gave a short but interesting talk on the benefits to be gained by the working class through organization in securing for them through united action those material benefits so necessary to the moral, intellectual and spiritual welfare of man.

Mr. Wilks, the next speaker, impressed upon his hearers the necessity of organization among all miners. He is an interesting speaker, never at a loss for words to express an idea and his every sentence full of meaning. His remarks were often heartily applauded.

At the close of the public meeting an adjournment was made to the Odd Fellow's Hall, where a Miners' Union was duly formed. Thirty five new members were initiated.

The following officers were elected:
Fred G Carlisle, President;
H. L. Fife, Vice-President;
S. B. Clements, Recording Secretary;
A. E. Teeter, Financial Secretary and Treasurer.

The Slocan City Miners' Union starts under particularly favorable auspices, there being no trouble of any kind to threathen it at present, and from the past actions of the operators there there should be nothing to fear for the future. The efforts of the Union will be directed towards the securing of the fraternal benefit of the order and lending a friendly aid to the nearby Unions which are struggling for their rights.

#### THROUGH THE WEEK.

Those who had purchased reserved seats for the fireworks on Tuesday evening have a kick coming on account of the weather. The display has been postponed for 33 years.

— — —

The "Young Peoples' Paper" is a new Canadian publication intended to fill the field in Canada filled by the Youth's Companion in the United States. It is published in Kingston, Ont., and contains eight pages of matter interesting and instructive to young readers. The editor makes the astounding announcement that he wants no advertisers.

— — —

Criminal statistics are always interesting if not always agreeable reading.

Those of 1898, just at hand, contain the following figures.

The number of charges for indictable offences was 8 153, against 8.027 in 1897. Out of these, in 1898, there were 2.247 acquittals, 29 detained for lunacy, and 90 cases in which no sentence was given. The number of convictions were 5,787 as compared with 5 721 for 1897. In British Columbia the convictions increased from 322 to 513.

The cases of drunkenness have increased during the year, 10,586 in '97 to 11,259 in '98.

Out of 26 charges of murder, 4 of which were laid in this province, 11 acquittals were secured, 1 murderer was detained for lunacy, and 13 were hung. In 1897 there were but 4 executions.

Prohibitionists will find small comfort in these statistics, the immoderate drinkers forming only 33% of the convicts. In the higher offences, such as murder, manslaughter, deadly assaults etc., the immoderate drinker holds even a much smaller percentage.

#### THE LOCAL LAYOUT.

Thomas Cane is seriously ill with pleurisy.

P. Wilson of Gallagher & Wilson the Nelson law firm, was in town on Tuesday.

The Rev. Father Coute will hold Mass in Silverton next Tuesday morning at 8.30.

New Denver is looking for another football match with the Silverton Champions.

George Jackson has grown several inches since he received a telegram from Regina yesterday.

Malcolm Nicholson and Jack Bragg left on Tuesday for Greenwood in the Boundary country.

One of the carpenters at the Emily Edith mine met with an accident on Wednesday, but is again able to go to work.

DIVINE SERVICE will be held in Silverton next Sunday evening at 7.30. everyone is cordially invited to attend.—John G. Duncan, Presbyterian Minister.

The Silverton Drug Store has received a shipment of the following goods; Syrup of Horehound & Tolu, 5 Drops, Swamp Root, Sponges and Perfumes. All New Goods. †

The Foresters of Slocan City gave a very successful dance in the Music Hall last Tuesday evening. Silverton was represented at the dance by Dr C. A. Elliott.

The New Denver youths are anxious to burn powder in real guns. They wish to form a militia corp and the names of forty applicants for uniforms have been handed in.

J. W. Kyte left on Thursday for a visit to his old home in the east. He will spend some time in Michigan and expects to be back in Silverton about the first of next May.

Charles Faas, one of Silvertons old-timers, is spending a few days in town. Mr. Faas is now located in Creston being a member of the firm of Faas & Crawford of that town.

All work in the Jewelry Repairing line, left at the Silverton Drug Store, will be promptly forwarded to Jacob Dover the well-known Nelson jeweler. All repairs are GUARANTEED FOR ONE YEAR *

The shareholders in the Noonday-Curley Mines, Limited, held their first annual meeting here this week. A motion approving of the action of the directors was passed and the same board of directors was reelected for the coming year.

The musical meeting of the Literary Society, held on Wednesday evening, was a decided success, reports the Secretary. Several papers on musical subjects were read and instrumental and vocal selections given. Two new members were enrolled.

The first boy born in Silverton arrived at the home of William Barker last Monday. The biggest, finest boy in the Slocan, Bill says, and he ought to know. This event is the foundation for the rumor that the Vancouver mine was importing men. But this new arrival will no doubt be a member of the Miners' Union before he undertakes to pound steel in any of our mines.

The Rev John G. Duncan has been selected by the Presbyterian church to look after the spiritual needs of this church district, which extends from here to the Halcyon Springs Mr Duncan arrived here last week and has decided to make his headquarters in Silverton. His last station was in Fernie, he having spent three years in East Kootenay, coming there from Scotland.

#### READY FOR THE CENSUS.

BORN: In Regina, Assa, on the 17th inst, to the wife of George A. Jackson, of Silverton, a daughter.

BORN: In Silverton, on Monday, Nov. 13th, to the wife of W. J. Barker, a son.

#### WHO SAID MONEY WAS TIGHT?

The citizens of New Denver have suffered from many fakirs. The townsite man got his graft in a few years ago, there are three churches in the town and a newspaper bunco man has been living there for years. But until a few days ago they had something more to learn. Now they have graduated. There was a stranger with winning ways there on Thursday. Now hotel keepers in the metropolis are smoking $10. cigars, every man in town wears a tin watch and there is a glut in the paste diamond market. In the words of the poet "they bit like a bass." Born speculators, cigars at $10 per offered a safe field for investment. But what cramps the most was the Professor's promise of a red-hot supper—onions and red peppers—for the boys—when he returned.

**A Complete Review of the Events for the Past Week in This and Foreign Lands—Summarized From the Latest Dispatches.**

The transport St. Paul has reached San Francisco, after a rough passage of 21 days from Nagasaki. She had but 11 passengers, including several discharged soldiers.

Sunday school teachers of the Mississippi valley states recently had a conference to teach the children lessons from the Bible.

The tenth annual meeting of the Iowa Library Association met in Cedar Rapids, Ia., with about 100 librarians in attendance, representing all the large libraries in the state.

The bark Katie F. Troop is loading 1,000,000 feet of specially selected timber at Vancouver, B. C., for the Cramps of Philadelphia, to be used in building United States ships.

