SIMILKAMEEN STAR

Published in the interest of Princeton and Similkameen district.

Vol. vii. No. 26. PRINCETON, B.C., SATURDAY, SEPTEMBER 22, 1906. $2 a Year, in Advance

ATTACK BOTH ENDS

Construction Begins at Cloverdale Eastward to the Hope Range.

Rail Head is Said to be at Molson —Strenuous Railroad Building to Portland.

From authentic sources it is learned that work has begun on the V., V. & E. from Cloverdale east. The importance of this statement may be realized in the fact that construction from both ends of the route means a great saving of time in the eompletion of the road. President Hill made the announcement last summer at Winnipeg that he would have the semi-transcontinental line from that city to the coast built before any other line and that means he must attack from both ends. The beginning at Cloverdale is welcome news.

The concentration of Mr. Hill's construction forces on the Portland-Seattle line, in his fight with Harriman, has, no doubt, affected progress on the V., V. & E., but the critical point in the battle will soon be over and more attention to the work here will follow.

F. H. Mann came in on Wednesday's stage from Midway and went out to Mil liken's survey camp, where he will be transitman.

Latest advices state that steel has been laid to Molson. There is a shortage of spikers but better progress is expected to be made to Oroville.

In the event of the Similkameen route being selected the first contract to be let will consist of about 50 miles of expensive tote road for hauling supplies over.

LOCAL NEWS NOTES.

Pete Swanson and L. A. Manly returned on Sunday from their trip to the Similkameen. They expressed the belief that Princeton, with its abundant natural resources and favorable location, will be the future city in the Similkameen.—Midway Star.

Robert Stevenson, the pioneer prospector and explorer of the Similkameen, has been suffering from the kick of a colt on the lumbar region of his back and is scarcely able to move about. But for a sound constitntion, Mr. Stevenson, who is nearing the proverbial span of life, would not be able to still search the hills for the eqer-alluring metal. However, when the railroad comes his numerous friends hope to find his permanent address on Easy street.

H. P. Christie, assistant commissioner lands and works, Ashcroft, arrived in Princeton last Friday. He has been appointed assessor for six divisions, the Similkameen being one, and is now making the first visit in connection with his new duty. He left for Otter Valley on Tuesday, from there going on to Nicola and homewards. He was accompanied by Mrs. Christle.

J. O. Coulthard is expected to arrive today on Nicola stage.

The Princeton brewery has begun the manufacture of beer and is supplying local orders.

J. M. Sharp, from near Loomis, is in town on a short visit. Mr. Sharp was formerly a resident of the Similkameen at Olalla.

The intimation that a printer-journalist would arrive last Saturday to work on the Star proved to be premature. Whoever the gentleman may be he is expected to arrive today. The present incumbent therefore bids him a cordial welcome.

Mr. Brown, lawyer from Vernon, was in town this week on legal business.

Public worship tomorrow at the usual hours conducted by Rev. E. D. Smith

THE TULAMEEN HOTEL.

The Tulameen ho el, erected by Geo. McCoskery and brother during the past summer, is soon to be opened to the public. The building has good accom modation for commercial men and the travelling public generally. The proprietors have shown by their enterprise that they have no doubt of the progress of Princeton While the large and comfortable accommodation it affords may be slightly in excess of present demands there is warrant for it in the bright prospects of increased business in the near future. George needs no introduction to the public, being an old hotel man in the Similkameen, and is well and favorably known. The date of opening will be announced by advertisement.

FRIENDLY RELATIONS.

The Spokesman-Review commenting on the recent visit of the Spokane Chamber of Commerce to the Boundary says: "That closer commercial union between Spokane and B C. will result from the visit of the Spokane business men to the rich country across the boundary line is a perfectly natural and reasonable sup position. This personal intercourse will tend to make stronger the friendly business relations which have heretofore existed. The western enterprise which is making of Spokane a great city is in hearty and sincere sympathy with the spirit which is making of the adjacent country one of the greatest mineral producing regions of the American continent." Shake, cousin, shake! We want your wide-awake men to come to Princeton and give pointers on how to build up a town. We want your friendship and your capital. Above all we want you to impart that spirit which does things as opposed to a do-nothing policy.

MINES AND MINERALS

Mining Industry and Mineral Resources Need Capital to Develop.

Season was Fruitful in Discovery and Only Fringe of Similkameen Yet Touched.

Specimens of ore from Champion and Eagle creeks, recently shown, contain gold, silver and platinum. This section of country is thought to be the source of the placers on the Tulameen river. It presents a fine field for close prospecting which will, no doubt, well repay those in search of high grade propositions.

