NEW OFFER FOR KOOTENAY LINE

The Latest Offer to Build The Coast-Kootenay Railway.

A special from Victoria to the Vancouver World says:—The Olalla Copper Mining and Smelting Co. of New York has, it is understood, submitted a proposal to the Chief Commissioner of Lands and Works for the building of the Coast-Kootenay railway. The company is said to have unlimited capital behind it. C. H. Lugrin has full power of attorney to execute a contract for it.

The railway charter granted by the Dominion in 1901 to the Similkameen and Keremeos railway gave the route as from Penticton to Keremeos, thence to the boundary line, and also up the Similkameen as far as Princeton.

The present proposal calls for a cash subsidy of $4,000 per mile. This amount is not to be given but merely loaned, the company undertaking to repay it after a lapse of ten years by paying yearly to the government two per cent. of the gross earnings of the road. When the subsidy is repaid, the road is immediately to become liable for taxation. The company is ready to accept government supervision and control of rates consistent with Dominion jurisdiction. It will ask for a subsidy of $6,000 a mile from the Dominion.

The company agrees to begin work three months after Dominion aid is granted. It will make a guarantee deposit of $5,000, and in the event of the charter being granted agrees to furnish security to the extent of $200,000.

The company will complete the road five years after Dominion aid is granted. Surveyors are already in the field.

The company will seek a charter to Midway or to a point beyond, and will build along the south side of the Fraser river, via Hope mountains and Chilliwack to a point on the Gulf of Georgia, between the mouth of the Fraser and the international boundary. The company will seek connection with Vancouver over the projected New Westminster bridge, and with Victoria and Vancover Island by a modern car ferry system, operating across the Gulf and connecting with the Victoria Terminal railway, or by its own rails into the capital.

Messrs. McArthur and McCrae of Rossland and McDougall of Olalla, who incorporated the Similkameen and Keremeos road, are believed to be associated with the New York company in the present proposal.

ASPEN GROVE PROPERTIES STILL CHANGING HANDS.

Vancouver, Pearl, and Pothole Claims Sold to W. T. Shatford of Slocan City.

Mr. J. P. Allen reports the sale of the Vancover, Pearl, and Pothole claims to W. T. Shatford of Slocan City, the price being $15,000.00. These claims were the property of Messrs. Murphy, Angsteadt and Allen.

Mr. Shatford has acquired some valuable prospects, judging from the surface showings on the claims named.

The Pothole, which is located on an immense iron-capped dyke, carries fair values in gold and copper, the copper values increasing as depth is attained.

On the Pearl a tunnel has been driven 60 feet for the purpose of cutting at depth a fine lead outcropping above. Excellent ore has been encountered in the tunnel. A big ore body resembling in character that of the Portland, has been exposed by open cuts on the Vancouver.

This claim should develop into a great mine under skilful management, as the surface showing is one of the largest and best in the camp.

LOCAL AND PERSONAL.

Mr. F. A. Howse left for Nicola Lake on Tuesday last.

Mr. Miles Silverthorne is expected in on today's stage.

Percy Godenrath is expected to return to Princeton shortly.

Mr. A. Bell has some excellent views of Princeton on sale at prices that are extremely reasonable.

D. R. Young, Managing Director of the Similkameen Valley Coal Co., Ltd., is on his way in from Nelson.

Mr. Arthur Hickling, of London, Eng., is on his way to Princeton, and will reach here some time during the present month.

Mr. D. P. Terrill, of the Ocean Wave Mining Company, Granite Creek, is confined to the house on account of a badly sprained ankle.

Mr. Chas. Revely took a trip to Keremeos this week. He reports extensive preparations being made for the sports to be held at that place on the 24th inst.

As advertised in another column the Jackson House changed hands on May 1st, and in future Silverthorne Bros. will attend to the wants of its many patrons.

A report has reached us via Penticton, that a peace treaty has been concluded between the Boers and British in South Africa and that the war is now a thing of the past.

Mr. J. B. Silverthorne came in from Aspen Grove this week to take over the Hotel Jackson. He reports the Georgia and Portland in that camp, to be improving with every foot of depth gained.

Mr. J. H. Jackson, formerly proprietor of the Jackson House, intends removing to Tulameen City in the near future. Mr. Jackson is compelled to leave the hotel business on account of ill health.

