MINE AND PROSPECT.

Weekly News Nuggets Of Slocan and Other Camps.

GENERAL NEWS OF DISTRICT.

GALENA MINES SHIPS.

The Galena Mines, which lies within one mile of Silverton and upon which is installed one of the most complete hoisting plants in the Slocan country, has again been started up. There is now no doubt but that before this mining season draws to a close there will be a complete concentrating plant in full operation upon this property, grinding out concentrates and dividends for the owners.

The Galena Mines was one of the first properties in this district to be developed, ample capital being procured for that purpose in the Old Country, but although the surface showing of the property was immense and the vein as far as followed was fully up to the expectations of the owners, a break occured in the vein below the 100 feet level. The company developed a fine water power and installed a complete hoisting plant etc., and sunk a perpendicular shaft to a depth of 200 feet. They then drifted for the vein, only to find it had been cut off by a break somewhere below the 100 foot level, as mentioned above. After expending a large sum of money, in drifting and trying to find the continuation of the vein below the break, the English company, becoming discouraged, went into voluntary liquidation and sold out the mine to the present owners, who are practical American mining men. The present owners are confident of making a good dividend paying property out of the Galena Mines. The mine at present is under the management of C. Hand, superintendent of the Payne mine, and under the direct charge of S, C. McClure, who is at present pushing development work. During the week a twenty ton shipment of the ore was shipped to Denver Col., and after this sample is run through and tested the class of machinery to be erected for the reduction of the ores from this mine will be determined upon by the owners.

MINING DIVIDENDS.

The distribution of dividends paid by mining companies reporting to the Engineering and Mining Journal during the quarter ending March 31, was $9,156,233, showing a large increase over the corresponding period of 1899. According to states the payment of dividends was as follows: Montana, $2,780,000; Michigan, $2,580,000; Colorado $1,550,367; Utah, $577,760; Arizona, $457,000; South Dakota, $325,000; Missouri and Kansas together, $254,934; California, $200,350; Idaho, $171,662; Alaska, $163,000; and Washington, $105,000. The largest individual dividend paying company was Calumet & Hecla, while the Amalgamated Copper Company comes next with $1,500,000, and Boston & Montana third.

Ward McDonald, of Sandon, who holds a bond upon the Evelyn claim near Silverton, has resumed work upon that property. The Evelyn is a promising prospect situated near the Big Buffalo in Reed and Robinson Gulch, the vein is a large well defined one carrying galena and Mr. McDonald is having a cross-cut tunnel driven to tap it at a considerable depth, the tunnel being now in a distance of 110 feet.

The Old Maid claim near town is still holding its own as one of the biggest strikes of the season. The tunnel on this property is now in 120 feet on the vein.

The tunnel which is being driven to tap the A. E. ledge, on Red Mountain, has now reached a depth of 112 feet.

J. M. McGregor, P. L. S., of Slocan City, is surveying the Sarnia and Mountain Chief claims, near the Wakefield, preparatory to applying for Certificates of Improvements.

J. M. M. Benedum has been down in the Slocan City Division looking after his mining interests. He purposes doing considerable work in the Lemon Creek district this summer.

Mayor Pitts of Sandon requests all mechanics to stay away from that town for the present, there being no work there now.

THE LOCAL LAYOUT.

Man plants the seeds; God sends the rain; the cow gets the plants.

The Rev. Mr. Duncan will hold Service in the Church to-morrow afternoon as usual.

In time of peace prepare for war. Order your fireworks early for the Twenty-Fourth.

D. S. Davidson, brother of Mrs. Jas. Bacon, is in town from Prince Albert, N. W. T. He will make this town his home for the summer.

The Band boys in Slocan City will give a Ball on Friday evening next. A cordial invitation is extended to their Silverton friends.

B. Frank, of Berlin, Ont., has come to Silverton to become a citizen. We give Mr. Frank the glad hand with hopes for his success here.

Mr. and Mrs. Jack Brandon and family are staying at the Thorburn House. Mr. Brandon purposes building a house and making his home here.