The board of trustees of the home for children and aged women, Minneapolis, Minn., has received from ex-Governor and Mrs. John S. Pillsbury the sum of $100,000, to be invested in a permanent fund, the interest to be spent towards the maintenance of the institution.

The Russians are marching toward the Afghan frontier.

The general arbitration treaty between Paraguay and Argentina has been signed.

George W. Kern, of Allentown, Pa., proprietor of a hotel, shot himself and wife in a fit of anger.

R. M. Robinson, a prominent merchant of Dunlap, Tenn., was shot recently and robbed of $3500.

Jack Moffat, the Chicago middleweight, won an easy victory in Chicago over Frank Purcell of California.

Dave Sullivan and Joe Bernstein fought a 25-round draw tonight at the Broadway Athletic club last week in New York.

Chester La Vere and Kid McCloskey fought before the Butte Athletic Club. La Vere had the best of it from the start and got the decision.

"Mysterious Billy" Smith defeated Charley McKeever of Philadelphia in a 20-round bout at catch weights at the Broadway Athletic Club, New York.

Colonel Arthur L. Wagner, adjutant general of the department of the Dakotas, has left for the Philippines, where he has been detailed for service.

The president has appointed former Governor Joseph W. Fifer of Illinois to be a member of the interstate commerce commission, vice W. J. Calhoun, resigned.

The whaling bark Anna Hicks has arrived at San Francisco from the Okhotsk sea with 9,500 pounds of whalebone, 615 barrels of whale oil and 47 barrels of sperm oil.

Communication with the eastern parts of Jamaica, particularly the section beyond the line from Morant bay to Port Antonio, inclusive, was recently visited by a hurricane.

At Plano, Cal., Reese Martin was shot and killed by his 19-year-old son, Frederick. The young man accused his father of striking his mother. He claims that he acted in self-defense.

Brass bullets are being used by the Filipinos against the Americans. That fact was discovered when a bullet with a brass casing was extracted from the leg of a soldier at the Polyclinic hospital in New York recently.

Brigham H. Roberts of Utah is to sit as a member of the house of representatives in congress, but only for a month, and he is not to be unseated because he is a polygamist. He is to resign after being sworn in.

The safe and office furniture of the Melvern bank of Melvern, Kan., was demolished by an explosion of dynamite touched off by robbers, who then looted the place, securing $600 in money and several thousand dollars in notes and checks. They escaped, leaving no clue.

As the result of an investigation conducted by an anti-Quay newspaper five men, all residents of the city of Washington, are held in bail for court on charges of repeating, impersonating election officers and making fraudulent returns.

The Italian bark Salvatore has arrived at Gloucester from Trapani, Italy, with Capt. A. T. Dyer and the shipwrecked crew of seven men of the schooner William E. Downes, of New Haven, bound from Savannah to New Haven with lumber.

A counterfeiting outfit and safe blowing tools were unearthed by the police at No. 216 Huron street, Chicago. Mr. and Mrs. Harry Fay, the occupants of the flat, were arrested and the police believe they have broken up a gang of desperados that have become exceedingly lively in Chicago of late.

John B. Sherman has tendered his resignation as president of the Union Stock Yards and Transit Company, to take effect January 1. For 34 years Mr. Sherman was an officer of the corporation and for 33 years of this time its directing genius.

A syndicate of American, English and German bankers have about perfected arrangements with the government of Guatemala to advance to that country $15,000,000 for the purpose of relieving it of its debts and placing the country on a firm financial basis.

The four soldiers who were sentenced to death at Manila now stand an excellent chance to save their lives. Irregularities have been discovered in the proceedings of the court-martial which will require correction in the first instance at Manila, if indeed, they do not bar the death sentence entirely.

The situation in the coal mining fields in the southern and western sections of Illinois has taken a serious turn, and it is said that many of the mines may be tied up, as a result of the continued action of operators in sending coal to points west and southwest where the miners are on strike.

Three tons of dynamite were stored in the hold of the little Salvadorian steamer Maule, which sailed from San Francisco on September 30 for El Triunfo by way of San Diego. The vessel has not been heard from since. Shipping men are of the opinion that the dynamite exploded and that the vessel was destroyed.

Governor Richards of Wyoming has issued a request to the governors of the arid states and territories to hold a meeting at Salt Lake City, December 14, to formulate plans of legislation to be submitted to congress looking to leasing grazing lands in the west to stockmen and ranchers, the rentals to be devoted to building irrigation works for the reclamation of lands susceptible of cultivation.

### IDAHO.

Ex-governor McConnell, after an absence of several months, is home again.

Building operations still continue active, with the prospects favorable for continuing well into the next year at Lewiston.

Nineteen families of Iowa people last week arrived in Moscow. They will locate on farms in the fertile Palouse country.

Lewiston parties will ship a train load of beef cattle from this point this week. The train will consist of 24 cars and is bound for Seattle.

Lewiston merchants have contributed a fund to make a test case of the right of the county authorities to collect a general road tax on city values.

The Norma last Sunday made a second trip to Wild Goose Island. Fifty tons of freight was carried on the trip. The freight was principally miner's supplies. About 20 passengers made the trip.

The ducks are unusually numerous this year around Hailey, but they are already wild because they have been shot at so much. Deer are also said to be more plentiful than usual this year. This, old-timers say, indicates an early winter.

When the convicted miners, who are Dennis O'Rourke, Arthur Wallace, Henry Maroni, John Lucinetti, C. R. Burres Francis Butler, Ed. Abinola, P. F. O'Donald, Mike Malvey and Louis Salla reach the prison in California, they will enter for a 22 months' confinement.

The dormitories at Lewiston are almost ready for occupancy. The girl's dormitories will be filled at once, but many of the young men will not make any changes. The dormitories will accommodate about 75 students. The present enrollment is about 139. It is expected that the enrollment will reach 200 this year.

A. T. Scheible has left Lewiston for his coal lands on Rapid river. These lands are about 85 miles from Lewiston, and the P. & I. N. R. R. will run in close proximity to these valuable lands. The surface croppings show a vein of about 12 feet in thickness. The coal is considered by experts to be of a first-class quality.

A sad death occurred two miles west of Nez Perce last week. Granville Siler was seriously hurt by a team running away. The horses threw him to the ground and two wheels of the wagon struck his head. Yesterday he was taken worse and died to day. He came here at the opening of the reservation and was a hard working man. He was a native of Kentucky. He resided near Rosalia several years before coming to the reservation. He leaves a wife and three small children to mourn his untimely death.

