MINES RESUME WORK

In the Boundary—Employees Return to Work at Lower Rate of Wages.

J. P. Graves, general manager of the Granby Consolidated, arrived in Grand Forks last week with the good news that his company would reopen their properties at once. This action was decided on presumably owing to the fact that the employees had decided to return to work on a lower scale of wages, the same as now prevails at R ssland and Butte and elsewhere. This voluntary action on the part of the men to return to work at a reduced wage is a wise one under the circumstances and will prevent a tie-up of the mining industry in the Boundary, which would have meant a great loss to the welfare of the country.

Walter G. Bangs arrived from Spokane Monday evening, accompanied by two timber cruiser, who will be engaged in looking over the timber limits held by H. Bangs and F. A. Kribs. Walter reports the financial situation in Spokan greatly relieved and says that the clearance house paper recently in general use are now being destroyed and cash is now being paid. Owing to the great number of idle men in that town, consequent upon the shutting down of the mines and logging camps and mills, a regular carnival of crime prevails, hold-up men operating in broad daylight, and to cope with the situation the civic authorities have added a large number of police o the force.

Board of Trade.

There was a large attendance at the Board of Tra le meeting on Thursday night last when the election of officers for the ensuing year took place. C. E. Thomas was elected president, W. G. Lyall vice-president, and R. Gordon secretary-treasurer. P. Swanson, J. Oswald Coulthard, J. M. Wright, C. Willerson, and A. Bell were elected as an executive committe. After the reading of the secretary-treasurer's report, which showed the Board to be in a flourishing condition financially, and a general discussion as to the most beneficial way in which to employ the funds, the meeting adjourned.

Medals Awarded.

The Royal Horticultural Society has awarded the Gold Medal to the British Columbia government exhibit of fruit. In addition to this, gold medals have been awarded to T. G. Earl, Lytton; Mrs. J. Smith, Spence s Bridge; J. R. Brown, Summerland, and the Nelson Fruit Growers' Association, and silver medals to Oscar Brown Shipping Co., Vernon; A. Unsworth, Chilliwack, and J. A. Ritchie, Summerland. Nine bronze medals were also awarded to British Columbian growers.

AN EXCELLENT IDEA

Comprehensive Mineral Exhibit for Display at Vancouver Advocated.

Vancouver, Nov. 25, 1907.

Hugh Hunter, Esq.,
Government Agent,
Princeton, B. C.

Dear Sir,—The Vancouver Tourist Association has taken in hand the project of collecting and displaying acomprehensive selection of mineral specimens from the various districts in British Columbia. As I have always taken a keen interest in the Nicola and Similkameen districts I have approached the Tourist Association in regard to the matter, and they are in full accord with me, and have requested me to write to various parties in the Similkameen asking for their co-operation. Now if you will have the kindness to bring this matter before the different parties interested in mineral claims in your district and have them forward specimens duly labelled, I will see that they are well placed in the dssplay now being prepared.

Thanking you in advance for any efforts you may make in this matter, and with assurances of my best co-operation, I am

Yours truly,
JOHN P. McCONNELL.

The above letter was handed to the Star by Mr. Hunter for publication. Mr. McConnell, who is editor of Saturday Sunset, is well known in the Similkameen and he never overlooks a chance to boost Princeton and vicinity. The idea of having a good mineral display from here in the Vancouver Tourist Association rooms is an excellent one, and is a matter that might profitably be taken up by the Board of Trade. The only difficulty in securing a display that would do the Similkameen justice at this time is the fact that the majority of the men who hold prospects that could produce good displays, are out of the hills for the winter. But there is no reason why the matter should not be taken up and as soon as possible arrange a comprehensive mineral display of the district not only placed in the Vancouver Tourist Association rooms, but also have one placed in the Chamber of Commerce at Spokane and as many other cities as possible. It would be time and money well spent.

Word was received in Princeton a few days ago of the death of Mrs. Gus Savage, at Bellingham, Wash. The deceased was well known here, having resided in Princeton a number of years. Her death was the result of injuries received by being thrown from a horse last spring.