All work in the Jewelry Repairing line, left at the Silverton Drug Store, will be promptly forwarded to Jacob Dover the well-known Nelson jeweler. All repairs are GUARANTEED FOR ONE YEAR. *

Mrs. Wm. Brown, who has been spending the past year among her relatives in Dundee, Scotland, returned on Wednesday. Mrs. Brown's many friends welcome her safe return from over the water.

The Paystreak and The Mining Review, the Sandon rivals, collaborated in the issuing of a special fire edition last Saturday. Mr. Cliffe has been unfortunate in losing the plant of the Mining Review and has the sympathy of his brother scribes in his loss.

A philanthropic young man was canvassing the town on Tuesday for photographs which he promised to enlarge free of cost. If his scheme is the same as that of some others, he will charge enough for the frames to pay him for all his work. Few here took advantage of his generosity.

SILVERTON'S SHARE.

On Saturday last, after it had been learned how disastrous the Sandon fire had been, a meeting of the citizens was held at the Victoria Hotel to take some concerted action towards helping the homeless hundreds in the town over the hill. It was decided that cash would be of greater benefit to the sufferers than anything else, as groceries and supplies were being shipped in from Kootenay Lake points. A subscription list was accordingly drawn up and on Monday $500. was forwarded to Mayor Pitts, with an inquiry as to what else Silverton could do The list has been left open for further names.

CELEBRATION.

Celebration matters are moving along smoothly and everything points to the fact that the Fourth Annual will be a much more successful celebration than any of its predecessors, and that is saying a great deal.

Although there has not been the noise attending the preparations this year that was heard on former occassions, the committees have worked equally as hard and have their affairs in fairly good shape.

The New Denver Band, of which our friends to the north have always been so proud, will provide the music for the day.

The football players throughout this portion of Kootenay are evincing considerable interest in the Football Tournament and it seems a certainty that there will be a battle royal for the possession of the beautiful gold medals now being engraved for the Committee. The medals are beauties, being over three inches long. The design is a shield encircled by a laurel wreath, suspended from a curved bar, the whole surmounted by a maple leaf. On the shield is engraved "Football Tournament, Silverton, B. C., May 24th, 1900, Won By——." The name of the fortunate team will be engraved in the blank space left and the members thereof will have no occassion to be other than proud of their trophies.

The Miners' Union is going right ahead with its plans for the Ball, and this event, which in most celebrations is not the success it should be, will be carried out in the successful way that the miners have of doing things.

On the inside pages of this issue will be found a complete announcement of the plans of the Committee.

Read it and come.

A CONSISTENT PLATFORM

Robert F. Green's Address to The Electors.

STRAIGHTFORWARD DECLARATION.

To The Electors
Of the Slocan Riding:

Gentlemen:—

With the dissolution of the Legislative Assembly, the duty again devolves upon the Electors of the Slocan Riding to choose a member to represent them in the Provincial Legislature.

It is my intention to become a candidate at the forthcoming election and with full confidence in the result I again respectfully solicit the suffrages of the electors of the Riding.

While I may point with pardonable satisfaction to the manner in which I have conserved the interests of the Riding and sought to meet local requirments as far as practicable, I have earnestly endeavored to forward legislation in the interests of the entire Province, and such as would tend towards its material development.

Constant in attendance at the sessions of the Legislature, I have been watchful that no vote of mine should be wanting for any measure beneficial to my constituents, or the Province as a whole; nor have I been neglectful of the interests of the wage earner, but have in some degree at least been instrumental in placing their fair demands amongst the principles to be advocated by a great political party. It is well perhaps that I should briefly state some of the principles which I have advocated and shall continue to advocate until they are incorporated in Provincial Legislation.

(1) I am in favor of an equitable redistribution of the seats in the Legislative Assembly, based generally upon population but with due regard to the interests and circumstances of outlying and more sparsley settled districts.

(2) I shall advocate the Government Ownership of railways, and other public franchises so far as may be practicable, and a general enactment by which companies desiring to construct railways may be incorporated without special legislation, and that railways bonused by the Province may be under Government control as to their rates, and subject to purchase at government option.

(3) I shall do all in my power to assist and support the advancement and development of the mining interests of the Province, upon which its prosperity is so materially dependent.