"I say, me good man," began the chappie as he entered Richter's butcher shop, "have you aw—any meat for a puppy, doncher know?" "Sure thing," replied Jim. "Want to eat it here or take it with you?"

A party of Anaconda people consisting of Mr. and Mrs. W. D. McKay, Mr. F. Penson and Mr. W. J. Paterson, reached here on Tuesday last, coming in via Keremeos. Mr. and Mrs. McKay are combining a health and pleasure trip, and intend going as far as Kamloops before returning home. Mr. Penson intends spending the summer prospecting in this section. While in Princeton they are making their home with Snowden Bros.

A. E. Howse has started this week on his new and complete set of books, the Copeland-Chatterson monthly accounts system. By this up-to-date reliable system his customers are furnished with a bill of each purchase and can have their monthly accounts rendered them at a moment's notice, or less time than it would take them to look through his full range of spring and summer samples of Twentieth Century Clothing.

STANDARD OIL CO. THE BUYERS

Large Prices Paid for Properties in Hedley Camp—Kingston Showing Up Well.

In connection with the sale of the Mound and Copper Cliff in Hedley Camp to the Standard Oil Company, word has been received that two adjoining claims, the Iron Duke and Exchange, have been bonded by the same company for a sum in the neighborhood of $60,000.

Fourteen men are working steadily on the Rollo and Kingston, which are showing up fine bodies of high grade ore.

HOTEL ARRIVALS.

DRIARD HOTEL, NICOLA LAKE.

W. Rugg, Aspen Grove; E. Raspberry, Minnie Lake; M. Silverthorne, Aspen Grove; J. L. Blaine, Quilchena; Wm. J. Knight, New Westminster; Geo. A. McIntyre, Vancouver; C. Miers, Coutlee; J. P. Allen, Aspen Grove; J. Murray, Mamette Lake; J. Linton, Vancover; T. Curnow, Spring Ridge; T. W. Peters, Vancouver; M. P. Stewart, Ashcroft; B. S. Blackwell, Vancouver; Mrs. Henshaw, Oregon; J. E. Ruita, John Stone, Rossland.

HOTEL TULAMEEN, PRINCETON.

P. R. Fleming, Vancouver; Neil Henderson, Ashcroft; Geo. McCoskery, Tulameen City; A. R. Barrow, F. J. Barrow, Hedley City.

HOTEL JACKSON.

W. A. McLean, H. H. Pitts, J. B. Fisher, Ashnola; J. B. Silverthorne, Aspen Grove; H. McDiarmid, Wolf Creek; Mike Burke, Granite Creek; Jno. Poppin, J. McFarlane, Aspen Grove; P. Miles, Tulameen City.

HOTEL PRINCETON.

John Neil, Sterling Creek; Nels Johnson, Nelson; F. W. Aspray, Cascade City.

Dr. Whillans is erecting a wind mill on his back lots to pump water for irrigating purposes.

A. R. Barrow, P. L. S., came up from Hedley City Thursday. He intends locating in Princeton. His brother, Mr. F. J. Barrow accompanied him.

The Hislop survey party has finished work, and members of it belonging to this place are expected to return from Keremeos today.

Four weekly insertions constitute one month advertising.

A BOOMERANG.

The "Dewdney Damn" as the Vancouver World aptly calls it, has evidently failed ot its purpose, and instead of accomplishing the object sought, it will recoil on the heads of its authors, the Dunsmuir Government and the C. P. R.

It is a dangerous thing for any government to trifle with an object on the fulfilment of which the public has set its heart; and the government that spent nearly $15,000 of the people's money in order to further the ends of a grasping corporation, deserves to go down to posterity unhonored and unsung.

PRINCETON COURT HOUSE.

Mr. Denis Murphy has asked that an order of the House be granted for a return of all correspondence between the government, or any member thereof, and any person relating to the construction of the court house at Princeton, and the failure on the part of the contractor to pay the wages of the workmen employed on said building, and to pay various other just claims for materials and supplies furnished to him by the different parties for use in said building, and which said material and supplies were used in the construction of said building.

Mr. Murphy's course in this matter will commend itself to his constituents in this district, and it is to be hoped he will make it interesting for the persons responsible for the scandalous manner in which the contract was handled.

EDITORIAL NOTES.