### A Train Wrecked.

Toledo, Ohio, Nov. 11.—Michigan Central train No. 310, from Toledo to Detroit, was ditched between Alexis and Vienna, Mich. Three persons were seriously injured. They were:

John McKay, Indianapolis.
John O'Neil, Detroit, fireman.
William Hamilton, engineer.

Ten other persons were painfully hurt, and 10 or 20 otherwise badly shaken up.

William Hamilton, the engineer, was thrown through the window of his cab, and though perhaps fatally injured he retained sufficient presence of mind, when he recovered from the shock, to hurry to his engine and draw the fire, thus preventing an explosion.

The accident was the result of a deliberate piece of work by unknown train wreckers and happened at a point just beyond a short trestle.

### Bank Wrecker Sentenced.

Northampton, Mass., Nov. 11.—In the superior court Louis Warner, aged 60, who wrecked the Hampshire County National bank and the Hampshire Savings bank by embezzling $500,000, was sentenced to a term in state prison, not more than 12 nor less than nine years, the first day to be in solitary confinement.

### McCoy Won.

Buffalo, N. Y., Nov. 11.—Kid McCoy knocked out Jack McDonough of St. Paul in the fourth round of what was to have been a 20-round go at the Hawthorne Club Annex. The men fought at catch weights. McCoy outfought and outpointed McDonough at every stage.

### Gold in Siberia.

Seattle, Nov. 11.—According to Colonel C. M. Sheafe, who is just back from Cape Nome, the gold belt of that district extends across Bering sea and into Siberia. Colonel Sheafe says reputable miners insist that there is no doubt as to the truth of this assertion.

Public schools cost Berlin $3,000,000 a year.

# REPORT OF ENGLISH VICTORY

## DEFEATED AT LADYSMITH.

**Runners Bring Report of a Severe Disaster to Boers—Guns Were Silenced—Col. Schiel Admits the Situation Is Better From an English View.**

London, Nov. 14.—A special dispatch from Durban, dated Thursday evening, says:

"Native runners who have just arrived here from the Drakensburg district report the Boers suffered severe defeat at Ladysmith this morning. The Boer guns were silenced after four hours' fighting, during which the Boer losses were heavy. No details received."

The war office published the following dispatch from General Buller:

"Cape Town—Sunday night—The following reports have been received from Colonel Baden-Powell:

"Mafeking, Oct. 30.—All well here. Enemy is apparently shy of attacking, but is now closing to invest us. They are today destroying the railway 12 miles north with dynamite. Shelling is continued, but doing very little harm.

"October 31.—Enemy attempted an assault today on the southeast corner of the town. The attack was most brilliant notwithstanding hot shell fire by British and South African police under Walford. The enemy lost heavily. Our casualties were five killed and wounded."

### Railway Notes.

The new grade of the Great Northern in the vicinity of Trinidad will be about 15 miles in length. It will take two months to complete it ready for traffic.

The Great Northern will inaugurate its new short line service between the Twin Cities and Duluth, beginning on Sunday. Trains will be run via the Brook Park cutoff, which has just been completed.

James J. Hill, of the Great Northern, is reported to be interested in the syndicate which recently purchased 1,000,000 acres of timber land from the Northern Pacific.

Already the snow plows have been brought into service on the North Pacific transcontinental lines, and travel has been interrupted to a limited extent. However, the roads nearly all are agreed that they do not expect much trouble from blockades this winter.

Workmen on the line of the Washington Central have been laid off and all work has been suspended by the Northern Pacific, which is regarded as almost conclusive that an arrangement has been made with the Great Northern to operate this line in exchange for track privileges accorded the Northern Pacific, but the terms of the arrangement are withheld until negotiations are fully completed.

### Battle With Bandits.

Titusville, Pa., Nov. 14.—Three masked robbers blew open the safe at the D. A. V. & P. railway ticket office, but secured only about $420.

The bandits then went to a disorderly house and on entering presented their revolvers and proceeded to relieve the proprietress and inmates of what valuables they had, amounting to $1000 worth of jewelry and $500 in cash.

Chief of Police McGrath and Officer Sheehy attempted their arrest. A pitched battle ensued, in which about 20 shots were fired. Three struck McGrath, one in the abdomen and two in the left shoulder. Officer Sheehy was shot in the mouth, the ball passing through the side of his neck and inflicting a dangerous wound.

In the confusion the robbers escaped. Later the dead body of one robber was found near the scene of combat with a bullet through his breast.

### Parades Surrendered.

Washington, Nov. 14.—Both the state and navy departments have received reports concerning the surrender of Parades, at Puerto Cabello, Venezuela. The state department dispatch is from Minister Loomis at Caracas, and is as follows:

"After eight hours' fighting Castros' army took Puerto Cabello this morning. Killed and wounded aggregate 300. Surgeons and hospital corps from foreign cruisers attended wounded. Local facilities inadequate. Castro holds every port and place of consequence in Venezuela."

### Montana Man Killed.

New York, Nov. 14.—The body of a man supposed to be that of John W. Taylor, a cattleman of Livingston, Mont., was found floating in the Hudson river, off Hoboken. There are a number of wounds on the back of the man's head. The body has been in the water about eight days. Detectives think the man was killed for the money he was supposed to have carried.

### Hanged by an Indiana Mob.

Indianapolis, Ind., Nov. 14.—The Scottsburg lynching case, which promises to be a cause celebre in the criminal annals of Indiana, was called for trial before Judge Baker of the United States court. This is the case in which the father of Marion Tyler brought suit against Sheriff James F. Gobin of Scottsburg and his bondsmen for not properly protecting his son from a mob that lynched young Tyler.

### Died From Wounds.

Wallace, Idaho, Nov. 11.—Frank Cook, the man who was shot while quarreling with his wife in the dance hall last week, is dead.

### Dewey Is Married.

Washington, Nov. 11.—By the most simple of ceremonies Admiral George Dewey, U. S. N., and Mrs. Mildred Hazen of Washington were made husband and wife.

### WASHINGTON.

The disappearance of the little Inman girl remains a profound mystery.

A company has been formed to take hold of the coal mines near Morton, Lewis county.

Business of the Walla Walla land office for October was the largest of any month of the year.

The Chinamen of Walla Walla contributed nearly $300 for the reception of the Washington volunteers.

A rumor is afloat that the Port Townsend Southern railway may be absorbed by the Port Angles Eastern line.

All the Northern Pacific lands in Western Washington have been withdrawn from the market for the present.

The city of North Yakima has proved up on the 160-acre tract in the disputed part of the southeast end of the town.

