INTERVIEWED IN THE 'PEN.'

Bill Miner, Alias 'Edwards' takes Life Easy and Increases Weight.

Bill Miner, alias George Edwards, who was widely known in this section and had entree to Princeton's best society, was recently visited by Sergt. Wilson, N.W.M.P., at the "pen," New Westminster. The Sergt., it will be recollected, overhauled Bill and his pals in an attempt to escape after their train robbery at Ducks, on the C.P R. about a year ago. The old bandit said he was well treated and that all outside engagements were cancelled for the present.

The old fellow is employed in the prison brickyard, which seems to agree with him, as his "corporosity," and consequently his shadow, are increasing while the beautiful summer days go by. With that chivalry and lack of revenge which always characterized him he presented his capturer with his fine Luger rifle and wrote an order therefor to an old friend in Okanagan. "Guess I will sign this 'Edwards'," said Miner as he wrote the order. With all his faults Bill was polite and courteous and never was known to descend to petty larceny. He played for big game and would scorn to be classed with the 5 cent short change artist. No doubt Bill has repented of his many train robberies, his next holdup will probably be the ferry across the river Styx. So long, old man.

"Shorty" Dunn, who was also given a life sentence, did not greet the officer so cordially, but was sullen and morose. Colquhoun, the last of the trio of robbers seen by the Sergeant, is a 20 year man and will have a trade when he exits.

LOCAL AND GENERAL.

Messrs N. Bangs, C. O. French, and A. McAbee arrived in from Spokane on Saturday evening. The extreme heat and somewhat tiresome stage journey from Oroville to Keremeos had the effect of temporarily indisposing Mr. Bangs and necessitated a short lay-over at the latter place. Although greatly improved it will be several days before Mr. Bangs will be enjoying his usual vigorous health.

Luke Gibson has rented his ranch to Mr. Sibley, lately from Maine. Luke will spend the most of his time looking after his mining interests.

Wm. Brown, of Rock Creek, passed through town last week on his way home from Champion Creek, where he has been doing assessment work on his claims there. Mr. Brown predicts great things for that camp.

There will be a grand pool tournament in the Princeton pool and billiard rooms, commencing on Monday evening next, when lovers of the cue will contest for a handsome meerschaum pipe donated by the proprietors.

Great Northenn R'y. Magnates

Visit Princeton in an Automobile----President Hill Greatly Impressed with the Country===To Reach This Point by Next Year.

Louis W. Hill, president of the Great Northern Railway, accompanied by Chief Engineer Hogeland, visited Princeton yesterday afternoon, making the run from Keremeos, to which place they arrived by special train, in an automobile.

When word came over the wire from Hedley that the Great Northern president had arrived there and was on his way here in an auto, no little excitement was caused, as it was felt that something important and definite would be learned with regard to railway construction to Princeton, and whether or not it was the intention to proceed with it this fall. Shortly after four o'clock the party arrived, the familiar chug-chug of the motor car sounding good to the ears of those who had deserted civilization for the simpler life in Princeton. The railway magnates at once proceeded to the office of the Vermillion Forks Co., where they were taken in hand by the resident manager, Mr. E. Waterman, and no time was lost in proceeding to the coal mine under development by the townsite company. After a brief inspection of the mine the party returned to town and pulled up at the Star office.

In conversation with the Star representative Mr. Hill stated he was making a tour of inspection of his company's operations in this part of the country, a trip he had planned to make at any earlier date, but owing to press of business he had found impossible to accomplish sooner. Asked as to his impressions of the Similkameen on this his first visit, Mr. Hill said he was surprised and pleased beyond expression at what he had seen, and although he had gained a fair knowledge of the country through the columns of the Star, of which he was a constant reader, he had now no hesitation in saying that the Star was really too modest in its praise of the country.

On being asked the intentions of the railway company respecting construction to Princeton, he stated that at present it was difficult to say what would be done on this part of the road. The great difficulty they had to contend with was the scarcity of labor and at present it was impossible to secure men enough to meet the demands along the main lines. The recent law suit his road had had with the Harriman people had been the means of tieing their hands and caused the money market to tighten up, preventing the necessary funds being secured for expansion otherwise than what was absolutely necessary. Had it not been for this and the opposition that had to be contended with from the C. P. R., the road would now be in Princeton.

