THE COKE SHORTAGE

In the Boundary Being Investigated by Deputy Minister of Mines.

Smelters Forced to Close While Coke is Shipped Across Border—Coal is Also Short Article.

The closing down of the Boundary smelter lately, on account of the shortage of coke, has been the means of throwing hundreds of men out of work and tieing up the mining industry. The Provincial Government were prevailed upon to investigate the situation and Deputy Minister of Mines Tolmie was commissioned to report on the situation, which will be looked forward to with interest. It has been alleged that the Crow's Nest Coal Co. have openly violated the terms of their charter by shipping coke across the border, no less than 27,594 tons having gone into the United States during the current year up to August 15. This fact is shown by the customs returns.

The Phoenix Pioneer, however, denies this, and says: "Coast and Kootenay papers of late have been making much of the alleged exportation of coke to Montana, while the smelters of Kootenay and Boundary were suffering for lack of fuel. On the best of authority, however, the Pioneer can state that this is not a fact, but that the contrary is the case. Within the last month the only coke that has been sent to Montana from Fernie or Michel was a few cars, and only when the coke was piling up on the coke wharves at the collieries and had to be moved or the men laid off, simply because the C. P. R. for a time did not furnish the cars to move it. So that the statement that Montana smelters were getting coke, to the exclusion of those in British Columbia, is without foundation in fact.'

Ralph Smith, M P., will investigate the cause of the coal shortage in British Columbia and Alberta, with a view to placing the information so gathered before the Dominion House at its next session, when the matter will be discussed and if possible a remedy found.

When once the railway reaches Princeton and the immense coal deposits here are marketable the situation should be relieved to a large extent and ample coal obtained for fuel purposes at a moderate price. With coking coal at Granite Creek as well, the Similkameen only awaits transportation to supply these two such necessary articles to the maintenance of public comfort and enterprise.

L. McMullen returned home from Bear creek yesterday, where he has been engaged for a considerable time.

LABOR DAY.

The Labor Day sports at Hedley were pulled off on Monday and Tuesday successfully in the presence of a large crowd, Princeton being well represented. The big racing event of the day was won by Charlie Allison's speedy chestnut horse. The drilling contest was won by a team from the Mother Lode mine, Greenwood, with Messrs. Birch and Carlson, of Princeton, a close second.

The baseball match between Oroville and Hedley was won by the American team with a score of 17 to 6.

Those who were unable to go to Hedley spent the day hunting and fishing as their inclinations led them. Good sport is reported by both rod and gun.

LOCAL AND GENERAL.

A large party of British metallurgists and representatives of mining capitalists of the Old Country will visit British Columbia next summer, and should prove of advantage to this Province.

The annual meeting of the Dominion Copper Co. will be held in New York shortly when a dividend is looked for.

Northern advices state that parties representing Canadian Northern interests have approached the Tsimsean Indians for the sale of their reserve at Port Simpson. The Indians will hold out for one million dollars.

Thre survey parties are now at work on the projected C. P. R. extension from Kamloops to Edmonton via the North Thompson river.

Mrs. F. P. Cook left for Nicola last Thursday to nurse her sister in-law, Mrs. Woodward, who is seriously ill.

Messrs. L. A. Manley and A. Miller of Grand Forks, paid Princeton a short visit last week.

Mr. Cox and family left yesterday for the State of Maine from whence they came about a year ago, and expects to remain there, if the charms of the sulubrious Similkameen climate don't entice them back to Princeton.

LARGE STEEL WORKS FOR B. C.

Extensive iron and steel works, roller mills, tin plate works, iron pipe and general casting foundries, machine shops, tube works, bar mills, ship plate mills, steel rail mills, steel car shops and a dry dock of large dimensions are to be erected in British Columbia. These great plants will be built on the mainland coast at a site to be selected within a short distance of Vancouver. Financial interests in London, Manchester and this Province are at present engaged in the flotation of the North Pacific Iron and Steel Corporation, an organization to be capitalized at $15,000,000 to launch the enormous undertakings which the promoters have in view.

MIDWAY & VERNON

Railroad Likely to be Built in Near Future==Money in Sight for Work.

Canadian Pacific Railway will Build Through the Similkameen to Connect at Penticton.

It now seems probable that the Midway & Vernon railway, work on which was stopped some two years ago, after about ten miles of grading had been done on the line west of Midway, will be resurrected, under the patronage of the C. P. R. The facts relating to the "knocking" of this road by the McBride Government, and the consequent hardships wrought on contractors, labors, and merchants not being able to get their money and the announcement now that the road will be built, indirectly for the C. P. R., comes as no surprise to those who are familiar with the history of the Midway & Vernon.

The building of this road means more to the Similkameen then might appear on the face of it. It is evidently the intention of the C. P. R. to connect at Penticton with their line at Nicola, necessitating building through the Similkameen and the subsequent placing of this route on the main line. But to successfully compete with the Great Northern's projected line to the coast, they will have to find a much shorter route than by way of Nicola and Spence's Bridge, and over the Hope summit seems to be the only alternative. So in the course of a few years the C P R., as well as the Great Northern, may make the Hope mountains resound with the sound of the passing train.