Fred Carpenter and a young woman, going home from a Yakima church, were followed by a wild cat, which was killed by Carpenter.

Good progress is reported on the improvements under way on the state hospital for the insane at Steilacoom. All the roofs are on.

A petition was presented by the citizens of Everett to the city council of that place, asking for Sunday closing of all classes of business.

Near McMurry, Skagit county, Floyd Ringbone, 21 years old, was accidently shot and killed by his cousin, Fred Bowlen, while hunting.

Wednesday afternoon, freight train No. 15, north bound, on the Spokane Falls and Northern, ran over a cow and the engine was derailed 6 miles north of Springdale, killing two men. The dead are: John B. Connelly, fireman; Bert Smith, brakeman.

A water company is being formed at Meyers Falls for the purpose of supplying the town with water from the spring on the mountain side north of town.

E. Wheeler, an old-time resident and well to do business man of this place, was killed a few miles from Latah. He fell from a wagon, breaking his back and receiving internal injuries from which he soon died.

The fall weather has been and is still all one could ask, and in consequence every farmer has been able to get his fruit off in good shape and his fall work attended to, thus ending one of the most prosperous seasons the Wenatchee valley has ever known.

The wagon road across the river at Palouse city has been rebuilt, a new center span being built. The bridge had become unsafe and for a time it was necessary to ford the river. The new span makes the bridge stronger than it has been for several years.

While at Seattle attending the reception given the First Washington volunteers, Gov. Rogers had a conference with the officers of the National Guard of Washington, there present to the number of nearly thirty. Governor Rogers will at once issue an order reorganizing the guard.

Shingles are scarce in Colville and the price is going up. No shingles can be had on the coast, and the supply is limited to Spokane. This condition will necessitate the erection of shingle mills in the timber belts of the Colville valley, and once established, the making of shingles will grow to be a lively and profitable industry.

### Driven Out of Japan.

New York, Nov. 13.—Representatives of the mission societies of the Congregational, Methodist Episcopal, Reformed, Baptist and Presbyterian churches met in this city to consider the recent action of the Japanese government which prohibits religious teaching in the schools of Japan. Secretary Cobb of the Reformed church presided.

It was stated at the meeting that the Japanese government must either recede from its position or the missionary boards of America and Europe must abandon their educational work in that country.

Action was taken especially in behalf of those private schools in Japan which are dependent upon governmental support for their success. The belief was expresed that when the Japanese government is petitioned by all the missionary societies in the Union the schools founded on private funds will be permitted to conduct religious ceremonies.

The present condition was pronounced by all as critical.

### Gen. Miles at the Presidio.

San Francisco, Nov. 14.—Major General Miles reviewed the troops at the Presidio and left for the south in the afternoon. He said to a reporter:

"I shall visit Los Angeles and San Diego inspecting the fortifications there. In all probability I shall stop off at Tucson, Ariz.; Galveston and New Orleans on my way east."

### Waits for Congress.

New York, Nov. 14.—A special from Washington says: President McKinley will tell congress of his intentions to appoint civil governors of Cuba and Puerto Rico and may even wait for congressional action before announcing the appointments. This statement is made on the authority of a member of the committee on foreign relations who had just talked with the president on the subject.

### A Robber Shot.

Chicago, Nov. 14.—The body of the supposed robber who was shot dead by Claude B. Giles, a police operator, was identified as Frank Doyle, a brother of John Doyle of the firm of John Doyle & Co., wealthy contractors.

### Belated Ship in Port.

San Francisco, Nov. 14.—The ship Cyrus Wakefield on which 20 per cent reinsurance was paid a few days ago has arrived, 221 days from New York.

Woolen industries of England are combining, as are the calico mills and similar establishments.

# AGUINALDO CLOSLY CHASED

## HIS SECRETARY WAS CAPTURED

**Rebel General Captured—A Correspondent Says Aguinaldo and His Army Is Surrounded—They Are Suffering From Diseases.**

Manila, Nov. 14.—General Young is supposed to have reached San Nicholas, about 30 miles east of Dagupan, but his wagons are far behind.

Colonel Hays has captured Aguinaldo's secretary and Major Coleman is in Carraglan with an escort of 175 Bolomen on his way to the province of Nueva Visaya.

A son of General Llarneras and his family are prisoners. The general barely escaped.

The correspondent of the Associated Press with General Young telegraphs from San Jose that Aguinaldo did not escape to the northwest.

He and his army, the correspondent adds, are surrounded.

His last orders to the Filipino commander at San Jose were to hold San Jose and Carragian at all costs.

The recent encounters were too one sided to be called fighting. The insurgents are mortally afraid of the Americans. However strong their position, they make but a brief and feeble resistance and run when the terrible American yell reaches their ears, whereupon the Americans pursue and slay them. The moral effect of the news that 60,000 troops are on their way here has been unquestionably great.

The insurgents are suffering more from disease than from Americans, owing to poor food, lack of medicines and a filthy hospital, with the result that there is great mortality among them.

General Lawton has intercepted a telegram from an insurgent captain to a Filipino general reading:

"How can you blame me for retreating when only 12 of my company were able to fight?"

### A Free Fight.

Flagstaff, Ari., Nov. 14.—One white and five Navajo Indians killed, two whites and one Navajo wounded, two whites sult of an attempt of a deputy sheriff to arrest a Navajo, 10 miles south of Walnut Station. On November 6 a band of Navajos, who were hunting on Canyon Padre, below Anderson Rim, in this county, held up William Montgomery, a cowboy in the employ of William Roden, a cattleman. They accused him of stealing horses and threatened to kill him. He came to Flagstaff and obtained a warrant for their arrest and with Deputy Hogan left to make the arrests. At Roden's camp they were joined by William Roden and Walter Durham, who went along to show the deputy where the Navajos were camped. Arriving at the camp the party dismounted, anticipating no trouble. Hogan attempted to execute the warant and entered a brush corral, where four Navajos were, when the Indians made resistance and a shot was fired at Hogan, striking him in the back, he at the time being in a tussle with one Navajo who was trying to shoot him. Hogan drew his pistol and killed his antagonist. The fight became general and ended when the ammunition of the white men was exhausted. The result is that five Navajos are dead and one wounded. Montgomery was shot through the heart. Hogan was wounded three times but not seriously.