SLUM LIFE IN CITIES

Graphically and Interestingly Described by Rev. J. Thurburn-Conn.

The lecture delivered by the Rev. J. Thurnburn-Conn, on Friday last, on "Slum and Prison Life in a Large City," proved to be full of interest and instruction, with a fair amount of humor running through it. The slums and their people were reviewed as well as the cause of such in our large cities. The method of dealing with the problem of slumdom as well as the means employed in helping on those who were willing to help rhemselves with better circumstances and purer lives, were discussed by the Rev. gentleman.

In dealing with the prison life, the lecturer pointed out that the trouble lay in a false view of life (taken by those he met in his work) and in the substitution of the other for God. The craze for unearned money and the evil results of intemperance every where are deep and cancerous, with fibers running strong and far in many directions. What is needed, he contended, was the holding up, without compromise, of a true standard of purity, honesty and uprightness with love, patience and Christlikeness running through private as well as public life. This view of life, this savior of lost humanity may be slow of foot, but it is sure to overtake the transgressor. Then and only then will honesty and right triumph and earth become like heaven and men like Christ. Several stories of the men and women met and helped into better lives were told and which proved how valuable is such work in our large cities.

There will be no lecture on the 20th. On Sunday, 22nd, Rev. J. Thurnburn-Conn will conduct a christmas service, when appropriate songs etc. All welcome.

"Bachelor Maids" Dance.

The dance given by Princeton's "bachelor maids," on last Wednesday evening, in the new school house, proved a most successful event, nearly everybody in the neighborhood being present With a well arranged programme, splendid floor, excellent music and a refreshing lunch, everyone went home at a late hour feeling that the "bachelor maids" had left nothing undone to make the event a pleasant one for all. The Misses Lyall, Popple, Rowan and others are to be congratulated on their excellent management of affairs, which was greatly appreciated by their "bachelor boy" tillicums.

The I. O. O. F., No. 52, of Princeton, will have an installation of officers and banquet on the evening of Jan. 6th.

V., V. & E. Construction

at Coast End Pushing Along Rapidly—Reform at Fernie.

The Bellingham Herald of Dec. 1st contains the follow item which is of interest to the people of the Similkameen: "This morning six dump cars, to be used on the Similkameen branch of the Hill lines, reached this city en route to Sumas. The line is being built to connect Cloverdale, which is already on the Great Northern, with the Spokane branch of the Hill line at Keremeos, B. C. The road will pass through Sumas and when completed will give the Northern Pacific outlets to the coast in Canada, at Guipon, Vancouver and New Westminster. It is said that practically all the grading has been done and that part of the tracks have been laid. A short time ago four small locomotives passed through this city to be used in the construction work. The work is being rushed and will probably be completed between Cloverdale and Sumas within a short time."

From the above it would appear that the coast end of the V.,V. & E. at least is being pushed.

LOCAL AND GENERAL.

Kit Summers returned on Monday from Keremeos with a load of apples.

J. M. Wright and Arthur Reith paid a visit to Keremeos this week.

The Dominion House of Parlament convened on the 28th of last month.

C. Calel-Carlson and Fred Wampole left yesterday for the hills for a few days hunting.

Mrs. W. H. Haegerman, who has been visiting her daughter at Phoenix, returned on today's stage.

Miss Ethel Thynne, who has been visiting friends in Princeton for several weeks, leaves for her at Otter Valley tomorrow.

Several sleigh loads of freight, for Princeton, are reported as being held up between Otter Flat and here for lack of sufficient snow.

Messrs. Sam Moore, Claud Snowden, Tink French and Dave Day returned today from a hunting trip at Stevenson's meadow's, where they have been for a few days. They report plenty of deer in that section, they having killed seven.

A moral wave has struck the town of Fernie and henceforth the slot machines will be relegated to the wood pile. For some time it has been felt by a goodly number of Fernie citizens that the town was being in a too wide open style and a campaign of reform was inaugurated. So the slot machine was tackled first and other alleged evils will be taken in hand later.

GETTING AT THE TRUTH.

