Vol. viii. No. 43. PRINCETON, B. C., WEDNESDAY, OCTOBER 30, 1907. $2 a Year, in Advance

SIGNIFICANT REMARKS

Made by Mining Magnate on Labor Situation in Province—Reduced Wage Hinted at.

W. D. Matthews, president of the Canadian Consolidated Mining and Smelting Company, who was at the coast lately, in company with Sir Thomas Shaughnessy, had something to say on the labor conditions of the provinch which is worthy of note. He stated that British Columbia should be interested in having labor conditions which would enable capitalists to meet on equal terms, and the existing conditions were exactly the opposite from what should prevail. In face of this fact there had been a depression in business along lines in which the province was interested making the situation increaingly difficult. Silver had recently dropped seven cents per ounce, lead had gone down $15 per ton, and copper was 12 cents below former quotations. The lumber business was also uncertain. Taking all these facts into account there must shortly be a readjustment of wages to meet the changed conditions and the sooner this necessity was realized and accepted by all classes the better it would be for the future of the province.

It is quite certain that on the expiration of the present scale of wages agreement a great many, if not all, the mining companies in the province will announce their inability to keep up the present scale and will ask their men to work on a reduced scale.

ROSSLAND MINER EXPIRES.

The Rossland Miner, a daily which for the past ten years has rendered a valuable service in exploiting the mineral resources of British Columbia, and especially of the Kootenays, suspended publication on Tuesday last. The reasons for this action are best given in its own words: "Because of the fact that a large number of business men of Rossland do not believe in advertising, and apparently have no interest in supporting a daily newspaper, the Rossland Miner will today suspend publication. * * * Out of nearly 100 separate and distinct places of business in this city, including hotels, not more than 30 advertise in the local paper. The Miner has been unceasing in its efforts to advance the welfare of the city in which it is published. No newspaper office in the Dominion pays higher wages than the Miner, and next to the mines, its disbursements for wages rank first. The suspension of the Daily Miner is most regrettable, from the standpoint of the best interests of the city and of the mining industry generally of Kootenay and Yale, and we sincerely believe this paper has done much to upbuild and foster the industry during the more than a decade that it has been published. Newspaper payrolls, however, cannot be met without the full support of the community, and, as that has not been forthcomng, it is deemed wise to cease running a daily before the sheriff has an opportunity of taking advantage of the situation."

The defunct newspaper was established by Mr. John R. Reavis, and later passed under the control of Mr. F. Augustus Heinze, the Butte copper king, then operating at Rossland and Trail. As his mouthpiece it waged a bitter fight against the C. P. R. The editorial chair has been filled by several brilliant men, including C. E. Race and Col. Egan.

LOCAL AND GENERAL.

It is estimated that the coal output of the United States will amount this year to $550,000,000, the pig-iron product to $450,000,000 and the copper to $200,000,000.

H. T. Newmarch, formerly in the Princeton branch of the Canadian Bank of Commerce, is now stationed at Kamloops.

The sidewalks in town need attention. If they are not attended to somebody will break their bones one of these fine days.

Frank G. Benson, of Vancouver, representing the Hall Safe Co, was in town last week.

W. H. Callicott, of Phoenix, was in town last week in the interests of eastern capitalists looking over the mining prospects.

A week from Friday the Rev. J. Thurburn-Conn will give a lecture in the Court House at 7:30 o'clock, on that interesting subject, "Love, courtship, and marriage." This should prove most interesting and instructive, especially to those contemplating forsaking their independence and "doubling up."

Albert Johnson was in town from Bear Creek last week and reports good progress being made on the development of the Independence mine.

Mrs. G. P. Jones and children, of Hedley, visited Mrs. L. Huston on Monday.

Miss Megraw was a visitor to town this week from Hedley.

A. E. Jackson and bride returned home ta-day.

P. Swanson, proprietor of the Great Northern Hotel, leaves on an extended visit to Boundary and coast cities. For some time Mr. Swanson's hearing has been impaired and he will consult a specialist in Seattle.

To-morrow will be Thanksgiving Day throughout the land. Let us be thankful that things are not worse than they are. And don't forget the big turkey shoot.

The new school house is being plastered and when this is done the finishing touches will be put on, and the building ready for occupation in a short time.

THE FINANCIAL CRISIS

In the United States Commented on by Leading Financier—Hard Times Predicted.