This all tends to the advantage of the Similkameen in opening up her great mineral, timber and other resources, and Princeton, from her advantageous situation—right in the heart of the coal and copper belt, not to mention her suitable location as a distributing point—should be the chief centre of commercial activity in the great and rich Similkameen valley.

V. V. & E. PROGRESS.

Reports from Keremeos state that active preparations are being made at that point for construction on the V., V. & E. to Hedley. The Great Northern people have evidently decided to give relief to the people of the Similkameen and will proceed with the work to Princeton as fast as circumstances will permit. The work will be necessarily slow owing to the difficulty in securing labor at present, but when the harvest season is over this phase of the question will be considerably relieved. At any rate it is now an assured fact that the road will be here within the year, and that is something to be thankful for.

EAGLE CREEK NEWS.

W. J. Kirkpatrick returned to Princeton last week from a trip to Eagle Creek, where he is interested in several likely mineral claims. Although no extensive development work has been done on them, the 20-foot shaft on the Red Eagle is in good ore all the way and the work done on the Boss, Overseer and Monumental shows them to be in the same ore body, all four running high in copper with a tracing of gold.

Eagle creek is about 26 miles from Princeton and is situated between Bear and Champion creeks. The value of the Bear properties has already been established in Law's camp and the Swede group, and the ore body on Eagle creek is undoubtedly a continuation of the reef touched at Bear creek, and from showings made at Champion creek it continues to that point, Mr. Kirkpatrick stating it can be traced for a distance of twelve miles. On Champion creek Dan Coutenay and others have opened up some fine showings and in this camp platinum has also be found.

Mr. Kirkpatrick says almost every foot of the ground on these creeks have been staked and the holders are more than satisfied that great things are in store for this locality. Capital alone is needed, and if deals now pending pan out, it will not be long before plenty of money will be found ready to invest in this section.

SUDDEN DEATH OF CHINAMAM.

Goon Yung, a Chinese resident of the Similkameen for the last 20 years, most of which time was spent in the vicinity of Princeton, departed this life on Wednesday evening last in a rather sudden manner. He had not been feeling well of late, when he sat he sat down to partake of his evening meal he gave no outward signs of an early dissolution. But before the meal was half finished the hand of death touched him and Goon fell to the floor a lifeless form. His Celestial companions were greatly startled over the occurrence, but managed to remain and perform the necessary functions in cases of this kind. The body was interred on Saturday in the newly plotted cemetery, with all the ceremony attending the last sad rides of a son of the Flowery Kingdom.

Miss Laura Irwin, of Kamloops, is visiting her brother Bert here for a few weeks, resting from her arduous musical studies at the Toronto Conservatory of Music, from where she expects to graduate with honors this winter.

The yearly immigration into Canada has passed the quarter million mark. In seven years it has increased 1,000 per cent. The total immigration for the 12 months ending June 30th, 1907, reached 252,038,

THE CROW'S NEST SUBSIDY.

The Nelson News takes its local contemporary to task in a late issue for missrepresentation of facts (a trick common to Tory papers) in connection with the bargain made by the Dominion Government with the C. P. R. for the construction of the Crow's Nest branch, a bargain that has proved one of the best, in the interests of the public, that has ever been made between the Dominion and any railroad company.

The News says: "It is true that there was a subsidy of $11,000 per mile, but what the Conservative organ omits to mention is that a part of the bargain was that the C. P. R. should grant a substantial reduction in freight rates, ingoing and outgoing, reductions which in oneyear alone saved to the farmers a sum of $700,000.

"In the eight or nine years this road has been in operation the saving to the farmers has far exceeded the total amount of the subsidy given the C. P. R. As everyone knows, the original charter granted the C.P.R. by a Conservative Government precluded the possibility of any reduction in freight rates by the Government. The Liberal Govmernment took advantage of the opportunity arising in connection with this Crow's Nest transaction to secure reductions in freight rates that have meant very material gains to Western farmers. Further, it was part of the contract that the C. P. R. should turn over 50,000 acres of coal land in the neighborhood of the Crow's Nest Pass—one-fifth of a grant made by a Conservative-controlled British Columbia Government to certain individuals, without practical condition or consideration of any kind. The object in securing these lands was in a measure to safeguard the interests of the people of British Columbia in the matter of the price of coal. It is a provision of the Crow's Nest railway charter that the coal from such lands shall be disposed of at a price not to exceed $2 per ton f.o.b. at the mines. Moreover, the Dominion Government secured control and supervision of rates ovor the new road, and can grant running powers over it to other railways—a control that the Dominion Government heretofore did not exercise over any portion of the C.P.R. We are free to confess that the whole business of the alienation of the Crow's Nest coal lands is a nasty chapter in the history of British Columbia, but the Dominion Liberal Government had no more to do with that piece of dispoliation than did R. L. Borden. It was a transaction perpetrated by those loyal blue Tories Messrs. Turner, Baker, G. B. Martin, Eberts, et al, in the good old days when it was the common practice to give away the provincial assets to favored friends of the party in power.