The investigation that has been conducted in Vancouver by Mr. Mackenzie King has brought to light the true cause of the great influx of Japanese to British Columbia. That the Japanese did not come of their own accord in a natural sear h for work, but that they were systematically brought in under contract by large employers of labor, the two chief offenders being the Wellington Colliery Company and the C. P. R., has been proven beyond a doubt.

The Vancouver World, referring to the evidence proving that the Japanese did not come here of their own accord, says; "It has been shown, on the contrary, that a company on which the province has lavished almost fabulous gifts of valuable lands, a company which has at its head the Lieutenant-Governor, entered into contracts with a Japanese agency to supply men able to do all kinds of work about his collieries. The Orientals, as we have already pointed out, were to work at about h lf the wages of white men. More than that, it was part of the undertaking that in the event of a strike they should continue at work. It follows that had the Wellington Colliery Company been able to obtain enough Japanese miners, mine-laborers, carpenters, and machinists, they would have been in a position to demand a reduction of wages all along the line and to have continued to work their mines with the Asiatics until the white men were starved into submission. To what extent the possibility of trouble was foreseen, trouble which might almost be said to be in process of preparation, the ominous clause in the contract by which the company binds itself to supply protection for the Japanese workers in case of a strike clearly tells. Fortunately for the collieries of Vancouver Island the scheme fell through as it was found impossible to secure more than forty Japanese who would work in the mines. * * * It is unfortunate that in criticising the chief owner of the Wellington Colliery Company's mines we are also criticising the gentleman who occupies the post of Lieutenant-Governor. If, however, a man who has received so great an honor sees fit while still holding his high official position to traffic in coolie labor, to run counter to the wishes of the people of the province of which he is the head, he can hardly expect that the King's uniform will protect him." Proceeding the World says: "The time has come, we think, when the resignation of the Lieutenant-Governor should be required. He has demonstrated an incapacity almost incredible in a public man for taking a large view of a great question, for taking any other view but that of his own intereets. That it will be necessary to enact laws which will make just such proceedings as Mr. Dunsmuir's impossible in future is a sufficient reason for regarding his private interests as too much opposed to the public interest for him to continue any longer than can be helped in his present position. It is out of the question for a man who has been making secret arrangements to bring in Asiatic labor and preparing against the eventuality of a consequent strike among his present employees to remain Lieutenant-Governor of British Columbia."

Pain everywhere, pain in the head, painful periods, neuralgia, toothache, all pains can be promptly stopped by a thoroughly safe little pink candy tablet, known by druggists everywhere as Dr. Shoop's headache tablets. Pain simply means congestion—undue blood pressure at the point where pain exists. Dr. Shoop's headache tablets quickly equalize this unnatural blood pressure, and pain immediately departs. Write Dr Shoop, Racine, Wis., and get a free trial package. Large box 25 cts.

To check a cold quickly, get from your druggist some little candy cold tablets called Preventics. Druggists everywhere are now dispensing Preventics, for they are not only safe, but decidedly certain and prompt. Preventics contain no quinine, no laxative, nothing harsh nor sickening. Taken at the "sneeze stage" Preventics will prevent pneumonia, bronchitis, la grippe, etc. Hence the name, Preventics. Good for feverish children, 48 Preventics 25 cents. Trial boxes 5 cts. Sold by J. R. Campbell.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Public Building Lady-smith, B.C.," will be received at this office until Wednesday, December 11th, 1907, inclusively, for the construction of a Public Building at Ladysmith B.C.

Plans and specifications can be seen and forms of tender obtained at this Department and on application to the Postmaster at Ladysmith, B C

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the check will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,
FRED. GELINAS,
Secretary.
Department of Public Works,

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

THE CANADIAN PICTORIAL.

The November issue closes the second volume of this popular national monthly. It contains the usual delightful selection of pictures—many of them fine full-page ones—making up in all about one thousand square inches of illustrations and is exquisitely printed on fine coated paper. The Canadian Pictorial appeals to Canadians as the great illustrated papers of London appeal to the English people. The paper is non political and its sole aim is to please and to inform. Price ten cents a copy or one dollar a year. Published by the Pictorial Pub. Co., 142 St. Peter st., Montreal.