### Explosion Killed a Man.

Santa Cruz, Cal., Nov. 14.—An explosion occurred in the glazing house of the California Powder mills. Four cylinders containing 16,000 pounds of powder exploded. A small amount was fuse fuse powder and the rest blasting powder. The explosion wrecked the mill, blew down miles of fencing, destroyed the saltpeter warehouse, broke panes of glass in Superintendent Peyton's residence, some distance away, and extinguished the electric lights in Santa Cruz. Hughes, a night watchman, was killed. His body was found tonight. No cause for the explosion is learned.

### Record at Rifle Shooting.

Denver, Nov. 14.—A record at rifle shooting, which it is believed, stands unequalled, was made at the regular meeting of the Denver Rifle Club. C. C. Ford scored 190 out of a possible 200 on a 500-yard range with the regulation target for that distance. The record was made from 40 shots. Ford scored eight bullseyes, then put the next shot in the circle immediately outside the bullseye, following this with 31 consecutive bullseyes. The latter is the remarkable feature of the record.

### Bicycle Records Broken.

Chicago, Nov. 11.—The quarter mile paced record was broken twice at Garfield Park. Eddie McDuffee, in the face of a stiff breeze, clipped 1 1-5 seconds from the record of yesterday, making the new mark of 20 1-5. A few minutes later Major Taylor, the colored rider, went the distance in 20 seconds flat.

### Trouble for Japan.

London, Nov. 14.—A special dispatch from Shanghai says that the differences between Russia and Japan have been accentuated by Japan's refusal to grant Russia a foothold on the sea front of Masampo harbor in Korea.

### Request of Union Labor.

Chicago, Nov. 11.—Union labor in Chicago has determined to ask the city council to pass an ordinance denying police protection to all non-union men who continue to work on a job which has been "struck."

Private O'Brien, Troop E., Sixth cavalry, died in Wallace last week.

### November Agricultural Report.

The November report of the statistician of the department of agriculture will give 25.2 bushels as the average yield per acre of corn, according to the preliminary returns of the department's correspondents. The preliminary estimate last year was 24.8 bushels; that of 1897, 23.7 bushels, and the mean of the preliminary estimates of the last 10 years, 24.0 bushels. The indicated yield per acre in the principal corn states is as follows: Pennsylvania, 31; Ohio, 34; Indiana, 37; Illinois, 35; Iowa, 31; Missouri, 25; Kansas, 29; and Nebraska, 27 bushels.

The preliminary estimate of the average yield of buckwheat is 17.2 bushels per acre, against 17.3 bushels last year and 20.7 bushels in 1897. The averages in New York and Pennsylvania, the two states of principal production, are 15 bushels and 20 bushels per acre respectively.

The estimated averagze in the condition of potatoes is 88.7 bushels per acre, as compared with 75.2 bushels last year, 64.6 bushels in 1897, and 75.2 bushels, the mean of the preliminary averages of the last 10 years.

The estimated average in the condi- hay at 1.35 tons per acre, as compared with 1.55 tons last year, 1.42 tons in 1897 and 1.27 tons, the mean of the preliminary averages for the last 10 years.

There is a decided decrease in the rate of yield throughout the eastern, east central, southern and Rocky mountain states; in fact, it is only in Kansas, Nebraska, South Dakota and North Dakota and the Pacific states that the yield per acre exceeds that of last year.

The usual report on the wheat crop will probably be made on December 10, by which time the department will be in possession of the results of a special investigation now being made in the principal wheat states.

### Alimony Diminished.

New York, Nov. 14.—Jennie Coleman, who said she was once the wife of "Lucky" Baldwin of California, and who committed suicide by swallowing carbolic acid, came east five years ago and has made her home in the upper part of the city. She became despondent during the last few months and frequently referred to the "good times" of days gone by. She drank carbolic acid.

### Rate War On.

Seattle, Nov. 11.—As an introduction to a local rate war between the three transcontinental lines begun this morning, first and second class tickets to Chicago and Atlantic coast points dropped $6 in one day. The trouble began through alleged rate cutting by the Great Northern.

### Anarchists' Sad Holiday.

Chicago, Ill., Nov. 13.—The 12th anniversary of the execution of the Haymarket anarchists, Waldheim cemetery, where the men who were hanged are buried, was visited by several hundred friends and simple commemoration ceremonies were held.

A curious feature of cycling, which seems to be confined practically to the northern midlands of Great Britain, is the hill-climbing competition.

# Kaslo & Slocan Railway.

TIME CARD.

Trains Run on Pacific Standard Time.

| Leave. Going West. | Daily. | Arrive. Going East. |

ROBERT IRVING, Manager,
Kaslo, B. C.

# MINES AND MINING NEWS

## OUR NORTHWESTERN MINES.

**Items Gleaned From the Late Reports—All Districts Are Being Developed—A Prosperous Year Is Predicted—Mining Notes and Personals.**

In spite of the most stringent Russian laws on the subject—the taking away of gold without government consent—there is an enormous business done all over Siberia in gold, both dust and, especially, nuggets stolen from the workings. It is a criminal offense to be found in possession of gold, but as so large a proportion of the population of Siberia consists of those sent there for punishment, and the only further punishment, and the only further punpunishment they have to fear is deportation to some yet more distant region of the same barren and joyless land, the deterrent is by no means so formidable as a mere perusal of the awful menaces of the statutes at first sight seem to convey. Moreover, the successful dealer in stolen gold rarely fails to escape the penalties of his offenses, even when caught red handed.

**Republic.**

The whim on the Gopher has been removed to the new shaft.

The machinery at the Tom Thumb is working all right again.

The Quilp is shipping a carload of ore to Norris, Mont., for treatment.

Two carloads of Mountain Lion machinery have arrived at Grand Forks.

The compressor plant on the Zella M., at Sheridan, is said to be doing good work.

The repairs for the whim on the Little Chester, in Sheridan camp, have reached their destination.

The Rebecca mine on the South Half of the Colville reservation has begun to ship ore.

The great Hillside property is being developed by a tunnel. It has one of the largest surface showings in the camp.

The Tom Thumb is said to be constantly improving.

The San Poil is looking as well as it has at any time and the fine ore body does not diminish.

The Blacktail's immense ore bodies are said by Superintendent Crummer to be looking fine.

There is no change in the Flag Hill. The winze is being sunk about one foot per day.

The Delta shaft is showing up some fine ore and there is plenty of it. When the whim is in place better progress will be made.

Matters are progressing favorably at the Butte & Boston, where surface work is being done.

The tunnel to cut the main ledge on the North Star is being pushed along at a fairly good rate.

Work is to be resumed upon the Liberty claim in Republic under the direction of H. H. Wilmot.

There is a move on foot to start up the Lake View. The property lies northwest of the Morning Glory about half a mile.