The financial crisis existing in the United States is having its effect felt in the business world, and before confidence is restored hard times will likely occur. Major Henry Higginson, a leading banker of Boston, says regarding the financial situation: "The financial conditions existing to day are due to a combination of causes. Chief among them is the publicity given the methods of some of the large operators and the fear engendered by the big stick policy of the administration. We are right in the midst now of a panic worse than the panic of 1893, so far as the stock market is concerned. It has lasted longer. I look to see it effect industrial conditions. It may not go to the extreme of hard times, but I look to see that. I look to see business dull and times slack The amount of money and the amount of money must be equalized no matter how painful the process, if we want the financial conditions straightened out."

The London Morning Post believes that the financial troubles in America are accumulating too rapidly for temporary palliatives to have much effect, and it would be better for everyone concerned that the crisis should be hastened instead of delayed.

The Daily Mail reminds its readers that there is no need to suspect the sound American banks. This paper says there is a wide gulf between the conservative American banks and modern trust development. It is the speculators who are tumbling in the debacle, and their fall gradually is clearing the atmosphere. Even the soundest concerns may be temporarily affected, the paper says, but it would be an absurd error to suppose that because some reckless gamblers are in difficulties, the United States, from a financial and commercial point of view, is going to pieces.

What's the matter with the firemen helding one of their popular dances?

FROM OLD CARIBOO.

R, Stevenson returned on Sunday last from Cariboo after an absence of six weeks, and says he is glad to be back in Princeton again. While there he met several of his old friends of the days of the great Cariboo gold excitement in rhe '60's, when Williams creek thronged with thousands of gold seekers from all parts of the world. Out of the original ninety who invaded Cariboo in 1862, but three remain—Robt. Stevenson, W. Hodinson and Jno. Pinkerton, the two latter being residents of Barkerville. When these three met, after a separation of years, the scene can be better imagined than described. Mr. Stevenson visited the grave of his old friend and partner of forty years ago, "Cariboo' Cameron and noted the resting place of other old friends of pioneer days when law and order was maintained by the iron hand of the late Chief Justice Begbie. To commemorate the occasion of their meeting the three remaining links of the advance guard of 62, Messrs. Stevenson, Hodinson and Pinkerton, had their pictures taken in a group, which they will cherish to the last day. At a dinner held by them tales of the strenuous days of old were told and toasts were drunk in silence to the memories of comrades long since gone to their reward.

Mr. Stevenson's object in making the trip was to hunt for a large mica deposit he discovered forty years ago on Snowshoe mountain. Although he spent some 17 days in the search he was unsuccessful Next July he intends going back and renewing his efforts and he is confident of ultimate success.

Parliaments Called.

The Dominion Government will be called for business next month and from present indications the session will be a short one. No doubt a great deal will be heard about Asiatic immigration and its solution. The Conservatives are hoping to make a great deal of political capital out of it in the hope of defeating the Government at the next election, which will likely be held next March.

The Provincial Government has been called for dispatch of business on January 15th, and the all-absorbing Asiatic question gives promise of being the chief topic there also. Premier McBride has been asked to resign by the anti-Asiatic leagues of Vancouver and Victoria or else force the Lieut.-Governor to make law the exclusion bill of last session. So there promises to be lively times in both houses. The public will watch with interest the outcome.

Ruined by Woman's Tongue.

"Heinze ruined by woman's tongue." Those five words, report says, carry the predictions made years ago in Montana when he first became a financial and political power. To those who were wont to burn the midnight oil until the wee small hours of the morning; to those who found joy in burning the candle at both ends and to the night cabbies and all-night hawks, Heinze was known as a shrewd man, but he carried the brand that spells downfall—susceptibility to the gay wiles of feminity.

Robt Hedly, formerly manager of the Hall mines and smelter at Nelson, but now employed by the Dominion Government in making a special report on the mines of British Columbia, was in town on Saturday in connection with his new office.

HYPOCRITICAL CANT.

(Toronto Globe.)