Wishing to get a definite answer respecting work from Keremeos to Princeton this fall, the question was put to Mr Hill straight, to which he replied in a perfectly candid manner that we need not look for it this year. He further stated though that the rails would undoubtedly be here within a year.

Mr. Hill was asked the truth of the report that Jay P. Graves had bought up a large block of Crow's Nest coal stock, allying his holdings with the Hill interests, thereby securing control of the company, to which he laughingly replied that Graves was talking hot air, and was evidently trying to benefit his credit.

It now being 5 o'clock Mr. Hill touched the lever of his flyer and the first auto to grace the streets of Princeton was on its way to Hedley. The distinguished party remained there over night, proceeding to Keremeos this morning, where the train was boarded and a start for Vancouver was made, where Mr. Hill goes to inspect operations at that end.

The Hon. Edward Dewdney arrived in Princeton last Wednesday on a short visit. Despite his advanced years Mr. Dewdney is as active as a man in the prime of life. It is his intention to visit the Old Country in the fall. Mr. Dewdney was accompanied in by his neice, Miss Elfrida Allison, who is on a visit to her mother.

C. C. Tilley, manager of the Pearless Hotel, Oroville, and H. W. Harris, of Loomis, Wash., were visitors to Princeton last week on a pleasure and business trip.

K. G. Hankinson, private secretary to J. H. Kennedy, accompanied by Geo. Masser and A. Logan, business men of Grand Forks, drove up to Princeton on Sunday on a pleasure and business visit. They made a record trip, having left Grand Forks on Saturday afternoon at 5 o'clock. They returned home Tuesday morning well pleased with their outing.

SUNDAY SCHOOL PICNIC.

Very Pleasant and Enjoyable Time—Library Needs Donations

The Sunday School picnic yesterday, from the view points of weather, program, grounds and refreshments, was an unqualified success. Sports witnessed by, perhaps, an undemonstrative crowd, were nevertheless, interesting and varied and drew out the muscular abilities of keen competitors. Most noticeable were the achievements of Rhea Murdoch and Ruby McMullen in athletics, while the ladies, all strong runners, have reason to feel proud of the sprinting of Mrs. Godsoe and Mrs. Groves, to whom the race of the swift went. Swings and music were freely enjoyed and left not a moment of unfilled pleasure. The children, the flowers that strew life's pathway, entered into the spirit of the occasion with much zest and happy abandon. Expression of hearty thanks by the Sunday School authorities is extended to all who contributed by their presence and delicacies to the success of the occasion, also to those merchants who generously gave prizes and largely reduced prices. The Sunday School library, it is hoped, will be augmented by the attention directed to it now, an appeal to the public for support, and contributions of good literature, being solicited. A. Murchie, photographer, and winner of the men s race, took a snap of the large crowd at tea and has views on sale.

MINING NOTES.

H. H. Claudet, of the firm of Claudet & Wynne, Princeton and Rossland, has recently installed an Elmore plant at the Giant mine near Spillamacheen landing. The plant is of 40 tons capacity with crushers and ball mills.

The Guggenheims are having all kinds of trouble in Alaska over a question of right-of-way, and a short time ago a fatal conflict took place between their men and those of the Bruner party, who claim the right-of-way over which the Guggenheims are endeavoring to lay track. Armed men have been stationed at the points commanding the disputed ground and wholesale bloodshed promises unless the authorities take a hand in the matter.

J. W. Cook and Arthur W. Jenks, of Portland, Or., who have been looking over E. F. Voigt's property on Copper mountain, left for home Tuesday afternoon.

The annual report of the Minister of Mines for the year ending Dec. 31st, 1906, has just been received. It is full of valuable information and is beautifully illustrated, reflecting much credit on the government printing bureau.

The following new wage scale has been put into effect in the Rossland mining district: Miners, $4 per day, shovelers $3.25, timbermen $4, shaft men $4.50.