(4) I believe in the principle of the eight hour law, and shall permit no interference with this law as it stands, and shall insist upon the retention of the penalty clause.

(5) I shall advocate a liberal expenditure upon trunk roads and trails in the various districts of the Province, believing that upon such expenditure the development of the vast resources of the country materially depends.

(6) I shall advocate and if elected assist in the enactment of laws for the proper adjustment of disputes between labor and capital, by a well digested, and equitably arranged system of compulsory arbitration.

(7) I believe that Asiatic and other cheap labor is detrimental to the best interests of British Columbia. I shall therefore advocate its restriction as far as it may be intra vires of Provincial Legislation, and shall assist in bringing such pressure to bear upon the Federal Government as may induce that Government to assist in the work, and will most emphatically insist that no such class of labor shall be employed upon any public works undertaken by the Province or upon such works as are subsidized by, or in any way subject to the control of the Government.

(8) I believe that the Educational System of the Province may be materially improved, and shall give my heartiest assistance in bringing it to the highest state of effiency by the establishment of Normal schools and other instrumentalities that may tend to the accomplishment of that object.

(9) I shall also advocate and assist the development of the Agricultural resources of the Province.

(10) I believe that the moneys of the Province should be expended upon some broad and general system which would ensure the greatest amount of benefit from such expenditure. In this Riding I have endeavored to inaugurate such a system by having the work upon roads and trails placed under a responsible head, so that the appropriation necessarily inadequate under existing circumstances might be beneficially and economically expended.

Yours truly,
R. F. GREEN.

POLITICAL POINTERS.

R. F. Green, our next M. P. P., and James Martin, late member for Rossland passed through town, yesterday. Mr. Green will meet the electors here upon his return.

Rod Tolmie, secretary of the Silver-Lead Mines' Association, was in town on Tuesday looking after the political end of the Association.

The Independent, a new Coast publication, warns its readers against "anti-election" pledges. The Independent is a good paper, being stronger in principle than orthrography.

An application has been made to the Courts for an order enjoining the Collector of votes at Nelson from placing on the voters' list the 490 names appealed against by the Fletcher crowd. The party to which the Nelson Miner belongs seems to run to injunctions.

Chas. Wilson, Q.C., the leader of the Liberal-Conservative party, is a man who does not believe in advertising. In his speech in Vancouver, which is being circulated as campaign literature, he declares that the entire provincial press is powerless to turn a single vote against the Conservatives. This is the style of remark one would expect from Mr. Wilson.

Mr. W. C. Wells, the last member for North-East Kootenay, has been asked to run again in that constituency. His requisition paper was signed by over 300 voters, fully two-thirds of the voting strength of the Riding. He will win in a walk as an Independent. His opponent, Francis P. Armstrong, is one of those men who favor the 8-Hour Law, but believe that its amending is "of vital importance to the Province."

THE LIBERAL-CONSERVATIVES ENDORSE KEEN.

The Liberal-Conservative delegates chosen last week throughout the Riding to select a candidate to oppose Robert F. Green, met in Sandon on Wednesday.

There were twenty-two delegates present, every town being represented with the important exception of Kaslo. The twenty-two were unanimous in endorsing John Keen, ex-Mining Recorder of Kaslo, who has been practically in the field for some time.

The absence of any kind of a delegation from Kaslo is taken to mean that the majority of the Liberal-Conservatives there endorse Mr. Green's attitude as an Independent and refuse to allow party lines to blind the issues of this campaign.

ONE LIFE LOST.

When the first reports of the Sandon fire were sent out it was thought that there had been no loss of life, but later reports brought news of the finding of the charred remains of Miles Rambaugh, who had reached the town only a few hours before the fire broke out. Rambaugh was well known throughout the Province,

DROWNED IN A TUNNEL.

Last Sunday a snowslide came down near the Idaho mine and two Italians who sought refuge in a tunnel were drowned, by the backing up of the water. It appears that the slide filled up the mouth of the tunnel and also raised the creek which flowed through the snow into the tunnel and drowned the imprisoned men like rats in a trap.

THE UNEMPLOYED

Can secure work to-morrow by appearing on the football field and reporting to the foreman of the grading work. The wages will be a season ticket to the football games and the privilege of bathing in the lake during the summer. All who are unable to take advantage of this offer can send tools by someone else.