The Marietta is a fine looking prospect, a short distance north of the Lake View.

The custom mill is a sure go. Manager Lansing expects to have it running in ninety days.

The big ore body in the Republic is still improving, not in size but the ore is more solid than it has ever been before. The more it is explored the greater it becomes.

Men have been employed in developing the Yuma for some time. Some ore can not be told from that in the Tom Thumb. The ledge has an immense surface showing similar to the Tom Thumb.

**British Columbia.**

One hundred and fifty men are working at the Granby smelter, and excellent progress is being made. The sampler-frame is almost built and the brickwork of the flues, dust chambers and stack is well on toward completion. The spur track by which the ores will be carried to the smelter leaves the main line a little to the west of Columbia, river at a point near the dam. The ore cars will dump their contents 20 feet above the sampler bins, which are the highest points in the smelter.

The exports of silver-lead ore from Kaslo last month reached 901,000 pounds, valued at $42,058, the lead exports totaled 490,410 pounds and the zinc 653,041. The gross value was $68,180.

Work is being done in the San Juan and Jordan river districts, Vancouver island. The San Juan Mining & Development Company has let a $1,000 contract and expects to be shipping in the spring.

The ore shipments from the Slocan for October show a decrease of 1,187,890 pounds as compared with September. This is accounted for by the Lucky Jim mine having laid off a number of men. The number of pounds of ore shiped last month was 1,061,000.

Two shifts are employed on the Granite and Banner, at Camp McKinney. At the thirty-foot level twelve feet of solid ore has been opened without striking the foot wall. The quartz is mineralized with copper pyrites, galena and an occasional sprinkling of free gold. As soon as the vein is cut sinking will be resumed. The stamp mill is running day and night.

The Iron King group on Evans creek, on the west side of Slocan lake, has passed under the control of Mr. Bruce White and his associates.

The ore shipments last week from Rossland exceeded 6,000 tons, marking the record week of the camp to date. The average daily output was above 870 tons.

"We shall at once put a crew of six men at work on the Giant at Rossland, under the management of Nicholas Tregear," said Mr. Saunders. "The bond which Colonel Ridpath, Senator Turner and myself secured on the Coplen holdings of 1,270,000 shares out of the capitalization of $2,000,000, will give us possession of the Giant for six months and in that time we hope to find out whether or not it can be turned into a mine. Should the surface work now in progress seem to justify the installation of a compressor, we shall put up a three-drill plant."

F. M. Chadbourn, ore buyer for the Hall mines smelter, Nelson, B. C., was in Grand Forks recently with the object of making contracts with mine owners.

It is expected by the Rambler-Cariboo management to work about 100 men during the winter.

It is asserted that a number of British Columbia mine owners at Sandon are breaking away from the Lead Mines Association and will open their mines independent of the association.

An important strike has been made on the Hewitt claim, near Silverton, B. C. A ledge from five to ten feet wide and over three-quarters of a mile in length has been found.

The vein on the Morrison, in Deadwood camp, B. C., at a depth of 220 feet, is 96 feet wide, and drifting east and west will be pushed with vigor.

Free milling ore was recently struck in the shaft of the Jennie May, a claim in the same vicinity.

A portion of the new compressor plant and engines for the B. C. mine in Summit camp has arrived and will be installed at once.

News has been received from Summit camp that a large body of ore has been encountered in an 80-foot drift running from the 220-foot level to the Oro Denero. This drift will be continued with the expectation of striking three ledges that have been opened on the surface. An aerial tram is to be built from the Gold Bug to the Canadian Pacific railway spur.

Evidently the difficulties of the Evening Star management at Rossland have been adjusted, for work has been resumed at the mine.

The Ymir mine has fifty seven men at work and is producing enough ore to keep its ten-stamp mill running continuously.

**MINING NOTES.**

An important decision has been handed down by the Supreme Court of Utah of mining locations. The judgment holds that the decsriptions need not be absolutely exact. The case was that of the Farmington against the Rhymney company.

The Deer Trail Mining Company of Spokane has declared the regular monthly dividend No. 18, of a quarted cent per share, or $2,500 in all. This makes a total of $45,000 paid in monthly profits of a quarter cent per share by the present company. The payment will be made Nov. 25 to stockholders of record November 20th.

A Montreal syndicate has secured the Coruncopia group of mines in Eastern Oregon. While definite figures are not made public, it is known that the property is in the immediate vicinity of $750,000. The Montreal syndicate chose to make the deal quietly, and the identity of the parties who are prominent in it is concealed from the public. London capital is at the back of the deal.

Thirty-two thousand dollars in gold, representing the monthly output of one mine and 30-hours' mill run of another arrived in Sumpter, Ore., one day last week. One hundred pounds, or approximately $20,000 of the yellow stuff came from the Red Boy mine, 18 miles west of Sumpter, and represents the regular monthly clean-up. The Golconda, owned by John T. and J. G. English, and situated seven miles from Sumpter, Ore., sent in $12,000 in free gold. This sum was obtained in exactly 30 hours run of the new No. 4 Bryan mill, just installed.

Copper brokers, smelters and miners all agree that the marvelous increase in the demand for copper metal that has developed during the last year is going to continue. The mines of the world are not producing anywhere near as much copper as is needed to carry on the tremendous electrical improvements that are in progress. The United States is the great copper producing country of the world. The average production of the United States for some years past has been in the neighborhood of 20,000 tons per month. At the present time there is not a ton of free copper in the country. That is to say, all the copper that has been produced up to the present time is now in the process of manufacture. in the country produced during the six in the countdy produced during the six months of the year 124,487 tons.

**Marines Go to Guam.**

San Francisco, Nov. 13.—The naval hospital ship Solace has sailed for Honolulu and Guam. She has aboard 300 marines for Guam and 150 sailors for the fleet at Manila besides 25 officers. There are also over 1000 tons of supplies for the fleet.

**Tea Poisoning.**

Victims of tea poisoning are becoming alarmingly prevalent. Women demand the life and variety of Health, and instead of doing it naturally by building up their system they resort to tea. They should take Hostetter's Stomach Bitters. It tones up the nerves, regulates the bowles and cures dyspepsia.

Japanese theaters have their boxes so arranged that the ladies can change their dresses, as it is not considered stylish for a lady to appear an entire evening in one dress and with the same ornaments.

**Beware of Ointments for Catarrh That Contain Mercury.**

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c per bottle.

Hall's Family Pills are the best.

**New Job for His Lordship.**

London, Nov. 13.—Lord Strathcona and Mount Royal high commissioner of Canada has been elected rector of Aberdeen university without opposition.