WILL COPPER PRICES GO DOWN

Consumers and producers alike have had unusual interest of late in the probable prices of metallic copper for the last half of 1907. For a month or so past comparatively little copper has been sold to the large consumers, they having placed orders earlier in the year for their needs up to midsummer. With the general shrinkage in securities of all kinds that has been prevalent since March, when the New York stock market went to pieces, there has been a feeling among large consumers of copper that the high prices prevailing for the metal should come down a little, and they have been gradually shading off from 25 and 26 cents per pound to 22 and 23 cents. The metal selling agencies, however, point to the fact that copper production is not keeping up with consumption, and, therefore, there can be no great cut in the prices of the red metal for the present. As there was no considerable demand for the metal for immediate use, the market has been sluggish.

Now, however, some of the big consumers must soon come into the market and get copper for whatever it will cost, to fill contracts they have on hand, and it will be known before long which way the market will go. It is interesting to note, in this connection, that all of the dividend paying copper producers have been holding large cash reserves, and if copper stays at or around 20 cents per pound, to say nothing of a higher figure, they will keep up the present dividend rate, with a continued healthy cash reserve. In other words, double the dividends could have been paid that were actually distributed. Though copper may sag, there is reason to think that it will continue at a satisfactory price for some time to come.—Ex.

NOTES AND COMMENTS.

If the Hon. Mr. McBride wishes to retain the advantage he gained in London for the Province he will cease to exhibit himself as a politician of a purely partizan type. It is as the Premier of British Columbia, the representative of a Province which includes men of all views and parties, that he is passing through Canada and in that capacity it is in his power to make plain to the east the position of this Province on the better terms question. It is most unfortunate that he has chosen instead to make himself slightly ridiculous and to identify himself in the eastern mind, not with the results of his mission to London, but with utterances on the political situation which betray ignorance of, or, blindness to, the cold facts of Conservative disorganization.—World.

The great Conservative party in the Dominion are evidently in a badly disorgauized condition, if one is to judge by the various articles appearing in Tory newspapers. The present leader of the party, R L. Bordon, is not looked upon as a sufficienty strong man to lead the shattered Conservative forces to victory and there is a movement on foot to displace him. The great and only George Eulseless Foster, who figured so prominently some time ago in an unsavory way before the insurence commission in the east, has a great longing to pose as Premier of Canada, and he can be trusted to knife Bordon if he found it to his advantage to do so. Mention is made of the Hon. F. W. G. Haultain, ex-Premier of Saskatchewan, as possessing the requisite qalifications for leadership, and last but not least, our own Premier McBride is also mentioned in this connection. The Conservative party are groaning under the restraints of prolonged opposition and are becoming desperate for another opportunity to enrich themselves and friends from the public treasury. Not that it is of any moment who is chosen as leader, it will be interesting to note the outcome of this agitation for a more vigorous man to lead the great Conservative party on to victory, or rather defeat, at the not far distant Dominion elections.

Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for Piles, and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars 50 cents. Sold by J. R. Campbell.

I'll stop your pain free. To show you first—before you spend a penny—what my Pink Pain Tablets can do, I will mail you free, a trial package of them—Dr. Shoop's Headache Tablets, Neuralgia, Headache, Toothache, Period pains, etc., are due alone to blood congestion. Dr. Shoop's Headache Tablets simply kill pain by coaxing away the unnatural blood pressure. That is all. Address Dr. Shoop, Racine, Wis. Sold by J. R. Campbell.

Free, for Catarrh, just to prove merit, a trial size box of Dr. Shoop's Catarrh Remedy. Let me send it now. It is a snow-white, creamy, healing, antiseptic balm. Containing such healing ingredients as Oil Eucaliptus, Thymol, Menthol, etc., it gives instant and lasting relief to catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by J. R. Campbell.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

SCHOOL REPORT FOR 1906-7.