If Joseph Martin wishes to kill himself politically in this province for all time to come, let him support the Dunsmuir policy of giving big land grants to railways.

British Columbians owe Smith Curtis a debt of gratitude for the manly fight he has made for the people in the matter of the Canada Northern land grab. He has killed the deal and discredited the government.

Under the caption of "The man on the Street," Mr. Percy Godenrath has an able article in the Toronto Mail and Empire of April 4th on the Similkameen and its resources, in which he calls the attention of eastern people to the great opportunities in this district for coal and metal mining.

The Vancouver Ledger is a bright progressive weekly that is rapidly making a mark for itself. It has been quick to see the important part this section will play in the future of the province, and has been most generous of its space in publishing news of this district. May it win the success it so well deserves.

Mr. Robert Stevenson, who has been so long identified with the mining interests of the Similkameen, has a long letter in the Vancouver Ledger of April 21st, in which he replies to Mr. Dewdney's adverse criticism of this section. Mr. Stevenson, in the language of the street, makes the writer of that famous report look like thirty cents.

EDITORIAL COMMENTS.

Curtis has been talking on every conceivable subject at the Coast, and the men of limited information don't like it. Now that's too bad of Curtis.—Rossland World.

These be the days in which a man hoes his little garden patch, harrows his soul, cultivates curvature of the spine, sows radish seed and remorse, and raises blisters.-Ex

Politicians who take the side of the indifferent many against the interested few may not notice it at the time, but they gain a public favor that they can rely on when they need it.—Toronto Star.

Smith Curtis has withdrawn from the inquiry before the commission appointed to investigate as to whether his charges against the premier in relation to the proposed railway are true. If the account telegraphed from the coast in relation to the proceedings of Wednesday are true, it is no wonder that Mr. Curtis withdrew.

Warlike Col. Watterson advises that we occupy Canada when she gets fractious. We tried it, colonel, a long, long time ago, when the populations were relatively the same. Our school histories properly say very little about what happened. Let us not occupy ourselves with occupations, let us pray rather for our young sister whenever she goes astray.—Louisville Courier Journal.

The demand for asbestos is increasing and it has advanced to $300 per ton, which is three times the price it commanded last year. For a time the European article was used, but it was found to be inferior to that mined in Canada and the United States. Those prospecting for asbestos should seek for a greyish or green serpentine. The veins are from the thickness of a thread to several inches and upward. The asbestos carrying no iron brings the highest price.

Subscribe for the STAR and get the latest mining news—only $2.00 per annum.

Divine service will be held on Sunday afternoon at 2:30 in Mr. G. L. Mason's house. A hearty invitation to everybody. Sunday school will be held in the morning at 11 o'clock. All children invited.

OLALLA COPPER CO.

Formed in the East With a Very Large Capital.

The prospectus of the Olalla Copper Mining & Smelting Co., capital $8,000,000, appears in recent New York papers.

This company was incorporated last October for the purpose of completing the development and equipment of the extensive properties which the company is said to have acquired. "These properties consist of over 60 mineral claims, townsite of Olalla, charter for the Similkameen and Keremeos railway, and telephone and telegraph franchises, the combined interests being of enormous value and capable of being developed into one of the most magnificent and profitable combined mining, smelting, power and railway enterprises ever brought under a single control."

The property is located in the lower Similkameen valley. The town of Olalla forms the centre of an extensive and rich district.

The company's proposed railway route extends throughout the entire Similkameen and Keremeos districts, and will open nearby coal fields. The smelter sight adjoins the town.

The properties contain almost inexaustible supplies of self-fluxing ore, which it is said can be mined, brought to the smelter and smelted at a cost not in excess of $3 per ton. What is of equal importance, the possession of these supplies of self-fluxing ores will enable the company to do a large custom smelting business in the ores of the surrounding neighborhood.

A MINING DEAL.

Messrs. W. Y. Williams, Louis Jacobson and Ole Johnson Make a Good Clean-Up.

A deal was completed here yesterday whereby W. Y. Williams of the Granby mines, and Louis Jacobson and Ole Johnson of Rossland sold to the Standard Oil Company two claims in the Similkameen country for $52,000 cash.

The claims are the Mound and the Copper Cliff, and they adjoin the Nickel Plate property already owned by the Standard Oil people.

Superintendent Williams grubstaked Johnson and Jacobson to locate the properties now sold, and cames in for a third of the purchase money.—Rossland World.