W. C. McDougall is sinking on the United Empire in expectation of striking the main ore body. The U.E. is a vast proposition and Mr. McDougall is energetically pushing the primary stages of development on it so that shipping may begin as soon as expected facilities may offer.

T. A. Connolly came down from Otter Flat last week on his way to Nighthawk where he expects to be mining this winter. He has done a lot of development and explorative work this season on his mineral properties. Like many other owners he is waiting for transportation to enable him to ship.

Joe Fitzharris has finished the summer's work on his mining claims above Otter Flat and left for the coast last week where he expects to put in the winter. Joe has proved his mining properties to be of undoubtedly rich ore, lacking the one essential—a railroad—to make them revenue producing.

Robert Stinson left about a week ago for Mt. Pleasant, a suburb of Vancouver, which address he expecis to adopt for the next six months. He has valuable interests in mineral claims on Copper mountain and is patiently waiting for the V.,V. & E. to bring about that general development and progress of the mining industry which is sure to follow. When next Mr. Stinson comes to Princeton he hopes to ride behind one of Jim Hill's "fiery steeds."

Messrs. French, Day and Tway exhibit some fine specimens of galena which they discovered while prospecting in the Skagit country recently. They struck a 40-foot lead of it which could be traced considerable distance. The distance from transportation is too great to make locations.

The largest gold nuggets ever found were the Welcome and Welcome Stranger. The first, weighing 2,217 onnces, was found in Ballarat, Victoria; and the second, 2,268 ounces in weight, was found at Dunnolly, Victoria, in 1869. In both cases the fortunate finder netted over $40,000 by one turn of the pick.

C. F. Law, the well known Bear creek mining man, has recently installed a boile: and hoisting gear on the St. George and Liverpool group and is also erecting bunk and cook houses. Extensive development work will be carried on this winter.

Wages earned in the mining industry for the month of August in the Boundary reached the record total of $215,000.

The Dominion Copper Co. has nearly 400 men in its employ.

PERSEVERANDO VINCIT.

E. F. Voigt, of Voigt's camp, Copper mountain, is proceeding with development of some of his mining properties and has engaged practical miners for that purpose. It is understood that Mr. Voigt will tap his large ore bodies by a tunnel driven from the Similkameen river. This would give him immense advantage over a shaft and the comparatively more expensive mode of hoisting ore through it. The tunnel, it is thought, will be in ore for the greater part of a mile and will help, if not altogether, pay for itself with the output. Development on a large scale is almost prohibited until the arrival of the railroad and the cheapening of freight on heavy machinery. Mr. Voigt has stayed with Copper mountain for some seven years and expended a fortune in the camp. His undaunted perseverance amid the opposing forces of nature and humanity is deserving of success, which no one will begrudge. The undoubted merit of some of the copper-gold properties in Voigt's camp has been vouched for by experts and others, and as with the whole of Copper mountain, a smelter is all that is required to prove them wealth producing.

ASLEEP SIX YEARS.

Illustrative of the great tenacity of life with which frogs are endowed one of these croakers has recently come back to active life after being in a state of coma for nigh four months. His habit for the last three springs has been to take up residence in the cool shade under the 'piazza' of the Star office. Frogs must have moisture to enable them to toddle around, lacking this our batrachian friend took a snooze in the beginning of the recent great drouth from which he did not awaken for over three months. It took several rain showers to bring him "to" but now he bobs up every afternoon with a low, guttural song, which with the buzz of the bee and the fizz of the flea make things quite lively around the fixed Star. Yes, a railroad is needed at once to put an end to the six years' snooze of the toadies and the f(1)ogies. Frogs have been known to live over a hundred years and fogies always outlive their usefulness.

EFFECTS OF ADVERTISING.

The proved beneficial results from judicious advertising by the Dominion government in attracting multitudes of first class immigrants to Canada is well worth a trial by townsite companies, who, it is supposed, wish to attract people to invest in their real estate property. Whether from motives of economy, spite, indifference, or out of pure ignorance, recently it has been noted that a moribund combination in Princeton has ceased advertising in the Star. To say the least, such a step reflects unfavorably on the enterprise and business calibre of the managerial and directorial outfit here. It also does an injustice and injury to those who have bought property here on the glowing invitations held out in the advertisement formerly running in this paper. However rich a town or country may be in natural resources it is possible to seriously retard its development by a picayune policy similar to that instanced above. Had it not been for liberal advertising by the Dominion government the west would still have been a great lone land. The following from Canada's greatest journal is to the point:

"It is gradually dawning on our friends south of the line that Canada is potentially another United States, and that at the end of the century there may be as great a population in the Dominion as there is in the republic today. The methods adopted by the Laurier government to attract settlers are praised unreservedly by American experts who have been looking into the question of the rapid settlement of the Canadian west. Wilbur G. Miller, a Washington journalist, who has been touring in the west, says in the Editor and Publisher that "Canada is undergoing a transformation. Printer's ink is the lever by which the work is being accomplished. Every portion of the Dominion from coast to coast and from the 49th to almost the 52nd parallel is throbbing with a vitality that promises to make it a counterpart of the United States. Of course there have been prosperous cities, rich agricultural lands, abundant forests and minerals, splendid climate, great railroads, big game, and magnificent scenery. Some of these have been in existence for centuries. It remained, however, for an enterprising Government to utilize the dominant force in civilization to bring to public notice the great resources of an empire. Well is the work being done, for no other country on the face of the globe is receiving the advertising that Canada is getting. No other government than the one to the north of us has ever before adopted such a policy of publicity; nor has any corporation before operated a plan of land exploitation so untiringly, effectively and elaborately."

When the Tories sullenly criticize the Liberal immigration policy, and declare that primarily the credit for the opening up of the west must go to the party that completed the first Canadian transcontinental, the obvious answer is that the Canadian Pacific railway was in operation for over ten years before 1896, and that printers' ink is bringing more people into the Canadian west every two years than the Tory Immigration department brought in between 1885 and 1896."

Advertising has undoubtedly been the mightiest agency in western development and it is false economy and shallow policy for a townsite company to withdraw its advertisement from the local paper. The spirit of the age is publicity. Every progressive town has its newspaper and is patronized by live townsite people. Dry rot has surely set in when a townsite company orders its advertisement to stop.

NOTES AND COMMENTS.

Lord Strathcona has predicted that Canada will have a population of 80,000,000 before the close of the twentieth century. There are young Canadians who will live long enough to see whether the prophecy is likely to be fulfilled. Its fulfilment would not be more wonderful than the developments that have made up the history of Canada in the 86 years of Lord Strathcona's busy life. If the prediction had been made in 1820 that the little struggling colonies of Upper and Lower Canada would develop into a Dominion stretching from the Atlantic to the Pacific, and that the supposed frozen wastes of the Northwest would be gridironed with railways and would be attracting settlers from all parts of the world, it would have been considered quite as sanguine a forecast as the prediction which Lord Strathcona has made.

The Hon. Mr. Templeman, minister of Mines, said that he would oppose any legislation if introduced at next session, aiming to admit Orientals on easier terms than now. He wants this to be a white man's country, and he is right.

Quality in Spoons, Knives and Forks

HIGHEST quality and lowest price are combined in Plated Silverware from Diamond Hall's own factory.

Special attention is called to the following prices for heavy quality in a richly plain pattern that reminds one of old-time family sterling ware.

Tea Spoons -	$3.00 doz.
Dessert Forks or Spoons - -	5.00 doz.
Dessert Knives -	4.50 doz.

We send upon request free of charge our large illustrated catalogue.

H. H. THOMAS.
26th July, 1906.

NOTICE.

Anaconda mineral claim, situate in the Similkameen mining division of Yale district. Where located: On Elliott creek.

Take notice that I, F. W. Groves, acting as agent for J. Fitcharris free miner's certificate No. B9757 intend sixty days from date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37 must be commenced before the issuance of such certificate of improvements.

Dated this 8th day of August, 1906.

NOTICE.

NOTICE is hereby given that sixty days after date we intend to apply to Chief Commissioner of Lands and Works for permission to purchase 40 acres of pasture land in the Yale division of Yale district, described as follows: Commencing at a post marked N.E. corner thence 40 chains west, thence 40 chains south-east down the Tulameen river to the mouth of Otter creek thence north 20 chains along the Otter to point of commencement. J. A. LUNDY.
Dated July 11, 1906 JOHN RIDDELL

NOTICE.

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 140 acres, more or less, of mountain pasture land situated in the Similkameen mining division of Yale district and describedas follows: Commencing at the N.W. corner of lot 1828, thence west 20 chains to the east line of lot 3536 thence south 60 chains to the north line of lot 1396 thence east about 15 chains to the N.E. corner of lot 1936, thence south 20 chains to the N.W. corner of lot 1026, thence east about 5 chains to the S.W. corner of lot 1828, thence north 80 chains to the point of commencement. G. B. TUCKER, Locator.
Princeton, June 30, 1906.

NOTICE.

Notice is hereby given that sixty days after date I intend to apply to the Hon. the Chief commissioner of Lands and Works for permission to purchase 320 acres of mountain pasture land, situated in Yale division of Yale district adjoining lot 230, and described as follows: Commencing at the S.E. corner post and running west 80 chains, north 40 chains, east 80 chains, south 40 chains back to point of commencement.
June 27, 1906. WILLIAM S. WILSON.