The annual meeting of the Princeton school board was held in the school room on Saturday morning at 11 a. m., with E. Waterman in the chair. It is to be regretted that the public do not take a more lively interest in school affairs and show it by their presence at these meetings. As it was only four turned up. The first business to be taken was the appointment of a trustee to fill the vacancy caused by the expiration of Hugh Hunter's term of office and W. C. McDougall was unanimously chosen for that office.

The question of salary to be paid to the teacher came up and it was decided to offer $75 per month for the coming term. The present teacher having resigned the secretary was authorized to advertise for a new one without delay at the above figure.

It was agreed, if the necessary money can be borrowed at a reasonable rate of interest, to accept the offer of E. Waterman's for the sale of three lots adjoining the present school house for the sum of $500, and to call for tenders for the purchase of debentures to pay for same, the debentures to run for a period of ten years and to be redeemable at any time.

An assessment of $474 will have to be levied on the school district to meet current expenses and teacher's salary.

The secretary's report for the year ending 30 h June, 1907, was read as follows:

The last year has shown a considerable increase in the number of children in the Princeton school district, there being now being 42 children of school age and 33 under age. The attendance last month was 32, showing an increase over June, 1906, of seven or 28 per cent. increase in attendance. The average attendance for the year was 23 1, showing an increase of 37 2 per cent over the average daily attendance for the previous year.

As you are all aware the old school house, having become too small to accommodate the children attending school, the Governmont gave the trustees the use of the court room in the Government building as a temporary school room, where school has been held since last fall. The Government, through the Lands and Works Department, have called for tenders for a two-roomed school building with accommodation for 80 children, which is to be erected this fall. It was suggested to your trustees that the new school house should not be erected on the present school property, but on one of the benches above Vermillion avenue, and that an exchange of property might be made with the townsite company. Owing to the lack of water on these benches your trustees did not deem it advisable to take any action in the matter.

Your attention is called to the lack of a play ground adjoining the present school site, which is only sufficient to accommodate the school buildings, and the need of procuring more land for a play ground. Your trustees would suggest that you purchase for this purpose the three lots behind the present school site, viz, lots 27, 28, and 29, block 24. The price of these lots would be $200 each or $600.

The following maps are needed for the school: Map of Europe, Asia, Africa, North America South America, Australasia, British Empire, and British Isles. Price $6 50 each; Atlas of Canada and the world, blackboard set, numeral frame, set of surface forms, set of geometrical solids, total $64.

Miss Schon having resigned her position as teacher, it will be necessary to procure a new teacher. Your trustees recommend that the teacher to be appointed hold a first class teacher's certificate, be a graduate of a Normal school, and be an experienced teacher, capable of teaching a high school class. To obtain a teacher with these qualifications it will be necessary to pay a higher salary.

Mrs. W. H. Holmes, of Granite, who was taken down a few days ago with pneumonia, is progressing favorably.

W. S Wilson will shortly commence the construction of a cottage on his property at Billiter avenue and Lime street.

A return baseball matched with Tulameen will be played at the latter place on the 28th inst.

Free samples of "Preventics" and a booklet on colds will be gladly mailed you, on request, by Dr. Shoop, Racine, Wis., simply to prove merit. Preventics are little candy cold cure tablets. No quinine, no laxative, nothing harmful whatever. Preventics prevent colds—as the name implies—when taken early, or at the "sneeze stage." For a seated cold or la grippe, break it up safely and quickly with preventics. Sold by J. R. Campbell.

When in Vernon stay at the Coldstream Hotel, opposite railway station. First class service, rates moderate.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, the Heart or the Kidneys. Troubles of the Stomach Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—the inside nerves—mean stomach weakness, always. And the heart, and kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs Here is where Dr. Shoop's restorative has made its fame. No other remedy ever claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's restorative Write me to day for sample and free book Dr. Shoop, Racine, Wis. The restorative is sold by J. R. Campbell.

A special prize of a bottle of fine perfume, donated by J. R. Campbell, druggist, was won at the S. S. picnic by Miss Marie Murdoch in girl's race.