"So far as British Columbia is concerned, the Province should have nothing but gratitude to the Dominion Liberal Government for the course it pursued in connection with the Crow's Nest subsidy. It recovered some 50,000 acres of very valuable coal lands for the public use, secured control and very considerable reduction in freight rates for the benefit of the farmers, as well as running rights over the new line. The Province has immensely benefitted by the construction of the road, which was hastened by the prompt and business-like course pursued by the Dominion Government."

NOTES AND COMMENTS.

When the editor of a paper seeks to squirm out of a hole by resorting to personal attacks on a brother scribe he at once stamps himself a contemptible cur. Probably the name that fits him best of all is the one enjoyed by that little animal whose traits he so aptly emulates.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Billousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

Lax-ets
Sold by J. R. CAMPBELL.

When

we say we have the best facilities in the Similkameen for keeping meat fresh and cool during the warm weather we are making no idle boast. We have installed up-to-date cold storage arrangements for the benefit of the public, and there is no necessity of cutting off your meat diet for fear that it is not properly kept. We want your business and trust us for the rest.

I will mail you free, to prove merit samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, the Heart or the Kidneys. Troubles of the Stomach Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—the inside nerves—mean stomach weakness, always. And the heart, and kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's restorative has made its fame. No other remedy ever claims to treat the "inside nerves." Also for bloating, billiousness, bad breath or complexion, use Dr. Shoop's restorative. Write me to day for sample and free book. Dr. Shoop, Racine, Wis. The restorative is sold by J. R. Campbell.

Free, for Catarrh, just to preov merit, a trial size box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow-white, creamy, healing, antiseptic balm. Containing such healing ingredients as Oil Eucaliptus, Thymol, Menthol, etc., it gives instant and lasting relief to catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by J. R. Campbell.

SMILES.

Johann—You nearly got engaged while you were on your tour in the mountains, I hear. Michel—Precious near. But fortunately, just at the last moment, I fell down a precipice

"How do you define the phrase 'as black as your hat'?" a father asked his son, as the latter had just used the expression. "Well," replied the yonth, "I should define it as darkness that might be felt."

Gobang — I understand he is looking for a wife. Newlywed—Thunderation! Whose?

Sappy — She has the prettiest mouth in the world. Chappy—Oh, I don't know. I'd put mine up against it.

Surly Strong—Gimme a nickel, missus? Missus—I should think a big, strong man like you would be ashamed to ask for money. Surly Strong—I am, missus, but I ain't got der nerve to take it without askin'.

The Secret of
A BEAUTIFUL COMPLEXION
now revealed

FREE

What beauty is more desirable than an exquisite complexion and elegant jewels. **An opportunity for every woman to obtain both,** for a limited time only.

The directions and recipe for obtaining a faultless complexion is the secret long guarded by the master minds of the ORIENTALS and GREEKS.

This was obtained after years of work and at great expense. It is the method used by the fairest and most beautiful women of Europe.

Hundreds of American women who now use it have expressed their delight and satisfaction.

This secret is easily understood and simple to follow and it will save you the expense of creams, cosmetics, bleaches and forever give you a beautiful complexion and free your skin from pimples, bad color, blackheads, etc. It alone is worth to you many times the price we ask you to send for the genuine diamond ring of latest design.

We sell you this ring as one small profit above manufacturing cost. The price is less than one half what others charge. The recipe is free with every ring

It is a genuine rose cut diamond ring of sparkling brilliancy absolutely guaranteed, very dainty, shaped like a Belcher with Tiffany setting of 12Kt. gold shell at your local jeweler it would cost considerable more than $2.00.

We mail you this beautiful complexion recipe free when your order is received for ring and $2.00 in money order, stamps or bills. Get your order in before our supply is exhausted.

This offer is made for a limited time only as a means of advertising and introducing our goods.

Send today before this opportunity is forgotten.

T. C. MOSELEY
32 East 23rd Street, New York City

FREE To women for collecting names and selling our novelties, we give BIG PREMIUMS, send your name today for our new plan of BIG PROFITS with little work. Write today. Address C. T. MOSELEY, Premium department. 32E. 23rd Street, New York City.

Synopsis of Canadian Northwest Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months residence upon and cultivation of the land in each year for three years.

2 If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

NOTICE.

Notice is hereby given that sixty days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works for permission to purchase the following described land, situated in the Yale division of Yale district:

Commencing at a post planted at the N.W. cor. of Lot 395 thence west 40 chains; thence south 40 chains; thence east 40 chains; thence north 40 chains to point of commencement, and containing 80 acres, more or less.

D. VON CRAMER.