The Methodist Church Extension Society has furnished aid to build churches at the rate of two a day for several years.

All the brewery workmen of Pittsburg and Allegheny have seceded from the K. of L. and gone into the A. F. of L. An effort will be made to secure the adhesion of the Philadelphia and New York brewers also, when the national union will be solidly organized.

**SHAKE INTO YOUR SHOES**

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for Ingrowing Nails, sweating, callous and hot, tired, aching feet. We have over 30,000 testimonials. Try it *today*. Sold by all druggists and shoe stores. By mail for 25c. in stamps. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

John Stephens of New Albany, Ind., is 98 years old, and is still in official harness, being deputy sheriff of Floyd county. At present he is doing duty as bailiff in charge of the grand jury. He is the oldest active politician in the state, and perhaps, in the United States.

5 DROPS

The Pleasantest, Most Powerful and Effective Neverfailing Remedy for

*La Grippe, Catarrh, Rheumatism.*

TRADE MARK Will cure any ache or pain known in the human body. Send for trial bottle, 25c. This offer lasts 30 days only. Large bottle (300 doses of 5 DROPS each) $1.00 or 3 for $2.50.

**SWANSON RHEUMATIC CURE CO.**
167 and 169 Dearborn St., Chicago.

The Outlook gives as one reason for an over supply of clergymen in any chruch that many theological students are too lazy or too unwilling to undertake any kind of work, and that some are unfit for most work.

**TO CURE A COLD IN ONE DAY.**

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

The historic Villieres pecan tree, near New Orleans, never bore fruit after General Packenham was wounded and afterward buried beneath it.

WANTED—ACTIVE AGENTS IN EVERY county seat for our Gas Lamp. Makes its own gas. Better light than electricity or Welsbach city gas. Cheaper than kerosene. Retails $5.00. Big money maker. STANDARD LAMP COMPANY, Dept. B, Chicago.

The most curious paper weight in the world is said to belong to the prince of Wales. It is the mummied hand of one of the daughters of Pharaoh.

**Fence and Iron Works.**

PORTLAND WIRE & IRON WORKS; WIRE and iron fencing; office railing, etc. 234 Alder.

Barbed wire fences are used extensively in South Africa, and most of the material is imported from the United States.

**Aguinaldo Located.**

Washington, Nov. 11.—The war department definitely located Aguinaldo today as on his way to Bombang, about 75 miles northeast of Tarlac. The recent calculations have been that the insurgent leader was at the town of Bayambang, not far from Tarlac, in which case the several forces under General MacArthur, Generals Lawton, Young and Wheaton would have had him practically surrounded. There has been some doubt, however, as to the name Bayambang, and today this was cleared up by definite information fixing Bombang, instead of Bayambang, as the place of Aguinaldo's refuge.

**Found Poole Guilty.**

Colville, Nov. 13.—The trial of Albert Poole has at last been ended. After a lapse of over two months from the time of the commitment of the crime the jury returned a verdict finding him "guilty as charged," of assault with intent to commit murder.

**Last of the Volunteers.**

San Francisco, Nov. 13.—The transport Indiana, bearing the Tennessee volunteers, the last of the returning volunteers, has arrived in port. On board the Indiana are 43 officers and 606 enlisted men of the Tennessee regiment, 25 discharged men and 101 military prisoners.

Two bottles of Piso's Cure for Consumption cured me of a bad lung trouble.—Mrs J. Nichols, Princeton, Ind., Mar. 26, 1895.

The Icelanders will not burn ash for firewood because they believe that those who sit about such a fire will become enemies.

FITS Permanently Cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FREE $2.00 trial bottle and treatise. DR. R. H. KLINE, Ltd., 931 Arch street, Philadelphia, Pa.

A kind of paper is made from seaweed which is so transparent that it may be used instead of glass for windows.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

A liquid air factory with a producing capacity of 1500 gallons per day has been put in operation at Pittsburg, Penn.

LADIES! My Monthly Regulator CAN NOT FAIL. Box Free. Mrs. B. Rowan, Milwaukee, Wis.

In the years 1832 to 1891, England lost 14,000,000 of its population by emigration. Germany lost 5,000,000 between 1832 and 1891.

Eighty-four per cent of Idaho is public land.

# When Doctors Disagree

Herbert M. Fish, a progressive and respected resident of Cape Vincent, N. Y., said: "The doctors disagreed in my case, one said I had the grip, another that it was jaundice, and so on. I tried many remedies but did not receive the slightest benefit. I was low spirited and nervous and had become reduced in weight from 155 pounds to less than 123. One day a friend recommended Dr. Williams' Pink Pills for Pale People. I tried them and the result was indeed marvelous. My appetite returned and I began to feel rested and restored. At the end of the tenth box my physical condition was better than it had been for years and I was a well man."

"HERBERT M. FISH."

Sworn to and subscribed before me this 17th day of November, 1898.

LLOYD O. WOODRUFF,
*Notary Public.*

*—From the Eagle, Cape Vincent, N. Y.*

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Co., Schenectady, N. Y., 50 cents per box, 6 boxes $2.50.

**Carnegie Against War.**

New York, Nov. 11.—Andrew Carnegie and Mrs. Carnegie were passengers on the White Star steamship Oceanic, which has arrived from Liverpool. Mr. Carnegie appears in good health. He said to a reporter that the reports that he intended to become a subject of Great Britain were without foundation, for, he said: "Where a man's treasure is, there his heart is also."

Speaking of the present war between England and the Boers, Mr. Carnegie said:

"The war against the Boers is most infamous and unjust, and it is brought about by England's lust for domain, and is on a par with our attack upon the poor Filipinos. Those two attacks are a disgrace to both branches of our race."

A London music school has 3600 pupils.

# Insomnia

Did you ever have that feeling of oppression, like a weight on your chest, or a load of cobble-stones in your stomach, keeping you awake nights with a horrible sensation of anxiety, or tossing restlessly in terrible dreams, that make the cold perspiration break out all over you? That's insomnia, or sleeplessness, and some unfortunates suffer with it night after night, until their reason is in danger and they are on the edge of going mad. The cause of this fearful ailment is in the stomach and bowels, and a Cascaret taken at night will soon bring relief and give the sufferer sweet, refreshing sleep. **Always insist on getting CASCARETS!**

"I have been using CASCARETS for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented."
THOS. GILLARD, Elgin, Ill.