It is reported in Spokane that J. P Graves, president of the Inland Empire system and the Granby Smelter Company at Grand Forks, B. C., has bought heavily of the Crow's Nest Pass Coal Co. stock, and has allied his holdings with those of J. J. Hill, securing control of the company.

The board of railway commissioners have issued an order approving the new Canadian freight classification, to become effective not later than Septsmber next. Some 240 commodities, which have hitherto been carried at owners risk, will hereafter be carried at the risk of railway companies, without any advances in rating.

Mrs. Luke Gibson left for Hope last Thursday where she will visit her sister.

The ore output in Cobalt, Ontario, this year will amount to $15,000,000.

Ore shipments from the Boundary district for the week ending June 22nd were 32,080 tons, an increase of over 4,000 tons as compared with the preceding week.

The Sullivan Group Mining Co. in East Kootenay smelted 2,478 tons during the month of May valued at $46 482. Two hundred men are employed in the mine and mill. For the nine months ending June 1st this smelter produced $345,896.

Jake Terry, the most notorious desperado in the northwest, was shot and killed at noon of July 5th at Sumas, by Gus Lindsey, while about entering the bedroom of Mrs Lindsey, who was formerly his wife. The Sumas police claim Lindsey did perfectly right and fifty thousand dollars bail will be furnished rather than allow the man to be sent to jail. Terry was prominent in the Bill Miner chase, after the first C. P. R. train robbery, and for years has been hand in glove with desperadoes on both sides of the line.

TIMBER NOTICES.

Notice is hereby given that one month after we intend to make application to the Hon the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situated in Yale District of British Columbia:

21. Commencing at the south-east cor. of timber limit No. 1 of D. J. Bangs and C. O. French, located April 10th, 1907, running 80 chains west; 80 chains south; 80 chains east; 80 chains north, to point of commencement, in all 640 acres.
Dated June 17 1007.

22 Commencing at the north east cor. of timber limit No. 21, thence east 80 chains; south 80 chains; west 80 chains; north 80 chains, to point of commencement, in all 640 acres.
Dated June 17, 1007.

23. Commencing on the south line of timber limit No 53 running 160 chains west; 40 chains south; 160 chains east; 40 chains north, to point of commencement, in all 640 acres.

24. Commencing on the west line of timber limit No. 23 thence west 80 chains; south 80 chains; east 80 chains; north 80 chains, to point of commencement in all 640 acres.
Dated June 17, 1007.

25. Commencing on the north line of timber limit No. 24 thence north 80 chains: west 80 chains; south 80 chains; east 80 chains, to point of commencement, in all 640 acres.
Dated June 17 1907

26 Commencing on the north line of timber limit No. 25, thence north 80 chains; east 80 chains; south 80 chains; west 80 chains, to point of commencement, in all 640 acres.
Dated June 17, 1007.

27. Commencing at the north east cor. of timber limit No 1 located April 10, 1007, by D. J. Bangs and C. O. French, thence north 80 chains; west 80 chains; south 80 chains; east 80 chains to point of commencement, in all 640 acres
Dated July 18 1907

28 Commencing at the south east cor. of timber limit No 27, thence 80 chains east; 80 chains south; 80 chains west; 80 chains north, to point of commencement, in all 640 acres.
Dated June 18 1907

29 Commencing 40 chains west of the west line of timber limit No. 26, thence north 80 chains; west 80 chains; south 80 chains; east 80 chains, to point of commencement in all 640 acres.
Dated June 18 1907.

30 Commencing on the west line of timber limit No 29, thence 80 chains south; 80 chains west; 80 chains north; 80 chains east, to point of commencement, in all 640 acres
Dated June 18, 1907.

31. Commencing on the west line of timber limit No 24, thence west 80 chains; south 80 chains; east 80 chains; north 80 chains, to point of commencement, in all 640 acres.
Dated June 8, 1907.

32 Commencing on the east line of timber limit No. 23 running east 80 chains; north 80 chains; west 80 chains; south 80 chains, to point of commencement, in all 640 acres.
Dated June 17, 1907.

Synopsis of Canadian Northwest Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' residence upon and cultivation of the land in each year for three years.

2 If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.