OUR BRITISH COLUMBIA SUBSCRIBERS

Will oblige by posting in some conspicuous place the poster printed on the inside of this issue.

Local readers will help the committee by forwarding their copy to some out-of-town address.

Ten events. Prizes aggregating $250.00.

EDITORIAL OUTCROPPINGS.

In this issue we publish the election address of the Independent Candidate, R. F. Green.

In this address Mr. Green comes out in favor of all that is good in the various published platforms of the Martin and Wilson parties.

But there is a difference. It is this: Mr. Green has proven his right to claim these principles as his own through his past actions: His opponents, who claim the same principles can only give their word for them. A proven friend is better than prospective ones.

The appealing in a wholesale manner against the names of applicants for the Voters' List has acted as a boomerang against those responsible for the appeals. Although the Collector of Votes refused to allow the great majority of the appeals, the voters now know exactly where they stand in relation to those who sought their disfranchisement.

Had the laboring men, who were discriminated against in the appeals, not had friends at Kaslo ready to look after their interests and newspapers ready to champion their cause, it is quite probable that some hundreds of Slocan voters would now be without a vote. It is interesting to note in this particular that only The Silvertonian and The Paystreak came out at the time as straight champions of the threathened voters. The other Slocan prints either defended the appeals or ignored the matter altogether. There should be a lesson to learn from this.

Stay with the man, that in your hour of trouble stayed with you, is good advise to all workingmen of the Slocan in the impending election. That man, without doubt, is Robert F. Green. When the mine owners were trying in every way to break down the miners' unions, sluring their characters as men and asking the Government to herd them with special police, as in Idaho, who was it but our own "Bob" Green that stood up in his place in the House and defended the character and motives of the Slocan miners and hurled defiance at the tools and creatures of the mine owners gathered at Victoria to influence our legislators. It was to Mr. Green that the miners looked to defend them in the House and he never failed them.

In the present electoral campaign The Silvertonian intends to hold up its end but we hope to do so without the necessity of using or replying to personal abuse or mud slinging.

In this early part of the campaign we wish to state our position clearly.

We believe in the first place in being consistent. Two years ago we supported the candidacy of Mr. Green, the present Independent candidate, believing that he would advocate those causes for which we have fought, and we were not disappointed. After his election, Mr. Green was found ready to fulfil his ante-election pledges, departing only from this rule when the occasion came up of either voting for or against the eight-hour law. On this occasion he violated his election pledge but violated it in a noble cause, earning thereby the applause of the vast majority of the voters he represented. This departure from his election platform is now the strongest objection raised against him by his political enemies here, but we feel safe in saying that Mr. Green's actions during the eight-hour dispute, from its inception up to the [illegible] has shown him posessed of more backbone than was thought desirable by the Silver-Lead Mines Association and their friends, and these are the men who now seek to down him.

We are supporting Mr. Green because we believe that he has shown himself to be a true friend to our friends, the workingmen.

On the other hand we are opposed to the present nominee of the Liberal-Conservatives in this Riding. In spite of assertions to the contrary we refuse to believe that that party as a whole favors the retention of the eight-hour law on the Statute books. We firmly believe that the active principle of the law would be killed should Mr. Keen and his friends secure control of the government. We believe that Mr. Keen's supporters are antagonistic as a class to Labor Unions. Liberal-Conservative candidates in nearly every constituency in which they have been nominated have either straddled the eight-hour question or come out flatly as opposed to it. These men belong to the same party and are running on the same platform as Mr. Keen.

We have fought for certain principles, of which our readers are well aware, and in this fight we can only be true to them by taking up the cause of Mr. Green.

If there is any doubt as to which of the two men running in this election the laboring men of the Slocan should vote for, it is only necessary to look over the list of men backing and supporting the rival candidates, to enable them to decide. Behind Robert F. Green will be found every man who was outspoken in favor of labor during the labor trouble and who helped with all their might the labor cause. Behind John Keen a few may be found who are lukewarm for labor, but every mine owner and tool of the mine owners will be found supporting him. Workingmen can there be any doubt?