CONSUMPTION

**Sales Agents Wanted!**

Men and Women make $50 to $200 every month selling our Gents' and Ladies' Waterproof Mackintoshes or Rain Coats. WE SELL MEN'S MACKINTOSHES in all styles at $1.50 to $4.75. LADIES' MACKINTOSHES AND WATERPROOF DRESS SKIRTS and CAPES at $2.00 to $6.00.

YOU (man or woman) can make $5.00 every day taking orders for these garments. At your low prices, everyone will order from you, for no one can meet your prices.

WE WANT ONE AGENT (man or woman) in every city and county in the United States. No experience necessary, no capital required. We furnish a BIG BOOK of Mackintosh Cloth Samples, fashion figures, your name on rubber stamp, tape measure, business cards, all necessary stationery. Everything complete for doing business.

We are the LARGEST DEALERS in America in Men's and Women's Waterproof Mackintoshes and we sell them at the lowest prices ever known, and exclusively through regularly appointed men and women agents, who make $50.00 to $200.00 every month at the work.

**OUR LIBERAL OFFER.** Cut this notice out and send to us. State the territory you wish to work in. Say in your letter you will give this work an immediate trial of at least 10 DAYS, and we will immediately SEND YOU FREE OUR SALESMAN'S COMPLETE OUTFIT on the following easy conditions. Each outfit costs us nearly $2.00, for it is made very complete to insure immediate success for the agent. The outfit consists of one handsome heavy cloth bound book, 10x7x2 inches, containing a complete assortment of large samples of our entire line of men's and women's mackintoshes, also handsome large fashion figures, etc., one confidential price and instruction book, one tape measure, one rubber stamp with your name and pad, business cards, order blanks, stationery, etc. WE MAKE NO CHARGE FOR THIS OUTFIT, but as a guarantee of good faith on your part and to protect us against those who would order outfits (which cost us nearly $2.00) out of curiosity or just to get the cloth samples, we require everyone, after receiving the outfit at the express office, to pay as a temporary deposit 50 cents and express charges, and we will return the 50 cents with your first order. Understand we will send you the complete outfit by express C. O. D., subject to examination, you to examine the outfit at your express office and if found perfectly satisfactory and you are convinced you can make money taking orders, pay the express agent 50c and express charges, we to return your 50c with your first order.

**START TO WORK AT ONCE.** You need no money; show the samples, take the orders at your own price, adding a good profit for yourself; we will fill your orders daily, send the mackintoshes to your customers C. O. D., subject to examination, collect your full selling price and weekly send you in cash your full profit. No other work is so simple. Money can't be made easier. Any man or woman any where can make $5.00 every day. Our book of instructions makes everything so plain that anyone can do the work at once and be sure of big wages from the start. Cut this notice out and send to us today saying you will give it 10 days' trial. YOU WILL NEVER REGRET IT. Nearly everyone sends the 50 cents with their application. We refer to Metropolitan National Bank or any Express Co. in Chicago. Address, DUNDEE RUBBER CORPORATION, 184 Fulton St., Chicago.

## EDITORIAL OUTCROPPINGS.

The two sides in the alien importation chapter of the Eight-hour dispute have been presented at the Capital and an official inquiry will be made by the government before they can take action.

Quite naturally the members of the Miners' Unions desire to see immediate steps taken by the government to enforce the Alien Labor Law, but they should bear in mind that the machinery of the law is slow in starting in quasi-civil cases such as this. Especially so in this case, as that part of the machinery is badly rusted through nonuse. If the alien bouncer were kept as well oiled on this side of the border as it is on the other side, someone would be feeling the effect by now.

The reports forwarded to Ottawa by the miners and the mine owners differ materially. In the face of this conflicting evidence, the Minister of Justice has decided to send out a commissioner to investigate the labor trouble here. When the facts of the matter are presented at Ottawa the importers of aliens will learn that if the Canadian law is slow in the beginning it gets swift enough before the end.

There are enough voters in the various labor unions in this constituency to say who the next member to go to Ottawa will be. Before the politicians decide the matter for themselves they ought to think of this. Tariff bogeys and N. P. issues are not potent in this Riding and party ties no longer bind.

In spite of the struggle that has been going on all summer between the mine managers and the mine workers over the question of wages, still every thing points to a speedy settlement of these troubles and a resumption of work in all our mines. While this struggle has been going on all of our principal mines have been making extensive improvements and fitting up accomodations for a much larger force than they have ever employed before. Work is being rushed on all these outside improvements and everything made ready to resume work at any time. New properties have been steadily developed and a list of new shippers are coming to the front. It is safe to say that Silverton will be a lively mining camp during the coming winter and there will be shipped double the quantity of ore from this point that was shipped last winter.

### RESOLUTION.

Passed by The Rossland Trades and Labor Council.

Whereas, The labor troubles existing in the Slocan district of British Columbia have been in progress since June 1st 1899, upon which date the amendment to the Metalliferous Mines Act known as the Eight-Hour Law became operative in that district, and the owners of these great silver-lead producing mines have formed a combine known as "The Silver-Lead Mine Owners' Association" with an unlimited capital, and have from the inception of the reform, passed by people of this province, shown open and bitter hostility towards the government, and have declared, rather than submit to the laws of this country and employ union labor, that they will, if necessary, import Chinese labor, deprive the native population of the dominion of an opportunity of gaining an honest livelihood by applying their labor in extracting for the benefit of society the material wealth contained in these rich producing mines because they are found guilty of being members of organized labor;

Whereas, "The Silver-Lead Mine Owners' Association" have agents in all the large cities of the United States procuring aliens for the Slocan mines, and who have offered the said aliens four dollars ($4.00) per day, (higher wages than is demanded by native labor) which clearly demonstrates the contention made by disinterested parties that the labor troubles are not based on a question of wages, but, on the contrary, it is a war waged on peaceful, law-abiding British subjects seeking employment in the mines of their country at living wages through the medium of their organization the Miners' Union.

Therefore be it resolved, That we, the members of Rossland Trades and Labor Council, protest against the wholesale importation of alien labor by the agents of the Silver-Lead Mine Owners' Association, and the employment agencies of the United States and we demand that the miner and mine owner stand equally before the laws of this country.

Be it further resolved, That we demand the enforcement of the alien labor laws of this Dominion, and those who have so openly and flagrantly violated the laws of this country and trampled on the sacred rights of peaceable and respectable citizens should be punished as the laws of this country provide.

Resolved, That a copy of these resolutions be forwarded to the Executive Council of British Columbia and also to Sir Wilfrid Laurier and other members of the Dominion cabinet.

JOHN McLAREN, Pres.
JAMES DEVINE, Sec.