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the chief commissioner of lands and works for permission to purchase 320 acres, more or less, of mountain pasture land situate in the Yale division of Yale district and described as follows: Commencing at a post marked S.W. corner post, at the ¼ post on the east line of lot 390, thence 80 chains north, thence 40 chains more or less to the west bank of the Similkameen river, thence 80 chains south, thence 40 chains west to point of commencement. M. K. FRENCH,
June 7th, 1906.

NOTICE.

NOTICE IS HEREBY GIVEN that the plan, profile and book of reference of that section of the line of the Vancouver, Victoria and Eastern Railway and Navigation Company's railway from Princeton to Tulameen, B.C., was duly filed in the office of the Registrar of Titles for the District or County of Yale at Kamloops on the 29th day of August, 1906.

Dated this 31st day of August 1906.
A. H. MACNEILL,
Solicitor for the Vancouver, Victoria and Eastern Railway and Navigation Company.

NOTICE.

Notice is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 320 acres, more or less, of mountain pasture land in the Nicola division of Yale district, described as follows: Commencing at post located near S.W. corner of John Lindell's purchase and running 40 chains south, thence 40 chains west, thence 80 chains north, thence 40 chains east, thence 40 chains south to point of commencement. A. M. PHELAN.
July 7 1906.

TIMBER NOTICE.

Take notice that within two months I intend to apply to the Chief Commissioner of Lands and Works for a timber license on 640 acres of land situated on the west bank of Similkameen river, about four miles north of Copper creek in the Similkameen district, described as follows: Commencing at a post on the Roche river trail, marked Smith Curtis's Timber claim, S.W. angle, thence north 80 chains east 80 chains, south 80 chains, along said river west 80 chains to point of commencement.
SMITH CURTIS.
September 3rd, 1909. H. Kennedy, agent.

LOCAL AND GENERAL.

The Spokane Interstate Fair opens on the 25th inst. A number of visitors from the Similkameen will be there.

Mrs. Findlay recently had the misfortune to break her arm by falling from a horse at her ranch above town. Dr. Schon reduced the fracture.

The infant twin child of Mr. and Mrs. Jones died Thursday night.

A meeting was recently held in the office of Dr. White, Penticton, for the purpose of organizing a Conservative Association.

Bill Scruby, who left Princeton a few weeks ago, writes from Midway that the end of the track is now at Molson. He expects to winter at Greenwood and will come back to Princeton next spring riding in a Pullman or on a flat car. He found the roads dusty for hiking but was able to make 96 miles in three days.

John Burrill is manager and chief dispenser of G. Murdoch's dairy during the latter's absence at the coast.

Members of the Spokane Chamber of Commerce to the number of about 125 recently visited Phoenix, Grand Forks, Nelson, Ainsworth, Kaslo and Rossland. The Star extends an invitation to the Chamber to visit Princeton next year.

NOTICE.

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described land, situated in the Skagit valley, in the Yale division of Yale district and containing 320 acres: Commencing at the north-east corner of lot 368 thence north 40 chains, west 80 chains, south 40 chains, east 80 chains to point of commencement. For agricultural purposes.
7th July, 1906. F. W. GROVES.

NOTICE.

Sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 120 acres of land, more or less, and described as follows: Commencing at a post at the N.W. corner of R. J. Wynne's preemption and running east on his north line 60 chains thence north 20 chains, thence west 60 chains, thence south 20 chains along the east line of durr's preemption to point of commencement.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less. Entry may be made personally at the local land office for the district in which the land is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent receive authority for some one to make entry for him.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2 Entry must be made personally at the local land office for the district in which the land is situate.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2 000 pounds shall be collected on the gross output. W. W. CORY,

Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 320 acres, more or less, of pasture land situate in the Nicola division of Yale district and described as follows: Commencing at post marked John T. O'Neil's S.E. corner and running 80 chains north, 40 chains west, 80 chains south, 40 chains east to point of commencement.

JOHN T. O'NEIL.

August 16th, 1906.

TIMBER NOTICE.

Take notice that within two months I intend to apply to the Chief Commissioner of Lands and Works for a timber license on 640 acres of land situated on the Similkameen river between Friday creek and Saturday creek on the west bank of Similkameen river, Similkameen district, described as follows:

No. 1.—Commencing at a post on west bank of said river, marked Smith Curtis's Timber Claim, S.E. angle, thence west 80 chains, north 80 chains, east 80 chains to said river, south 80 chains to point of commencement