In the midst of the last general election Mr. Borden made the public announcement that those contributing to the Conservative campaign fund need not look for Government favors as a return. He has since had a good deal to say about electoral purity, and a western admirer, in view of these self-righteous claims, applied to him the words in which the poet spoke of Sir Galahad, "My strength is as the strength of ten, because my heart is pure." The same paper went on to say: "If Borden carries the next Dominion election it will he bbecause deep down in the hearts of the electors there is an ineradicable though sometimes suppressed sentiment in favor of truth as against falsehood, straightfordwardness as against chicanery, integrity as against graft." It is painful even to a political opponent to find these tableaux of Mr, Borden as the renouncer of the snares and lures of the world, Mr. Borden as Sir Galahad, Mr. Borden as the personification of truth, straightfordness and integrity, suddenly fade into nothingness before one straight shaft of honest light. Mr. Pugsley has made the charge that at least $25,000 from outside went into Nova Scotia constituency and that at least half a million dollars were subscribed in that election by a few rich men to carry the constituencies by the sea. Even if it were not known that Mr. Borden had a more certain knowledge of the existence of this fund, it would require a lot of faith in his present declarations to believe that any such sum as this could be injected into the constituencies in his own immediate neighborhood without his knowledge—without the knowledge of the leader of the Conservative party. He may be told at once that the people of this country are not so simple as to believe o story of this kind. His very silence in face of Hon. Mr. Pugsley's challenge will be taken as a confession that he cannot deny the charges made.

One can conceive of such charges being treated with silence if they emanated from some obscure personage in the Liberal ranks, but when they are preferred by a gentleman who is one of the leading lawyers of the Dominion, the former Premier of his province, and at this moment holding one of the most important and responsible portfolios in the Dominion Cabinet, it is useless for Mr. Borden to attempt to put the matter down by ignoring it. A refusal to accept Mr. Pugsley's challenge is a virtual acknowledgment that the accusation is well founded and cannot be denied. Sir Galahad's strength was as the strength of ten, not because his heart was pure, but because he had a half million corruption fund at his back to pull his supporters through.

In view of this what shall be said of the man who has made the corruption of his opponents the chief theme of his denunciation? He professes to be burning with zeal for electoral purity, nor does he approach it in the character of a convert. There are no confessions, no references to past peccadilloes on his part or on the part of any of his lieutenants. His cry for electoral purity is wholly occasioned, so he would have us believe, by the wickedness of his opponents. This would be called hypocrisy, a vice of character that has ever been regarded as one of the most odious of which a public man can be guilty. The cause of political purity will never be forwarded by hypocritical pretences that evil practices appertain wholly to one side while the other is angelically free from them. Mr. Borden knew of 500,000 reasons that contradicted this view, and his pretended zeal for purity in elections must therefore be regarded as cant, or is at all events of very recent birth.

Stomach troubles, heart and kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its restorative action upon the controlling nerves of the stomach, etc.

Trial catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's catarrh remedy. Sold by J. R. Campbell.

NOTICE.

THIRTY DAYS after date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal and petroleum on the following described lands, situated in Yale division of Yale district and lying between the Whipsaw and Nine-Mile creeks:

Commencing at a post placed at the N.W. corner of coal location known as lot 388, thence south 80 chains; thence west 80 chains; thence north 80 chains; thence east 80 chains to point of commencement.

Located Oct. 13th, 1907.

Catarrh

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative.

For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

COPPER MERGER.

The much talked of merger of the B. C. Copper Co. and the Dominion Co. interests is likely to effected before long, according to Grand Forks advices. A meeting of all the high officials of both companies is to be held in the Boundary in a few days when the matter will likely be settled. The low price of copper and a certainty of success with combined interests have led to this final step of the two big companies.

HARD ON PECK McSWAIN.

The printers in Canada will be unable to take advantage of the printers' home at Colorado Springs, Col., which they help to maintain. A printer from Canada who had all the necessary papers to have him admitted to the home was turned back at Port Huron, Mich., a few days ago because of the law which went into effect on July 1 prohibiting the entrance into the United States of all people unfit to earn a living, through sickness or other causes. This will probably mean within a short time the erection of a home for Canadian printers.

NOTICE.

Synopsis of Canadian Northwest Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2 If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

Pain everywhere, pain in the head, painful periods, neuralgia, toothache, all pains can be promptly stopped by a thoroughly safe little pink candy tablet, known by druggists everywhere as Dr. Shoop's headache tablets. Pain simply means congestion—undue blood pressure at the point where pain exists. Dr. Shoop's headache tablets quickly equalize this unnatural blood pressure, and pain immediately departs. Write Dr. Shoop, Racine, Wis., and get a free trial package. Large box 25 cts.

To check a cold quickly, get from your druggist some little candy cold tablets called Preventics. Druggists everywhere are now dispensing Preventics, for they are not only safe, but decidedly certain and prompt. Preventics contain no quinine, no laxative, nothing harsh nor sickening. Taken at the "sneeze stage" Preventics will prevent pneumonia, bronchitis, la grippe, etc. Hence the name, Preventics. Good for feverish children, 48 Preventics 25 cents. Trial boxes 5 cts. Sold by J. R. Campbell.