Subscribe for the STAR, only $2 per annum.

Is The Granby Smelter Sold?

Reports have recently been sent out from Grand Forks that James J. Hill, or his friends, have recently acquired a minority interest in the Granby mines and smelter. It is further given out, but not officially, that the price at which the interests were bought was on the basis of $22,000,000 for the entire holdings. It is needless to point out that the manager of the company has not verified these rumors yet.

Undoubtedly, if Mr. Hill is getting control of the Granby Co. in this province, he will control the railway tonnage of the Boundary to a large extent, for it all centres around the Granby Co. and its operations. Many do not believe that the sale has been made as reported, but that it is merely the result of some imaginative reporter's brain work.

In a short time Mr. Hill will have his railway into Republic completed, and will be bidding for the ores of that camp. It is acknowledged that the Granby Co. have made a success of their smelting and mining operations, and if Mr. Hill secures control of that corporation he will control the bulk of the freight business in the Boundary. That much is self evident. Mr. Hill is a long headed man, and he is after a steady business in freight hauling. He would get this apparently for all time to come in this section if he obtained control of the Granby Co. Further particulars of the deal, if it proves to be such, are awaited with interest by the residents of the Bonndary and elsewhere.—Phoenix Pioneer.

NOTICE TO TRAVELING PUBLIC.

I have this day leased the Hotel Jackson to the Silverthorne Brothers, and during my three years of tenancy I beg to thank the public for the patronage I have received, and hope the same may be continued to the above, and wishing them every success in their new venture.

I am,
Respectfully yours,
J. H. JACKSON.

THE PRACTICAL POET.

He wrote a sonnet to her hair,
He said 'twas like the night,
All gleaming black, with here and there
A glow of starry light.
Next day he read his lines again,
And stifled down a curse—
The maiden with the ebon hair
Had sent him back his verse.

Again he tried in purest rhyme
To praise her lips and cheek;
He swore her lips were rubies twain—
Aye, rubies that could speak
He vowed her cheek was like the rose,
A damask pink so rare;
The maiden sent the sonnet back—
You should have heard him swear!

What did the guileless poet do?
He did not rave nor sigh,
But changed a line and sold the first
To advertise hair dye.
He took the one about her cheek
And made a powder ad.,
Then marked the page they were upon—
And was the lady mad?

—W. D. Nesbit in Baltimore American.

Astonishing Values.

Recent assays from the Hope claim of the Ruth group show astonishing values. Carbonates carrying 1350 ounces silver and 2 per cent lead have been found, while ledge matter which to the naked eye look valueless, assays 95 ounces in silver. It is reported that the Ruth will be opened up immediately on H. B. Alexander's return to Sandon.

Government Ownership.

"I have liven in New Zealand a considerable time," W. F. Edmonds informed a World reporter this morning, "and I think the government ownership of the railways there has proved a success." Mr. Edmonds came in on the Moana yesterday and is bound for England. He is stopping at the Hotel Vancouver. "The railway rates are very fair, the service is good, and the systems are in good condition. Compared with the transportation figures in this country, the fares in New Zealand are very reasonable, and notwithstanding all the reports which are received in Canada as to the non-success of nationalization of railways, I am inclined to the belief that is the best manner in which to control them."

The adoption without debate by the recent labor convention of "compulsory arbitration of all labor disputes" as one of the planks of the party platform is worth more than passing notice, as it indicates a desire to avoid strikes and lockouts wherever possible.—Ross'd World.

The report of Mr. Dewdney on the Coast-Kootenay route establishes the fact that the government is more careful of its friends than of a treasury that is in none too healthy a condition.

Will stand for the season of 1902 at B. Noad's Ranch, White Lake.

Terms:—$15.00 for the season; Mares pastured free for one month, after that time a fee of $2.00 per month will be charged.

Sentinel was imported at great expense direct from Yorkshire, England, last year, and was selected by one of the best judges both for his breeding and general conformation. He is good tempered and has a splendid constitution. The small fee of $15.00 is purposely charged in order that all those in the district who own good general purpose mares may be given a chance to produce first class drivers and saddle horses.

Copies of pedigree, certificates, etc., will be sent to those who apply to

EDWARD BULLOCK-WEBSTER (Owner),
Keremeos, B. C.
